Using the Catalog

This publication contains information about admission, costs, financial aid, housing, academic programs and requirements, and student services and activities of Illinois State University. The importance of some of this information will vary from student to student; **however, the sections on admissions, costs, and academic policies apply to all students and should be read carefully.**

All students are urged to review the entire Catalog carefully to gain an overview of the opportunities offered by the University, as well as the University's expectations of students. For specific information about particular concerns, students should consult either the Table of Contents or the Index.

A wide variety of undergraduate programs (majors and minors) in more than 50 separate fields of study are described. Students should consult the appropriate departmental section of the Catalog for a description of the requirements for each of these programs and the academic policies section for the general requirements for graduation. **Students in teacher education programs should pay particular attention to the section devoted to University Wide Teacher Education Program Requirements.**

Undergraduate courses offered by the 32 departments of the University are also described in this Catalog. Students should consult the *Class Registration Directory* published each semester for specific information about courses to be offered that semester.

Illinois State University is an Equal Opportunity/Affirmative Action institution in accordance with Civil Rights legislation and does not discriminate on the basis of race, religion, national origin, sex, age, handicap, or other factor as prohibited by law in any of its educational programs, activities, admissions, or employment policies. Concerns regarding this policy should be referred to the Affirmative Action Office, Illinois State University, Normal, Illinois 61761, phone 309/438-7657. The Title IX Coordinator and the 504 Coordinator may be reached at the same address.

Confidentiality of Student Records

In accordance with the Family Educational Rights and Privacy Act of 1974, Illinois State University students have the right to review, inspect, and challenge the accuracy of information kept in a cumulative file by the institution unless the student waives this right in writing. It also insures that records cannot be released in other than emergency situations without the written consent of the student except in the following situations:

A. to other school officials, including faculty within the educational institution or local educational agency who have legitimate educational interests;

B. to officials of other schools or school systems in which the student intends to enroll, upon condition that the student be notified of the transfer, receives a copy of the record if desired, and has an opportunity for a hearing to challenge the content of the record;

C. to authorized representatives of 1) the Comptroller General of the United States, 2) the Secretary, 3) an administrative head of any educational agency, or 4) State educational authorities;

D. in connection with the student's application for, and receipt of, financial aid;

E. where the information is classified as directory information. The following categories

of information have been designated by the University as directory information: name, address, telephone number, major, class, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. If you do not wish such information released without your consent, you should notify the Office of Admissions and Records prior to the first day of classes.

Questions concerning this law and the University's policy concerning release of student information and the procedures for contesting the content of cumulative files may be directed to the Office of Admissions and Records, Hovey Hall 201, (309)438-2181.

Illinois State University is the first public institution of higher education established in the State of Illinois. It is a multiple purpose university with more than 20,000 students, located in the medium-sized urban area of Normal-Bloomington. The University's primary mission is to provide the best undergraduate academic programs available in public institutions of higher education in Illinois. The University's curriculum, emphasizing excellence of instruction, is complemented by strong graduate programs, faculty research, and community service activities.

The University seeks to provide an atmosphere in which an excellent faculty interacts with capable students in and outside the classroom to produce educated citizens. In addition, the University recognizes that knowledge occurs not only in classrooms, laboratories, and libraries, but also in living units and in a rich profusion of social, recreational, and artistic activities that are provided for the students, faculty, staff, and community.

Campus: The tree-shaded campus of Illinois State University, covering 850 acres in Normal, is a study of varying architecture, ranging from the castle-like appearance of Cook Hall to the modernistic dominance of the 28-story twin Watterson Towers residence halls. Major classroom buildings are centrally located and are surrounded by the library and recreational, social, and residence structures. Most facilities are accessible to the handicapped.

The library building, completed in 1976, provides shelving for 1.8 million individual items and study space for 2,700 students. Each of the six floors of the library provides a variety of study areas—individual carrels, small tables, conference rooms, and lounge chairs—all located adjacent to books, periodicals, and other library materials.

The collections of the University Library include 1,001,945 cataloged books and 332,270 U.S. Government publications, a total of 1,334,115 volumes. Several thousand additional publications are available in miniature in 58,750 reels of microfilm and 1,382,950 microcards, microfiche, and sheets of microprint. The Map Collection contains 413,500 cartographic items. A record collection of 21,800 recordings is available. In addition, the library's membership in the Center for Research Libraries makes the resources of that 3,000,000-volume collection available to the faculty and students. The library also provides access to other libraries throughout the country and in Illinois through OCLC, the Illinois Library Network, and the Illinois LCS organization. Other University facilities include an 18-hole University golf course, a 350-acre University farm, recreational fields, and other open areas for student and public use. Illinois State also offers the community a 3,500-seat auditorium, a student center, and a recreation facility for bowling and other activities. Inter-collegiate and intramural sports are frequently scheduled in the 7,700-seat Horton Field House and in Hancock Stadium, which has an all-weather playing surface.

Residence structures include high-rise buildings of 28, 18, 12 and 10-story heights, as well as more traditional halls of only a few stories. There are also student apartments at Cardinal Court and 300 Shelbourne Drive.

Collegiate Organization: Academic programs and courses are offered in 34 academic departments which are organized into the Colleges of Applied Science and Technology, Arts and Sciences, Business, Education, and Fine Arts. Undergraduate academic program and course offerings are listed in the Catalog according to the collegiate and departmental organization. University-wide program and course offerings are described separately.

The Graduate School offers master's degree programs in most fields in which undergraduate programs are available and doctoral degree programs in Art, Biological Sciences, Curriculum and Instruction, Economics, Educational Administration, English, History, Mathematics, and Special Education. Further information concerning graduate study at Illinois State University is available in the *Graduate Catalog* and at the Graduate School office in Hovey Hall.

The College of Continuing Education and Public Service offers off-campus courses, workshops, and conferences designed for adults who wish to improve themselves pro-

professionally. Information about such offerings is available in bulletins published by the College each semester. The University makes no distinction between credit earned on or off campus and does not offer correspondence courses.

Academic Senate and Committees: The Academic Senate is the major governance body of the University. The Senate acts in legislative and advisory roles with regard to University policies concerning faculty and students, academic programs and planning, and University concerns. Based upon the concept of shared governance, the 50-member Senate's elected representatives consist of 27 faculty members and 19 students, 3 Vice Presidents, and the President of the University.

Through the Academic Senate and its external committee system, students, faculty, and administrators share in the study and development of policy. Students are encouraged to participate in the following Senate-appointed committees and councils:

Academic Planning, Academic Standards, Elections, Entertainment, Library, Facilities Planning, Reinstatement, University Curriculum, University Forum, Council on Teacher Education, Honors Council, Council on University Studies, University Union/Auditorium Board, Student Code Enforcement and Review Board, Athletic Council.

Students also participate as members of college and department councils and serve on search and ad hoc committees.

The Academic Senate Office is located in 301 Hovey Hall.

Accreditation: Illinois State University is accredited at the doctoral level by the Commission on Institutions of the North Central Association of Colleges and Schools and by the National Council for Accreditation of Teacher Education.

Summer Sessions: The University provides credit course work during the summer. Courses are also offered off campus. Regular courses, taught by the regular instructors, are offered during the summer so that students may take the same type of work as that offered during the first and second semesters. Limited student teaching and internship positions are available during the summer session for those who are qualified. Prospective students may obtain the annual *Summer Class Schedule* by writing to the Office of Admissions and Records. This schedule lists courses, costs, and other information for the session. Summer session students should refer to the undergraduate and graduate catalogs for academic policies.

Dr. Henry A. Kissinger, guest lecturer of the Adlai E. Stevenson Memorial Lecture Series.

ADMISSION

Admission Applications

Prospective students may obtain applications for admissions by writing to the Office of Admissions and Records, Illinois State University, Normal, Illinois 61761. In Illinois, a prospective student may call toll free 1-800/322-2314 to request an application. On campus, applications are available in 201 Hovey Hall. Admission to the University does not guarantee housing in residence halls. The Office of Residential Life will mail housing applications to students after they have been admitted to the University.

All applicants who are not United States' citizens should request a **foreign student application**. Prospective graduate students should request a **graduate application**. Applicants 25 years of age or older who are interested in the Adult Learner Program offered by the College of Continuing Education should request an **adult learner application**.

An applicant may request admission for the fall semester, which begins in mid-August; for the spring semester, which begins in early January; or for the summer session, which begins in the middle of May. Applications are usually processed within two weeks of receipt.

The University reserves the right to limit enrollment in a program because of space or budget restrictions. Applicants are, therefore, encouraged to submit admission applications early. Applicants qualified for admission will be admitted to the University as general students even though space in the desired program may not be available at the time of admission.

Prospective students who are still in high school are encouraged to apply after completion of the junior year; prospective transfers should apply early in the year before desired enrollment. The Admissions Office will process applications until enrollment capacities are reached, so early application is advantageous. Applications can ordinarily be acted upon as soon as transcripts and standardized test scores are received. The admission decision is based on high school class rank, course patterns, standardized test scores, and any previous college work. The University may in some cases defer a final decision pending receipt of a final transcript showing that grades were maintained.

Certain areas--all programs within the College of Business, some majors in the Department of Health Sciences, and the Department of Specialized Educational Development--have either selective admissions policies or higher admissions standards than are required for entry into the University. These policies are explained in the departmental sections of the catalog.

Student Classifications

The University has three classifications for new undergraduate students:

1. **Beginning freshmen:** a person who has never registered at any college or university.
2. **Transfer:** a person who has registered at another college, whether or not any work was completed.

3. **Unclassified undergraduate:** a person who desires to take classes at the University but does not have immediate plans to become a candidate for a degree.

Admission Requirements

Admission requirements are the same for all semesters or sessions. The specific requirements for the three undergraduate classifications are explained below. Exceptions to these requirements may be made for special admissions categories (p. 10). The admissions decision is based on high school class rank, course patterns, standardized test scores and any previous college work.

Prospective ISU students are expected to have a strong academic background. Reading, writing and mathematics are central to that background. Students must demonstrate competence in English composition and mathematics. Illinois State University, along with the Illinois Board of Higher Education, recommends that prospective students prepare for college by including four years of English, science, mathematics, and social studies, along with two years of foreign language, in their high school program.

While the University offers a wide range of support services to improve students' chances for academic success, it does not offer remedial assistance in mathematics, reading, or composition. Students who believe that they have deficiencies in these basic skills are advised to enroll in appropriate preparatory courses elsewhere before enrolling at Illinois State University.

Information on how to prepare for particular majors is outlined in *A Handbook for High School Counselors*, a copy of which has been sent to every high school in Illinois. Academic departments at ISU are also happy to supply prospective students with additional information about majors. Students or counselors with specific questions should write to the appropriate departmental chair.

Standardized Tests: Prospective beginning freshmen and transfer students with fewer than 30 hours must have ACT or SAT scores sent directly to the Office of Admissions and Records. If the scores were not sent to Illinois State University at the time the test was taken, write the American College Testing Program (ACT, Box 168, Iowa City, Iowa 52240) or the Educational Testing Service (SAT, Educational Testing Service, Princeton, New Jersey 08540) and request to have them sent to ISU. Upon request, special testing arrangements will be made for the handicapped by either testing agency.

BEGINNING FRESHMEN: Admission requires graduation from an accredited high school or a GED certificate. In addition, students must demonstrate competence in English composition and mathematics by presenting 1) a high school transcript showing successful completion of at least three years of high school English and one year of standard high school algebra **or** 2) an ACT English subscore of 18 (SAT verbal 400) **and** an ACT Math subscore of 19 (SAT Quantitative 430).

Students who meet **one** of the criteria listed below, that have been determined to provide at least a 50/50 chance for

achieving a 2.0 GPA at Illinois State at the end of the first semester of course work, will be admitted to the University until enrollment capacity is reached:

High School Class Rank Percentile	Minimum ACT Composite Score or SAT Combined Score no minimum
1. 75th - 99th (top quarter)	ACT 14 or SAT 660 (16, 145)
2. 50th - 74th	ACT 18 or SAT 825
3. 25th - 49th	ACT 20 or SAT 910
4. 1st - 24th (bottom quarter)	

Admission Requirements Beginning Fall of 1990: The Board of Higher Education has approved the following requirements for freshmen entering Illinois public universities and community colleges beginning in the fall of 1990:

- Four years of English, emphasizing written and oral communication and literature;
- three years of social studies, emphasizing history and government;
- three years of mathematics; introductory through advanced algebra, geometry, trigonometry, or fundamentals of computer programming;
- three years of laboratory science;
- and two years of electives in foreign language, music, or art.

TRANSFER STUDENTS: All transfer students must present an overall "C" average (2.0 on a 4.0 scale or the equivalent) for all college work completed. The most recent transcript from the last school attended (whether full- or part-time) must also show a statement of good standing. Upon request, before admission to the University is considered, transfer students must present evidence that there has been no history of behavioral problems at the last school attended. Transfer students with fewer than 30 semester hours of transfer work must meet the same requirements specified above for beginning freshmen; they must submit high school transcripts and ACT or SAT scores as well as college transcripts. In addition, all transfer students except those who have earned an associate degree in a baccalaureate-oriented program at an Illinois public community college must show evidence of competence in English language and computation skills. These skills may be demonstrated by standardized test scores (English ACT subscore of 18 or SAT verbal of 400, and Math ACT subscore of 19 or SAT Quantitative of 430), by high school courses (successful completion of three years of English and one year of standard algebra), or by appropriate college courses in composition and mathematics.

Students currently enrolled at Illinois public community colleges may find it advantageous to complete the associate degree before enrolling at ISU. Illinois State University, in agreement with these colleges, allows a student with a baccalaureate-oriented associate degree to be admitted or readmitted to ISU with junior standing and with all University Studies (general education) requirements completed.

After approving a student for admission, the Office of Admissions and Records will send the student and the student's academic adviser a statement specifying how the transferred credit may be used to meet curricular requirements at ISU. Transfer credit from two-year colleges is limited to 66 semester hours plus a maximum of 4 semester hours of physical education. Additional credit for military service is also possible.

Registered Nurses: RNs will be admitted to the University and granted 60 semester hours of transfer work if they have graduated from an accredited Associate Degree or Diploma nursing program with a 2.5 grade point average on a 4.0 point scale. To earn a baccalaureate degree, such

students must complete the University Studies and the chosen major requirements.

Summer Visitors: Students attending other colleges who plan to continue at those institutions may enroll at ISU for the summer session by submitting a statement of good standing from the school that they are attending. This policy does not apply to beginning freshmen.

Unclassified Students: Individuals desiring to take a class or classes in the University without working toward any degree may be admitted as unclassified students if they have been out of high school for at least two years. Applicants will be required to provide evidence showing prerequisite background for the course(s) desired. Unclassified students must maintain the same standard of performance as degree students. Unclassified students who at some later time wish to become candidates for a degree must submit transcripts of all previous college work.

Readmission: Students wishing to return to ISU after being away for one or more semesters must apply for readmission through the Office of Admissions and Records (201 Hovey Hall). Readmission for a particular term cannot be guaranteed if the application is received less than two weeks prior to the beginning of classes.

Students who have been dismissed from ISU for poor scholarship must be reinstated by the University Reinstatement Committee before applying for readmission. Such students should complete an application for reinstatement at least two months prior to the term in which they desire to reenroll. Reinstatement forms may be obtained from the Assistant Dean of Undergraduate Instruction, 404 Hovey Hall.

ISU students who have been away from the University for one or more semesters and who have in the meantime attended any other higher educational institution must indicate such attendance on the readmission application and supply an official transcript from the other school(s). Such students must have earned a "C" average or higher for all coursework taken since last attending ISU, and have been in good standing at the last institution attended as full- or part-time students. Readmitted students should consult the section on Catalog Requirements to determine which catalog should be used to determine graduation requirements.

Special Admission: The University may admit a limited number of applicants with special characteristics and abilities who show the potential for success in collegiate work but who do not meet all the regular admission requirements. The special admissions programs are as follows:

1. **Talent Program:** Applicants who demonstrate an outstanding talent in art, music, theatre, or athletics.
2. **Early Admit Program:** Applicants who can benefit from college-level work prior to graduation from high school on a full-time or part-time (concurrent with high school attendance) basis.
3. **College Opportunities Admission Program:** Applicants must be new beginning freshmen, have a minimum ACT composite of 12, and exhibit proficiency on diagnostic entrance exams. COAP is offered only in the fall semester. Students who are economically and/or educationally disadvantaged and can benefit from college-level work if intensive support services are provided are encouraged to apply.
4. **Veteran's Program:** Applicants who are Illinois residents who present a discharge for other than dishonorable reasons showing completion of at least a one-year tour of duty in the Armed Forces and whose first attendance

at a college or university after discharge is at Illinois State.

5. **Adult Learner Program:** Applicants who are over 25 years of age.
6. **Summer Opportunity for Freshmen:** Applicants who show academic promise, who can benefit from special assistance and counseling, and who are willing to begin their academic work during the summer session.

For all of these programs, inquiries should be sent to the Director of Admissions and Records, 201 Hovey Hall, and should specify the particular program of interest.

Orientation and Registration

Preview ISU: The University's summer orientation program, called "Preview ISU", is designed to acquaint new freshmen and their parents with the campus and its services and to provide the opportunity for students and parents to discuss campus life with faculty, staff and continuing students. During the two-day Preview programs, new students will take placement examinations, meet with academic advisers and register for fall classes. One-day "Transfer Day" programs are held for transfer students and their parents both during the summer and immediately prior to registration for the fall and spring terms.

Students who have been admitted and their parents receive registration materials for Preview ISU in the Spring. Further information is available from the Office of Admissions and Records, 201 Hovey Hall, 309/438-2181. Arrangements will be made to assist the handicapped during Preview. Handicapped individuals should notify the Coordinator of Services for the Handicapped, 207 Hovey, of any special needs prior to arrival on campus, voice 309/438-5853 or TTY 309/438-8620.

Orientation for a limited number of students who are unable to attend Preview is held during the week preceding the first day of the fall semester. Students entering during the spring semester should attend orientation during the week preceding the first day of classes. No orientation activities are provided for students entering during the summer; such students should contact the Academic Advisement Center for assistance at Julian Hall 210, phone 309/438-7604.

Placement Examinations: Placement Examinations are held to determine the level at which a student should enter particular sequences of University courses, and may be required by departments. No credit is awarded. Placement examinations are given during Preview, prior to academic advising and registration. A student's desired major and standardized test scores will determine any placement examinations that may be required.

Academic Advisement: Academic advisers work with each student during Preview to begin developing a long-range educational plan and to select appropriate first semester courses. Representatives from the academic departments will also be available during the Preview sessions.

Registration: New students register for classes during the Preview sessions after placement testing and advising. Detailed information concerning registration procedures for a given term is outlined in the *Class Registration Directory* which students receive when they arrive for Preview.

Medical Requirements: All students admitted to Illinois State are required to file a Medical History with the Health Service upon or prior to registration for 9 or more semester hours or upon entitlement to Health Service by other means. Students who plan to participate in University sponsored intercollegiate team sports will be required to have a physical examination by a Student Health Service physician.

Medical History forms will be mailed to new students by the Health Service. These forms should be completed and returned immediately, or in the case of incoming athletes, be brought to the Student Health Service when they come in for their physical examination. Students with a handicap or disability are requested to have their physician send a copy of their complete medical file to the Director of Health Services. If the student does not receive the forms within 30 days of the beginning of the semester, the student is requested to write for them. Included in their Medical History, students must have verified results of a T.B. skin test or chest x-ray accomplished within the previous year, and completion of the immunization section showing current immunization status for tetanus and diphtheria, poliomyelitis, rubella, mumps, and measles, or attached proof of having had these illnesses prior to enrollment. The University policy is that immunizations for these illnesses be current for all students. Proof (school immunization record, physician verification) of these immunizations or having had these diseases is required for non-resident students (out-of-state and foreign students).

Incoming athletes who have been accepted for ISU admission and need a Health Service physical examination before fall team practice or tryouts should schedule the examination through their coach or with the Student Health Service as early as possible during the summer. Examinations can be given while the student is on campus for Preview but a specific time for the exam must be prearranged with the Health Service. Students who do not have an athletic scholarship will have to pay for the examination at the time it is given (\$15 during summer, \$20 after classes begin in the fall).

COSTS AND PAYMENT POLICIES

TUITION AND FEES

Full-Time Student Costs per Semester: Students who register for 12 or more semester hours are considered full-time students and pay the following tuition and fees which are **subject to change** by action of the Board of Regents or General Assembly. Tuition and fees for 1986-7 were not established at the time this catalog went to press.

	Residents	Non-Residents
Tuition (1985-6)	\$525.00	\$1575.00
General Activity fee	21.25	21.25
Athletic and Service fee	36.00	36.00
Student Health Insurance fee	46.00	46.00*
Student Center/Auditorium fee	38.00	38.00
Recreation and Athletic Facilities fee	15.00	15.00
University Arena fee	35.00	35.00
Health Service fee	29.25*	29.25*
1985-6 Totals	745.50	1795.50

*Health Service and Health Insurance fees are assessed to all students who register for 9 or more semester hours.

Part-Time Student Costs per Semester: Students who register for fewer than 12 semester hours pay the following tuition and fees which are **subject to change** by the Board of Regents or General Assembly. Tuition and fees for 1986-7 were not established at the time this catalog went to press.

	Residents	Non-Residents
Tuition per semester hour (1985-6)	\$ 43.75	\$ 131.25
General Activity fee*	6.50	6.50
Athletic and Service fee	19.50	19.50
University Arena fee	17.50	17.50
Student Center/Auditorium fee	19.00	19.00
Recreation and Athletic Facilities fee	7.50	7.50

*Students registered for more than 6 but fewer than 12 hours may purchase an activity ticket by paying the full-time student General Activity fee. Payment of this fee by part-time students does not extend the privilege of playing at the Golf Course for student rates.

Students registered for fewer than 12 hours pay the part-time student Athletic and Service fee and are admitted to athletic events for which admission is charged at a rate approximately midway between the price charged a full-time student and the adult general admission ticket holder. Part-time students registered for more than 6 but fewer than 12 hours may elect to pay the full-time student Athletic and Service fee and be entitled to the same privileges as full-time students for all athletic events.

Students registered for **fewer than 9 hours** may also pay the Student Health Service fee within fifteen (15) calendar days after the first regularly scheduled class day of the semester in order to obtain prepaid services. Students who do not prepay the Health Service fee can obtain Health Center care on a fee-for-service basis (individual service charge). Students registered for **9 or more hours** must pay the Student Health Service fee and the Student Health Insurance fee.

Audit Costs: Students taking only audit courses (courses without credit) are charged tuition at the rate of \$43.75 per credit hour to a maximum of \$525.00

Residents and Non-Residents: A student under 18 years of age is a non-resident if that student's parents are not legal residents of Illinois. A student over 18 years of age is a non-resident if the student is not a legal resident of Illinois at the time of registration. The director of Admissions and Records is responsible for determining residency.

Special Fees:

Bachelor's Degree Graduation fee \$15.00
Late Registration and/or Late Payment fee (after scheduled dates) 10.00

Transcripts are issued only after all student obligations have been met. A student wishing a transcript should make the request at the Transcript Office. A three dollar charge is made for each official transcript.

Material Charges listed under course offerings in the University catalogs are optional. A student may supply his or her own material and request the instructor in writing to waive the material charge.

Payment of Tuition and Fees: Students who advance register for a semester will be billed for tuition and fees before the beginning of the semester. If the bill is not paid by the date it is due, the student's classes will be cancelled and the student must re-register at the beginning of the semester. Students who register for classes at the beginning of the semester must pay their bill at that time. The *Class Registration Directory* lists specific dates.

Refund Policy: A registered student who officially withdraws from the University may receive a refund of tuition and fees, including any advance deposit, according to the following schedule:

1. If withdrawal is prior to the first regularly scheduled class day, all tuition and fees are refunded.
2. If withdrawal is within the first fifteen calendar days after the first regularly scheduled class day, all tuition and fees minus a service charge not to exceed twenty percent of the tuition and fees charged a full-time, undergraduate, in-state student are refunded.
3. If withdrawal is after the fifteenth day but no later than the thirtieth calendar day after the first regularly scheduled class day, twenty-five percent of the tuition charge only is refunded.

The university may designate shorter refund periods for summer session, special courses, and short courses.

A student who changes from full-time to part-time status or a part-time student who reduces the number of credit hours carried may receive a refund of tuition and fees according to the following schedule:

1. If the reduction is on or before the fifteenth calendar day after the first regularly scheduled class day, all tuition and fees not applicable to the new part-time status are refunded. A student receiving a refund of fees will not be eligible for activities and benefits covered by such

fees. A service charge is not applicable to a student who changes from full-time to part-time status.

2. If the reduction is after the fifteenth but no later than the thirtieth calendar day after the first regularly scheduled class day, twenty-five percent of the difference in tuition charge only is refunded. The student would continue to be eligible for the activities and benefits covered by the other fees paid.

The university may designate shorter refund periods for summer session, special courses, and short courses.

The student may receive a refund of insurance fees if the student demonstrates equal or better insurance coverage and completes the written application on or before the fifteenth calendar day after the first regularly scheduled class day.

A student whose course of study requires absence from campus for the entire term shall, upon proper application, receive refund of Activity, Health Service, and Athletic fees. The application for such refund must be made on or before the fifteenth calendar day after the first regularly scheduled class day.

Pursuant to guidelines established by the University, part or all of a student's tuition and fees may be refunded because of the student's death or disability, extreme hardship, or institutional error.

A student may receive a refund of tuition and fees if a scholarship is awarded that covers those fees. The application for refund must be made no later than 60 days after the close of the session.

A student may receive a refund of tuition and fees if the University declares him or her ineligible for enrolled status prior to the first day of regularly scheduled class.

The statement of the refund policy for University housing is a part of the housing contract.

Housing Costs: The room and board rate in the residence halls for the 1985-6 academic year was \$2,214.00 for multiple occupancy and 18 meals per week. Room and board rates for 1986-7 were not established at the time this catalog went to press. A limited number of single rooms are available at an additional cost. Two apartment complexes are available for qualifying upper-class and married students, graduate students, and students with families. Rental rates for 1985-6 ranged from \$140-215 per month. Rental rates for 1986-7 were not established at the time this catalog went to press. For further information, see campus living on page 18 and contact the Office of Residential Life.

Estimated Total Yearly Expenses: Because Illinois State University is a state-supported institution, the cost of attendance is relatively low. The estimated total expenses for the 1986-87 academic year (two semesters) is \$5,576 for an on-campus student classified as a resident of Illinois. This estimate includes approximately \$3,705 for tuition, fees, and on-campus room and board, plus an estimated \$1,871 for books, supplies, travel, and personal expenses. Estimated expenses for married students or students with dependents will vary according to differences in family size. Non-residents pay higher tuition charges and normally spend more on travel expenses. Tuition, fees, and on-campus housing charges are **subject to change** by action of the Board of Regents. **All other figures indicated in the preceding information are also estimates at the time of this printing.**

SERVICES FOR STUDENTS

Financial Assistance

FINANCIAL AID OFFICE

208C Hovey, (309) 438-2231

The Financial Aid Office administers and coordinates more than thirty million dollars annually in aid to approximately sixty-five percent of the student population at Illinois State University. These funds are available to qualified students who wish to pursue college educational opportunities. Financial Aid Advisers are available on a walk-in basis Monday through Friday to provide individual assistance to students and their families regarding types of aid programs available, eligibility requirements, application procedures, need determination, part-time employment, money management, and other related matters.

All financial aid is coordinated through the Financial Aid Office. Three types of financial assistance are available through federal, state, University, and private sources, including: 1) grants and scholarships; 2) part-time employment; and 3) loans. Scholarship, grant, and loan checks issued by Illinois State are automatically credited or restricted to pay outstanding University charges, including registration and housing charges. Students interested in receiving financial aid are encouraged to complete necessary applications before the priority deadline date of March 1.

To qualify for Federal or State financial aid programs, an applicant must:

1. Be a citizen of the U.S. or a permanent resident.
2. Demonstrate financial need as determined by a need analysis method accepted by the U.S. Department of Education.
3. Be enrolled at least half-time (6 hours) in a program leading to a degree or certificate (classified). Students not pursuing a degree (unclassified) are not eligible for any type of Federal or State financial aid.
4. Not be in default on a National Direct Student Loan or Guaranteed Student Loan.
5. Not owe a repayment to a grant program.
6. Make satisfactory progress toward a degree as defined by ISU (see p. 15).
7. Be registered with Selective Service if you are a male who is at least 18 years old and born after 1959 and who is not a current member of the active armed forces.

For further information, students may refer to the *Illinois State University Financial Aid Information Guide*, or contact the Financial Aid Office.

Application Procedures: To determine a student's eligibility for a Pell Grant, an Illinois State Scholarship Commission Award (ISSC), a National Direct Student Loan (NDSL), College Work-Study employment (CWS), a Supplemental Educational Opportunity Grant (SEOG), and a Guaranteed Student Loan (GSL), the ISU Financial Aid Office should receive the two applications described below by March 1.

1. The ISU Financial Aid Application. Apply for National

Direct Student Loan (NDSL) and College Work-Study (CWS), Supplemental Grants (SEOG), Pell, and Guaranteed Student Loan (GSL) on this form. Signed non-returnable copies of 1985 tax returns must be attached to this application.

2. **One** of the three nationally approved need analysis applications. List ISU as the first choice school and release data to ISU and the Pell Grant Program. The acceptable applications from which to choose are the ACT Family Financial Statement (FFS), CSS Financial Aid Form (FAF) or the Application for Federal Student Aid (AFSA). There is no processing charge for the AFSA.
3. Financial Aid Transcript (from any other colleges attended). This transcript must be submitted even if the student did not receive financial aid from his/her previous school(s). A transcript must be submitted each time a student leaves ISU and attends another post-secondary institution. The Financial Aid Transcript is not the same as the academic transcript required for admission.
4. In addition to the above two forms described in (1) and (2), a Guaranteed Student Loan application provided by the lender must be completed if you wish to participate in this program.

The preferential filing date for all application forms is **March 1**. Applications received after this date will be processed according to availability of funds and staff time. Read the instructions for each application carefully. Complete all applications accurately, using information from actual completed tax returns. Discrepancies in data will delay awarding and disbursement of financial aid. Limited funds, late application, or discrepant information in the application may keep students from receiving any aid.

Satisfactory Progress Policy

1. Illinois State University requires satisfactory progress toward a degree as an eligibility requirement for financial assistance.
2. The amount of any financial aid award is based on a number of factors, including the number of hours in which the student is enrolled at the time funds are disbursed.
3. For purposes of this policy, academic term is defined to include the summer, spring, and fall semesters.
4. A student must have earned (A) 75% of the total hours attempted at his or her current degree level (undergraduate and graduate credits cannot be combined) to be considered eligible under this policy. New students (B) will be given an adjustment period. If a new student does not earn 75% of the hours attempted (C), the student will be considered on probation but aid will not be withdrawn.
5. A student's eligibility is terminated at the point when total hours (D) attempted equal 180 for the bachelor's degree, 50 for master's degree, or 75 for doctoral degree.
6. This policy is applicable to all students receiving University administered financial aid funds during any aca-

ademic term. Categorical exceptions approved by the Provost will be handled by the appeal process.

7. Prior to the beginning of each academic term, the Director of Financial Aid will review the eligibility of applicants. Those in violation of this policy will be notified in writing of their eligibility status.
8. Reinstatement is available automatically by earning additional hours at ISU and meeting the 75% standard or by appeal. The appeal procedure must be initiated by the student by securing a Satisfactory Progress Appeal Petition from the Financial Aid Office and returning the completed form with documentation to that office PRIOR to the tenth day of class of the next academic term during which the student is enrolled.

NOTE: Students should consult the University catalogs for academic policies and graduation requirements.

Definitions

- A. For Undergraduates, earned hours are the sum of hours for which the student has earned a grade of A-D, CR, or CT, (including repeats). For Graduates, earned hours are the sum of hours for which the student has earned a grade of A-C, CR, or CT. Withdrawals, incompletes, audits, and failure are not earned hours.
- B. A new student is defined as a Freshman with 0-20 hours attempted at ISU.
- C. The phrase 'hours attempted' is defined as the sum of the hours for all ISU courses for which registration charges were incurred.
- D. Transfer hours will be included in hours attempted used in number 5 of the above policy.

Financial Aid Refunds: By signing the applicant's "Statement of Educational Purpose" on the ISU Financial Aid application, students agree to use financial aid funds only for expenses related to attendance at ISU. Therefore, if you withdraw from or stop attending ISU AFTER RECEIVING NDSL, SEOG, OR PELL Grant funds, you may be required to repay all or a portion of the awards. The first step in determining if a student may owe a repayment is to subtract from the sum of these awards the total institutional charges not covered by another grant, scholarship or waiver. If the difference is positive and exceeds \$100 THE STUDENT WILL BE REQUIRED TO REPAY A PORTION OF THE AMOUNT OVER \$100 based on the following schedule:

- A. 50 percent, if the student withdraws or stops attending within the first 15 calendar days of thm session (7 CALENDAR DAYS FOR SUMMER SCHOOL).
- B. 25 percent, if the student withdraws or stops attending between the 16th and 30th calendar day of the session (between 8th and 15th calendar day for summer school).
- C. No repayment will be required if the student withdraws after the 30th calendar day of the session (15th calendar day for summer school); however, the Satisfactory Progress policy still applies. The amount to be repaid by the above calculation will be further reduced by any refund due from institutional charges. The amounts repaid will be distributed to the awards in this sequence: SEOG, Pell Grant, NDSL, and GSL. Failure to make the required payment will result in a hold on academic and financial aid transcripts, barring of future registration, ineligibility for future financial aid, and other collection activities deemed appropriate.

Unclassified Students: Unclassified students are defined as those students not enrolled in a specific undergraduate or graduate degree program. Federal Regulations specify that financial aid cannot be awarded to unclassified students.

Confidentiality and the Release of Information: The Financial Aid Office will release information about the financial status of a student to those parties within the University concerned with the financial welfare as related to the student's attendance at ISU. Thus, certain inquiries from off-campus agencies, landlords, etc. will be answered by Financial Aid staff only if the student requests that this information be given to specific individuals or agencies by signing a 'Consent to Release Information' form available in the Financial Aid Office. To protect the confidentiality of the student's records, the Financial Aid Office will request proper identification in person before releasing any information concerning the financial aid status.

Parents or anyone other than the student will not be given specific information concerning a student's financial status.

FEDERAL GRANTS AND BENEFITS

Supplemental Educational Opportunity Grants

(SEOG): This program provides grants for undergraduates with exceptional financial need. Awards may range from \$200 to \$2,000; however, funding limitations restrict the average award at ISU to \$500 per academic year. Students interested in applying for an SEOG for the 1986-87 academic year should refer to the Application Procedures.

Pell Grant: This program provides federal financial assistance in the form of grants to undergraduate students who demonstrate need. Students will receive a Student Aid Report (SAR) approximately six weeks after completing a need analysis application. Students should review all copies of the SAR. If they are complete and accurate, **all copies of the SAR should then be submitted immediately to the ISU Financial Aid Office** where the amount of the Pell Grant will be determined. A photocopy of this report should be retained for the applicant's own records. Refer to the Application Procedure to be considered for a Pell Grant at ISU.

Department of Rehabilitation Services: Under Public Law 113, the federal and state governments jointly provide rehabilitation services to any disabled individual to enable the person to engage in a remunerative occupation. These services may include a financial grant that covers all or part of the tuition and fees and/ or the student's maintenance costs. For detailed information and assistance in making application for State Rehabilitation Services Assistance, write to the Department of Rehabilitation Services, 623 E. Adams Street, P.O. Box 1587, Springfield, Illinois 62706.

Veterans G.I. Bill: Benefits are available until ten years after the date of discharge for any veteran of the Army, Navy, Marine Corps, Air Force, or Coast Guard who was not dishonorably discharged and who (1) served continuously on active duty for at least 181 days ending after January 31, 1955, but before January 1, 1977, or (2) served less than 181 days, if active duty was ended by a service-connected disability, or (3) serves presently in the Armed Forces, with at least 181 days active duty. Benefits will be paid a maximum of forty-five months. Veterans who first entered active duty after December 31, 1976, must have contributed to the education fund to be eligible for a maximum of thirty-six months of benefits. Contact the ISU Veteran's Affairs Office, Hovey Hall 211B, for details.

Survivors' and Dependents' G.I. Bill: Children and spouses or survivors of veterans whose deaths or permanent total disabilities were service-connected in the Armed Forces after the beginning of the Spanish-American War may be eligible for benefits. Children of servicemen or servicewomen missing in action or prisoners of war for more than 90 days are also eligible. Assistance is available to eligible children during the period that begins on the

date of the eighteenth birthday or successful completion of high school, whichever comes first, and ends on reaching the twenty-sixth birthday.

STATE SCHOLARSHIPS AND GRANTS

State Military Scholarships may be used by students enrolled for classes on or off-campus; other State Scholarships may be used only by persons enrolled on-campus. Except for the ISSC Monetary Award Program, students who do not intend to be enrolled for consecutive semesters may need to file for a leave of absence and should contact the Financial Aid Office for further instructions.

Illinois State Scholarship Commission (ISSC) Monetary Award Program: The Illinois State Scholarship Commission Monetary Award Program awards tuition and fee grants to undergraduate students based on financial need. The applicant must meet eligibility criteria as determined by the rules of the ISSC.

Applicants for the Illinois State Scholarship Commission Monetary Award (ISSC) must check the question concerning release of information to the state agency as "yes" on the need analysis form they complete (Refer to Application Procedures).

National Guard Scholarship: Any enlisted person actively serving in either the Illinois Army or Air National Guard or Illinois Naval Militia and who meets the following requirements may participate in the College Scholarship Program. Other qualifications include: (1) Fulfillment of all necessary college or university entrance requirements. (2) Must apply annually to the Illinois State Scholarship Commission (ISSC) for the scholarship and supply proper proof of eligibility. Eligible applicants will receive an entitlement letter that is to be presented to the institution for authorization of tuition and fees covered under this program. (3) If applicant ceases to be a member of the Illinois National Guard or Naval Militia, the educational benefits will be terminated as of the militia termination date. Contact the Financial Aid Office for further information.

Illinois Veterans Scholarship: A veteran who was a resident of Illinois both before and after one year or more of active duty, and received other than dishonorable discharge may qualify for the Illinois Military Scholarship which pays tuition, activity fee, and graduation fee. A maximum of 120 points (approximately equal to 120 credit hours) may be covered under the Veterans Scholarship. Effective in Fall of 1985, all IVS recipients are eligible to receive both tuition and activity fee, regardless of discharge date or prior usage of the scholarship.

All veterans applying for the IVS must submit a photocopy of their DD214 to the regional or county Department of Veterans Affairs Office. A scholarship identification card will be issued and must be presented to the Financial Aid officer.

State Special Education Scholarships: The State Special Education Scholarships are made available by legislative enactment to selected high school graduates who agree to take courses that will prepare them to teach the disabled. To be eligible, a student must be in the upper half of his or her high school graduating class. The scholarship is valid for not more than four years of attendance within a six-year period. This scholarship carries an obligation to teach in Illinois two of five years following graduation. If this obligation is not fulfilled, the total amount received must be repaid to the State of Illinois, with interest at the rate of five percent. Interested persons should contact the Superintendent of their Regional Office of Education about this scholarship which covers tuition and activity fees for each semester and summer session.

Merit Recognition Scholarship (MRS): This program is supported by the ISSC and is available to the top 5% of each Illinois high school graduating class. An annual award of \$500 is given to those students nominated by their high school counselor. The application sent from ISSC to the student must be submitted to the Financial Aid Office. Recipients must enroll for at least 6 hours for two terms each academic year, plus receive a 2.0 GPA to qualify for the one-year renewal award.

General Assembly Scholarships: General Assembly Scholarships that cover tuition and activity fee charges are usually awarded one year at a time. Interested students should contact their State Representative or Senator. A competitive examination may be given to determine eligibility. The student must be a resident of the district from which he or she hopes to obtain the scholarship.

Regents' Tuition Waivers: Except in intercollegiate athletics and the International Studies program, undergraduate tuition waivers are used to recruit academically talented students. To the extent possible, financial need is considered in the award of all undergraduate tuition waivers.

INSTITUTIONAL PROGRAMS

When funds are available, these scholarships are awarded on the basis of financial need or academic achievement. They are generally restricted to students earning a grade point average of 3.00 or above. Talent scholarships in such areas as speech, music, theatre, and athletics are available through individual departments. Competitive academic scholarships (Foundation Alumni Distinguished Scholarships and National Merit Scholarships) are administered by the Office of Admissions and Records. Further information concerning specific University scholarships may be obtained by contacting the Assistant Dean of Undergraduate Instruction, Hovey 404.

PRIVATE SCHOLARSHIPS

Approximately 200 private agencies award private scholarships to ISU students annually. These organizations include clubs, foundations, organizations, corporations, and churches. Requirements are determined by the donor and are usually based on academic achievement. Students should contact their local area clubs and organizations for further information. The Financial Aid Office has a Private Scholarship Manual available in the office for reference.

LOAN PROGRAMS

Parent Loan for Undergraduate Students (PLUS) and Auxiliary Loan to Assist Students (ALAS): Students and parents can borrow no more than the student budget minus other financial assistance. The interest rate is 12% and repayment begins 60 days from disbursement of funds. Students and parents can borrow no more than the student budget minus other financial assistance. Loan limits are as follows:

- \$3,000 per academic year; \$15,000 aggregate maximum for parents of undergraduate students.
- \$3,000 per academic year; \$15,000 aggregate maximum in addition to GSL limits, for graduate students.
- \$2,500 per academic year; \$12,500 aggregate maximum including GSL limits, for independent undergraduate students.

Applications can be obtained from participating lenders.

National Direct Student Loan (NDSL) Program: Loans through this program are based on financial need and awarded by the Financial Aid Office. The need is calculated through an analysis formula approved by the federal government. Students are required to follow appropriate application instructions. A student may be awarded up to

\$1,000 per academic year, not exceeding \$3,000 up to the junior year, and not more than \$6,000 as an undergraduate, and \$12,000 as a graduate student. Repayment begins within 6 months following graduation or after the student ceases to be enrolled at least half-time. The interest rate of 5% is paid by the government while the student is in school; upon entering repayment, the interest is paid by the borrower.

Guaranteed Student Loan Program (GSL): The primary GSL application is available from participating banks, credit unions, and savings and loan associations. ISU students must also complete the application described under Application Procedures. The GSL program is a need-based program; therefore, income information is required from each applicant's family.

Loan Limits: Undergraduate students may borrow up to \$2,500 per class level, not to exceed a maximum of \$12,000. The Illinois Guarantee Agency allows students to borrow more than once at the same class level only once during their college career.

Class Level: Class levels are categorized as follows: 0-29 hours, Freshman; 30-59 hours, Sophomore; 60-89 hours, Junior; 90-120 hours, Senior.

Insurance and Origination Fees: The Guarantee Agency of Illinois charges a 1% insurance premium per annum for all loans. Federal regulation requires a 5% origination fee be deducted from the approved loan amount. These charges reduce the amount of money available to the student.

Repayment: Repayment provisions are outlined on the student promissory note. The note should be read carefully since provisions differ depending on the date the note was executed. Borrowers with loans prior to January 1, 1981, may continue to borrow at a 7% rate. Borrowers whose initial applications were made after January 1, 1981, pay a 9% rate. First-time borrowers starting school on or after September 13, 1983, pay an 8% rate.

STUDENT EMPLOYMENT

Students enrolled for six or more semester hours may work part-time at Illinois State University. Eligible student employees usually work ten to twenty hours per week while classes are in session. Students working at ISU earn from \$3.35 to \$4.00 per hour. This pay range is subject to change by action of the State of Illinois or ISU.

College Work-Study Program: This federally-sponsored program enables students with demonstrated financial need to earn a portion of their expenses while they are enrolled at Illinois State. Refer to the Application Procedures to be considered for College Work-Study. The federal government pays 80 percent of a Work-Study student's earnings, while the employer pays the balance. A student employed 10-20 hours per week can usually expect to earn between \$1,000 and \$2,100 a year. Work-Study students find jobs on-campus (food service, library, Bone Student Center, department offices) or in nonprofit, off-campus agencies (working for hospitals, youth centers, counties, cities, elementary or secondary schools). Work-Study positions are posted on job boards located outside the Financial Aid Office in Hovey Hall.

Students go directly to the employer for an interview and, if hired, must complete state and federal withholding tax forms in the Payroll Office in 101 Hovey Hall. Work-Study employers must also complete and return a Student Employment Form for all students hired. Students are not permitted to earn more than their Work-Study eligibility as determined by Federal regulations.

Regular Student Employment: Those students who desire to work on or off-campus and who have not had their need fully met by Supplemental Educational Opportunity

Grant (SEOG), National Direct Student Loan (NDSL), or College Work-Study funds are eligible for part-time employment positions on or off-campus. The Financial Aid Office has information on such employment opportunities posted on referral boards located outside 207 Hovey Hall.

Financial Aid Check Distribution Information: Financial aid checks are distributed throughout the academic year. The schedule of check distribution dates is given in the Financial Aid Information Guide and is posted on the bulletin board outside 208C Hovey Hall. Please note that only loan checks are available the first day of classes. Students should bring personal money to buy books and supplies.

Before any campus-based aid (NDSL, SEOG) checks will be written, a student must have received and returned a signed award letter to the Financial Aid Office. Two to four weeks is required for the returned award letter to be processed.

A Pell check will be written **only after all three pages of a Student Aid Report (SAR) have been submitted to the Financial Aid Office while student is enrolled, and all discrepancies have been cleared.** GSL checks will be made available as notifications and money are received by the Financial Aid Office. **To claim a check in person,** the student must present an ISU ID card and either a valid activity card or drivers license at the Check Distribution Center. The Check Distribution Center is on the first floor of the Media Services Building. **Students who cannot pick up their aid checks** because of student teaching, studying abroad, illness, etc, should write a request to the Cashier's and Collection's Office, indicating their name, social security number, and the specific address to which the check is to be mailed.

VETERANS SERVICES

211B Hovey, (309) 438-2181

The Office of Veterans Affairs advises veterans and their dependents on matters relating to benefits and payments. Certain dependents of deceased war veterans are entitled to educational benefits from the Veterans Administration. A student seeking such benefits should contact the Veterans Affairs Office.

Campus Living: Accommodations and Policies

OFFICE OF RESIDENTIAL LIFE

Fell Hall Annex, (309) 438-8611

RESIDENCE HALLS

The University owns and operates 15 residence halls, providing living accommodations for approximately 8,000 students. These facilities include spaces accessible to handicapped students. The residence halls have been designed to provide not only basic living requirements, but also counseling, advising, educational, and recreational programs. The University regards residence hall living as an important part of University life and requires that certain students reside in the residence halls as a condition of enrollment.

Professional staff, aided by undergraduate Resident Assistants, are responsible for educational programs, policies, and facilities within the residence halls.

Room assignments are made after consideration of each student's preference, not only of location, but also of living style. Arrangements may be made to spread residence hall payments over a period of time to aid in budgeting for an academic year.

The room and board rate in the residence halls for the 1985-6 academic year was \$2,214 for multiple occupancy and 18 meals per week. Room and board rates for 1986-7 were not established at the time this catalog went to press. A limited number of single rooms are available at an additional cost. For students selecting a 15-meal contract without weekend meals, there is a reduction of \$15 per semester from the basic contract. A \$50 security deposit is required which is retained until the final period of occupancy; additionally, a \$25 application and processing fee is assessed. Students are expected to furnish linens, towels, blankets, pillows, bedspreads, and waste baskets.

On-Campus Housing Policies: Entering freshmen who have not previously attended this University must reside in University-operated residence halls for their first four (4) semesters. Students transferring to this University as sophomores (as classified by the Office of Admissions) must reside in University-operated residence halls for their first two (2) semesters. These regulations are applicable to all students registered for twelve (12) or more semester hours insofar as space is available in University residence halls. Residence hall living for two summer sessions is equivalent to one semester.

The University may make exemptions for certain categories of students based upon guidelines related to marital status, proximity of home to campus, age, and other pertinent factors. Special consideration will also be given to applications for exemption, received prior to August 1, from sophomore students who are members of fraternities or sororities and who will be residing in that organization's house. If students wish to appeal a decision concerning their petition for an exemption to the On-Campus Housing Policy, they may obtain information on the appeals procedure from the Office of Residential Life.

APARTMENT LIVING

Two University-owned apartment complexes provide residents with an environment conducive to both personal and academic growth. Qualifying upperclass students and all married, family, and graduate students are eligible to reside in these units.

There are 292 unfurnished apartments in the two complexes, Cardinal Court and 300 Shelbourne Drive, offering residents a quiet environment, community atmosphere, excellent maintenance service, spacious grounds, and good proximity to academic buildings. Rental rates for the 1985-6 year ranged from \$140 to \$215 per month. Rental rates for 1986-7 were not established at the time this catalog went to press. Water and cable television service are provided by the University; all other utilities are paid by the resident. A \$150 security deposit is required and is held until after occupancy is terminated.

For additional information and an application contact the Office of Residential Life.

Off-Campus Housing: Illinois State University has discontinued its classification of any off-campus housing as being approved by the University. The University does not participate in housing contracts issued to students renting space in private housing and does not participate in the inspection of any off-campus housing.

Academic Support Services

ACADEMIC ADVISEMENT CENTER

210 Julian Hall, (309) 438-7604

Undergraduates with fewer than forty-five semester hours, General and Unclassified Students, and Pre-business students (students interested in a business program but not yet

formally accepted as declared majors in the College of Business) are assigned to the Academic Advisement Center. Academic advisers assist students in long and short range academic and career planning, provide information regarding University curricula and academic policies, work with students experiencing academic difficulty, refer students to other University services, and assist students in the selection of classes. Each summer, entering students receive academic advisement through the Center as part of Preview ISU. Once students with declared majors have earned 45 hours, they are assigned a faculty adviser in their major field.

Students who begin their work at Illinois State as freshmen are required to file a four-semester plan of study approved by their assigned academic adviser. An approved plan must be on file for students to register for work beyond the second semester. Students who change majors prior to completing 45 semester hours are required to file a new plan of study based on the new major.

Students are responsible for meeting the requirements of the degree(s) they are pursuing. These requirements are stated in the undergraduate catalog under which a student is admitted (or readmitted). In planning a degree program, students are expected to consult the catalog and to raise any questions with appropriate University offices.

MATHEMATICS ASSISTANCE CENTER

330 Stevenson, (309) 438-8781

The Mathematics Assistance Center provides diagnostic and supportive assistance to students enrolled in courses in mathematics and related disciplines. Intensive remedial assistance is not provided. Interested students and faculty should contact the Mathematics Department or the Assistant Dean for Undergraduate Instruction for more information.

THE CENTER FOR LEARNING ASSISTANCE

401 Stevenson, (309) 438-7100

The Center for Learning Assistance provides tutoring, small group work, and short courses to students in the following areas: writing, reading, study skills, academic content, and critical thinking. Tutors for the Center are graduate and advanced undergraduate students who have training and experience in the areas for which they are tutoring. Students may be tutored individually, or in small groups in the Center; some minicourses in areas such as critical reading are also offered. In addition, tutors supervise study and discussion sections specific to certain courses. Students who wish tutorial assistance should call or come to the Center. Instructors interested in adding tutorial assistance to their courses should contact the Center directors. Questions concerning English Placement examinations or the University Writing Examination should be addressed to Center staff. Quick advice on matters of grammar, style, and form in writing may be addressed to the Grammar Hotline at 438-2345.

Counseling and Career Services

COUNSELING CENTER

56 DeGarmo, (309) 438-3655

The Student Counseling Center at Illinois State University is responsible for meeting the psychological and career de-

velopment needs of ISU students. The Center provides a full range of counseling services, including individual and group counseling, crisis intervention, career and life planning, and services to students with special needs. The Center is staffed by professional psychologists and counselors who have received special training to help college students deal effectively with university life. Counselors assist students in an unbiased, non-judgemental manner with a wide variety of personal concerns and problems (e.g., relationships, unwanted habits, life decisions, special and serious personal problems). A person may initiate contact with the Center by either calling or coming directly to the Center during an afternoon walk-in counseling service from 1-4 p.m. Monday through Friday. Contacts with the Center are confidential and all services are free of charge. In addition to the above services, the Center also maintains a Career Center which is located adjacent to the Counseling Center. Career information/assistance is available at this Center, including a computerized vocational guidance system (DISCOVER) to assist students in making career decisions.

CAREER COUNSELING

52A DeGarmo (309) 438-2591

Illinois State University offers numerous opportunities to help students clarify their career and vocational goals. Among the sources of help available is DISCOVER, a computerized guidance system, located in the Career Center. The goal of the DISCOVER system is to provide information to students about career opportunities consistent with their interests and values and to assist students in establishing career plans. In addition to services offered by the Student Counseling Center, the Academic Advisement Center, Placement Service, and High Potential Students/Student Academic Services Office continue to develop programs to assist students in career choices. The Placement Service also maintains employment records of past graduates by major fields of study. Students are also encouraged to seek information about employment opportunities in their major field by consulting their department offices.

PLACEMENT SERVICE

608 S. Main, (309) 438-5635

The Placement Service serves the University in many ways. It informs students and alumni of available positions, instructs them in making effective applications, helps them to recognize and observe good professional procedures, and provides related information which will help them to secure good positions. The Placement Service also seeks to aid officials of schools, businesses, and governmental agencies to find qualified applicants for positions. It informs students, faculty, and departments about present supply and demand trends.

MINORITY STUDENT SERVICES

51 DeGarmo, (309) 438-7305

The Office of Minority Student Services works closely with all areas within the Student Affairs Division to coordinate services for minority students on the University campus. Any student requiring help or information about available services is encouraged to contact the Coordinator of Minority Student Services.

Health-Related Services

STUDENT HEALTH PROGRAM

Medical Service: Fairchild Hall, Rachel Cooper Wing 211, (309) 438-8655

Student Insurance Office: Fairchild Hall, Rachel Cooper Wing 114, (309) 438-2515

The Student Health Program consists of two components: 1) the On-Campus Health Service (a medical clinic) and 2) a Student Health and Accident Insurance Plan that supplements services available through the Student Health Service. All students who register for 9 or more hours during the first and second semesters (1 or more hours during the variable length summer session) and all graduate assistants with a tuition waiver pay a separate Health Service fee. A health insurance premium will be assessed for students who register for 9 or more hours during the first and second semesters (6 or more hours on or before the eighth calendar day of the variable length summer session) and all graduate assistants with tuition waivers.

On-Campus Student Health Service: Payment of the **Health Service Fee** entitles the student to use services at the on-campus Student Health Center for the entire session. Students who register for less than 9 semester hours have the option of paying the health fee within the first 15 calendar days of classes or obtaining service on a 'pay-as-you-go' (fee-for-service) basis. Spring semester students who do not plan to attend the summer session (but who are registered for fall) may obtain prepaid summer health care if they pay the appropriate health fee by the 5th day of the variable length summer session. Spouses of full-time enrolled students are eligible to use the services of the Health Center if they pay the health fee by above deadlines and have health insurance comparable to the ISU plan. All optional health fees are payable at the Student Health Center.

The Student Health Service is located in the Rachel Cooper wing of Fairchild Hall. It is staffed by physicians and registered nurses. Health care at the clinic is the same as that offered by most private general physicians. The services include a diagnostic laboratory, health education, x-ray, pharmacy, and infirmary. A registered nurse is on duty 24 hours during fall and spring semesters except for official University vacation periods.

Complicated illnesses or injuries requiring surgery or long term care will usually be referred to an outside physician. New students who have chronic medical conditions which require long term treatment such as diabetes, ulcerative colitis, or epilepsy should retain the services of private physicians. The Health Service will be glad to cooperate, furnish supportive care, and assist the student's physician in the student's care if the private physician furnishes written findings and instructions. There are three hospitals and many competent medical specialists in the Normal-Bloomington area to handle such medical problems when required.

Student Health and Accident Plan: Payment of the **Health Insurance Fee** provides a health and accident insurance policy with world-wide coverage. The schedule of benefits includes services for hospital inpatient and outpatient use: including emergencies, surgical and anesthesia fees, doctor's charges, consultation expenses, laboratory and x-ray expenses, and ambulance services. A complete schedule of benefits may be obtained from the Office of Student Insurance, 114 Rachel Cooper Building. Coverage for a student's qualified dependents may be obtained at additional cost if an application is submitted to

the Office of Student Insurance within the first 15 calendar days of each semester (8 days of the variable length summer session) or upon acquisition of a new dependent. Dependent coverage must be purchased in advance to ensure first day coverage of newborn children.

Student insurance coverage begins 48 hours before the first day of regularly scheduled classes each semester or summer session. This coverage is terminated on the first day of classes of the next regularly scheduled term. Continuous year-round coverage is available if the student maintains University registration at 9 or more hours during the first and second semesters and applies for summer coverage at the Student Health Insurance Office prior to the expiration of spring coverage. A conversion plan is available for students leaving the University. An insured student who graduates may purchase one additional term at the group rate by applying prior to graduation day.

Those students who have paid the ISU health insurance fee and produce evidence of equal or better coverage from another source may obtain an application for refund of the health insurance fee from the Student Health Insurance Office. Completed applications will be accepted at the Student Health Insurance Office during the first 15 calendar days of each semester (8 days of the variable length summer session.)

The above information is a summary of benefits and enrollment procedures for students and dependents. For specific information about the ISU Student Health Insurance Plan, call or write the ISU Student Health Insurance Office.

OFFICE OF DISABILITY CONCERNS

207A Hovey (309) 438-5853

This office assists persons with disabilities to integrate successfully into the University community as students, faculty, and staff. Persons with disabilities refers to individuals with sensory impairments, physical impairments, learning disabilities, emotional problems, drug abuse problems, spinal cord injury, cerebral palsy, arthritis, alcoholism, multiple sclerosis, spinal bifida, cardio-vascular problems, asthma, epilepsy, sickle cell anemia, and many others.

Services provided include, but are not limited to: readers, sign language interpreters, wheelchair pushers, tutors, brailists, and note takers. The office maintains a list of persons interested in being employed as Personal Care Assistants (PCA). Students with a disability requiring a PCA are responsible for securing their own PCA. The coordinator will meet with the student and the PCA to draw up the necessary contract. The office assists persons with a mobility-impairment with special needs regarding class registration and scheduling. Most services are provided by volunteers from the University and community. Persons interested in volunteering should contact the Office of Disability Concerns.

Students with disabilities should make an early contact with the Office of Disability Concerns to facilitate their successful integration into the University community. All information regarding a person and his/her disabilities is confidential. Students with disabilities are encouraged to contact the Coordinator of the Office of Disability Concerns, Hovey Hall 207, voice 309/438-5853 or TTY 309/438-8620 (Telephone for the Deaf).

SPEECH AND HEARING CLINIC

Fairchild Hall 211, (309) 438-8641

Students having speech and hearing problems may receive evaluation and therapy at the Speech and Hearing

Clinic, located in Fairchild Hall 211. The clinic also serves as a laboratory for students majoring in speech pathology and audiology. Hearing services include hearing tests, lip reading, auditory training, and advice concerning hearing aids.

Co-Curricular Opportunities and Services

STUDENT LIFE AND PROGRAMS

146 Braden Auditorium, (309) 438-2151

The Student Life and Programs Office is primarily concerned with encouraging the total development of students at Illinois State by coordinating and promoting educational, recreational, social, cultural, and entertainment programs that create opportunities for out-of-classroom interaction and individual growth. Through the office's professional staff and with the involvement of University faculty and staff, advisement and support is offered for all registered student organizations. The University recognizes the role organized activities serve in complementing the educational experience of students. Students are encouraged to participate in programs sponsored by the wide variety of organizations active on campus. Individual and group development is provided by means of a year-long, comprehensive series of workshops. The Office maintains a relationship with the social sororities and fraternities on campus as well as coordinates a variety of University-wide activities and performing events through involvement with the entertainment programming organizations. The coordination of the allocation for student activity fees is also performed by the Office. A description of the many organizations and activities on campus is provided in the *Student Handbook*, available in many University offices including Student Life and Programs.

STUDENT CLUBS, ORGANIZATIONS, AND ACTIVITIES

Students' academic interests are complemented by a wide variety of co-curricular activities available on campus. Many organizations offer students the opportunity for interaction and involvement. Students may demonstrate leadership, creativity, and initiative through active participation in the following student organizations and activities.

Student Body Board of Directors: The fulfillment of many student needs and interests can best be facilitated by other students. As the primary student organization representing all students, the Student Body Board of Directors promotes the concept of 'students helping students.' It is committed to serving, representing, and working for meaningful changes for students. Since all students are members of the Student Body, they are entitled to access to its services and are eligible for participation in its activities.

The Student Body Board of Directors works to coordinate and provide 'student helping student' services designed to fill those needs which cannot be met within the University or community. The Student Body Board of Directors attempts to coordinate, focus, and relay student interests to those who make decisions on matters regarding those interests. In addition, the Student Body Board of Directors has the responsibility to take an active role in bringing about changes to improve the environment in which the student learns, works, lives and grows.

To fulfill these functions, the Student Body Board of Directors offers various services such as Students' Legal Services, Tenant Union, Consumer Affairs, Affirmative Action, Information and Research, Book Exchange, and Voter Registration. In addition, the Student Body Board of Directors

coordinates elected representatives, staff members, student organizations, and volunteers, and appoints and nominates students for committee posts. It also monitors the student fee allocation process to ensure that fees are used to achieve the maximum benefit for students. Liaison relationships are maintained with the Academic Senate, Illinois Student Association, the Board of Regents, the Student Advisory Committee to the Board of Higher Education, the Normal Town Council, and major student organizations.

Association of Residence Halls: All students living in the residence halls are members of the Association of Residence Halls (ARH). The organization provides effective student input into residence hall policy formation, staff selection, room and board rates, renovations, food service, and other topics that affect residence hall students. The ARH Assembly consists of representatives selected by the student government of the various residence halls, with officers chosen by a student election during the spring semester. Each member of the Assembly serves on one of six standing committees including Policy Review, Services, Publicity, Food, Programming, and the Illinois State Alcohol Awareness Committee. Additionally, the Association has designated individuals to represent ARH on the Contract and Residency Review and the Room and Board Committees. All of the concerns, needs, and interests of residents are channeled through one of these committees.

ARH is involved with many activities, including task force trips to other Universities, and offers a wide range of programs and services. The ARH Program Board sponsors several social, educational, and cultural programs open to all residents. Some services provided by the ARH are Operation Identification, *What to Bring List* for freshmen, a Newsletter, winter storage for bicycles, and more. ARH is also affiliated with state, regional, and national organizations that have similar concerns.

If a student is interested in getting involved in ARH or would like to obtain further information, contact the ARH Office in Watterson Towers, North Tower, Formal Lounge Level (438-2015).

Black Student Union: The Black Student Union is responsible for developing and providing opportunities for Afro-American students to involve themselves in creating relevant cultural programs. Further, it is responsible for promoting positive identification, association, and relationship for Afro-American historical and contemporary culture. It provides an atmosphere conducive to the psychological and social needs of Afro-American students. The Black Student Union provides opportunities for the development of decision-making abilities and potential talents of students. The Black Student Union also provides a vehicle for students to understand their relationship to the total university community. Liaison relationships are maintained with the Student Affairs Office, Illinois Association of Black Students, and Midwest Association of Black Student Governments.

Student Communication Media: The *Vidette* newspaper is published daily by students to present important campus news and to reflect student life. Students interested in journalism can receive valuable experience in writing, makeup, and editing. The student editor appoints a staff of assistant editors and reporters. A faculty general manager supervises the publication.

WZND is a commercial AM/FM student-oriented radio station serving both the campus and the Bloomington-Normal community. Programs include locally produced news, sports, and public affairs, as well as ABC-FM national network affiliation. *WZND* is a campus organiza-

tion with membership open to students interested in all phases of broadcasting.

TV 10 News is a nightly television news program telecast from the ISU studios and carried to the Bloomington-Normal community through the local television cable system. It is produced by the Office of Public Affairs and the Department of Communication with professional direction. Students working on the program in news or technical positions may earn academic credit for their participation.

Types of Student Organizations:

- **Departmental:** Organizations in this category provide students an extra-curricular outlet to develop skills and learn of new developments in their particular major or minor field.
- **Entertainment:** These organizations provide a wide variety of programs for the student body such as concerts, movies, speakers, and theme weeks.
- **Ethnic:** These groups provide opportunities to explore cultural and social aspects of various ethnic backgrounds.
- **General Interest:** General interest groups offer students the opportunity to get involved in a wide variety of leisure activities that are not generally offered in any other category.
- **Honoraries:** These groups promote and reward scholastic excellence and deeper involvement in various academic areas.
- **Political Interest:** Involvement in politics-on campus as well as on the local, state, and national levels-is the intent of these groups.
- **Recreation Activities and Sport Clubs:** Through Campus Recreation and many clubs, opportunities are offered for participation in various recreational activities.
- **Religious:** Religious organizations offer students a spiritual as well as academic education in many denominations.
- **Residence Halls:** Governance of residence hall operations and promotion of cultural and social activities are two major areas represented by residence hall government groups.
- **Service:** These organizations provide service to the campus community and national charities through various philanthropic efforts.
- **Social Fraternities and Sororities:** These organizations promote the total educational development of the individual through the group concepts of brotherhood and sisterhood. All are local chapters of national organizations.

CAMPUS RECREATION

220 N. Main, (309) 438-8333

ISU Campus Recreation hosts an extensive program consisting of five divisions. The Informal Recreation Division provides scheduled open recreation hours in campus facilities in addition to special activities, including dancercise and Horton Nautilus Center. Non-credit instruction is available in a variety of exciting areas such as sailing and hot-air ballooning. A nominal fee is assessed to cover instruction and materials.

Intramural Sports runs an action-packed schedule each semester of competitive leagues and tournaments. Over 40 individual, dual, and team sports are featured for men, women, and co-recreational groups. Sport Clubs, formed by interested students, provide specialized competition as well as instructional opportunities for students. Current clubs include martial arts, soccer, weightlifting, cycling, sailing, and more.

The Outdoor Program, one of the nation's finest, provides students with an array of services, including the Outdoor Equipment Rental Center, Outdoor Adventure Trips, a complete Outdoor Reference Library, an outdoor skills series, and a boat concession. ISU also maintains a par 70, 18 hole Golf Course. A complete pro shop featuring fine equipment and clothing items, plus a light snack menu is available. Instruction, cart rental, and league play are available to beginners through professionals.

BONE STUDENT CENTER/BRADEN AUDITORIUM

Information (309) 438-2222

Bone Student Center provides facilities, programs and services, primarily for students, which complement the educational goals of the University. Included within the Center are a McDonald's and other restaurants, a bookstore and other merchandising centers, photo copying and word processing, banking and check cashing, lounge areas and multi-purpose rooms for student activities and programs. Adjacent to the Center are a Bowling and Billiard Center and a 500-space parking lot.

Braden Auditorium seats 3,457 on three levels. It is an academic and public service facility and an entertainment center for the University and the community.

Student Discipline and Grievance Procedure

STUDENT JUDICIAL OFFICE

Julian 117, (309) 438-8621

The Student Judicial Office provides administrative support for the Student Code Enforcement and Review Board (SCERB). SCERB is responsible for the review and enforcement of student regulations and the review of student grievances. For further information concerning student rights and responsibilities and SCERB, consult the *Student Handbook*, available through the Office of the Student Life and Programs in 146 Braden or the Student Judicial Office in Julian Hall.

ACADEMIC POLICIES AND OPPORTUNITIES

Academic Policies and Requirements

The University reserves the right to revise Academic Policies and Procedures as deemed appropriate. Changes in this catalog affect all students, unless otherwise noted, and take effect May 19, 1986.

University Grading System

Course Grades: Instructors assign a grade in each course for which the student is registered. The course instructor is responsible for correcting any error in grading. The grade point equivalents are 4 for A, 3 for B, 2 for C, 1 for D, and 0 for all other grades. The 0 value of F and WF are computed in the student's grade point average. The 0 value of grades I, AU, CR, CT, NC, WX, and WP are not computed in the student's grade point average. University grades assigned undergraduate courses are:

A	Excellent
B	Good
C	Satisfactory
D	Poor, But Passing
F	Failing. Assigned to students who are 1) enrolled in a course all semester but fail to earn a passing grade, or who 2) stop attending a class without withdrawing officially
I	Incomplete
AU	Audit
CR	Credit. Assigned to students who do satisfactory work in a course which is offered on a Credit/ No Credit basis only
CT	Credit. Assigned to students who earn an A, B, or C grade in a course which they have elected to take under the Credit/No Credit option
NC	No Credit. Assigned to students who 1) do not do satisfactory work in a course which is offered on a Credit/No Credit basis only and to students 2) who do not earn an A, B, or C grade in a course which they have elected to take under the Credit/ No Credit option
WX	Withdrawal. Assigned to students who officially withdraw from a course before the quality of work can be determined and before the dates specified in the withdrawal policy
WP	Withdrawal Passing. Assigned to students who officially withdraw from a course and who are doing satisfactory work at the time of withdrawal
WF	Withdrawal Failing. Assigned to students who officially withdraw from a course and who are not doing satisfactory work at the time of withdrawal

Incompletes: An incomplete (I) will be assigned to a student who is doing passing work but finds it impossible, because of reasons beyond his or her control, such as illness, to complete the required work by the end of the term.

The student must have attended class to within three weeks of the close of the semester or to within one week of the close of the summer session.

The instructor may specify the time by which the required work must be completed, which may be no later than the final class day of the corresponding term of the following academic year. For graduating students, incompletes must be removed at least six weeks before December graduation or spring commencement, or two weeks before August graduation. **Students may not graduate with incompletes on their record.**

When the incomplete is assigned, the student, faculty member, and the department chair must sign an incomplete removal form. The form will specify the date by which the work must be completed, the default grade (A, B, C, D or F) which will be assigned if the work is not completed by the specified date, and the nature of the required work. If the instructor fails to file the appropriate grade change by the specified date, the incomplete will lapse to the default grade specified.

Exceptions to this policy may be granted by the Assistant Dean of Undergraduate Instruction.

Auditors: An auditor does not participate in the activity of the class, but is expected to attend regularly. A student may register as an auditor in a class or classes if space is available. An Audit (AU) designation will appear on the student's transcript when the instructor certifies that the student has attended the class on a regular basis. If the student has not attended regularly, a WX will be recorded on the transcript after the instructor has notified the Office of Admissions and Records that the student has not attended regularly. To audit, a student must obtain an Auditor's permit from the Registration office, have the instructor sign it, and present the form at registration. Students must register to audit a course by the tenth day of classes in the semester, with any exception having the approval of the department chair in which the course is offered and the Assistant Dean of Undergraduate Instruction. The auditor fee is shown in the section on costs. Students who are registered for 12 or more hours for credit may audit courses without additional fees. Audited courses are considered part of the student's total load.

Credit/No Credit Courses: Certain courses in the University are offered on a Credit/No Credit basis only. For these courses, students receive a grade of CR (credit) or NC (no credit). The offering of a particular course on a Credit/ No Credit basis only must be approved in advance by the Provost.

Credit/No Credit Student Option (commonly called Pass-Fail): An undergraduate student (except a first semester freshman) who is not on scholastic probation may choose to register in some courses under an option that allows the student to be graded on the basis of CT (Credit)

or NC (No Credit) rather than on the basis of A, B, C, D, or F grades.

This Credit/No Credit option is designed to encourage students to enroll in courses they otherwise would not take. Some courses, therefore, including those in a student's major or minor, may not be taken on the Credit/No Credit option. Exceptions include courses in the student's major or minor field which are offered on a Credit/No Credit basis only. No more than 6 semester hours of work under the Credit/No Credit option may be taken each semester, with a maximum of 25 semester hours under the Credit/No Credit option presented for graduation. Although an entry of CT (credit earned under the option) or NC (no credit earned under the option) will be entered on the student's record, these entries are not used in computing the student's grade point average.

Students who plan to enter graduate or professional schools should exercise caution in taking courses under the Credit/No Credit option, because courses completed on a pass-fail basis may adversely effect graduate admission opportunities. Such students should consult their academic adviser prior to taking courses on a pass-fail basis.

A grade of CT is recorded when the grade submitted by the instructor is A, B, or C. A grade of NC is recorded when the grade submitted by the instructor is D or F.

A grade of WF is considered a failing grade in computing the student's GPA unless the student enrolled in the course for credit/no credit. If the student enrolled as credit/no credit, the WF grade is converted to NC.

A student electing the Credit/No Credit option should do so as part of the regular registration process. In no case may a student elect the option later than the tenth day of classes in the semester. Students who have elected the Credit/No Credit option may return to the letter basis of grading before the last date for withdrawing from a course, as specified in the *Class Registration Directory*.

Course Registration and Withdrawal Policies

Withdrawal Policy: Dropping a Course or Courses. The following policy applies when a student drops a course or courses, but not all courses. **Students are advised strongly to complete courses in which they are enrolled and not to withdraw from courses after the program change period unless absolutely necessary.** A student may withdraw from a course during the program change period (consult the *Class Registration Directory* for specific dates) without the withdrawal being indicated on the transcript. After the tenth day of classes but before the end of the sixth week of classes of the semester, the student withdraws from a class by reporting to the Registration Office. A withdrawal form will be completed, signed by the student, and the instructor will be notified of the withdrawal. **The student should keep a copy of this form.** After the sixth week of classes in the semester, a student must meet with the instructor of the course/s from which he or she is planning to withdraw, have a withdrawal form signed by the instructor, **and file the signed withdrawal form with the Registration Office within 24 hours.**

After the tenth day of classes, a student may officially withdraw from a course with a grade of WX at any time before the end of the sixth week of classes of the semester (before the end of the third week of classes of an eight-week course and before a proportionate time for a short course). Between the start of the seventh week and the end of the thirteenth class week (before the end of the sixth week of

classes of an eight-week course and before a proportionate time for an other short course), a student may officially withdraw from a course with a grade of WX, WP, or WF as assigned by the instructor. WX is given if the student withdraws before the quality of work can be determined; WP, if the student is passing at the time of withdrawal; and WF, if the student is failing. **A grade of WF is considered a failing grade in computing the student's grade point average.** A student should consult the *Class Registration Directory* and *Summer Sessions Schedule* for the specific withdrawal dates of a given term. Upon the written recommendation of a licensed physician or a clinical psychologist, a student may be granted permission to officially withdraw from a course for medical reasons at a later time than the dates specified.

A grade of F will be given to students who 1) withdraw from a course unofficially by not filing a signed withdrawal slip with the Registration Office, who 2) register for a course but do not complete course requirements, or who 3) withdraw from a course after the thirteenth week of classes (or comparable date specified above).

In unusual cases, exceptions may be granted by the Assistant Dean of Undergraduate Instruction.

Withdrawal Policy: Dropping all Courses: The following policy applies when a student drops all courses in which he or she is enrolled, which is known as *withdrawal from the University*. **Students are advised strongly to complete courses in which they are enrolled and not to withdraw from the University unless absolutely necessary.** Before the end of thirty (30) calendar days after the first regularly scheduled class day, a student reports to the Office of Admissions and Records to withdraw from the University. After that date, students contemplating withdrawal from the University must meet with the Assistant Dean of Undergraduate Instruction.

If a student's written request to withdraw from the University is granted by the Assistant Dean of Undergraduate Instruction, all grades will be assigned in the same manner and under the same provisions as the regular course withdrawal policy except that the student is not required to contact his or her instructors. Instead, the instructor of each course assigns a WP, WF, WX or letter grade as appropriate depending on the date and circumstances of withdrawal. If medical or other reasons make it impossible for the student to follow the usual procedures, a letter requesting withdrawal that explains the situation, with appropriate verification and the student's signature, will be sufficient. Whether in person or by mail, the withdrawal is processed by the Assistant Dean of Undergraduate Instruction. Withdrawals made by mail are addressed to the Assistant Dean of Undergraduate Instruction, Illinois State University, Normal, Illinois 61761.

Regardless of the circumstances of withdrawal, the student is responsible for returning any laboratory equipment and library materials. The student will pay for any parking fines and remove the parking decal from any registered vehicle. The student will contact the Office of Residential Life to obtain clearance from room and board obligations and to arrange for vacating the residence hall room. The student should arrange with the Financial Aid Office to place any scholarship on leave or cancel it and make arrangements for future financial assistance. Arrangements for payment of loans must be made in the Bursar's Office.

A grade of F will be given to students who 1) do not attend their courses but fail to withdraw from the University before the specified final withdrawal date and to students who 2) register for a course but do not complete course require-

ments. In unusual cases, exceptions may be granted by the Assistant Dean of Undergraduate Instruction.

Repetition of Courses Policy: A student may repeat a course only once; that is, if a student completes a course, **or drops a course after the tenth-day of classes** receiving a grade of WX or WP or WF, he or she may enroll officially in that course one additional time, and the repetition must occur at Illinois State University.

When a course that is acceptable toward graduation has been repeated, both the original and the subsequent grade (A,B,C,D,F, WF) are included in the student's grade point average. *The original grade will not be removed from the student's transcript and the credit hours will count only once toward meeting minimum hourly requirements for graduation. Students who wish to repeat a course must do so at Illinois State University; courses taken at another college or university may not be used to repeat Illinois State University courses.*

Course Load Policy: A full-time undergraduate student carries between 12 and 17 hours. A student may carry a maximum of 17 hours each semester. A student wishing to carry more than 17 hours in a semester may seek permission to do so from the chair of his or her major department. The granting of this permission will depend on the student's scholastic record. A freshman may not carry over 17 hours during his or her first semester.

Note: First-term freshmen with ACT composite scores of 16 or lower (or comparable SAT scores) and students on academic probation may not carry more than 14 credits. Students who are employed more than 15 hours per week should consider reducing their course load correspondingly.

A student must have the permission of the Assistant Dean of Undergraduate Instruction to take any classes, including extension or correspondence, at another college or university with concurrent registration at Illinois State University.

Class Attendance Policy: The attendance policy of the University is based on two principles: first, students are expected to attend class regularly; and second, students are primarily responsible to the instructor in matters pertaining to class attendance. Every student will be held responsible for class attendance and successful completion of academic work. Attendance regulations are intended to encourage student maturity and are based on the assumption that academic success is the student's primary goal in college.

The University will accommodate, within reason, students in circumstances where a religious observance requires absence from class. Students who are unable to attend class or take examinations for religious reasons should consult their instructors in advance about alternative arrangements.

Class Registration Changes: Detailed instructions for registration for courses are published each semester in the *Class Registration Directory*. There are two ways of registering for courses for the fall or spring semesters: (1) advanced registration, which is conducted during the preceding semester, and (2) the registration period provided just before the start of classes each semester. Students are encouraged to register during the advanced registration period because of the wider selection of courses open to them at that time. New freshmen and transfer students may register during Summer Preview and are encouraged to do so because of the wider selection of courses open to them at that time, or they may register just before the opening of the semester.

A student who is already registered for a particular semester and desires to change his or her program before the deadline for doing so should follow the instructions in the *Class Registration Directory*.

Academic Requirements

Class Standing: Students in a bachelor's degree program are classified as freshmen, sophomores, juniors, and seniors. A student must have completed 30 semester hours to be classified as a sophomore, 60 hours to be classified as a junior, and 90 hours to be classified as a senior. Students not working toward a degree at Illinois State are listed as Unclassified Students.

Major Field or Fields of Study: Students may select a major field of study at the time of admission unless the field they choose has special admissions standards. Students who are undecided about a major field are classified as General Students and are encouraged to select a major field of study as soon as possible. The major and minor fields of study available at Illinois State are described later in the Catalog.

A student may complete the requirements for two majors, both of which will be identified on the student's transcript. When a student double majors, the student indicates only one major for purposes of registration. The second major is indicated by the student to the Office of Admissions and Records when he or she submits the Application for a Bachelor's Degree.

Unless otherwise specified in a particular program, students may use a specific course to meet requirements for a major, second major, minor, and second minor.

Change of Major: A student wishing to enter a major or change majors reports to the Office of Admissions and Records. To enter a given major field, a student must consult the chairperson of the department offering the major and obtain signed approval on a Change of Major form. In some areas, entering majors may be restricted by enrollment capacity or other limitations. Students should consult the major program descriptions for any admission requirements to a particular major.

Dismissal from Major: A student who is placed on academic probation for a second or subsequent time will be dropped automatically from his or her major. Also, students who fail to maintain the specific grade point average required by their major may be dismissed from that major. The student dropped from the major will be classified as a General Student and will receive academic advisement from the Academic Advisement Center. In order to become a major in a department after being dropped, a Change of Major Form must be completed and the student must be accepted by the department in which he or she desires to be a major.

Minor Field or Fields of Study: Students often elect a minor field of study. A student may elect to complete the requirements for two minors, both of which will be identified on the student's transcript. There are no special procedures for admission to most minor programs, but students are encouraged to consult with the academic department(s) in which they are minoring for advisement. Students indicate minors to the Office of Admissions and Records at Registration or when he/she applies for the Bachelor's degree. Unless otherwise specified in a particular program, students may use a specific course to meet requirements for a major, second major, minor, and second minor.

Grade Point Average: In order to be eligible for graduation, a student must have a minimum grade point average

of 2.0 (C) in all courses taken at Illinois State University for which grades of A, B, C, D, F, or WF are assigned. Failures are considered in the total number of semester hours taken in computing the grade point average. The table below illustrates the counting of grade points to determine the GPA (Grade Point Average).

Grade Course	Grade	Sem. Hrs. Enrolled	Sem. Hrs. Earned	Sem. Hrs. For GPA	Grade Points
POS 105	D	3	3	3	3
BSC 145	CT	2	2	0	0
COM 110	A	3	3	3	12
MUS 139	I	1	0	0	0
CHE 102	B	3	3	3	9
HPR 130	WX	1	0	0	0
HIS 135	WF	3	0	3	0
THE 150	NC	1	0	0	0
		17	11	12	24

The grade point average is computed by dividing grade points earned by semester hours counted for GPA. In the case above, a GPA of 2.0 is calculated by dividing 24 (total grade points) by 12 (semester hours for GPA). Grades of WX, WP, CT, CR, I, and NC do not affect the grade point average. WF grades are counted as equivalent to F grades.

Academic Good Standing: To maintain academic good standing, a student must achieve a minimum cumulative GPA of 1.8 if he or she has completed less than 31 semester hours, and a minimum cumulative GPA of 2.0 if he or she has completed 31 semester hours or more. The number of **semester hours completed** includes all college work done by the student. However, **only the grades earned at ISU** are used in computing the GPA.

Satisfactory progress for financial aid purposes is described on page. "Academic Good Standing" status is sufficient for continued enrollment in the University and may be necessary for eligibility to serve on various University committees and for participation in some co-curricular activities. Academic Good Standing status does NOT guarantee admission to, or retention in, specific departments or programs. Information concerning admission to, and retention in specific programs is listed in this catalog under the appropriate departmental or program descriptions.

Academic Probation: Students who fail to meet the above requirements are placed on academic probation for the following term. Information about the probation regulations or a student's own probation status may be secured from the Assistant Dean of Undergraduate Instruction, Hovey 404.

Academic Dismissal: At the end of any term when a student goes on probation a second or subsequent time, he or she is automatically dismissed from the University.

Academic Reinstatement: Students dismissed from the University may petition the Reinstatement Committee for permission to continue. Applications for reinstatement are available from the Assistant Dean of Undergraduate Instruction, Hovey 404.

A student denied reinstatement should expect to remain out of school for at least one calendar year before the Reinstatement Committee will act on a request for reinstatement. When brought to the attention of the Committee, an error in the record or new evidence of academic capability (for example, excellent grades achieved in a semester's work at another school) will result in a review of the student's case. Repeated failures to do satisfactory work may result in **permanent exclusion** from the University.

New Start Policy: Students who left ISU with less than a 2.0 GPA may return and begin with a new grade-point

average calculated from the point of their reentry in three limited situations:

1. **Adult Learner Option:** Former ISU students at least 25 years of age may reenroll through this program as General Students. If they have attended any college (including ISU) in the three calendar years preceding re-enrollment at ISU, they must have achieved at least a 2.0 average for that college work attempted. Transfer credit will be evaluated and appropriately awarded and a new ISU GPA will be calculated from the time of admission to the New Start-adult learner program.
2. **Veteran's Option:** Students who complete at least a one-year tour of duty and present a discharge for reasons other than dishonorable, and whose first attendance at a college or university after discharge is at ISU, are admitted. Students who are veterans may reenter ISU as General Students. A cumulative GPA will be calculated from the point of admission to the New Start-veteran's program.
3. **Community College Transfer Option:** Former ISU students who earned 60 or fewer hours at ISU prior to enrolling at a community college and who subsequently earn at least 30 hours **and** a currently accepted associate degree from a community college with at least a 2.0 average may reenter as a General Student. The cumulative GPA will be calculated from the point of readmission. Transfer credit will be evaluated and appropriately awarded.

A student may exercise the New Start option only once. Such students will have 'New Start' indicated on their transcript. New Start will affect only the cumulative GPA. All grades earned at ISU, regardless of when earned, will be used in the calculation of the major GPA, the minor GPA, and graduation honors. Students who reenter under the New Start Policy must follow a catalog which contains this policy (1985-86 or later). To be eligible for graduation, a student must earn at least 30 hours at ISU after exercising this option.

Undergraduate Degree Requirements

Undergraduate degrees available at Illinois State University include the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Education, Bachelor of Fine Arts, Bachelor of Music, and Bachelor of Music Education degrees. When applying for graduation, the student indicates the specific degree desired which he or she is qualified to receive. Other requirements are specified for each degree below.

Bachelor of Arts (B.A.) Degree: University Studies requirements; General requirements for graduation; Field of study requirements; 32 semester hours in humanities and social sciences (Consult the Office of Admissions and Records, Undergraduate Evaluation, or the Academic Advisement Center for specific courses that apply to this 32-hour requirement); and foreign language, with at least one semester at the 115 level or higher taken in college. Foreign Languages classes taught exclusively in English are excluded. The Department of Foreign Languages establishes high school and proficiency equivalents. Students for whom English is not their native language can meet the Foreign Language requirement 1) by taking COM 110 and two English courses or 2) by meeting the 115 level requirement in a language other than their first language.

Bachelor of Sciences (B.S.) Degree: University Studies requirements; General requirements for graduation; and Field(s) of study requirements.

Bachelor of Science in Education (B.S. in Ed.) Degree: University Studies requirements; General require-

ments for graduation; Teacher education approved major; and Professional education requirements.

Bachelor of Fine Arts (B.F.A.) Degree: University Studies requirements; General requirements for graduation; and Art field of study requirements for B.F.A. degree.

Bachelor of Music (B.M.) Degree: University Studies requirements; General requirements for graduation; and Music field of study requirements for B.M. degree.

Bachelor of Music Education (B.M.E.) Degree: University Studies requirements; General requirements for graduation; Music field of study requirements for B.M.E. degree; and Professional Education requirements.

Graduation Requirements

Meeting graduation requirements is the individual responsibility of each student. To assure the fulfillment of graduation requirements, the student and his or her adviser should check the student's program of courses frequently. The following graduation requirements apply to all students. All references to hours are to semester credit hours.

1. **Total Hours:** The actual hour requirement for an undergraduate degree varies by the program or combination of programs a student elects. A student must have a minimum of 120 hours of credit acceptable toward graduation. Some courses, which are noted in the course descriptions, may not count toward graduation. There are some curricula or combinations of fields that require additional hours. If all specified requirements are completed with fewer than 120 hours, a student must elect sufficient course work to total at least 120.
2. **University Studies:** University Studies hours must total at least 48 hours, excluding courses taken in the student's major department, distributed over the eight areas described in the Catalog. A transfer student, who is admitted to the University from a public community college in Illinois and who has completed an Associate Degree in a baccalaureate-oriented sequence, will be considered to have met the University Studies requirement; other transfer students must complete the regular University Studies program. See the University Studies section of the Catalog for specific requirements.
3. **Major-Minor Options:** Liberal arts or non-teacher education students who are candidates for B.S. or B.A. degrees must complete a major field of study. Completion of a second major, minor, and second minor is optional. Teacher education students who are candidates for a B.S., B.A., or B.S. in Ed. degree must complete professional education requirements and a major approved for teacher education. Some teacher education programs require the completion of a minor.
4. **Senior College Hours:** The senior college hours (courses numbered 200 or above) must total at least 42 hours. Coursework transferred from other colleges and universities is not counted as senior college credit if freshmen and sophomores are regularly permitted to enroll in such work. **No credit from two-year colleges may be counted as senior level.**
5. **Grade Point Average:** Unless otherwise specified in a specific program, the grade point average for all courses taken at Illinois State University must be 2.0 (C) or higher. In addition, the student must have a grade point average of 2.0 (C) or higher in the courses required in the major and the minor if the student has a minor.
6. **Removal of Incompletes:** Students may not graduate with incompletes on their record. Each incomplete grade (I) must be removed at least six weeks before December

graduation or the Spring commencement, or two weeks before August graduation.

7. **Residence Requirements:** Unless otherwise specified in a specific program, at least 30 of the last 60 hours completed toward the baccalaureate degree must be ISU hours.
8. **Constitution Examination:** Each student must pass an examination on the Constitution of the United States, the Constitution of the State of Illinois, and the proper use of the American flag. The examination is given on different dates throughout the year; for specific dates contact the Office of Measurement and Evaluation in Julian Hall. A student may meet this requirement by successful completion of Political Science 105 or by presenting certification of having passed an appropriate examination at another accredited Illinois college or university.
9. **University Writing Examination:** Each student graduating under the requirements of the 1984-5 or subsequent catalogs must demonstrate writing competence by passing the University Writing Examination. The examination should be taken after the completion of 45 semester hours and before the completion of 75 semester hours. At least 15 semester hours must have been completed since the satisfaction of the freshman English requirement. Transfer students with more than 75 semester hours must take the examination before the end of their first term at ISU. A fee will be charged to cover the cost of the examination.
10. **Correspondence and Extension Hours Limit:** ISU does not offer correspondence courses. A student may not present more than 32 hours of extension and correspondence credit from other institutions for graduation, of which not more than 16 hours may be correspondence hours. Illinois State University does not distinguish between on-campus and off-campus courses. Therefore, all hours earned in Illinois State courses apply toward graduation unless specifically noted otherwise.

Catalog Requirements

For a student who attends at least one term of each academic year, graduation requirements are specified in the catalog for the year he or she entered the University. If attendance is not continuous, a student must meet the requirements specified in the catalog in effect when he or she reenters the University. If such a student continues in the curriculum chosen originally, the hours earned in meeting the requirements of an old program will apply to the hour requirement of a revised program. In all instances, the University may adjust graduation requirements to ensure that each graduate of a teacher preparation curriculum meets the course requirements for an Illinois Teaching Certificate.

A student who transfers from an Illinois public community college to this University may choose to meet graduation requirements specified in the Illinois State University catalog in effect at the time the student entered the community college if (1) attendance was not interrupted, and (2) transfer to Illinois State University occurred within nine months of attendance at the community college.

Since University programs are constantly evaluated and improved, a student may graduate under new requirements published while he or she is in attendance at the University. A student who changes to new catalog requirements, however, must meet all the requirements in the new catalog.

Graduation Procedures

Application for Graduation: During the early part of his or her Senior year, the student must submit an *Application for Bachelor's Degree* to the Office of Admissions and Records. Each student should apply for graduation on or before the date specified in the *Class Registration Directory* and in the University Calendar. The student pays a \$15 graduation fee when applying for graduation, unless the fee is covered by a State Scholarship.

Senior Evaluation: After the student has submitted the Application for Bachelor's Degree, the Office of Admissions and Records will provide a Senior Evaluation, informing the student of graduation requirements still to be fulfilled.

To determine specific program requirements (in addition to the general requirements for graduation stated above), a student should consult the following sections of the catalog: (1) the University Studies Requirements; (2) the specific requirements for the major and minor fields of study; and, if the student seeks teacher certification, (3) the University-Wide Teacher Education Program Requirements information provided in the College of Education section of the Catalog.

Commencement: Degrees are conferred and diplomas awarded after the close of each semester and the summer session. Commencement exercises are held each May at the end of the second semester. Undergraduate students completing requirements during the fall or spring semester prior to Commencement as well as those who expect to complete degree requirements at the close of the summer session following commencement may participate in Commencement exercises.

Second Bachelor's Degree

A student who has already received one bachelor's degree from Illinois State University, or from another college or university accredited for baccalaureate degrees by the appropriate regional accrediting association, may receive a second bachelor's degree at Illinois State University. All specified requirements at the time of admission to the program for the second degree must be met, and the program of studies completed for the second degree must include at least 32 hours of coursework taken after the granting of the first degree of which 30 hours must be taken in residence at ISU. At least 24 of the 32 hours offered toward the second degree must be senior college level (courses numbered 200 and above).

Proficiency Examinations

Students at Illinois State University may receive university credit by examination through the following programs: CLEP General Examinations, Departmental Proficiency Examinations, CLEP Subject Examinations, and the Advanced Placement Program. Students and prospective students are advised to plan their course work and examination attempts carefully because they may not receive credit by examination in a course in which they have been enrolled on the tenth day of classes.

CLEP General Examinations: Illinois State University grants credit by examination toward University Studies for the College Level Examination Program under the following guidelines:

- 1. A student may receive credit for a maximum of eighteen semester hours credit through CLEP General Examinations.
- 2. A student will be awarded three semester hours credit toward graduation and University Studies requirements for each scaled subscore of fifty (50) or better on the Humanities, Natural Sciences, or Social Sciences and History General examinations passed. Credit would be awarded as follows:

HUMANITIES

- 3 hours Fine Arts (Group VI)
- and/or 3 hours Literature (Group II)

NATURAL SCIENCES

- 3 hours Biological Sciences (Group III)
- and/or 3 hours Physical Sciences (Group III)

SOCIAL SCIENCES AND HISTORY

- 3 hours Social Sciences (Group V)
- and/or 3 hours History (Group II)

A student must receive a score of fifty (50) on each of the six subtests in order to receive the full eighteen hours of credit. Credit is not available for the English Composition or Mathematics General Examination.

- 3. A student who desires to take the CLEP General Examinations should do so before enrolling for classes at the University.

- 4. Credit earned through the CLEP General Examinations shall count toward University Studies and graduation requirements only. A student may not use the CLEP General Examinations to raise grades or remove failures in courses already taken. All credit for CLEP General Examinations shall be considered credit at the 100 level.

- 5. A student who is awarded credit in one or more areas of the General Examinations should consult with his or her adviser to select other appropriate basic and advanced courses.

- 6. A student may not receive credit for both an area of the CLEP General Examinations and a Departmental Proficiency Examination related to that area. For example, a student who receives credit for a General Examination in the Fine Arts area may not receive credit for a Departmental Proficiency examination in the Fine Arts area. Also, credit will not be awarded for the General Examination areas in which credit is earned through Advanced Placement Examinations or CLEP Subject Examinations.

- 7. Students may take the CLEP General Examinations at ISU at times scheduled by the Office of Measurement and Evaluation or any CLEP Open Test Center. A student may contact the Office of Measurement and Evaluation (115 Julian Hall, (309) 438-2135) for further information.

A student who takes the CLEP examinations is responsible for the cost of the examination.

Departmental Proficiency Examinations: Departmental Proficiency examinations are provided in most 100-level and a limited number of 200-level courses. The purposes of the examinations are to allow students to receive credit for knowledge acquired previously and to allow students to enroll in more advanced courses or to add breadth to their academic programs. Proficiency examinations are optional and recommended only for students who are unusually skilled in the discipline in which the examination is taken. Specific information about the nature of a given examination should be obtained directly from the appropriate departmental office. Below are University policies and procedures relating to proficiency examinations:

- 1. The nature and content of each proficiency examination shall be determined by the department in which the course is offered. Standards of performance required for receiving credit in a given course also shall be determined by the department offering the course; the level and quality of work required for satisfactory performance on a proficiency examination is equivalent to that required for a grade of C in the course.

- 2. Academic departments shall provide proficiency examinations in most 100-level courses that are regularly listed in the catalog and the *Class Registration Directory*. Students will find a list of courses in which proficiency examinations are offered in the *Class Registration Directory*.

3. A description of each proficiency examination should be available in the department offering the examination. Students should contact the appropriate department chairperson for information about a specific examination.
4. All ISU students are eligible to take proficiency examinations; however, students who have not completed twelve hours of accredited college or university course work need written approval of the chairperson of the department in which the course is offered.
5. Letter grades will not be assigned for proficiency examinations; therefore, the grade point average will not be affected.
6. Credit earned in proficiency examinations may not be used to raise grades or remove failures in courses in which a student has been enrolled previously.
7. No course credit will be awarded for a proficiency examination which is at a lower level than a course previously taken or one which substantially duplicates the content of a course taken previously.
8. A student may take a proficiency examination only once.
9. A student may register for only one Departmental Proficiency examination each semester **unless** examinations are approved in writing by the chairs of the departments in which the courses are being offered.
10. Handicapped students should notify the appropriate departmental office of the need for any special accommodations prior to the date of the examination.
11. A student should register for an examination by returning the completed application form from the *Class Registration Directory* to the Assistant Provost for Undergraduate Instruction, Hovey 413.

English Composition Proficiency Option: Students with ACT English scores of 26 (SAT Verbal 600) or above may earn three hours of honors credit for English 101 by doing the following:

- A. Earning a grade of C or better in one of the following English courses: 214, 215, 216, 217, 218, 219, 222, 223, 231, 232, 233, 234, 236, 252, 255, 284, 285, 286 **and**
 - B. Completing a semester of tutorials (one hour per week) in the University Writing Center during the semester in which the 200-level course is taken.
- Students wishing to take advantage of the Proficiency option should consult the Department of English, the Academic Advisement Center or the Honors Program.

CLEP Subject Examinations: In addition to the opportunities provided by the CLEP General Examinations described above, several departments grant credit by examination in specific subject areas covered by CLEP Subject Examinations. Courses approved for credit under this program are History 123 and 124, Mathematics 145 and 146, Political Science 105, Psychology 111, and Sociology 106. Credit may also be earned and applied towards the requirements in the Medical Technology program for acceptable levels of performance in Clinical Chemistry, Hematology, Immunohematology/Blood Banking, and Microbiology.

The Measurement and Evaluation Service at Illinois State University can provide information about test dates and fees.

Advanced Placement Program: The Advanced Placement Program is sponsored by the College Entrance Board. The examinations are administered at designated high school testing centers.

A student who has taken Advanced Placement Program examinations should request that his or her scores be sent to the Office of Admissions and Records at Illinois State University. To request grade reports for Advanced Placement Examinations completed, a student should write to

Advanced Placement Exams, Box 977-IS, Princeton, N.J. 08541. In making the request, the student should include name, sex, date of birth, the year in which the examination was taken, and the name and identification number of the college to which the grade report should be sent. Illinois State University's identification number is 1319. The College Board currently charges \$4.00 for this service. Students will be awarded college credit or exemption as indicated below.

Special Academic Opportunities

Honors Program

Corner of North Street and Fell, (309) 438-2559

The Honors Program offers highly talented students special opportunities that will enhance their educational growth. Close personal attention is provided through specialized advisement, early registration, small honors sections, in-course honors, individualized programs, research, and independent study opportunities.

Incoming freshmen are invited into the Honors Program based on high school rank, A.C.T. or S.A.T. score, and extracurricular activities. Students who demonstrate exceptional academic promise may apply for early admission to the University and to the Honors Program at any time before high school graduation. Students already enrolled in the

University and transfer students with a grade point average of 3.3 or higher may be admitted to the Honors Program.

Lower Division Honors: The Honors Program offers honors sections in a number of classes in the University Studies program. Honors sections are designed to promote individual development. They are taught by some of the best faculty, class sizes are small, and discussion is encouraged.

In recognition for work in Lower Division Honors, a student may earn the Certificate in University Honors upon completion of 12 hours of Honors work including an Honors Colloquium. The student must have an "A" or "B" in these courses, a 3.5 overall grade point average and have completed at least four semesters of work at Illinois State University. The designation is recorded on the student's transcript and a certificate is awarded.

Departmental Honors: Graduates of the Honors Program who successfully complete a sequence of work beyond requirements in their major will have an honors designation included on their transcript and diploma. Departmental Honors are currently offered to students majoring in Accounting, Agriculture, Anthropology, Applied Computer Science, Art, Biology, Business Education and Administrative Services, Chemistry, Criminal Justice Sciences, Early Childhood Education, Economics, Elementary Education, English, Finance and Law, Foreign Languages, Geography/Geology, Health, Physical Education, Recreation and Dance, Health Sciences, History, Home Economics, Industrial Technology, Junior High Education, Mass Communication, Mathematics, Music, Philosophy, Physics, Political Science, Psychology, Special Education, Speech Communication, Speech Pathology and Audiology, Sociology, Social Work, and Theatre. Students should consult departmental offices or the Honors Office for the specific requirements necessary in each department. The designation is recorded on the student's transcript and diploma and is awarded at graduation.

University Honors Scholar: Graduates of the Honors Program meeting the following criteria will have the designation **University Honors Scholar** placed on both their transcript and diploma:

- Completion of at least 24 hours of Honors work with no grade lower than 'B'.
- A minimum 3.65 grade point average.
- Four semesters in residence at ISU.
- Two Honors experiences from the following:
 1. Honors Colloquia
 2. Honors undergraduate research participation (IDS 285)
 3. Completion of Departmental Honors.

Residential Program: Students within the Honors Program who live in Walker Hall may tailor their education to their individual needs through the Faculty Colleague Program and Individualized University Studies. The Faculty Colleague option allows for the greatest flexibility in planning an individual four-year plan of study, in consultation with the Honors Office and a faculty member. The Individualized University Studies option allows a student to tailor most University Studies requirements to individual needs. Further information about the Honors Program may be obtained by writing the Director of Honors.

Academic Honors

Dean's Lists: Undergraduates who meet high academic standards, as established by the College of their major, are included in a Dean's List issued each semester. Eligible students must complete 12 or more graded semester hours. Courses completed after the official end of the semester and courses taken with a Credit/No Credit option will not be counted for this purpose.

The Dean's List for the Colleges of Applied Science and Technology, Arts and Sciences, Education, and Fine Arts will include those students whose grade point averages place them among the top ten percent of those students majoring within the College. The Dean's List in the College of Business will include only undergraduate students majoring in business who have completed 12 or more semester hours with an overall semester grade point in the top ten percent, and at least 3.33 grade point average for all courses taken during the semester. Students whose majors do not place them in one of the five colleges and whose grade point averages are within the top ten percent of the University are identified on the list of the Dean of Instruction.

Degrees with Distinction: A student must have completed at least 50 semester hours at Illinois State University to be eligible for a degree with distinction. Students who have an accumulated grade point average of 3.90 through 4.00 are graduated *summa cum laude*; those with a GPA of 3.80 through 3.89 are graduated *magna cum laude*; and those with a GPA of 3.65 through 3.79 are graduated *cum laude*. Students who qualify for these degrees with distinction wear a neck cord as part of their academic gown at commencement and their names appear in the commencement program as being awarded degrees with distinction. All grades earned at Illinois State University are counted in computing the grade point average, except those earned during the Spring semester if graduation requirements are completed then. Transcript notations of graduating *cum laude*, *magna cum laude*, and *summa cum laude* are based on the total grade point average, including the final semester.

Bone Scholars: The designation of Bone Scholar is the highest academic distinction that can be achieved by undergraduate students at Illinois State University. Several students are designated annually as Bone Scholars, in honor of former President Robert G. Bone. Bone Scholars are students who combine superior academic records with full personal development through campus and community activities. Nominations to this honor are made by faculty members and selection of new Bone Scholars is conducted by the Honors Program.

Professional Practice

300 North Street, (309) 438-2200

Professional Practice (Cooperative Education and Internship) is a university-wide program that provides students with an opportunity to earn academic credit while gaining professionally supervised work experience in business, industry, government, and other agencies and organizations. COOPERATIVE EDUCATION, one form of Professional Practice, is an educational pattern which permits students either alternating or parallel periods of campus study and paid educationally related work experiences. INTERNSHIP, the other form of Professional Practice, is usually unpaid and typically occurs only once during a student's undergraduate career.

Students interested in enrolling in Professional Practice (Cooperative Education or Internship) should contact their department coordinator or the University Professional Practice Office early in their undergraduate career so that credit-generating work experiences can be arranged well in advance of placement.

Undergraduate Teaching Assistants

Undergraduate Teaching Assistantships (UTA) are available in nearly all departments of the University to juniors and seniors who have demonstrated excellence in a particular discipline and high overall scholastic achievement.

The purpose of the program is to assist the faculty in the improvement of instruction and to provide UTAs with a valuable learning opportunity. The responsibilities and nature of the UTA assignments are determined by the departments and colleges. The maximum financial compensation is \$495 a semester, or \$990 for the academic year. Some departments provide the opportunity for credit to be earned by the UTA under a General Offerings course (291 Seminar: Undergraduate Teaching Assistants). Three hours is the maximum amount of this credit that may be allowed for graduation. UTA application forms are available in the departmental and college offices.

High Potential Students' Program

411 W. Willow, (309) 438-7641

The High Potential Students' (HPS) Program has as its objectives the enrollment and retention of students who, without the financial, academic, tutorial, and counseling assistance provided by such a program, would have fewer opportunities for successful college experiences.

While the majority of the program's participants are regularly admissible to the University, a small number of special admissions may be made by the program each year. Criteria for admission of students not regularly admissible include personal interviews, past academic performance, recommendations by school officials, standardized tests, and writing samples. Potential for success is the major determinant for all admissions to the HPS program.

A variety of academic support services are available for students in the HPS Program, including special courses in English and Mathematics for participants whose backgrounds and test performances indicate the need for such courses. For further information contact the HPS office.

Minority Professional Opportunities (MPO) Services

411 W. Willow, (309) 438-7641

MPO is a component of Special Services which is structured to acquaint students with graduate and professional schools and professions traditionally underrepresented by minorities. New freshmen with an ACT score of 20 or better, or a combined SAT score of 910 or better may participate. Continuing students with at least a 3.0 GPA may also participate. Academic, career, and personal advisement, as well as scholarships, special courses, programs, and activities are offered to MPO participants. Activities may include visits to college campuses, museums, cultural activities, and attending job fairs. Workshops may include professional vocabulary development, listening comprehension, and leadership training. The MPO Mentorship Program is designed to pair students with administrators and/or faculty for one-on-one professional development.

Special Services for Disadvantaged Students

411 W. Willow, (309) 438-7641

The Special Services for Disadvantaged Students Program, supported by Illinois State University and the U.S. Department of Education, was developed to improve students' chances for academic success and retention to graduation. Participation is limited to economically and educationally disadvantaged students.

A variety of academic support services are provided for program participants. In addition, each student participates in an academic orientation program and works with a Student Academic Assistant to understand University policies, procedures, and expectations.

Students interested in the program may request information from the Special Services Program office.

International Studies

140 Stevenson Hall, (309) 438-5365

The Office of International Studies provides services for students and faculty, foreign students, residents of International House, and participants in the National Student Exchange. It also assists academic departments with intercultural and comparative programs.

The Office of International Studies, located in 140 Stevenson Hall, has current information on student travel and study abroad. A reference library outlining foreign opportunities is available. The Office of International Studies also serves as a meeting place for students and faculty who are planning trips abroad or have recently returned.

Study Abroad: In keeping with the tradition of a liberal education, Illinois State encourages qualified students to consider studying in another country. The purpose of study abroad is to enable the student to gain a direct understanding of the intellectual and cultural achievements of another culture. In this way, study abroad may contribute toward intelligent citizenship in the world community. Academic programs for a summer session, a semester, or a year abroad are available to Illinois State students.

The University operates six study centers abroad. These centers are located in Salzburg, Austria; Grenoble, France; Brighton, England; Stirling, Scotland; Florence, Italy; and Nagoya, Japan. The center in Salzburg is a joint undertaking with Northern Illinois University. The programs at these centers are designed to be a continuation and enrichment of a student's regular on-campus academic program. Students who are accepted in these programs remain full-time students at Illinois State and all courses offered at the centers are part of the ISU curriculum. Thus, students at these centers carry a full academic load for a semester or a year and retain full status as regular students at ISU. Usually, one ISU faculty member resides at each center, serving as both instructor and counselor. The major part of the teaching, however, is done by instructors from the host university who lecture in English.

In addition, there are opportunities to study in other countries. Through ISU's membership in a consortium of universities for international education, individual arrangements can be made for students who wish to study in countries other than France, Austria, Italy, Great Britain, and Japan. Most of the courses offered abroad meet University Studies or major/minor field requirements. The sophomore and junior years usually offer the greatest curricular flexibility for those who wish to study abroad. Anyone interested in study abroad should consult with advisers in the Office of International Studies.

Numerous summer opportunities are available for study and service abroad. Study programs are offered in foreign languages, art, music, education, history, political science, economics, geography, agriculture, business, and sociology. Summer programs of study and service have, in recent years, taken students to Europe, Asia, the Near East, and Latin America.

Foreign Student Advising: The International Studies Office also provides services to all students who are citizens of other countries. The foreign student adviser provides assistance to foreign students who must comply with U.S. Immigration and Naturalization regulations, coordinates campus and community resources and services available to foreign students, and interprets foreign students' needs and problems to the institution's officials, faculty, students and community. The adviser assists with

admissions, personal and academic problems, financial aid, hospitality, and housing. All international students enrolling in the University for the first time should contact the Office of International Studies in Stevenson Hall as soon as possible following their arrival on campus.

International House: International House is a coeducational residence and academic program center for both American and international students. The purpose of the House is to promote cultural interaction and international understanding through social and educational programs. This setting provides opportunities to develop friendships and to encourage mutual respect among students of diverse backgrounds and cultures.

National Student Exchange

140 Stevenson Hall, (309) 438-5365

In order to make possible an educational experience in cultural and geographic circumstances considerably different from those of Central Illinois, Illinois State University developed the National Student Exchange. Sophomores and juniors with a 2.5 cumulative grade point average may study for up to one year at any of the public colleges and universities in other states listed below while paying ISU's tuition or costs equal to what an in-state resident of that state would pay. In some cases, scholarship aid may be used. Applications are available between October 1 and March 1.

The exchange of students among institutions is intended to enrich the educational experience of those individuals traveling to distant campuses and of those of the host institutions who learn from incoming students. Institutions involved in this exchange are Alabama State University, Boise State University (Idaho), Bowling Green State University (Ohio), California State College, Bakersfield, California State University, Chico, California State University, Fresno, California State University, Northridge, College of Charleston (South Carolina), College of the Virgin Islands, Eastern Connecticut State University, Eastern Montana College, Eastern New Mexico University, Eastern Oregon State College, Fort Hays State University (Kansas), Humboldt State University (California), Illinois State University, Indiana University of Pennsylvania, Indiana University-Purdue University at Fort Wayne, Kearney State College (Nebraska), Montana State University, Moorhead State University (Minnesota), Murray State University (Kentucky), New Mexico State University, North Carolina State University, Northeastern Illinois University, Oakland University (Michigan), Oregon State University, Pittsburg State University (Kansas), Portland State University (Oregon), Rhode Island College, Rutgers College, Rutgers University (New Jersey), Sonoma State University (California), South Dakota State University, Southern Oregon State College, State University College at Buffalo (New York), State University College of Arts and Science Potsdam, New York, Towson State University (Maryland), Trenton State College (New Jersey), University of Alabama, University of Delaware, University of Georgia, University of Hawaii at Hilo, University of Hawaii at Manoa, University of Idaho, University of Maine at Farmington, University of Maine at Fort Kent, University of Maine at Orono, University of Maryland, University of Massachusetts at Amherst, University of Massachusetts at Boston, University of Minnesota, University of Montana, University of Nevada, Las Vegas, University of Nevada, Reno, University of New Mexico, University of North Carolina at Charlotte, University of North Dakota, University of Northern Colorado, University of Northern Iowa, University of Oregon, University of Rhode Island, University of South Carolina, University of South Dakota, University of South Florida, University of Southern Maine, University of Tennes-

see, Knoxville, University of Utah, University of Wisconsin, Eau Claire, University of Wisconsin-Green Bay, University of Wisconsin-River Falls, University of Wyoming, Utah State University, West Chester University (Pennsylvania), William Paterson College of New Jersey, Winthrop College (South Carolina). Others are joining the program each year.

Preparation for Graduate and Professional Study

Requirements for admission to advanced study vary according to the profession as well as among the schools. Thus, a student planning to enter a professional school should seek specific admission information from the school he or she plans to attend. Preparation for admission to a professional or graduate school consists of: (1) a broad educational experience; (2) courses which meet the specific admission requirements of the school the student plans to attend; and (3) major and minor subjects which allow for concentrated study in a field of interest and which provide an alternative career direction if that becomes desirable.

Graduate Study at Illinois State

Students interested in graduate study at Illinois State University should consult the *Graduate Catalog* for admission requirements and programs available. Further information may also be obtained from departmental offices and the Graduate office in Hovey Hall. Illinois State offers a comprehensive range of master's degree programs and doctoral level programs in Art, Biological Sciences, Curriculum and Instruction, Economics, Educational Administration, English, History, Mathematics, and Special Education.

Health Professions

Preprofessional programs for health related professional colleges usually imply a major in one of the departments in the College of Arts and Sciences. Majors in Biological Sciences or Chemistry are usually elected because several specific preprofessional course requirements can be applied toward a major in these fields. However, a major in any one of a number of other departments in the College is appropriate for many students who have a specific career goal in mind. Speech Pathology and Audiology, Mathematics, Psychology, Sociology, Physics, Economics, and Foreign Languages are several examples of academic areas which have application to specialties within the health professions.

Minimum admission requirements to colleges of Medicine, Dentistry, and Veterinary Medicine are discussed below. Further information about admission procedures to these and other health related professional colleges can be obtained by contacting Dr. John Frehn in the Department of Biological Sciences.

Medicine: Admission policies of individual medical colleges are set forth in *Medical School Admissions Requirements - United States and Canada*. Orders for this book should be addressed to:

Association of American Medical Colleges
One DuPont Circle, N.W.
Washington, D.C. 20036
Price: \$7.50 postpaid

Specific course requirements of medical schools in the State of Illinois can be met by taking the following courses:
Chemistry 140, 141, 230, 231, 232, 233.
Biological Sciences 191, 194.

Physics 108, 109.

Mathematics 145, 146 are recommended.

Other specific course requirements are usually met by completion of the University Studies program. It should be understood that a careful selection of University Studies and elective courses beyond the specific admission requirements can make the applicant more competitive.

Although a few students are accepted for enrollment in medical college after completion of 90 semester hours, they are distinct exceptions. Most students should anticipate the completion of the requirements for a bachelor's degree with the following approximate timetable:

1. *Completion of specific course requirements by the end of the junior year.*
2. *Medical College Admission Test taken in April of the junior year.*
3. *Medical College application process begun in August preceding senior year.*

Dentistry: Admission policies of individual dental schools are set forth in *Admission Requirements of U.S. and Canadian Dental Schools*. Orders for this book should be addressed to:

American Association of Dental Schools

1675 Massachusetts Avenue, N.W.

Washington, D.C. 20036

Price: \$7.50 postpaid

With the completion of the University Studies program, the following courses would meet the minimum specific course requirements for Illinois dental schools:

Chemistry 140, 141, 230, 231, 232, 233.

Biological Sciences 191, 194.

Physics 108, 109.

Most students enter dental school after three or four years of preprofessional studies. The minimum requirement for admission to dental schools in the State of Illinois is two years of college, even though most such applicants are unsuccessful. It is therefore advised that students anticipate at least a three-year program with the following timetable:

1. *Completion of specific course requirements by the end of sophomore year.*
2. *Dental Admission Test taken in April of the sophomore year or October of the junior year.*
3. *Dental college application process begun in the fall of the junior year.*

Veterinary Medicine: Illinois residents find it exceedingly difficult to gain admission to colleges of veterinary medicine outside the state. Students should therefore direct their attentions largely to the admission policies of the University of Illinois College of Veterinary Medicine.

Specific course requirements: three semesters of biology including genetics, five semesters of chemistry including biochemistry, two semesters of physics, one semester of English, four semesters of humanities and social sciences, and one semester of animal science. Some two-year students are accepted, but the majority of successful candidates have three or four years of preprofessional study. The student is therefore advised to plan his program for completion of the requirements for admission to veterinary college by the end of the sophomore year. A four-year program leading to a bachelor's degree should be anticipated in the event that early application to veterinary college is not successful.

Nursing: No major in nursing exists at Illinois State University. Students wishing to pursue the BSN degree may complete the prescribed pre-nursing courses at ISU and then seek admission to the Mennonite College of Nursing in Bloomington. Students should apply for the Mennonite program after their Freshman year. Admission to the nurs-

ing program is competitive. For further information, contact the Academic Advisement Center.

Engineering

Illinois State University offers the courses ordinarily required for the first two years of an engineering curriculum. Students usually enroll as majors in Physics while at Illinois State and transfer to the engineering college of their choice after two years.

In addition to the 2-year pre-engineering program, Illinois State University is affiliated with the College of Engineering at the University of Illinois, enabling students to earn a bachelor's degree from Illinois State University and a bachelor's degree in engineering from the University of Illinois at Urbana in a five-year program. Students generally spend the first three years of this program at Illinois State University and the final two years at the University of Illinois. This five-year program encourages students to develop a deeper understanding of physics and mathematics that will enable them to more readily adapt to the vagaries of an ever-changing technology.

Due to the strong sequential nature of engineering curricula, it is important that appropriate course selections are made in the first two years of either of the two programs previously described. Students should contact Dr. John Crew in the ISU Department of Physics early in their undergraduate careers for help in planning an appropriate plan of study and for more information concerning either of the two programs.

Law

Law schools do not require any specific courses or undergraduate majors. A committee of the Association of American Law Schools has recommended that the pre-law student keep in mind three basic objectives in planning an undergraduate program: education for articulate oral and written expression; education for greater understanding of human institutions and values; education to develop the skills of conceptual analysis. The committee has emphasized the need for a broad, liberal education which develops the student's intellectual interests rather than an education directed too pointedly toward later professional training and practice. Students planning to apply for admission to law school should consult the University's pre-law adviser, Dr. Thomas Eimermann, Department of Political Science, for assistance in selecting appropriate majors and valuable electives, and for information about the Law School Admissions Test.

Social Work

The profession of social work recognizes three academic levels of preparation for practice. The first level is that provided by Illinois State University's undergraduate Social Work major. Students completing this major will hold a baccalaureate degree qualifying them for the beginning level of professional practice, (see the Comprehensive Major in Social Work).

A secondary objective of the Illinois State University Social Work major is to prepare students for advanced study at the second or graduate level of preparation. Graduates of this advanced program receive a Master of Social Work (M.S.W.) degree, which is considered a terminal degree in the profession.

For those students desiring to teach, to conduct independent research, or to attain administrative positions in the professional field, a growing number of graduate schools offer a third level of preparation which is the Doctor of Social Work (D.S.W.) or Ph.D in Social Work degree. Students interested in graduate training in social work,

either immediately upon graduation from Illinois State University or after work experience, are urged to consult the social work adviser in the Department of Sociology, Anthropology and Social Work.

The Illinois State University Social Work Program is accredited by the Council on Social Work Education. This accreditation provides advantages to students seeking employment and graduate education in social work.

Teaching

Undergraduate students interested in preparing for teaching careers in the public schools should consult the College of Education section of the Catalog or contact the Office of Clinical Experiences and Certification Processes, 310 DeGarmo Hall, for information about admission to the teacher education programs of the University and about meeting general education, field of study, professional education, and certification requirements. Students interested in preparing for teaching careers in colleges and universities should consult academic advisers in the discipline in which they plan to teach for information concerning appropriate graduate degree preparation.

Additional University Services

Media Services

211 Media Center, (309) 438-8788

Media Services aids faculty and students attain instructional and educational goals through use of educational media. Media Services offers many opportunities to incorporate media into classroom situations. All functions of Media Services except the television studio are located in the Educational Media Center. The production and service units of Media Services are described below:

Media Distribution: This unit provides all types of audiovisual equipment and software, such as films and film strips, for on-campus use.

Graphic Production: This unit provides assistance to faculty for planning, designing, scripting, story boarding, editing, and refining all types of graphic materials for audiovisual productions.

Learning Resource Center: The center houses, for faculty and student use, self-paced instructional packages on the operation of audiovisual equipment, a graphic production area to produce visuals, a videocassette playback area, and an area to produce tapes and tape/slide presentations and publications.

Television/Audio Production Unit: A closed-circuit television cable system offers videotape playback capabilities to students and faculty in more than 35 classroom buildings and residence halls. The unit also offers duplication and production capabilities for faculty and administrative units. The Audio production unit offers audiotape duplication and production capabilities, as well as narration, multi-image and slide synchronization services.

WGLT

310 Media Center (309) 438-2255

WGLT (89.1 FM) is a full-service public radio station licensed to Illinois State University serving audiences in McLean County and surrounding areas. In addition to classical, jazz, and urban contemporary music, WGLT

programming includes live coverage of concerts and recitals as well as coverage of local public affairs and newsworthy events. Many academic departments as well as individual faculty, staff, and administrators participate in informational programs. Affiliated with National Public Radio and equipped to participate fully in the NPR satellite network, WGLT carries nationally acclaimed programs such as MORNING EDITION, ALL THINGS CONSIDERED, and, from American Public Radio, A PRAIRIE HOME COMPANION. The 19-hour daily WGLT program service is maintained by a full-time professional staff plus ISU students who receive training and professional experience.

The University Museums

(309) 438-8800

The University Museums complex, composed of eight facilities, represents learning centers serving the University, schools in the surrounding area, and the general public. Objects from the permanent collections as well as loan materials are displayed in a continuing series of instructional exhibitions. The purpose of the University Museums is to preserve and disseminate knowledge of the artistic, natural, and cultural history of Illinois and the world. To accomplish this purpose, the University Museums collects, preserves, and studies tangible objects in programs of exhibitions, education, and research. The museums offer opportunities for students to work with collections through museum employment, museum studies courses, and class assignments.

The **Art Gallery**, the University's contemporary art museum, is on the first floor of the Center for the Visual Arts building. The Gallery's exhibition program encompasses the visual arts focusing on the contemporary era.

The **Ewing Museum of Nations**, at the corner of Towanda Avenue and Emerson Street, Bloomington, provides programs illustrating the world's cultural heritage through temporary exhibitions including those drawn from the museum's collections of the traditional arts of Africa, the South Pacific, Mexico, Central America, and the International Collection of Child Art.

The **Eyestone School Museum**, a renovated 1900 one-room school is located at Adelaide and College Streets.

The **Funk Gem & Mineral Museum**, on the lower level of Cook Hall, exhibits minerals, cut and uncut semiprecious gems, fossils, and mining equipment, emphasizing the Midwestern region of the United States.

The **Hudelson Museum of Agriculture**, located at Main and Willow Streets, features early agricultural implements, a simulated pioneer cabin, and objects used by Illinois farmers.

The **Stevenson Memorial Room**, on the first floor of Stevenson Hall, displays memorabilia of the Stevenson family with particular emphasis on Adlai E. Stevenson II.

The **University Historical Museum**, located in the lower level of Williams Hall, provides changing exhibits that interpret our collective cultural heritage and which are usually drawn from the collections of Native American artifacts, American Colonial and Victorian decorative arts, Goudy Print Shop, historic dolls and toys, and materials pertaining to University history.

The **President's Gallery**, located on the third floor of Hovey Hall, features a rotating series of exhibitions highlighting the University Museums' art collections.

Planetarium

Corner of School St. and College Ave.
(309) 438-2496

The Illinois State University Planetarium is administered by

the Department of Physics, and is located at the east end of Felmley Hall. This celestial theatre in the round provides a unique environment that is used by astronomy and other classes. Primary and secondary school students, as well as a variety of other community groups, also attend special presentations designed for their specific interests. In addition, regular public shows are scheduled, providing a popular form of enriching entertainment. The 30-foot domed structure seats 110 individuals, and houses a Spitz A-3P star projector and various other multi-media effects to recreate the wonders of the universe. For further information contact Carl J. Wenning, Planetarium Director.

Research Services and Grants

310 Hovey Hall, (309) 438-2528

Outside funded projects constitute an important part of the University's involvement in research and development activities. The University's Office of Research Services and Grants is an information and coordinating center for faculty and students who wish to secure financial support from sponsoring agencies to conduct research projects, training programs, and public service activities. This office provides help in locating appropriate funding sources for new academic endeavors, assists in developing and processing research proposals, and acts as a liaison between the University and funding agencies.

Alumni Services and Development

117 Rambo House, (309) 438-2294

The ISU Alumni Office offers services and activities to all ISU alumni, including the notification of alumni about campus events such as Homecoming, the Spring Awards Ceremony, the Annual meeting, various special campus events, class and departmental reunions, special conferences and seminars, and other programs.

ISU keeps in contact with alumni in Illinois, the United States, and internationally, through area meetings which feature a variety of informative and entertaining programs. Communication is maintained with alumni through quarterly mailings of the *ISU Alumni Today*. Additional mailings are sent which announce special events and activities.

The Alumni Services Office is the campus headquarters for alumni. The official records for the growing numbers of alumni, which exceed 70,000, are maintained there. All graduates of ISU are members of the ISU Alumni Association. The Alumni Board of Directors serves as the liaison body that represents all Alumni of the University.

Current students have the opportunity to become involved in the Student Alumni Council. The Student Alumni Council is open to all undergraduates and serves to link past, present, and future students. Members of the organization are active in many campus events and are involved with promoting the University.

The Parents' Association: The parents of current students at Illinois State University have the opportunity for active involvement in the University through the Parents' Association. All parents of ISU students are automatically members of the Association.

The Association's activities and programs are coordinated through the Alumni and Parent Services Office in Rambo House. A Parents' Advisory Board, representing various geographic areas, serves as the liaison between the University and all parents. The Board helps with planning Parents' Day, assists University officials with student recruitment, fund raising, placement and public relations programs, and conveys the suggestions and concerns of parents to the University administration.

Development Office: The Development Office is located in Rambo House and is responsible for developing a long-range program to encourage voluntary financial support for the University from alumni, parents, students, friends, faculty, staff, corporations and foundations. Contributions are used to provide scholarships, student loans, and research grants; to purchase specialized equipment; to aid departmental programs; to establish an endowment fund; and to support a variety of other educational projects and programs.

The financial support generated through the Office of Development provides the margin of excellence which enables Illinois State University to become a more creative and progressive force in higher education.

The Development Office, in actively seeking voluntary support for the University, is carrying on the tradition established by the University's founders whose solicitation of gifts of money and land made the establishment of the University possible.

ISU Foundation: The Illinois State University Foundation is a non-profit corporation chartered by the State of Illinois for the sole purpose of soliciting, receiving, holding, investing, and administering gifts, grants, real property, historical papers, collections, and other materials which support and enhance educational opportunities at Illinois State University.

The Foundation encourages prospective donors to make unrestricted gifts. Unrestricted gifts enable the University to achieve a higher level of quality because the resources can be distributed where the need is greatest. However, gifts and grants may be designated to support specific colleges, departments and educational programs.

Bequests, charitable remainder trusts, and other planned and deferred gifts are also processed through the Foundation. All business matters and policies for the ISU Foundation are administered by an elected Board of Directors, comprised of alumni and friends of the University.

All gifts made to the ISU Foundation are tax deductible as provided by law. Further information about the Foundation may be obtained by writing the Office of Development.

UNIVERSITY STUDIES PROGRAM

The University Studies Program provides a core of fundamental knowledge, skill and understanding. The content of University Studies courses is important to the educated layperson rather than to the specialist in the field, although this does not mean that all courses in the program are introductory or non-technical in nature. The program is designed to meet each of the following goals:

- to provide personal enrichment.
- to offer a systematic design for further learning.
- to be broad in scope rather than focused on a narrow portion of a discipline.
- to reflect major values and ideas and to offer the opportunity to examine such values and ideas.
- to assure a breadth of knowledge and an understanding of the basic processes of disciplined inquiry that society might reasonably expect from a college graduate.

Due to the limited number of hours required in each group, a student may have only one exposure to a discipline or area. For this reason, care should be taken to select courses that will ensure breadth within as well as across disciplines and areas of study.

General Requirements

Each student seeking a bachelor's degree must satisfy the requirements of the University Studies program. A transfer student who has completed an associate degree based on a baccalaureate-oriented sequence who is admitted to the University from a public community college or other community college participating in the compact with ISU in Illinois shall be considered to have attained junior standing and to have met his or her University Studies requirements. All other students must meet the minimum requirements for each group in the program—a total of 48 hours exclusive of courses in a student's major department. Some students may wish to complete the requirements through the Individual University Studies Program described below. The Proficiency and Placement Examinations section of this Catalog describes how a student may meet some of the University Studies requirements through the College Level Examination Program (CLEP) and other proficiency examinations.

Other Special Considerations

General Students: Students who are pursuing a baccalaureate degree but have not yet declared a major are advised that when they do identify a major, courses in their major department do not count toward the University Studies requirements.

Change of Major: Students who change majors should pay particular attention to the policy regarding the exclusion of courses for University Studies from a major department.

Double Majors: The exclusion of courses from a major department applies only to the declared or first major—not to the second or undeclared major.

Minors: Any University Studies course may be used to meet the requirements of a minor.

Social Sciences Major: University Studies courses may be used to meet the major requirements for students who are pursuing a Social Sciences Major.

Teacher Certification: The University Studies Program will meet the general education requirements of the teacher education entitlement programs if specific courses are elected. See the sections on "Teacher Education Requirements" and "graduation requirements" for specific courses that are needed.

International Studies: Credit in University Studies may be earned through the Study Abroad program. Information is available from the Director of International Studies.

University Studies Groups

Group 1: Communication Studies (9 hours): Study related to the collection, preparation, and presentation of ideas and information directed toward achieving personal skill in written and oral communication. English 101 is required. *Beginning freshmen should complete English 101 within their first 30 semester hours at ISU. Transfer students, who have not completed English 101 or its equivalent, should complete English 101 within their first 15 semester hours at ISU.*

Communication

- 110 Fundamentals of Speech Communication
- 123 Interpersonal Communication
- 125 Argumentation
- 223 Small Group Processes

English

- 101 Language and Composition I (Required of all students)
- 145 Language and Composition II

Foreign Languages

- 111 First-Year French (Part I)
- 112 First-Year French (Part II)
- 111 First-Year German (Part I)
- 112 First-Year German (Part II)
- 111 First-Year Classical Greek (Part I)
- 112 First-Year Classical Greek (Part II)
- 111 First-Year Italian (Part I)
- 112 First-Year Italian (Part II)
- 111 First-Year Latin (Part I)
- 112 First-Year Latin (Part II)
- 111 First-Year Russian (Part I)
- 112 First-Year Russian (Part II)
- 111 First-Year Spanish (Part I)
- 112 First-Year Spanish (Part II)
- 115 Second-Year French (Part I)
- 116 Second-Year French (Part II)
- 115 Second-Year German (Part I)
- 116 Second-Year German (Part II)
- 115 Intermediate Latin
- 116 Vergil
- 115 Second-Year Russian (Part I)
- 116 Second-Year Russian (Part II)

- 220 Ancient History: Greece
- 221 Ancient History: Rome
- 228 Europe in the Nineteenth Century: 1815-1914
- 235 French History to the Revolution
- 250 History of Women in America

Interdisciplinary Studies

- 100 Humanities I: European Civilization to 1600 (3 hrs.)
- 101 Humanities II: European Civilization since 1600 (3 hrs.)
- 103 English Heritage
- 104 British Civilization

Philosophy

- 101 Basic Issues in Philosophy
- 120 Philosophy of Religion
- 138 Moral and Social Values
- 232 Ethics
- 240 Political Philosophy
- 242 Philosophy of Law
- 254 Ancient and Medieval Philosophy
- 255 Modern Philosophy

Theatre

- 151 History of the Theatre in Western Culture

Group 3: Natural Science Studies (6 hours): Study of biological sciences (the study of life and living matter in all forms, especially with regard to the origin, growth, reproduction, and structure of life forms) and the physical sciences (the study of structure, properties, origin, and energy relations of matter apart from the phenomena of life)

directed toward an understanding of and an ability to apply the scientific method to natural phenomena.

Biological Sciences

- 100 Introduction to Biological Sciences
- 160 Introductory Microbiology
- 170 Genetics and Society
- 181 Human Physiology & Anatomy I
- 182 Human Physiology & Anatomy II
- 185 Introduction to Evolution
- 191 Principles of Biology
- 192 General Botany
- 194 General Zoology
- 195 Introduction to Oceanography
- 199 Animal Behavior
- 204 Introduction to Natural History

Chemistry

- 102 Science and Modern Man
- 104 Chemistry of Life
- 110 Fundamentals of Chemistry
- 112 Fundamental Chemistry Laboratory
- 140 General Chemistry I
- 141 General Chemistry II

Geography-Geology

- 100 Earth Science
- 105 Introduction to Geology I
- 107 Introduction to Geology II
- 110 Weather
- 195 Introduction to Oceanography
- 275 Life of the Geologic Past

Physics

- 100 Energy and Environment
- 101 Introduction to Astronomy
- 105 Fundamentals of Physics
- 106 From Quarks to Quasars
- 108 General Physics I
- 109 General Physics II
- 110 Physics I
- 111 Physics II

Sociology, Anthropology, and Social Work

- 182 Introduction to Physical Anthropology

Group 4: Quantitative and Logical Studies (3 hours):

Study of mathematics (the study of numbers and space configurations and their operations, measurement, and the relationships in both the abstract form of pure mathematics and the practical form of applied mathematics), computer science (the study and understanding of the logical organization and transformation of information directed toward the development of the problem-solving skills necessary in a computer environment), and logic (study of principles of valid reasoning and correct inference) directed toward the understanding of basic computational skills and the ability to think logically.

Applied Computer Science

- 164 Fortran Programming
- 168 Structured Problem Solving and the Computer

Mathematics

- 105 Applications of Elementary Mathematics
- 106 World of Mathematics
- 120 Finite Mathematics for Business and Social Sciences
- 121 Introduction to Calculus for Business and Social Sciences
- 145 Calculus I
- 146 Calculus II
- 151 Structure of Number Systems I
- 164 Fortran Programming
- 210 Symbolic Logic I

Philosophy

- 110 Thinking Logically
- 210 Symbolic Logic I

Group 5: Social Science and Psychological Studies

(9 hours): Study of the social sciences of anthropology, economics, human geography, political science, and sociology (the study of aspects of past and present activities, conduct, interactions, and organizations of humans) and the study of psychology (the study of mental phenomena, especially those associated with behavior and problems of adjustment to the environment) directed toward an understanding of and an ability to apply the scientific method to human activity. Courses must be selected from at least two departments.

Agriculture

- 110 Introductory Agricultural Economics

Economics

- 100 Principles of Economics I
- 101 Principles of Economics II

Geography-Geology

- 135 World Geography
- 150 Economic Geography
- 205 Conservation of Natural Resources

Political Science

- 105 American Government and Politics
- 141 Comparative European Government
- 151 Introduction to International Relations
- 232 Politics and Public Policy
- 254 Introduction to Global Issues

Psychology

- 111 General Psychology
- 112 Child and Adolescent Development
- 131 Social Psychology
- 232 Personality

Sociology, Anthropology, and Social Work

- 106 Introduction to Sociology
- 107 Social Problems
- 131 Social Psychology
- 180 Introduction to Cultural Anthropology
- 261 The Community
- 267 Population
- 268 Sociology of Religion

Group 6: Aesthetic Studies (3 hours): Study of the fine and applied arts having to do with the creation and application of diverse modes of communication, ideas, and emotions by means of visual and nonvisual representations and symbols toward developing aesthetic understanding and appreciation.

Art

- 100 Introductory Art Workshop
- 150 Art Appreciation
- 155 Survey of Art I
- 156 Survey of Art II
- 250 Arts and the Modern World
- 257 Survey of Art III

Health, Physical Education, Recreation, and Dance

- 122 Modern Dance I
- 122.02 Modern Dance II
- 123 Ballet I
- 123.02 Ballet II

Interdisciplinary Studies

- 100 Humanities I: European Civilization to 1600 (3 hrs.)
- 101 Humanities II: European Civilization since 1600 (3 hrs.)

Music

- 100 Introduction to Music Theory
- 151 Pleasures of Music
- 153 Black Music I
- 250 Arts and the Modern World

Theatre

- 150 Introduction to the Theatre
- 170 Introduction to Film Art
- 250 Arts and the Modern World

Group 7: Contemporary Life Studies (6 hours): Study of the applied arts of agriculture (the production of food and the management of natural fiber plant and animal resources), business and management (organization, operation, administration, and control of private and public organizations), Criminal Justice Sciences (the study of the criminal justice system), education (instruction and training within and outside educational organizations), health and physical education (maintenance and restoration of physical and mental health), home economics (the study of the reciprocal relations of family to its natural and man-made resources and environments), technology (practical application of basic scientific knowledge to the design, production, and operation of systems for human control of the natural environment), and other appropriate applied studies directed toward development and understanding of the use of liberal studies in applied areas in order to deal creatively and realistically with personal, community, national, and international concerns.

Agriculture

- 120 Introductory Horticultural Science
- 150 Introduction to Plant Science
- 170 Introduction to Animal Science

Applied Computer Science

- 140 Introduction to the Computer World
- 155 Introduction to Microcomputers

Biological Sciences

- 111 Plants and Civilization
- 145 Human Biology
- 202 Human Ecology

Business Education and Administrative Services

- 100 Business and its Environment
- 330 Decision-making for Consumers

Communication

- 140 Introduction to the Computer World

Criminal Justice Sciences

- 101 Introduction to Criminal Justice Sciences

Curriculum and Instruction

- 110 Introduction to Multicultural Education

Foreign Languages

- 108 German for Business

Health, Physical Education, Recreation, and Dance

- 113 Personal Fitness
- 180 First Aid

Health Sciences

- 100 Introduction to the Health Community
- 155 Man and Environment: A Health Perspective
- 194 Healthful Family Living
- 196 Drugs in Lifestyles

Home Economics

- 106 Nutrition
- 131 Courtship and Marriage
- 132 Home Management in Contemporary Life
- 330 Decision-making for Consumers

Industrial Technology

- 171 Principles of Accident Prevention
- 208 Industrial Technology Systems

Interdisciplinary Studies

- 120 Women Today

Philosophy

- 234 Business Ethics

Sociology, Anthropology, and Social Work

- 123 Human Sexuality
- 170 Survey of Social Work and Social Welfare

Speech Pathology and Audiology

- 112 Survey of Speech and Hearing Disorders
- 115 Introduction to Human Verbal Development
- 120 Sound and Man

Group 8: Nonwestern Cultures and Traditions (3 hours): Study of some aspect of a culture other than one's own directed not only toward a better understanding of the cultural complexity of a shrinking and increasingly interdependent world but also toward gaining a new perspective of Western culture. (Courses in this group must be concerned with the cultures and traditions of one or more of the following geographic areas: Africa and neighboring islands [not in the Mediterranean Sea]; Caribbean Islands with nonwestern cultures; Central America; China, Mongolia, Japan, Korea [East Asia], Taiwan; India, Pakistan, and neighboring countries; Mexico; Middle East; Pacific Islands [U.S. Administration]; Philippines and islands of Indonesia; Pre-contact cultures of Americas, Australia, or New Zealand; South America; Southeastern Asia [Burma, Kampuchea, Laos, Thailand, Vietnam, and others])

Agriculture

- 100 Agriculture of Developing Countries

Art

- 120 Oriental Art

Business Education and Administrative Services

- 345 Business in a Multicultural Environment

Geography-Geology

- 230 Latin America
- 250 Africa
- 255 Asia

History

- 125 History of Asian Civilization
- 126 History of the Middle East and Africa
- 127 Latin America
- 263 Modern Mexico
- 271 Islamic Civilization
- 275 History of Japanese Civilization

Philosophy

- 207 Oriental Philosophy

Political Science

- 145 Introduction to Nonwestern Politics
- 246 African Politics
- 247 Politics of the Middle East
- 347 Latin American Politics

Sociology, Anthropology, and Social Work

- 184 Cultures of the World
- 272 North American Indians
- 284 The Anthropology of Native American Art

Theatre

- 271 Survey of Nonwestern Film

Individualized University Studies Program

Students who wish to pursue the Individualized University Studies (IUS) program must apply for and be admitted to the program. The application must include a statement outlining general education objectives that cannot be met under the regular University Studies program. The Plan of Study should constitute a coherent program of University Studies that should meet or exceed the goals of the regular program. In developing the individual plan, the student and the adviser should review all previous educational experiences of the student (not just college courses) to assure that either prior experience or the projected plan provides a distribution of coursework that matches the minimum hour requirements in each University Studies group. Courses are not limited to those approved for the regular University Studies program; however, all courses selected must be general education courses as opposed to vocational or professional courses. Program requirements are as follows:

1. Applications will be accepted only from students who have completed fewer than 25 semester hours of undergraduate coursework. Applications should be forwarded to the Director of Honors and must be signed by an adviser in the Office of Academic Advisement, the Honors Office, or a faculty member from the student's major department indicating that he or she agrees to the Plan of Study and will serve as the student's IUS adviser until the plan has been completed.
2. The Plan of Study must include a minimum of 48 semester hours, exclusive of courses taken in the student's major department. Projected courses in the Plan of Study are subject to later modification only with advance approval of the student's adviser. The Director of Honors should be informed in writing of all changes in the original Plan of Study.
3. It is the student's responsibility to ensure that all prerequisites or requirements for majors are met whether or not the courses are included in the IUS Plan of Study.
4. Students in teacher education programs need to plan their IUS program to meet state certification requirements. Please confer with personnel in the Office of Clinical Experiences and Certification Processes regarding current requirements for teacher education students.
5. Questions about the program should be directed to the Director of Honors.

UNIVERSITY-WIDE PROGRAMS AND COURSES

Fields of Study and Degrees Available

The University offers a wide range of academic programs from bachelor's degrees through master's and doctoral degrees. Programs and degrees are available in the following fields of study:

Accounting: B.S., M.S.
 Agribusiness: B.S.
 Agriculture: B.S. and cooperative master's program with University of Illinois.
 Anthropology: B.A., B.S.
 Applied Computer Science: B.S.

Program and Course Explanations

Units of Instruction

Major: A cohesive combination of courses, including introductory, intermediate, and advanced coursework, that designates a student's primary area of specialization. Majors are designated on University transcripts. The offering of new majors requires approval by the Board of Regents and the Board of Higher Education.

Sequence: A subdivision of a major in which there are specific requirements. Sequences of the same major generally share a common core within a major. Sequences are designated on University transcripts. New sequences require approval of the Board of Regents, and when approved are generally considered to be reasonable and moderate extensions of present curricular authorizations by the Board of Higher Education.

Concentration: A subdivision of a major without specific requirements that is provided for advisement only. Concentrations are not designated on University transcripts. All informal curricular recommendations made by departments (such as emphases, tracks, areas of study, specializations, etc.) should be entitled concentrations. Concentrations are advisory only and do not appear on University transcripts; no approval process is required.

Minor: A combination of courses designed to provide a cohesive introduction to an area of study. Minors are designated on University transcripts. New minors require approval by the Board of Regents, and when approved are

generally considered reasonable and moderate extensions of current curricular authority by the Board of Higher Education.

Course Offerings

Seminar: A regular meeting of students under the guidance of a faculty member, in which each conducts research and exchanges information, problems, and results through informal lectures, reports, and discussion.

Independent Study: Intensive study in a special area of the student's interest under the direction of a qualified member of the faculty. Each individual investigation is to culminate in a comprehensive written report and/or examination and/or artistic project.

Topics Course: An organization of subject matter and related learning experiences composed of identifiable subdivisions of topics. Each topic is of sufficient significance to be treated separately as a unit of instruction for an entire semester or term. The content of the course varies by semester.

Temporary Courses: Temporary courses are approved by the curricular committees for a time period not to exceed three years. Temporary courses often are used to experiment with a new curricular design, to take advantage of the skills of a faculty member who will be at the University for a limited period, or to respond to particular interests of students. Temporary courses are designated by the numbers 189, 289, 389, 489, and 589.

Workshop: Intensive and applied work on special problems in one or more subject areas. Workshop opportunities are provided on special problems not covered in any regular University courses. Workshops are designated by the numbers 193, 293, 393, and 493.

Institute: Federal- and state-sponsored (or similar) short-term programs requiring treatment of subject matter of a special nature, often for special groups. Institutes are designated by the numbers 197, 297, 397, and 497.

Professional Practice: Professional Practice consists of one or more credit generating, academic/career related, salaried or non-salaried work experiences. Professional Practice worksites are located on the LSU campus and with business, industry, government, and other agencies and organizations outside the University. Professional Practice courses are designated by the numbers 198, 298, 398, and 498.

Course Information

The University operates on the semester plan. The credit value of all courses is stated in terms of semester hours. Ordinarily, a semester hour is assigned for a 50-minute class meeting per week for the semester; therefore, a course valued at three semester hours generally meets three periods weekly. In laboratory courses, at least two 50-minute periods per week are ordinarily required for each semester hour of credit.

Course Availability: Some courses listed in this catalog may not be available each year. Students should consult the *Class Registration Directory* for class availability. Questions concerning scheduling of courses should be referred to departmental chairs.

Course Levels: Each course bears a distinguishing number for identification and indication of its academic level. The numbering system is as follows:

Course Levels

100-199 Lower division undergraduate courses, primarily for freshmen and sophomores.

200-299 Upper division undergraduate courses, primarily for juniors and seniors. A student normally should have completed at least 45 semester hours before enrolling in a course at this level.

300-399 Advanced undergraduate courses. Open to juniors, seniors, and graduate students. A student normally should have completed at least 75 semester hours before enrolling in a course at this level.

400-499 Graduate courses. None are listed herein; see the Graduate Catalog. Courses at this level are for graduate students. In exceptional instances, a senior may receive permission to enroll for undergraduate credit in a course at this level. Such permission is granted only upon the recommendation of the student's adviser with agreement of the chairperson of the department offering the course.

500-599 Courses limited to advanced graduate or doctoral students.

Course Descriptions

The following information is given for each course: course number (3 or 5 digits preceding the title); course title; credit value in semester hours; and F for Fall and S for Spring to indicate the semester for which a course is planned as an offering during the 1984-85 academic year. **The University, however, may cancel or add scheduled course offerings after publication of this Catalog depending upon the adequacy of enrollment and availability of faculty.** Following the above information, any prerequisites, restrictions on enrollment, and any special considerations are noted in italics. **A course prerequisite is knowledge or experience a student is required (req) or recommended (rec) to have prior to enrolling in a course.** Example:

102 MUSIC THEORY AND HISTORY 6 S

MUS 101 or cons Theory Coord req. Formerly MUSIC THEORY AND LITERATURE.

Continuation of analysis techniques and skills building; concentration on the music history and literature of the 17th and 18th centuries.

The course number, 102, indicates that the course is primarily for freshmen and sophomores. The digit 6, following the title, indicates the credit value in semester hours. S indicates that the course is to be offered during the Spring semester. The italicized lines under the course title indicate the required background for enrolling in the course. In the example given, a student must have passed Music 101 or have consent of the coordinator of Music Theory courses prior to enrollment in 102. The title of the course in previous catalogs is indicated by the *Formerly* statement. A brief description of the course is provided in the paragraph following the prerequisites.

If the course were approved for University Studies, the letters US followed by the group number would be included in the course title, for example, US-1, or US-8. Additional information about the course is available in the respective department office.

Course Information Abbreviations

May be repeated indicates that a course may be taken for credit more than once if different content is planned; however, there may be a maximum amount of credit specified for the course.

Variable credit courses. If a course leads to differing number of hours, a student should plan with the adviser the number of hours to be sought.

Conc reg req (or rec) means that concurrent registration in two courses is required (or recommended).

Incl Clin Exp indicates that certain clinical experiences in teacher education are required in the course.

Cons inst means consent of the instructor.

Cons dept chair means consent of the chairperson of the department offering the course.

Not for credit maj min means that the credit from this course may not be applied to the major or minor program requirements.

Not for credit if had (course) means that credit from this course is not applicable to graduation requirements if credit has been earned previously in the course identified.

Materials charge optional indicates that certain supplementary materials must be provided for the course.

Faculty Information

Faculty whose names appear in the department faculty lists were teaching at the University in the fall of 1985. Because of sabbatical leaves, temporary assignments, research projects, and other reasons, **not all of these faculty will be teaching in the period covered by this catalog.**

GENERAL STUDIES MAJOR

Program Coordinator: Contact Academic Advisement, 210 Julian Hall.

Degrees Offered: B.A., B.S.

Illinois State University offers students the opportunity, under the General Studies major, to construct three types of individualized programs of study which differ from the University's regular major and minor programs. These options use existing University courses and lead to the Bachelor of Arts or Bachelor of Science degree in General Studies. Each sequence addresses a different set of educational objectives.

The **Individualized Sequence** of the General Studies major allows a student to design, with the help of a faculty sponsor, a specialized program of study that is not offered by the University. This program is intended for the student whose specific interests cannot be accommodated within existing programs. Some topics recently chosen by students include: Classical Civilization, Agricultural Communication, Three-Dimensional Design, Human Services and Needs, International Public Administration, and Theater Management. The Individualized Sequence is often a second or auxiliary major but may be proposed as a primary major.

The **Multidisciplinary Studies Sequence** of the General Studies major, by contrast, is a broader program built around the offerings of two or more departments that may be from more than one college. It is intended for the student who is seeking a baccalaureate degree without the specialization of a traditional major. The student chooses the focus of the program, with the help of a faculty adviser, by determining the departments in which he or she wishes to pursue advanced work.

The **Arts and Sciences Sequence** of the General Studies Major is also a broad program emphasizing the offerings of two or more departments, chosen with the help of a faculty adviser. However, unlike the Multidisciplinary Studies Sequence, the coursework is primarily oriented to liberal arts, and must be completed from departments in the College of Arts and Sciences.

Note: 1. The Multidisciplinary Studies Sequence and Arts and Sciences Sequence of the General Studies major do not prepare a student for a specific professional career or graduate field. Because of their general nature, these programs will probably require graduates to convince prospective employers or graduate schools that the students' degree preparation will enable them to succeed in a particular job or educational endeavor.

2. The General Studies major does not satisfy the requirements for teacher certification.

Procedure for General Studies Major

1. Admission to the General Studies Major (or Minor) may be requested after the completion of 15 semester hours of coursework and before the completion of 90 semester hours. Applications must be submitted during the first half of the fall or spring semesters.

2. Applications are available in the Academic Advisement Center, 210 Julian Hall. Applicants should select an appropriate faculty adviser. The proposed plan of study must be approved by the faculty adviser, the General Studies Major Committee, and the Assistant Provost for Undergraduate Instruction.

3. At least one-half of the coursework in the sequence must be taken after the proposal has been approved. No more than one-sixth of the coursework in the sequence may be transferred from another institution of higher education.

4. Changes in an approved plan of study must be authorized in advance. A letter outlining the proposed change, and countersigned by the faculty adviser, should be submitted to the Advisement Center. Requests for changes in more than one-sixth of the approved program constitute a new proposal and must be resubmitted subject to all the conditions of an initial application.

5. If the individualized Sequence is a student's primary major, courses included in the approved program may not be used to meet University Studies requirements. Courses from the departments specified in the Multidisciplinary and Arts and Sciences Sequences may not be used to meet the University Studies requirements.

Requirements for General Studies Major

1. 120 semester hours.
2. Completion of University Studies requirements.
3. 42 senior college (200-300 level) hours.
4. An approved plan of study from at least two departments.
5. A 2.5 cumulative GPA at the time of application.

INDIVIDUALIZED SEQUENCE

The Individualized Sequence is an interdisciplinary program that may be used to attain specific educational goals that cannot be accommodated by existing majors at Illinois State. The General Studies Major: Individualized Sequence is usually a second or auxiliary major, but may be proposed as a primary major.

Students who complete the Individualized Sequence will earn a Bachelor of Arts or Bachelor of Sciences Degree and have their transcripts noted: "General Studies Major: Individualized Sequence: _____" (the theme that is specified on the plan of study). Students completing minors will have their transcripts noted similarly.

General Studies Major: Individualized Sequence Requirements

- 120 hour graduation requirement, including University Studies requirements and 42 senior college (200 - 300 level) hours.
- Approved plan of study from at least two academic departments containing 36-55 hours.

General Studies: Individualized Minor Requirements

- Approved plan of study from at least two academic departments containing 18-24 hours.

MULTIDISCIPLINARY STUDIES SEQUENCE

The Multidisciplinary Studies Sequence is designed for the student who wishes to pursue a baccalaureate degree without the specialization required in a traditional program. The student chooses the focus of the major by determining the two or more departments around which to build the program. The departments chosen may be from more than one college. Students who complete the Multidisciplinary Studies sequence will earn a Bachelor of Arts or Bachelor of Science Degree and have their transcripts noted: "General Studies Major: Multidisciplinary Studies Sequence."

General Studies Major: Multidisciplinary Studies Sequence Requirements

- 120 hour graduation requirement, including University Studies requirements and 42 senior college (200 - 300 level) hours.

- An approved plan of study with a minimum of 36 hours from two specified departments, including 12 senior college hours (200 or 300 level) from each of the two departments, and a maximum of 25 hours from any one of the departments.

ARTS AND SCIENCES SEQUENCE

The Arts and Sciences Sequence is designed for students wishing to pursue a baccalaureate degree with broad specialization in the liberal arts and sciences. The student chooses the focus of the major by determining the two or more departments around which to build the program. Students who complete the Arts and Sciences sequence will earn a Bachelor of Arts or Bachelor of Science Degree and have their transcripts noted: "General Studies Major: Arts and Sciences Sequence."

General Studies Major: Arts and Sciences Sequence Requirements

- 120 hour graduation requirement, including University Studies requirements, and 42 senior college (200-300 level) hours.
- An approved plan of study with a minimum of 36 hours from two specified Arts and Sciences departments, including 12 senior college hours (200 or 300 level) from each of the two departments, a maximum of 25 hours from any one of the departments, and a total of 96 hours from Arts and Sciences departments.

ETHNIC AND CULTURAL STUDIES MINOR

No major offered. Further information: Assistant Provost for Undergraduate Instruction, Hovey 413.

NOTE: The study of ethnic groups not listed below may be arranged through the General Studies: Individualized Minor program. Students interested in pursuing work in this area should contact the Assistant Provost for Undergraduate Instruction.

ETHNIC AND CULTURAL STUDIES

- A minimum of 22 hours representing eight courses as indicated from Groups I, II, and III; at least four courses must be above the 100 level; no more than three courses may be from one department. A professional practice experience approved by the student's minor adviser and the appropriate department may be used as one course in Group I and/or Group II. An independent study course approved by the student's minor adviser and processed through the regular procedure may be used as one course in Group I and/or Group II.

Group I - Ethnic Origins

Students must complete three courses from Group I, representing at least two departments. Group I represents the origins of minority populations in the United States. The emphasis is on the culture, history and the experience of the area from which present-day United States' minorities come, and on the Native American population before the arrival of the immigrants.

Black Americans: Art 277, GEO 250; HIS 389 (History of the Sub Saharan Africa); POS 246.

Native Americans: Art 373; SAS 280, 283, 284.

Asian Americans: GEO 255; HIS 125, 373, 375; PHI 207; POS 345.

Hispanic Americans: FOR 217.15, 218.15, 221.15, 242.15, 304.15, 335.15; GEO 230; HIS 127, 263; POS 347.

Group II - The Experience of Minority Populations in the United States

Students must complete three courses from Group II, representing at least two departments. Group II represents the experience of minority populations after arriving in the United States, and of the Native American population after the arrival of the whites. The focus is on the historical, cultural, political, and social experience of the group as a minority population in a largely white-European dominated society.

Black Americans: ART 278; COM 175; ENG 165; HIS 257, 258, 289 (Afro-American Experience); IDS 105; MUS 153, 154; POS 223; SAS 289 (Social Work and the Afro-American); THE 154.

Hispanic Americans: C&I 334; FOR 218.15; HIS 254.

Native Americans: SAS 272.

Oriental Americans:

General Courses: ART 242; C&I 232, 312; CJS 303; PAS 389 (Oral Language of Dialect and Bilingualism.)

Group III - Ethnicity

Students must complete two courses from Group III, representing at least two departments. Group III focuses on the concept of ethnicity in a more theoretical way. It attempts to generalize from minority experiences.

Courses: C&I 110; HIS 289 (Immigrant History); SAS 264, 281, 366.

WOMEN'S STUDIES

— A minimum of 18 hours or total of 24 hours from the following courses: CJS 339; IDS 120, 300, 390, 391, 398; ENG 160, 360; HSC 191; HIS 250; IT 163; PHI 246; POS 390; PSY 123, 305; SAS 123, 264, 341, 342, 366. A minimum of 18 hours is required in the above courses or appropriate 189, 289, and 389 courses. If the student elects fewer than 24 hours from this list of courses, the remainder must be selected from the list of courses that apply to the Ethnic and Cultural Studies minor. Courses included in the minor must be approved by the Coordinator of Women's Studies, Dr. Patricia Chesebro, Department of Psychology.

UNIVERSITY-WIDE COURSES

These courses may be offered by any department of the University. Specific departmental offerings will be listed by topic or area in the *Class Registration Directory* available each semester. AGR 280 req. Laboratory.

Specialized training in evaluating dairy cattle. Comparative terminology, decision making and presentation of oral reasons. Field trips to dairy farms.

282 LIVESTOCK HEALTH AND DISEASES 3 F

BSC 194; AGR 170 req.

Animal physiology, anatomy, sanitation and diseases. Prevention and control of diseases of domesticated species of livestock.

283 ARTIFICIAL INSEMINATION OF FARM ANIMALS 3 F.S

Lecture and laboratory.

Principles of artificial insemination and factors affecting conception in natural and artificial breeding.

284 LIVESTOCK PRODUCTION SKILLS 3 F

AGR 170 req. Lecture and laboratory. Cons instr req. Field trips.

A study and mastery of skills required in livestock production and different methods and tools used to perform these skills.

285 MEAT SCIENCE 3 F.S

Lecture and laboratory.

Comprehensive treatment of the meat industry and presentation of basic facts about one of our most important food products.

286 BEHAVIOR OF DOMESTIC**ANIMALS 3 S***AGR 170 rec.*

Behavioral patterns and systems, group formations, socialization, physical environment, genetic and physiological factors as they relate to domestic animals.

288 ADVANCED LIVESTOCK SELECTION 3F*AGR 280 req. Laboratory. Field trips.*

Judging various species of livestock in relation to their functions in show ring and market and presentation of oral reasons.

290 HORSE SCIENCE 3 S

AGR 170 req or documented evidence of 3 years' experience with horses.

Anatomy, physiology, nutrition and genetics applied specifically to horses.

295 SUMMER INTERNSHIP IN AGRICULTURAL EDUCATION 3 Summer*Adm to Teacher Ed req. Incl Clin Exp.*

Experience in the profession of agricultural education in high school. Includes program planning and working with special needs students.

302 SPECIAL PROBLEMS IN AGRICULTURE 1-3 F,S,Summer

Comprehensive maj, maj, or min in AGR or AGR Bus. GPA 2.5. May be repeated. Max 6 hrs.

Special work in research interests of student and staff. Projects must be approved by the staff member and the chairperson of the department.

303 SEMINAR IN AGRICULTURE 1 F,S*Senior or graduate standing.***310 RURAL APPRAISALS 3 F,S**

AGR 216, or 318, or ACC 131 rec and an academic background in agriculture. Field trips.

Principles, procedures, and terminology for evaluating rural property; preparation of appraisal reports as currently prepared by qualified and experienced rural appraisers.

313 ADVANCED FARM MANAGEMENT 3 S*AGR 213, 216 req.*

Farm business decisions and their interrelationships. Examination of statics, dynamics, and uncertainty in agricultural decision-making.

314 GRAIN MARKETING 3 F,S*AGR 214 req.*

Economics and marketing problems in grain industry, emphasis on futures marketing.

315 FINANCIAL MANAGEMENT AND ANALYSIS OF THE AGRIBUSINESS FIRM 3 F,S

AGR 215, MAT 120, and AGR 216 or ACC 131 or cons inst req.

Application of quantitative concepts and methods to the analysis and financial management of proprietary and cooperative agribusiness firms.

316 LIVESTOCK MARKETING 2 S*AGR 214 req.*

Economic principles applied to marketing of livestock and livestock products. Consideration given to producers, processors, and distributors.

318 AGRICULTURAL FINANCE 3 F,S*AGR 216 or ACC 131 req.*

The principles of agricultural finance including the capital requirements, the sources of credit, and the optimum uses of capital.

319 AGRICULTURAL POLICIES AND PROGRAMS 3 F*AGR 110 req. ECO 240 rec.*

History and impact of government intervention in agriculture. Examination of major agricultural programs, past and present.

320 FARM COMMODITY PRICING 3 F*AGR 214 req. ECO 240 rec.*

Analysis of the theory and mechanics of price determination for agriculture commodities.

340 EQUIPMENT FOR PRODUCING AND HANDLING AGRICULTURAL PRODUCTS 3 F*AGR 130 req. Lecture and laboratory. Field trips.*

Selection, design, operation, adjustment and maintenance of machinery and equipment used in producing, storing, and processing agricultural products.

345 AGRICULTURAL ACCIDENT PREVENTION 3 F*Also offered as IT 373. Materials charge optional.*

Major problems of accident causation and prevention applicable to agriculture and the need for farm safety education.

352 TURF MANAGEMENT 3 S*AGR 150 or BSC 192 req.*

Principles and practices used in management of turf-grasses, residential and recreational turf.

353 LANDSCAPE DESIGN AND CONSTRUCTION 3 S

AGR 252 and 255 req Lectures and practice in landscape design. Offered even numbered years.

Problem approach to landscape design and construction. Site surveys and analyses. Plant selection and preparation of functional designs.

355 PLANT BREEDING 3 S*AGR 272 req.*

Breeding procedures and techniques used in developing new varieties of field crops.

356 PLANT PROPAGATION 3 S

AGR 150, or BSC 192 req. Lecture and laboratory. Offered odd numbered years.

Basic principles and commercial practices involved in sexual and asexual propagation of agricultural plants.

357 SOIL FERTILITY AND FERTILIZERS 4 F*AGR 157 req. Lecture and laboratory. Field trips.*

Fundamental concepts of soil fertility and fertilizer manufacturing. Plant nutrition, factors affecting plant growth, soil-plant relationships, and macro- and micro-nutrients.

358 SOIL MANAGEMENT 4 F*AGR 157. Lecture and lab.*

Applications of physical and chemical properties of soils to their management.

360 CROP CONDITIONING AND STORAGE 3 F*AGR 250 and 5 hrs. CHE, req.*

A comprehensive study of the chemical, physical and physiological aspects of crop conditioning and storage with emphasis on soybeans and grain crops.

372 LIVESTOCK BREEDING 3 S

AGR 272 or BSC 319 req. Offered even numbered years.

Reproduction and principles of heredity and their application to livestock breeding; population genetics, inbreeding, relationship, outbreeding and selection.

373 REPRODUCTIVE PHYSIOLOGY AND MILK SECRETION 3 S

AGR 170 req.

Reproduction in livestock, anatomy of the reproductive and hormonal systems, physiological and hormonal aspects of lactation.

374 DAIRY CATTLE FEEDING AND MANAGEMENT 3 S

AGR 274 req. Field trips.

Feeding and management of dairy cattle as they relate to an economic dairy farm operation.

375 ANIMAL NUTRITION 3 F

AGR 170, 171 req. Field trips. Offered odd numbered years.

Science of animal nutrition; special attention to recent discoveries pertaining to the protein, mineral and vitamin requirements of livestock.

380 ORGANIZATION AND ADMINISTRATION OF VOCATIONAL COOPERATIVE EDUCATION PROGRAMS 3 F.S

Also offered as BEA 380, HEC 380, and IT 305. Incl Clin Exp. Formerly ORGANIZATION AND ADMINISTRATION OF VOCATIONAL OFFICE AND DISTRIBUTIVE EDUCATION PROGRAMS.

Planning and organizing a cooperative program; emphasis on recruitment, selection of training stations, student placement, and operation of cooperative plan.

382 COORDINATION TECHNIQUES OF COOPERATIVE VOCATIONAL EDUCATION PROGRAMS 3 S

Also offered as BEA 382, HEC 382, and IT 306. Incl Clin Exp. Formerly COORDINATION TECHNIQUES OF COOPERATIVE OFFICE AND DISTRIBUTIVE EDUCATION PROGRAMS.

Coordination techniques needed for high school and post-secondary teacher coordination in integrating classroom activities with daily employment.

396 METHODS AND PROCEDURES IN AGRICULTURAL EDUCATION 5 F.S

Incl Clin Exp.

Procedures in planning, conducting, and evaluating an agricultural education program; philosophical inquiry in education; teaching special needs students.

398 PROFESSIONAL PRACTICE: INTERNSHIP IN AGRICULTURE 1-6 F.S. Summer

Major in any AGR Program. GPA 2.5. 8 hrs of course work in intern area, approved application. May be repeated. Max 6 hrs.

Supervised on-the-job experience with an agriculture firm. Forty-five hours work following an approved training program. Min 45 hrs experience/credit.

APPLIED COMPUTER SCIENCE (ACS)

133B Stevenson Hall, (309) 438-8338

Chairperson: Lawrence C. Egan.

Faculty: Professor: Egan. Associate Professors: Beccue, C. Chrisman, G. Chrisman, Hartman, Sanders. Assistant Professors: Bell, Brumbaugh, Connor, Cook, C. Kacmar, Kephart, Meyer, Shin, Wallace, Warren, White. Instructors: G. Crow, G. Crow. Adviser: M. Kacmar.

Applied Computer Science Programs

Degree Offered: B.S.

The purpose of the Applied Computer Science (ACS) program is to provide training in the application of computer and systems techniques to real world problems. The ACS major is designed to prepare professionals in the areas of data processing, computer information systems, and technical systems. The ACS minor is intended for the user, for the person who will serve a liaison role or provide limited computer and systems support for a user group.

There are two sequences in the ACS major: Computer Information Systems and Technical Systems. These sequences each require a minor or second major and 9-23 hours of outside requirements as specified below. (There can be substantial overlap among courses which satisfy the outside requirements, University Studies, and the minor.)

Those students who choose a minor in the College of Business should be aware of the following policy: Non-Business majors who desire to elect more than 25 percent (30 credits) of their course work in business must meet all College of Business requirements for graduation. These students should register for business courses beyond 30 credits in person only and with the written permission of the College of Business adviser. The course requirements are listed in the College of Business section of the catalog. Students planning to minor in ACS are warned that while the demand for ACS courses continues to exceed the supply, students minoring in ACS may experience difficulty in obtaining desired ACS classes.

Electives within the major: The "other requirements" section of each major program can be used to tailor individual programs based on student interest and career objectives. Within the Computer Information Systems major sequence, elective course group (a) is the standard choice, directed toward the preparation of programmer/analysts in medium to large organizations. Group (b) allows a greater emphasis on analysis and design, group (c) on systems programming topics, and group (d) on microcomputer applications. Within the Technical Systems major sequence, elective course group (a) allows an emphasis on modeling and simulation; group (b) should be elected by students interested in a theoretical computer science graduate program.

Preparation for Graduate Study: Several directions are available to students who wish to prepare for graduate work. The Computer Information Systems sequence offers excellent preparation for a growing number of computer and management information system masters programs. Students interested in an MBA program should combine the CIS sequence with a business administration minor. The Technical Systems sequence should be elected by those students interested in traditional computer science graduate programs. Those interested in an operations research oriented program would select the modeling and simulation emphasis in the Technical Systems sequence, while those interested in theoretical computer science would select the computer science graduate school emphasis. Any student interested in graduate school should discuss options with an academic adviser during the junior year.

Professional Practice: Each ACS major sequence includes a *practical experience requirement* that may be satisfied by a directed project, an internship, or a CO-OP

assignment. Three hours of ACS 391/398 are counted toward the ACS major for this experience; however, *the hours in 391/398 alone do not satisfy the practical experience requirement.* The ACS Coordinator of Professional Practice must certify **in advance** that the particular experience will satisfy the requirement. Application must be made at the ACS office six weeks prior to the start of the term in which the experience is to occur. Each directed project, internship, or CO-OP assignment requires the prior approval of the ACS Coordinator of Professional Practice. A maximum of sixteen hours of professional practice credit (ACS 298, 391, 398) may be applied toward graduation.

Academic Policies: The following policies apply to ACS majors:

Grades: Only courses in which the student has received a grade of C or higher may be counted toward the 38 hours required for the ACS major. A grade of C or better is required in all prerequisite courses.

Retention: In order to be retained as a major in ACS, a student must maintain a 2.5 GPA in the courses required for the major and a cumulative GPA as follows:

0 - 44 hours	2.0
45 - 59 hours	2.2
60 or more hours	2.5

Note: Students who have been dropped from the ACS major must meet current Change of Major admission requirements in order to be readmitted as an ACS major.

Graduation: In order to graduate with an ACS major, a student must have a 2.5 cumulative GPA as well as a 2.5 GPA in the major.

Admission Policies: A student may enter the ACS major as a new freshman, a transfer student, or as a change of major at ISU. Minimum qualifications exist in each of these categories. **Regardless of qualifications, the number of students admitted to the ACS program will depend on available space.** *Transfer students:* GPA requirements for transfer student admission are the same as the student retention requirements listed above.

Change of major (within ISU): To apply for the ACS major, students should contact the department for the current Change of Major policy.

Honors in Applied Computer Science: The department offers honors work in applied computer science to highly qualified juniors and seniors. Candidates must have a 3.3 overall GPA and a 3.5 GPA in ACS. Honors requirements involve honors course work and the preparation of a substantial research paper or the completion of a significant application project prepared under the guidance of a faculty adviser. For further information contact the ACS director of honors.

MAJOR IN APPLIED COMPUTER SCIENCE

Computer Information Systems Sequence: Designed for the student who will seek a position as a programmer/analyst or systems programmer in a commercial environment.

- 38 hours are required in the major.
- Program Design Core (13 hr): ACS 372 and one of the following groups of courses:
 1. ACS 168, 169, 272.
 2. ACC 266, 366, ACS 274.
- System Design Core (7 hr): ACS 363, 364.
- Practical Experience (3 hr): ACS 391 or 398.
- Other requirements (15 hr): ACS 278, 283, and one of the following groups of courses:

- a. ACS 376, 378, and one of ACS 255, 288, 344, 345, 368, 375.
- b. ACS 368 and two of ACS 255, 375, 376, 378.
- c. ACS 288, 383, and one of ACS 375, 376, 378.
- d. ACS 255, 355, and one of ACS 344, 345, 375, 376, 378.

A minor or second major must be completed. Recommended areas are accounting, business administration, economics, or mathematics.

In addition to major requirements, the following 23 hours are required: MAT 145 & 146 or 120 & 121; COM 110, 223; COM 329 or MQM 220; ACC 131; and a statistics course. While not required, ENG 249 is strongly recommended. (Depending on the minor selected, there may be substantial overlap of these courses with the minor and with University Studies.)

Technical Systems Sequence: Designed for the student interested in mathematically based commercial or engineering systems.

- 38 hours are required in the major.
- Program Design Core (13 hr): ACS 168, 169, 273, 288.
- System Design Core (4 hr): ACS 363.
- Practical Experience (3 hr): ACS 391 or 398.
- Other requirements (18 hr): ACS 278, 283, and one of the following two groups of courses:
 - a. ACS 344, 345, 364, and one of ACS 255, 272, 375, ECO 333.
 - b. ACS 383, 385, one of ACS 255, 272, MAT 366, and one of ACS 345, 364, 372, 375.

A minor or second major in mathematics must be completed, including MAT 350.

In addition to the major and minor requirements, the following 9 hours are required: COM 110, 223; COM 329 or MQM 220. While not required, ENG 249 is strongly recommended. (These courses may overlap University Studies as appropriate.)

Other Programs: The ACS major is designed to serve the needs of all students who wish to apply computer and systems techniques to the solution of real world problems. As new areas are affected by the computer, students may have needs that are not met adequately by the existing sequences. Until new sequences are identified, interested students may apply to the University's General Studies Major program. Inquire at the ACS office.

MINOR IN APPLIED COMPUTER SCIENCE

Computer Information Systems Sequence: 23 hours required. *Program Design core (13 hr):* Either the sequence ACS 168, 169, 272 or the sequence ACC 266, 366, ACS 274; and ACS 372. *System Design core (4 hr):* ACS 363. *Other Requirements (6 hr):* ACS 283 and one of 255 or 278 or 364.

Technical Systems Sequence: 23 hours required. *Program Design core (13 hr):* ACS 168, 169, 273, 288. *System Design core (4 hr):* ACS 363. *Other Requirements: (6 hr):* ACS 283 and one of ACS 255 or 344 or 345.

Special Applications Sequence: 24 hours required. For students interested in applying the computer in an area or in a way not covered adequately by one of the other sequences. A program of study must be approved by an adviser from ACS and the student's major adviser before the student has completed 9 hours in computer related courses. The approved minor program must include a two-semester sequence in a high-level programming language and an appropriate systems or research methods course.

Because of limited departmental resources, it may be necessary during some semesters to restrict the number of ACS courses which major or non-major students may take.

Applied Computer Science Courses

140 INTRODUCTION TO THE COMPUTER WORLD 3 US-7 F.S.Su

Also offered as COM 140. Not for credit ACS maj/min.

A nontechnical course designed to develop effective computer users and to acquaint the students with the impact of computers on the person and society. No previous computer experience or mathematics requirements necessary.

150 USING MICROCOMPUTER PRODUCTIVITY TOOLS 3 F.S

Not for credit ACS maj/min or if had BEA 200.

Introduction to typical microcomputer-based productivity tools such as word processing, spreadsheets, databases, graphics, and communications.

155.01 INTRODUCTION TO MICROCOMPUTERS 3 US-7 F.S.Summer

Not for credit ACS maj/min, or if had 155.02. Lecture and laboratory. Materials charge optional.

Introduction to microcomputers and programming, with general, business, and artistic applications emphasized. BASIC programming including graphics; simple disk I/O; application software packages; comparative analysis of microcomputer systems.

155.02 INTRODUCTION TO MICROCOMPUTERS 3 US-7 F.S.Summer

Not for credit ACS maj/min, or if had 155.01. Lecture and laboratory. Materials charge optional.

Introduction to microcomputers and programming, with scientific and technical applications emphasized. BASIC and machine language programming including I/O, elementary files, application software, and hardware and software evaluation.

164 INTRODUCTION TO FORTRAN PROGRAMMING 3 US-4 F.S

C or better in MAT 107 or HS equiv req. Also offered as MAT 164. Not for credit ACS maj/min.

An introduction to programming using the FORTRAN language including built-in functions, subprograms, and sequential file processing.

166 SCIENTIFIC PASCAL 3 F.S

C or better in MAT 110 or equiv req. Not for credit ACS maj/min.

Introduction to Pascal language; techniques for problem solving, algorithm development, program construction, and mathematical applications.

168 STRUCTURED PROBLEM SOLVING AND THE COMPUTER 3 US-4 F,S,Su

C or better in MAT 107 or HS equiv req. Recommended as the first course in the ACS maj.

Emphasis on structured problem solving and the development of algorithms for information processing. The PL/C language is used.

169 INFORMATION PROCESSING USING PL/I 3 F.S

An A or B in ACS 168 or cons dept chair. Not for credit if had ACS 274.

Programming techniques using major components of PL/I including data representation, block structure, flow of control, storage classes, consecutive file organization, subroutines, and user defined functions.

255 MICROCOMPUTER APPLICATION AND DESIGN I 3 F.S.Summer

ACS 169 or A in ACS 155 req. Materials charge optional.

Introduction to hardware/software microcomputer architecture. Microcomputer and peripheral configurations for various applications. High-level language programming and file manipulation.

272 COBOL AS A SECOND LANGUAGE 4F.S

ACS 169 req. ACS 283 rec. Not for credit if had ACC 366.

Study of the COBOL language for students with substantial programming experience in another language. Emphasizes structured problem solving and programming.

273 FORTRAN AS A SECOND LANGUAGE 4 S

ACS 169 or ACC 266 req. ACS 283 rec. Either a B in MAT 121 or a C in MAT 145 req.

Intensive study of FORTRAN for students with programming experience. Emphasizes designing and implementing solutions to mathematically based problems. Introduces IBM utilities and software packages.

274 PL/I AS A SECOND LANGUAGE 4 F.S

A two semester sequence in a programming language or an A in ACS 164 and 283 req. Not for credit if had ACS 168, 169.

Intensive study of the PL/I language for students with previous programming experience. Emphasizes structured problem solving and programming.

278 DATA STRUCTURES 3 F.S

ACS 169 or ACS 274 req.

Data representation and organization, structuring of data, lists, stacks, trees, queues, sorting, merging, and file organization maintenance.

283 ASSEMBLER LANGUAGE PROGRAMMING 3 F.S

ACS 169 or equiv, or A or B in ACS 164 req.

Assembler language programming, macro language, and debugging compiler level programs via dumps.

288 ADVANCED ASSEMBLER LANGUAGE PROGRAMMING 3 F

ACS 283.

Programming techniques using major components of BAL including sequential access methods, subroutine linkage, interrupt processing, dynamic storage allocation.

298.50 PROFESSIONAL PRACTICE: CO-OP IN APPLIED COMPUTER SCIENCE 1-4 F.S.Summer

ACS 169 and prior approval by Prof Practice Coordinator. Maj only. May be repeated. Max 16 hrs combined credit in ACS 298, 391, 398.

344 DISCRETE SYSTEM SIMULATION 3 F

ACS 169 or 273 or 274 req. MAT 121 or 146 req. A course in prob/stat req. Also offered as MQM 344.

Problem solving using discrete simulation languages and techniques. Applied queuing theory, pseudo-random numbers, model verification and validation, experimental design.

345 APPLIED COMPUTER MODELING 3 S

MAT 121 or 146, ACS 164 or 168 or 273 or ACC 266 req. ACS 169 rec.

Computer-based modeling methodologies applied to complex social and natural systems. Simulation languages, system dynamics, case studies, and modeling projects.

- 355 MICROCOMPUTER APPLICATION AND DESIGN II 3 F.S**
ACS 255 req. ACS 283 rec. Materials charge optional.
 Microcomputer applications with an emphasis on basic microcomputer architecture, interfacing peripherals, machine language programming, and system software design.
- 363 INTRODUCTION TO SYSTEMS DEVELOPMENT 4 F.S**
COM 223 and 12 hrs in ACS req.
 Development of computerized information systems emphasizing structured systems analysis and the project team's role in organizing and controlling the development process.
- 364 SOFTWARE DESIGN 3 F.S**
ACS 363 req.
 Structured design methodologies and implementation strategies in information system software development. Emphasizes psychological aspect of development, accurate reflection of the problem, correctness, reliability, maintainability.
- 368 TOPICS IN SYSTEMS DESIGN 3 S**
ACS 363, 364.
 Advanced topics in systems analysis, design, and development.
- 372 EXTERNAL DATA STRUCTURES 3 F.S**
ACS 272 req. Materials charge optional.
 External file design, VSAM, IBM utilities and sort/merge, basic concepts of IBM/MVS operating systems, and extensive study of JCL. Programming in COBOL.
- 375 INTRODUCTION TO DATA COMMUNICATIONS 3 F.S**
2 sem sequence in high level programming language req.
 Introduction to hardware and software used in data communications and networking. Network types, architectures, and protocols. Local area networks.
- 376 INTRODUCTION TO ONLINE SYSTEMS 3 F.S**
ACS 372 req; ACS 363 rec. Materials charge optional.
 Design, development, and implementation of online system applications using CICS with studies in data communications concepts, hardware, man-machine interaction, networking, and distributed processing.
- 378 DATABASE PROCESSING 3 F.S**
ACS 278, 363 and conc req in 372 req.
 Database software design philosophies: hierarchical, network, relational. Study of major commercial packages. Implications for systems development and management of the information resource.
- 383 PRINCIPLES OF OPERATING SYSTEMS 3 S**
ACS 283 req.
 Functional criteria for operating system design. Job management, task management, data management, resource allocation and dump and trace facilities.
- 385 TOPICS IN COMPUTER SCIENCE 3 S**
Jr or Sr standing. Prerequisites vary with topic chosen. May be repeated if content different.
 In depth study of a topic such as compiler design, artificial intelligence, programming language and digital logic design.
- 390 INDEPENDENT STUDY 1-3 F.S**

- 391 DIRECTED PROJECT IN APPLIED COMPUTER SCIENCE 1-6 F.S, Summer**
ACS 364 and one of 372, 355, or 288 req. ACS maj only. May be repeated. Max 16 hrs combined credit in ACS 298, 391, 398.

Team design and/or implementation of a modest sized computer based system in a live environment under faculty supervision.

- 398 PROFESSIONAL PRACTICE: IN APPLIED COMPUTER SCIENCE 1-6 F.S**
ACS 363 and either ACS 272 or 288. By application and prior approval of ACS Prof Practice Coordinator only. ACS maj only. May be repeated. Max 16 hrs credit in Professional Practice; Max 3 hrs Professional Practice maj.

CRIMINAL JUSTICE SCIENCES (CJS)

401 Schroeder Hall, (309) 438-7626

Chairperson: Steven G. Cox.

Faculty: Associate Professor: Cox, Morn. Assistant Professors: Ellsworth, Klofas, Smith, Weisheit. Instructor: Fortune. Lecturers: Alexander, McAninch, C.Young, P.Young.

Criminal Justice Sciences Programs

Degrees Offered: B.A., B.S.

The purpose of the Criminal Justice Sciences program is to provide the student with a system orientation to the field of criminal justice. Study in criminal justice involves the application of principles of criminal justice and the related behavioral and social sciences to problems and issues in the field of criminal justice. The program, therefore, focuses on the building of knowledge in the areas of law enforcement, courts, and corrections from a social science perspective. Students develop a knowledge base for an in-depth understanding of human behavior and the kinds of problems and circumstances that often result in criminality. Finally, the program provides students with the opportunity to gain necessary skills in the area of interviewing, program development, community organization, planning and research to function in a professional position in the field of criminal justice.

MAJOR IN CRIMINAL JUSTICE SCIENCES

- 55 hours required.
- Required courses: CJS 101, 200, 201, 207, 300, 304, 390 or 395, 398.01 (6 hours)*, 398.02 (6 hours)*.
- 22 hours of electives selected with the approval of an academic adviser. A minimum of 12 hours must be selected from Department of Criminal Justice Sciences

course offerings. Elective courses recommended in other departments: POS 215, 231, 281, 330, 331; PSY 131, 232, 302, 350; SAS 131, 221, 263, 264, 365, 367; SED 362; FAL 208; MQM 220, 221. Students who major in Criminal Justice Sciences must complete the following courses or equivalents: ENG 145; SAS 106; PSY 111.

*It is the responsibility of students wishing enrollment in CJS 398.01 and 398.02 to make application for the purposes of determining eligibility and discussing placement alternatives with the Criminal Justice Sciences internship coordinator upon completion of 75 semester hours, or approximately two semesters prior to desired enrollment. The department will notify students when application meetings are to be held each semester. To be eligible, the student shall have completed a minimum of 90 semester hours including all prerequisites, shall have a minimum cumulative GPA of 2.2, shall have a minimum GPA of 2.2 in Criminal Justice Sciences courses, and shall have been off academic probation for the previous full semester.

CJS 395, 398.01 and 398.02 may be waived for students who have completed one or more years of employment in a criminal justice agency provided that employment occurred within the preceding five years, or who academically or situationally are ineligible for the internship. If a waiver is granted the student will be required to complete the equivalent number of hours of course work with the approval of the departmental academic adviser. Students who have completed ACE evaluated training programs may substitute the training for CJS 395 and 398.01.

MINOR IN CRIMINAL JUSTICE SCIENCES

- 21 hours required.
- Required courses: CJS 101, 200, 201, 207, 304.
- 6 hours of electives selected with the approval of an academic adviser from the Department of Criminal Justice Sciences course offerings.

Honors in Criminal Justice Sciences: The department offers honors study in Criminal Justice Sciences to highly qualified students who will pursue an individualized program of study. The honors program enables the superior student to focus on topics of the student's own choosing in close consultation with a department faculty member. In order to qualify, the student must have achieved a GPA of 3.30 or better, both overall and in the major. The student must complete an independent study worth at least 3 semester hours credit (CJS 299-Independent Honors Study) and must complete at least an additional 3 semester hours credit of in-course honors or honors undergraduate research (IDS 285 or 286) in the department. In addition to the six hours credit for department honors, the student must also complete SAS 240 (Social Statistics) or its equivalent with a grade of B or better. Students interested in participating in the honors program should inquire about admission in the office of the Department of Criminal Justice Sciences.

Criminal Justice Sciences Courses

101 INTRODUCTION TO CRIMINAL JUSTICE SCIENCES

3 US-7

F.S.Summer

Materials charge optional. Attendance at films req.

An analysis of the criminal justice system focusing on the police, courts, and corrections.

200 CONTEMPORARY CORRECTIONS

3

F.S.Summer

CJS 101 rec. Maj/min only or cons inst.

Familiarizes students with correctional alternatives as they currently exist. Controversies and emerging trends in corrections will be considered.

201 CRIME AND BEHAVIOR 3 F.S.Summer

CJS 101, SAS 106, PSY 111 rec. Maj/min only or cons inst. Materials charge optional. Formerly PSYCHOLOGICAL PRINCIPLES APPLIED TO CORRECTIONAL REHABILITATION.

Theoretical and conceptual explanations of criminal behavior.

206 FUNDAMENTALS OF CRIMINAL INVESTIGATION 3 F

CJS 101 or cons inst rec.

An intensive analysis of the criminal investigation process including information gathering and analysis, preservation of evidence, legal issues, and investigative strategies.

207 CONTEMPORARY POLICING IN AMERICA 3 F.S.Summer

CJS 101 rec. Maj/min only or cons inst.

Survey of law enforcement, its history, police practices, functions, and related issues and concepts of contemporary police.

212 COMMUNITY-BASED CORRECTIONS 3 F.S

CJS 101, 200, ENG 145, and cons inst req. Not for credit if had both COR 202 and COR 203. If had COR 202 but not COR 203, can be substituted for COR 203 for students under catalogs prior to 1982-83. If under catalog prior to 1982-83 and have had neither COR 202 and COR 203, may substitute CJS 212 and 3 hours of CJS electives, selected with departmental adviser approval. Materials charge optional.

Theoretical basis, current methodology, and operations: Court counselors, citizen action, half-way houses, work-release, drug abuse treatment, detention, reception and diagnostic centers, and probation and parole.

215 JUVENILE JUSTICE 3 F.Summer

CJS 101 req. Formerly CJS 301.

The processing and treatment of juvenile offenders. Examines the organization, operation and goals of the individuals, agencies and institutions that work with youthful offenders.

240 HISTORY OF CRIMINAL JUSTICE 3 F

Crime and the American criminal justice system from the colonial period until the mid-twentieth century.

Instructors: Johnson, Schmucker, Taylor.

Honors in Health, Physical Education, Recreation and Dance: The Department of Health, Physical Education, Recreation and Dance offers the highly qualified major or minor student an individualized program. Students who are interested apply for admission to the program, offering general academic qualifications. The final designation *Honors in Health, Physical Education, Recreation and Dance* is earned by completing the program and fulfilling specific criteria. Additional information may be obtained from the chairperson of the Department of Health, Physical Education, Recreation and Dance.

Professional Practice: Internship and cooperative education experiences are available at all levels (198, 298, 398) in Dance, Physical Education, and Recreation and Park Administration. Students may earn from 1-16 hours. No more than 16 hours may be applied toward graduation. Professional practice experiences are supervised work experiences in businesses, agencies, organizations, and institutions and are both paid and unpaid. For further information, contact the professional practice coordinator in your major.

Readmission Policy: Students who have been dropped from the department because of repeated academic probation may be readmitted after they have repeated D's and F's in courses required by their major, and when their cumulative GPA reaches 2.0 if they are in a non-teaching option or 2.2 if they are in a teaching option in dance or physical education. Students majoring in one of the se-

quences leading to teacher certification in dance or physical education must also meet the standards for teacher education programs described by programmatic policies for selective admission and retention.

COMPREHENSIVE PHYSICAL EDUCATION

MAJOR

Teacher Certification Sequence: 50 hours required. Part of entitlement program leading to certification: secondary 6-12; optional special K-12. Required Courses: HPR 156, 157, 158, 181, 182 or 351, 221, 241, 252, 253, 258, 282, 383.

Required Specific Physical Skills and Personal Safety Competencies: Upon completion of 90 semester hours (or before student teaching for teacher certification students), all major students must verify competencies (knowledge and skill) in 12 selected physical education activities and in 3 areas of personal safety. The verification must be a matter of record in the department office. Minimum competency may be demonstrated by either (1) satisfactory completion of activity courses specifically designated major/minor with a grade of C or better, or (2) satisfactory completion of a major/minor proficiency examination in the specific activity. All major students must verify at least six of the twelve activity competencies at Illinois State by enrolling in selected courses designated as major/minor. A maximum of 6 hours may be earned through transfer credit or proficiency. Required skills and competencies are listed in the following plan:

A. *Individual-Dual Activities.* Select Badminton (150.20), Tennis (150.70), Golf (150.50), Track-Field (150.80), Gymnastics (150.60), and Fitness and Conditioning (150.40).

B. *Team Sports.* Select Basketball (151.10), Softball (151.20), Volleyball (151.30), and Soccer (152.30).

C. *Dance Activities.* Select Folk and Square Dance 153.20 and either Social Dance (153.10) or Modern Dance (153.30).

D. *Personal Safety Skills.* Students must verify minimum competence in personal safety skills before graduation. These are listed as follows:

1. *Swimming.* Satisfactory completion of any college level swimming course or presentation of a current ARC, YMCA, or YWCA intermediate or higher level certificate.

2. *First Aid.* Satisfactory completion of First Aid (180) with a grade of C or better, or satisfactory completion of a first aid proficiency test, or presentation of a current Standard or multi-media ARC First Aid Certificate.

3. *Cardiopulmonary Resuscitation.* CPR techniques must be verified by presenting an operator's certificate.

Elective Courses: Students are encouraged to select one of the following areas of concentration to complete the 50 hours required of the comprehensive major: (1) Adapted Physical Education, (2) Aquatics, (3) Athletic Coaching, (4) Athletic Training, (5) Dance, (6) Recreation, (7) Elementary Physical Education, or (8) Secondary Physical Education. Written materials describing each area of concentration are available through departmental advisers.

Non-Certification Sequence: 50 hours required. Program requirements are the same as those for the Teacher Certification Sequence except HPR 298 is required instead of HPR 258.

MAJOR IN PHYSICAL EDUCATION

Teacher Certification Sequence: 37 hours required. Part of entitlement program leading to certification: secondary 6-12; optional special K-12. Required Courses (30 hours): HPR 156, 157, 158, 181, 182 or 351, 221, 241, 252, 253, 258, 282, 383.

Required Specific Physical Skills and Personal Safety Competencies are the same as those listed above under the 50-hour Comprehensive Physical Education Major.

Non-Certification Sequence: 37 hours required. Program requirements are the same as those for the Teacher Certification Sequence.

Selective Admission-Retention Policy For the Teacher Education

Programs in Physical Education

Selective Admission: All physical education majors planning to become certified teachers must apply for and be admitted to the University's Teacher Education Program (see Teacher Education Program section of the catalog). Upon applying for admission to the departmental Teacher Education program, the Physical Education Major or Comprehensive Major must have verified the following:

1. A minimum of six semester hours in physical education at Illinois State with a minimum grade of C in each required physical education course taken. The six semester hours must include two hours in HPR 158 (Instructional Strategies) and two hours in the Specific Physical Skills and Personal Safety Competencies.
2. Satisfactory completion of the clinical experience (participation assignment) included in HPR 158 (Instructional Strategies). To achieve a satisfactory rating, the student must have an overall rating of 3 or above on a scale of 5 in this experience. If this rating is not achieved, a student must participate in a second assignment. A student must demonstrate improvement in this second experience by achieving a minimum rating of 4 or above. *Students who do not achieve a minimum rating of 4 or above on the second experience will not be recommended for admission to Teacher Education in Physical Education.*
3. Completion of a departmental application for admission to the Teacher Education Program and a projected program plan for graduation through contact with a departmental adviser.
4. Participation in a personal interview with the Program Director of Physical Education if so requested.
5. A positive recommendation from the Physical Education Program Director based upon evidence of satisfactory progress from faculty teaching in the major program.
6. Students who fail to meet all requirements for admission to teacher education by established deadlines may petition through the Physical Education Teacher Education Coordinator for an extension of time. All petitions must be approved by the Office of CECF.

Selective Retention: In order to receive departmental approval for a student teaching assignment the student must verify the following:

1. A student, after having been officially admitted to the University and departmental teacher education program, must maintain a GPA of 2.2 in both the overall and departmental courses. A student falling below the required GPA will be placed on probation for one semester. If after one semester, the 2.2 GPA has not been re-established, the student will be dropped from the University and Departmental Teacher Education Program. The student may reapply for admission upon meeting all of the criteria again.

2. Satisfactory (grade of C) completion of HPR 258 (Directed Experiences in Physical Education).
3. Received a satisfactory recommendation from the departmental faculty assigned to supervise the clinical experience in HPR 258.
4. Completion of the following additional courses with a minimum grade of C: HPR 156, 157, 181, 182, or 351, 221, 241 and 282.

Entitlements: Completion of the Teacher Certification Sequence in the 37 hour major or the 50 hour Comprehensive Major entitles the physical education graduate to the 6-12 secondary certificate and, the K-12 special certificate if additional student teaching assignments have been completed at the elementary level. Student choice will determine the type of student teaching assignment (elementary and secondary or secondary only) and thus the type of certification entitlement. Students who select a dual student teaching assignment are entitled to both the K-12 and 6-12 teaching certificates when they graduate if they so desire.

Graduation Requirements: All required Physical Education courses must be completed with a grade of C or better.

MINOR IN PHYSICAL EDUCATION

- Required preprofessional courses (33 hours, 12 of which satisfy part of the University Studies requirements): ECO 101, ENG 101; ACC 131, 166; BSC 160, 181, 182, 183; MQM 220; and a statistics course from SAS 240 (prereq SAS 106), or PSY 240 (prereq PSY 111), or ECO 131 (prereq MAT 120), or MQM 100 (prereq MAT 110 or 120).
- Required professional courses (43 hours): HSC 105, 200, 201, 202, 210, 211, 220, 230, 298.01, 300, 310, 340, 345, 346, 398.03.

Medical Technology Program

Degree Offered: B.S.

MAJOR IN MEDICAL TECHNOLOGY

- 48 hours as specified below plus 32 hours of clinical residency. **Note: Because of prerequisites or lack of prior skill, this major may require more hours than indicated.**
- Required courses: HSC 260; BSC 191, 216, 260, 283; CHE 140, 141, 220, 242; MAT 110, and two courses chosen from: HSC 261, 262; BSC 361, 219, or CHE 215. Strongly recommended: PHY 105 or 108; HSC 160, 360, and 361; ACS 140, 168, or another computer science course.
- Required clinical residency: 32 hours of clinical courses in an AMA-NAACLS (National Accrediting Agency for Clinical Laboratory Sciences) approved hospital school of medical technology affiliated with Illinois State University. The required professional courses are HSC 362, 363, 364, 365, 366, 367, 368, and 369. Specific credit hours for each course are determined by the hospital schools of medical technology. **Note:** Prerequisites for these required professional courses are: 90 hours completed including University Studies, and the following required courses: HSC 260; BSC 191, 216, 260, 283; CHE 140, 141, 220, 242; MAT 110 and two courses chosen from the following group: HSC 261, 262; BSC 361, 219, or CHE 215, and acceptance into an affiliated hospital School of Medical Technology.

All students admitted to the Medical Technology Program are required to go through a special admission process. Students must have an overall GPA of 2.5 and must also

have earned a 2.5 GPA in required classes. They are asked to interview with two faculty members and submit two completed recommendation forms. All materials are then considered by the Medical Technology Selection Committee. A student should plan the specific program of study in consultation with a faculty member of the Medical Technology Program in the Department of Health Sciences. Seminars and independent study are available for students desiring additional study. Students must apply for acceptance into a hospital for the clinical residency. The twelve-month residency involves work in several laboratory departments and technical instruction in hematology, clinical chemistry, blood banking, pathogenic microbiology and other aspects of laboratory medicine. Graduates of the program are eligible and are expected to write a national certification examination.

Honors in Health Sciences: The Department offers honors study to qualified students who will pursue an individualized course of study. To qualify, students must be full-time declared majors in the department, have completed 60 hours of credit, have and maintain a minimum cumulative 3.3 GPA, have and maintain a 3.5 GPA in the major, and have completed 9 semester hours in the major. To graduate with honors, students must complete 12 hours of Honors work in professional courses in the major selected from the following options: participation in Honors Undergraduate Research and/or Honors Independent Study and/or in-course honors. Students interested in the Honors program should contact the Department of Health Sciences.

Health Sciences Courses

100 INTRODUCTION TO THE HEALTH COMMUNITY 3 US-7 F.S, Summer

Not for credit maj.

Health care facilities and agencies, their organizational patterns, financing and regulations; the role of health related professionals, their interrelationships and responsibilities.

105 MEDICAL TERMINOLOGY 3 F.S, Summer

Study of basic language related to medical science and allied health specialties with emphasis on word analysis, construction, definitions, pronunciation, spelling and standard abbreviations.

150 INTRODUCTION TO ENVIRONMENTAL HEALTH 2 S

Principles of environmental health protection, disease causation and control, through study of various contact environments and implementation measures.

155 MAN AND ENVIRONMENT: A HEALTH PERSPECTIVE 3 US-7 F.S, Summer

Not for credit Env Health maj.

Provides students with a conceptual framework for the study and analysis of man-environmental health problems in daily activities.

156 APPLIED FOOD SERVICE SANITATION 2 F

Not for credit Env. Health maj min. Also offered as HEC 156.

A review of the practices and laws governing the sanitation of food service facilities.

- 160 INTRODUCTION TO MEDICAL TECHNOLOGY 2 F.S. Summer**
Study of profession of Medical Technology emphasizing origin, goals, organizational structure, professional requirements, interrelationships with other professions, professional ethics, and considerations for future.
- 190 FOUNDATIONS OF HEALTH EDUCATION 3 F.S**
Health Education maj min only.
The historical and philosophical perspectives of the development of health education. A comparison of the major concepts and theories of health and characteristics of health education programs in schools and communities.
- 194 HEALTHFUL FAMILY LIVING 2 US-7 F.S**
Introduction to the health of the family as illustrated through illness patterns, stress, abuse, and health behavior.
- 196 DRUGS IN LIFE STYLES 2 US-7 F.S**
An examination of human, social, and cultural issues surrounding the problems of drug abuse. Personal motivations and behaviors are identified.
- 200 HEALTH INFORMATION MANAGEMENT 3 F.S**
HSC 105, 210. Maj only or cons inst. Materials charge optional.
Practical applications of word processing and management concepts to health record systems.
- 201 FUNDAMENTALS OF MEDICAL SCIENCE I 3 F**
HSC 105; BSC 181, 182, 183. Maj only.
Relationship between human organism and disease processes, including treatment and management of patients.
- 202 FUNDAMENTALS OF MEDICAL SCIENCE II 3 S**
HSC 201.
Continuation of HSC 201.
- 205 MEDICAL TERMINOLOGY II 3 F**
HSC 105.
Systematic and intensive study of the technical language related to medical science and health specialties.
- 210 INTRODUCTION TO MEDICAL RECORDS ADMINISTRATION 3 F.S**
Materials charge optional.
A survey of the history of medical records and the profession. Analysis of record content, stressing accuracy, completeness, and correlation of data. Numbering and filing systems with emphasis on retention policies and storage methods.
- 211 NOSOLOGY AND HEALTH DATA MANAGEMENT 3 F**
HSC 105, 200, and SAS 240 or PSY 240. Maj only.
A study of disease and operative classification systems and specialized medical nomenclatures. Analysis of data collection and retrieval. Computation of hospital statistical data.
- 220 ORGANIZATION AND MANAGEMENT OF RECORD CENTERS 3 F**
HSC 105, 200; MQM 220. Maj only.
Application of principles of organization and management to development and administration of health record centers.
- 230 LAW, HEALTH CARE, AND DOCUMENTATION 2 F.S**
HSC 105, 210. Maj only.
Federal, state, and local laws governing the preparation and use of medical records.
- 245 ENVIRONMENTAL HEALTH PRACTICE 3 F**
HSC 150 rec.
Environmental health protection through the study of selected environments, planning, and general control methods.
- 246 PESTS AND PEST CONTROL 3 F**
CHE 140-141, 220, BSC 160 or 260, or equiv req; HSC 245 req.
Environmental health hazards caused by pests of public health significance, including identification, correction, and prevention of pest problems.
- 247 WASTE MANAGEMENT PRACTICES 3 F**
MAT 107, 108; CHE 140-141, 220; HSC 245; BSC 160 or equiv req. Lecture and laboratory.
Study of sewage and solid waste sources; effects on health and environment, treatment processes, and control measures.
- 248 OCCUPATIONAL HEALTH 3 F.S**
CHE 110-112, and MAT 107 and 108, or 109 req. Also offered as IT 248.
Adverse environmental conditions encountered in the workplace affecting the efficiency, health, and well-being of employees.
- 249 ENVIRONMENTAL TOXICOLOGY 3 F**
MAT 107, 108; CHE 140-141 or equiv; HPR 182 req.
Toxicants such as heavy metals, gases, vapors, dusts, pesticides, food additives, and their effects on health and environment.
- 252 WATER QUALITY AND TREATMENT 3 S**
MAT 107 and 108, CHE 140-141, 220, BSC 160, or equiv req; HSC 245 req. Lecture and laboratory. Materials charge optional.
Water quality maintenance for drinking and recreational uses; health effects and control measures are considered.
- 254 CONTROL OF INSTITUTIONAL ENVIRONMENTS 3 S**
CHE 140-141, 220; HSC 245; BSC 160 or equiv. Lecture and laboratory.
Environmental health aspects of hospitals, nursing homes, penal institutions, schools, colleges and universities. Control of physical, chemical and microbiological hazards.
- 257 AIR QUALITY AND POLLUTION CONTROL 3 S**
CHE 140-141, HPR 182, or equiv; HSC 245 req. HSC 249 rec. Lecture and laboratory. Materials charge optional.
Air contaminants found in the ambient air, workplace, and home, which includes health effects, measurement, and control.
- 258 EPIDEMIOLOGY 3 F**
BSC 160 or BSC 260, SAS 240 req. Also offered as BSC 258.
Principles and methods governing the surveillance and investigation of disease and injury in human populations.
- 260 INTRODUCTION TO THE MEDICAL LABORATORY: IMMUNOHEMATOLOGY AND SEROLOGY 4 F.S. Summer**
CHE 220 req. Enrollment in Med Tech prgrm or cons inst. Lecture and laboratory. Materials charge optional.
The principles and procedures of immunohematology (blood banking) and serology.

261 INTRODUCTION TO THE MEDICAL LABORATORY: HEMATOLOGY 3 F.S

CHE 220, enrollment in Med Tech program or cons inst. Lecture and laboratory. Materials charge optional.

Investigation of observable phenomena that provide basis for tests used as aids to diagnosis of disease processes. Uses, misuses and limitations of laboratory equipment are considered.

262 INTRODUCTION TO THE MEDICAL LABORATORY: APPLIED CLINICAL ANALYSIS 3 F.S

CHE 220, enrollment in Med Tech program or cons inst. Lecture and laboratory. Materials charge optional.

The principles and procedures of chemical analysis of body fluids in the clinical laboratory. The use of clinical instrumentation is stressed.

288 SCHOOL HEALTH 2or4 F

HSC 190, 290.01. Admittance to the University's Teacher Education program. Health Education majors required to take 4 hours. Health Education minors and other teaching majors should enroll for 2 hours. Incl Clin Exp.

Overview of school health program, with emphasis on health needs of school-age children. Investigation of materials and methodologies appropriate for health education.

290 CONTINUING SEMINAR IN HEALTH EDUCATION 2 F.S

Health Education maj min only. Must be repeated for max 4 hours credit as 290.01, 290.02.

Experiences including agency and laboratory visits; communication of new methods and materials; synthesis of interdisciplinary experiences; and student advisement.

292 COMMUNITY PUBLIC HEALTH 2 S

Introduction to public health at local, state, and national levels, including the relationships among public health departments, voluntary health agencies, and schools. Includes emphasis on selected community health problems.

294 HEALTH EDUCATION AND ENVIRONMENTAL QUALITY 3 S

Role of health education in an individual's relationships with other persons, technology and culture, and the quality of environment generated.

296 HUMAN POTENTIAL AND HEALTH EDUCATION 3 F.S

HSC 190 and HSC 290.01 or cons inst.

Examination of the physical, mental-emotional and social dimensions of growing and developing, interacting, and decision-making. Interrelationships of these life processes will be used to illustrate how the quality of life may be improved through health education.

297 MODERN HEALTH PROBLEMS 3 F

Emphasis on recent developments in selected critical health areas and their application to individual health habits and attitudes.

298.01 PROFESSIONAL PRACTICE: INTERNSHIP IN MEDICAL RECORDS 2 F.S, Summer

Maj only or cons inst. Formerly AHP/HSC 248

Student assignment to medical records centers for direct experience.

300 MEDICAL INFORMATION SYSTEMS DESIGN 3 S

HSC 220; ACC 166. Maj only.

Application of computer technology to the health sciences, systems analysis; medical audits and quality assurance programs.

310 MEDICAL RECORDS ADMINISTRATION SEMINAR 2 S

HSC 211, 220 req. Maj only.

Literature survey and intensive exploration of effective methods of identifying and solving problems encountered in the administration of health record centers.

340 TRENDS IN HEALTH CARE DELIVERY 3 F.S

HSC 210, 211, 220 and/or cons of inst req.

Intense analysis of emerging nontraditional and specialized health care facilities; their organizational patterns, accreditation standards, legal requirements and special documentation needs. Site visits and reports required.

345 QUALITY ASSURANCE IN HEALTH CARE 3 F

HSC 210 req. Maj only.

Investigation, identification, assessment, and monitoring of problems in health care.

346 HOSPITAL BUDGETING PROCEDURES 3 S

HSC 211, 220 req. Maj only.

Systematic study of hospital planning; coordination of resources and expenditures; reimbursement methods.

350 FOOD PROTECTION 3 F

CHE 220, BSC 160 or equiv req. Lecture and laboratory. Materials charge optional.

An intensive study of the laws, principles, and techniques applied in the protection of food and milk for human consumption.

351 ENVIRONMENTAL HEALTH SEMINAR 1 S

Cons program director. May be repeated once. Maj in Env Health Program.

Supplement to formal coursework dealing with contemporary topics in environmental pollution, occupational health and institution environmental quality administration. Content will vary at discretion of instructor.

353 ENVIRONMENTAL HEALTH PRACTICUM 5 Summer

Senior ENH major. Not for credit if had HSC 398.01 or 398.51. Completion of core and cons of Pgm Dir req. This course may be substituted for HSC 398.01.

Supervised field practice in actual or simulated environmental health problems in the university community as alternative to internship.

354 INDUSTRIAL HYGIENE PRACTICUM 5 Summer

Senior ENH major. Not for credit if had HSC 398.01 or 398.51. Completion of core and cons of Pgm Dir req. This course may be substituted for HSC 398.01.

Supervised field practice in actual or simulated industrial hygiene problems in the university community as alternative to internship.

355 ENVIRONMENTAL HEALTH DECISION PROCESSES 3 S

Sr maj in Env Health program or cons inst. Lecture.

An intensive study of the decision making techniques, organizational structure, interagency relationships, program methodologies, and legal aspects of environmental health practice.

359 QUANTITATIVE OCCUPATIONAL HEALTH **3** **S**

HSC 248 or cons inst req. Also offered as IT 359.
Techniques for measurement, evaluation, and control of chemical and physical stresses in occupational environments.

360 SEMINAR IN MEDICAL TECHNOLOGY **2** **F.S**

CHE 220, enrollment in Med Tech program req.
Review of current literature in clinical laboratory science and the development of a research paper and/or project.

361 IML - COAGULATION AND HEMOSTASIS **2** **F.S**

CHE 220 or equiv and BSC 216 req. Materials charge optional.

Principles and procedures of blood coagulation and hemostasis.

362-369 CLINICAL STUDIES **F.S.Summer**

90 hrs incl University Studies and the following required courses: HSC 260; BSC 191, 216, 260, 283; CHE 140, 141, 220, 242; MAT 110. Two courses selected from the following: HSC 261, 262; BSC 219, 361; CHE 215. Cons Program Director req. Acceptance into an affiliated hospital School of Medical Technology. May be repeated. Additional information is listed with each course description.

362 CLINICAL BIOCHEMISTRY **1-10** **F.S.Summer**

Max 10 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Concentrated laboratory instruction and theoretical applications of clinical biochemistry. Current testing procedures, instrumentation, and quality assurance are studied.

363 CLINICAL SEROLOGY AND IMMUNOLOGY **1-5** **F.S.Summer**

Max 5 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Basic immunology, serological reactions, and current serology testing procedures are covered. A concentrated laboratory experience is included.

364 CLINICAL URINALYSIS AND MICROSCOPY **1/2-4** **F.S.Summer**

Max 4 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Lecture and laboratory experience and routine and special urinalysis procedures. Basic microscopy use and maintenance are emphasized.

365 CLINICAL PARASITOLOGY **1/2-3** **F.S.Summer**

Max 3 hrs. Also, see prerequisites for 362-369 Clinical Studies.

General techniques for identification of clinically significant parasites and yeast. Morphology, symptomology, and epidemiology are stressed. A concentrated laboratory experience included.

366 SPECIAL TOPICS **1/2-4** **F.S.Summer**

Max 4 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Selected topics of professional significance. May include management, pathology, medico-legal aspects, and basic teaching principles.

367 CLINICAL HEMATOLOGY **1-6****F.S.Summer**

Max 6 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Study of formed elements of blood under normal and stress conditions. Abnormalities and basic morphological changes due to disease states are studied. Study of coagulation principles is included.

368 CLINICAL MICROBIOLOGY **1-9** **F.S.Summer**

Max 9 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Comprehensive medical microbiology. Included are taxonomy of pathogens, identification, culture methods and procedures, and antibiotic sensitivity testing.

369 CLINICAL IMMUNOHEMATOLOGY **1-5F.S.Summer**

Max 5 hrs. Also, see prerequisites for 362-369 Clinical Studies.

Theory and practice of immunohematology. Includes study of blood groups, compatibility testing, hemolytic disease of the newborn, blood transfusion, and component preparation.

370 MEDICAL AND TECHNOLOGY UPDATE **3** **F.S**

Grad from a school of clinical lab science or cons inst req. Not for grad cr. May be repeated if content different.

New information on selected topics in clinical laboratory science for practicing laboratorians.

390 DRUGS IN SOCIETY **3** **F.Summer**

Also offered as HPR 390.
Psychological, social, medical, legal and economic aspects of use, misuse and abuse of substances will be explored along with the implications for education.

392 VALUES AND HEALTH **3** **S**

Also offered as HPR 392.
Exploration of the valuing process and its relationship to health and health education. Development of skills and techniques of value clarification for use in health education with clients.

394 HEALTH ASPECTS OF AGING **3** **F.S**

SAS 211 req. Also offered as HPR 394 and HEC 394.

Materials charge optional.

395 MEDIA AND MATERIALS IN HEALTH EDUCATION **3** **S**

9 hrs in HSC or cons inst req. Also offered as HPR 395.
Analysis and development of print and non-print materials and their use by health educators.

396 HEALTH EDUCATION PLANNING AND PROMOTION **2** **F**

Nine semester hours in HSC or cons inst. Also offered as HPR 396.

Theory and application of health education planning and promotion.

398.01 PROFESSIONAL PRACTICE: ENVIRONMENTAL HEALTH INTERNSHIP **3-12** **F.S.Summer**

Cons program dir req. May be repeated. Max 12 hrs.

Internship in a governmental, industrial or institutional organization, providing on-the-job training and introduction to a career in an environmental health program.

398.02 PROFESSIONAL PRACTICE:

**INTERNSHIP IN
HEALTH EDUCATION 2-9 F.S.Summer**
2.5 GPA in major; HSC 290.01, 290.02 req. May be repeated.

Extended in-service experience under the guidance of qualified personnel in health education.

398.03 PROFESSIONAL PRACTICE:

**MEDICAL RECORDS: CLINICAL
INTERNSHIP AND
RESIDENCY 4 F.S.Summer**
Maj only and cons program director req. Formerly AHP/HSC 348.

Rotation and project assignments in medical record centers in Illinois area health facilities.

398.51 PROFESSIONAL PRACTICE:

**CO-OP IN ENVIRONMENTAL
HEALTH 3-12 F.S.Summer**
Cons program dir. May be repeated. Max 12 hrs.

Cooperative education assignment in a governmental, industrial, or institutional organization, providing on-the-job training and introduction to a career in an environmental health program.

HOME ECONOMICS (HEC)

A minor in Business Administration or Public Relations is highly recommended.

Foods-Nutrition or Dietetics Sequence: 37 hours required. Core requirements: HEC 110, 116, 117, 118. Sequence requirements: CHE 110, 112; HEC 213, 216, 311; remaining semester hours selected with adviser approval from ACS 168 or 155; COM 240, 241; HEC/HSC 156; HEC 114, 115, 287, 299, 312, 313, 316, 319, 320, 394, 398; HPR 182. Students interested in Dietetics must complete the following courses for American Dietetics Association (ADA) transcript evaluation: ACS 168 or 155; BSC 160; CHE 220, 242; COM 110, 225, 240, 297; C&I 216; ECO 100, 101; HPR 182; HEC 312, 316, 319, 320, 398; MQM 220; MAT 105 or 107; PSY 111, 215, 240; SAS 106 180 or 184. Following courses are strongly recommended as University Studies or as general electives: BSC 145; COM 160, 167, 241; PSY 131.

Housing and Environmental Design Sequence: 37 hours required. Core requirements: HEC 110, 115, 117, 118. Sequence requirements: ART 372; HEC 338, 340; IT 211; 10 remaining semester hours selected from ART 103, 352, 369, 378, 380, 381, 382, HEC 114, 116, 218, 242, 248, 287, 299, 320, 343, 346, 347, 389 (Antiques in Interior Design); IT 221; MKT 230, 234.

Fashion Merchandising Sequence: 37 hours required. Core requirements: HEC 110, 115; Min. of 2 courses from HEC 114, 116, 117, 118. Sequence requirements: ART 103 or 111; HEC 122, 249, 398; MKT 230; Min. of 3 of the following HEC courses 220, 221, 222, 228, 229, 320, 322, 323, 324, 326, 327, 328, 338. Following courses are strongly recommended as University Studies or as general electives: ACC 131; CHE 104; ACS 140; ECO 100, 101; PSY 111; SAS 106. A minor in Business Administration is highly recommended, including MKT 233, 234, 335.

General Home Economics Sequence: 37 hours required. Core requirements: HEC 110, 114, 115, 116, 117, 118. Sequence requirements: HEC courses selected with the consultation of an academic adviser.

Teacher Education Sequence: 38 hours in Home Economics and specifically related fields required. Minimum of 8 hours in at least 2 other sequence areas required. Part of entitlement program leading to certification 6-12.

— Required courses: HEC 110, 114, 115, 116, 117, 118, 122, 203; ART 103 or 111.

Students who have not had high school laboratory courses in biological and physical sciences are urged to include one or more courses in each area to meet University Studies requirements. Courses for Early Childhood Education certification (early childhood below 6 years of age) can be combined with this sequence. (See Minor in Early Childhood Education for course requirements). The student must also complete General Education Requirements for high school, Professional Education Requirements for high school (see Teacher Education Program Requirements-High School), and meet the departmental selective admission-retention policies.

MINOR IN HOME ECONOMICS

— 24 hours in Home Economics required.

— Required courses: Three of the following core courses: HEC 114, 115, 116, 117, 118.

Selective Admission-Retention Policy for the Teacher Education Sequence

in Home Economics

Selective Admission: All home economics education students planning to become certified teachers must apply for and be admitted to the University's Teacher Education Program (see Teacher Education Admission-Retention Program section of this catalog). Upon applying for admission a home economics student must have verified the following:

1. A minimum GPA of 2.5 overall and in all Home Economics courses including Professional Education courses.
2. A positive recommendation for Admission to Teacher Education by all Home Economics faculty. See departmental adviser for procedure.
3. An interview with the Home Economics Education Coordinator.
4. Completion of HEC 110.

Selective Retention: In order to receive departmental approval for a student teaching assignment the student must verify the following:

1. Maintain a GPA of 2.5 in all courses and in all Home Economics courses including Professional Education courses.
2. Completion of home economics courses 110, 114, 115, 116, 117, 118 or the equivalent for transfer students.
3. A plan for working toward a minimum of 8 hours in at least 3 sequence areas for a comprehensive major and 2 sequence areas for a major.

Honors in Home Economics: The Department offers honors work in each Home Economics sequence to highly qualified juniors and seniors. Candidates must be full-time students, declared Home Economics majors, and have an overall 3.5 GPA and 3.7 GPA in Home Economics. Honors requirements include completion of three in-course honors at the 200 level or above (at least two must be taken in the department), and a minimum of three semester hours in HEC 299 culminating in a substantial research paper. The Department also offers in-course honors work in all courses for students enrolled in the University Honors Program or in any departmental honors program. In-course honors work is offered at the discretion of the instructor. For further information contact the department adviser.

Home Economics Courses

106 NUTRITION 2 US-7 F.S

Not for credit maj min. Materials charge optional.

Functions, sources, and recommended amounts of nutrients for various age groups. Evaluation of eating patterns.

110 INTRODUCTION TO HOME ECONOMICS 1 F

Incl Clin Exp.

Development of Home Economics; contributions of field; satisfactions derived from various areas; career opportunities.

114 INDIVIDUAL AND FAMILY DEVELOPMENT 4 F.S

Materials charge optional.

Overview of the development of an individual throughout the life span within the context of the developing family unit.

115 TEXTILES AND APPAREL 4 F.S

Materials charge optional.

Introduction to Textile Science—fibers, yarns, fabrications and finishes. Factors related to personal satisfaction in selection and use of apparel.

116 NUTRITION WITH FOOD PREPARATION 4 F.S

Materials charge optional.

Knowledge and skills associated with meeting nutritional needs of individuals and families through food preparation.

117 CONSUMER MANAGEMENT 4 F.S

Materials charge optional.

Management through decision-making process to achieve the best use of resources and consumer knowledge.

118 HOUSING AND EQUIPMENT 4 F.S

Materials charge optional. Field trips.

Fundamental decisions in the consumer choice of dwelling and the selection, use, and care of household equipment.

121 BEGINNING GARMENT CONSTRUCTION 3 S

Materials charge optional.

Basic principles of garment construction. Designed for the student without a sewing background. Two garments completed.

122 CLOTHING CONSTRUCTION I 3 F.S

HEC 115. Clothing construction experience. Materials charge optional.

Techniques of garment construction. Elementary fitting of basic dress and/or shirt. Sewing background necessary.

131 COURTSHIP AND MARRIAGE 3 US-7 F.S

Not for credit maj min. Materials charge optional.

Dynamics of dating, courtship, mate selection, preparation for marriage; adjustments in marital/interpersonal relations.

132 HOME MANAGEMENT IN CONTEMPORARY LIFE 3 US-7 F.S

Not for credit maj min. Materials charge optional.

Principles, decision-making processes of using money, time, energy to meet individual and family needs.

156 APPLIED FOOD SERVICE SANITATION 2 F

Also offered as HSC 156. Lecture. Not for credit for Env Health maj min.

A review of the practices and laws governing the sanitation of food services facilities.

203 COMPETENCIES FOR TEACHING 4 S

C&I 200 (6 hours) or 200.03 (grade of C or better) req or conc reg. Field trips req. Adm. to Teacher Ed req. Incl Clin Exp.

Curriculum development, evaluation, teaching strategies, and professionalism for vocational education teachers.

212 FAMILY HEALTH AND WELL BEING 2

Relation of individual health and family well-being. Prevention of illness and accidents. Home care of ill and convalescent.

213 MEAL PLANNING 3 F.S

HEC 116 req. Materials charge optional.

Meal planning based on criteria of nutritive requirements, marketing challenges, and utilization of resources. Preparation and service of meals for small groups.

216 NUTRITION AND FOOD SCIENCE 3 F.S

HEC 116 or cons inst.

Intermediate course focusing on physiological and biochemical basis for human nutritional requirements. Includes study of food as carrier of nutrients.

218 ENERGY SYSTEMS FOR RESIDENTIAL DESIGN 2 S

HEC 118, IT 211 req. Field trips.

The design and evaluation of appropriate energy systems in residential construction. Includes heating/cooling, lighting, major appliances, and sound.

220 CLOTHING CONSTRUCTION II 3

HEC 122. Materials charge optional.

Advanced garment construction study. Experience working with various fabrics, garment styles and fitting variations.

221 TAILORING 3

HEC 122 req.

Jacket construction using machine-tailoring techniques and fusible interfacings.

222 FASHION HISTORY 3 S

HEC 115 req. Materials charge optional.

A study of the changes in and occurring cycles of western world high fashion as related to current fashion trends.

228 COSTUME DESIGN 2 S

HEC 115 req and ART 103 or 111 req.

Application of art principles to apparel creation. Idea development from conception through production to retailing. Style nomenclature emphasized.

229 FASHION ACCESSORIES 2

HEC 115 req. Field trips req.

Accessories for men, women, and children in relation to materials and processes, government regulations, sources, and merchandising techniques.

231 FAMILY RELATIONSHIPS 3 F.S

HEC 114 or C&I 210 req. Materials charge optional.

Functions of productive family units to fulfill individual and group needs. Emphasis on the skills needed by the parent.

232 ADVANCED HOME MANAGEMENT CONCEPTS 3 S

HEC 117 or 132 req. Field trips req.

Problem solving approach to the use of managerial components and their functional relationships to the complexities of today's living.

237 SLIPCOVERS AND DRAPERIES 2 Summer

Sewing proficiency. Students furnish materials for projects.

Application of art principles to interior design through selection and construction of draperies and slipcovers.

242 DRAFTING FOR INTERIOR DESIGN 3 F

IT 211 req. Materials charge optional.

Equipment, media, and techniques for graphic presentation of architectural design and perspective concepts.

248 CONTEMPORARY INTERIOR DESIGN 2**F***Materials charge optional. Field trips req.*

Study of philosophies and individuals who have influenced contemporary furnishings, interiors, and structures from 1850 to present.

249 MERCHANDISING IN FASHION 3*75 completed hours req. Field trips req.*

Aspects related to merchandising in fashion: displays, salesmanship, store organization, sales promotion, and budgeting.

250 CHILD DEVELOPMENT AND GUIDANCE 3**F.S***HEC 114 req. Incl Clin Exp. Materials charge optional.*

Observation including 32 hours of laboratory participation contributing to understanding and guidance of children

301 EVALUATION OF PROGRAMS 2

Principles, methods, techniques used to evaluate programs, curricula, and personnel in various institutions.

304 CURRICULUM DEVELOPMENT IN HOME ECONOMICS 3

Review and evaluation of curriculum materials. Development of materials related to programs and age level required.

307 INFANT AND PRESCHOOL CHILD 3**F***PSY 111 and HEC 114 req. Incl Clin Exp. Materials charge optional.*

Research in the growth and behavior of the young child as related to family and society.

308 ORGANIZATION AND ADMINISTRATION OF EARLY CHILDHOOD PROGRAMS 3**S***Incl Clin Exp.*

Administration of early childhood programs and community services responsible for guidance of young children.

309 COUPLE RELATIONSHIPS 3*HEC 114 req. Materials charge optional.*

An interactional approach to the study of intimate male-female pairings: establishing couple relationships and developing effective intimate pairing communication; an overview of marriage enrichment history, programs, practice, theory, and research.

310 FAMILY CRISES 3*Field trips.*

Cognitive and affective exploration of family crisis definition, the relationship-termination crises of death and divorce, and overview of professional helping resources.

311 COMMUNITY NUTRITION 3**F***HEC 116 or 106 req.*

Nutritional needs of selected populations vulnerable to inadequate diet; emphasis on U.S. programs designed for groups at nutritional risk.

312 DIET THERAPY 3**S***HEC 216 req. Formerly HEC 211.*

Planning modified diets and studying underlying diseases. Nutritional counseling of individuals and groups.

313 FOOD CUSTOMS 2**S***HEC 213 req. Materials charge optional.*

Influence of food customs of various ethnic groups on American meal patterns.

314 EARLY CHILDHOOD NUTRITION EDUCATION 3*Materials charge optional. Incl Clin Exp.*

Principles of nutrition and current research. Emphasis on the needs of young children. Guidance in implementing a sound nutritional education program.

316 FOOD INVESTIGATIONS 3**F***HEC 213, CHE 110, and 112 req. Materials charge optional.*

Experimental approach to principles underlying food preparation.

319 QUANTITY FOODS 5**F.S***HEC 213 req. Materials charge optional. Field trips.*

Application of principles, techniques, and standards required to produce food in quantity for institutional and commercial feeding.

320 DEMONSTRATION TECHNIQUES 2**F.S***Incl Clin Exp. Materials charge optional.*

Techniques and standards for demonstrations in various areas of home economics.

322 PATTERNMAKING 3*HEC 122 or equivalent req. Materials charge optional.*

Making garment patterns by the flat pattern method.

323 ADVANCED TEXTILES 3**F***HEC 115 req. Lecture and laboratory. Materials charge optional.*

Developments in the textile field, particularly man-made fibers and their products. Textile testing techniques.

324 DRAPING AND DESIGN 3*HEC 115, 122 or equivalent req.*

Interpretation of garment designs in fabric by means of the draping procedure.

326 FITTING AND ALTERATION 3*HEC 115, 122 or equivalent req.*

Investigation and comparison of various methods of fitting and altering garments and patterns to achieve an acceptable effect.

327 CLOTHING AND BEHAVIOR 3*HEC 115, SAS 106, or PSY 111 req. Materials charge optional.*

An analysis of factors that influence behavior in respect to clothing selection and use. Emphasis on research.

328 ECONOMICS OF FASHION 3*HEC 115 and ECO 101 req.*

A study of fashion as an economic force. Fashion's influence on production distribution and consumption of textiles and clothing.

330 DECISION-MAKING FOR CONSUMERS 3 US-7**F.S***Also offered as BEA 330.*

Survey of consumer problems, trends and information. Topics include: insurance, housing, credit, life style, consumer protection, leisure and achieving financial security.

331 CONSUMER MATERIALS 3**F***HEC 117 req.*

Application and evaluation of print and non-print consumer materials.

338 HISTORY OF FURNISHINGS AND INTERIORS 3**S***Materials charge optional.*

Furnishings and interiors from antiquity to the late 19th century.

- 340 APPLIED INTERIOR DESIGN 4 S**
HEC 115, 118, and 242 req. Materials charge optional. Lecture and laboratory.

Principles in designing interior environments to meet human needs. Laboratory devoted to development of renderings and presentations for portfolios.

- 343 CONSUMER HOUSING ALTERNATIVES 3**
HEC 118 or cons inst req. Field trips req.

Facts, concepts, and perceptions regarding the housing alternatives confronting consumers seeking housing commensurate with current needs and future demands.

- 345 ENVIRONMENTAL DESIGN AS A PROFESSION 2 S**
HEC 340 req. Materials charge optional.

Professional principles and practice of interior design careers, including systems, forms, and logistics of money and materials.

- 346 ENVIRONMENTAL LIGHTING 2 F**
Formerly HEC 389. HEC 118 or cons inst req.

An analysis of the design of the luminous environment. Emphasis on lighting methods, lighting system elements and energy conservation.

- 347 HUMAN FACTORS IN INTERIOR ENVIRONMENTS 2 F**
HEC 118 or cons inst req.

Functional and aesthetic aspects of interior environments. Emphasis on interface between man-made environments and humans. Needs of special populations addressed.

- 370 RESIDENTIAL DESIGN STUDIO 4 F**
HEC 218, 340; ART 352 req. Field trips req. Materials charge optional.

Analysis of the total residential environment, applying elements and principles to projects. Emphasis on functional uses of form and space.

- 375 NON-RESIDENTIAL DESIGN STUDIO 4 S**
HEC 370 req. Materials charge optional.

Studies of design theory, division space and equipment of non-residential interiors to meet the physiological and psychological requirements of the persons involved.

- 380 ORGANIZATION AND ADMINISTRATION OF VOCATIONAL COOPERATIVE EDUCATION PROGRAMS 3**
Also offered as AGR 380, BEA 380, and IT 305. Incl Clin Exp.

Planning and organizing a cooperative program; emphasis on recruitment, selection of training stations, student placement, and operation of cooperative plan.

- 382 COORDINATION TECHNIQUES OF COOPERATIVE VOCATIONAL EDUCATION PROGRAMS 3**
Also offered as AGR 382, BEA 382, and IT 306. Incl Clin Exp.

Coordination techniques needed for high school and post-secondary teacher coordination in integrating classroom activities with daily employment.

- 394 HEALTH ASPECTS OF AGING 3 S**
SAS 211 or cons inst req. Materials charge optional. Also offered as HPR 394 and HSC 394.

A study of the characteristics of the aging process and factors influencing adaptations and the quality of living.

- 398 PROFESSIONAL PRACTICE: HOME ECONOMICS 1-4 F.S. Summer**
Jr-sr standing (74 hrs) req; 100 percent core and 50 percent sequence req; 2.2 overall GPA on date of application and first day of work req. May be repeated once. See adviser for additional sequence reqs. Placement is not guaranteed. Prior approval of dept chair req. Materials charge optional.

Planned and supervised work experience in government, community, business, or industry.

- 398.01 PROFESSIONAL PRACTICE: CHILD DEVELOPMENT AND FAMILY RELATIONSHIPS**

- 398.02 PROFESSIONAL PRACTICE: CONSUMER SERVICES**

- 398.03 PROFESSIONAL PRACTICE: FOOD-NUTRITION OR DIETETICS**

INDUSTRIAL TECHNOLOGY (IT)

211 Turner Hall. (309) 438-3661

Chairperson: Everett N. Israel.

Faculty: Professors: Anderson, Budig, Dorner, Francis, Herberts, Israel, Lockwood, Loepp, Miller, Pendleton, Quane, Talkington, Weede, Zook. Associate Professors: Andrews, Bell, Campbell. Assistant Professors: Aman, Gloeckner, Fryda, Liedtke, Nelsen, Pontius, Schack, Shah, Stumpf, Young. Lecturers: Donovan, Gallagher, Hanks, Olmsted, Stier, Winchip, Welty.

Industrial Technology is defined as the creative, systematic application of knowledge utilizing human and natural resources involving tools, equipment, techniques, processes, procedures, scientific principles, and management skills to produce and distribute goods, services and information to cope with change or to control environmental conditions and their effect on society and culture. Degree programs include Industrial Technology and Safety.

Industrial Technology students are required to select one of the following sequences: General Technology, Construction Technology, Energy and Power Technology, Graphic Communication Technology, Manufacturing Technology, or Industrial Education.

Students in the Safety program are required to select the Occupational Safety sequence or the minor in Traffic and Safety.

The academic standards of the University apply to all students enrolled in the Department of Industrial Technology. **The following additional standard applies to students enrolled as majors in the department: after attempting 60 semester hours of college credits, a student must maintain a cumulative grade point average of at least 2.0 to be retained as a major in the department.**

Honors in Industrial Technology Degree Programs:

The Department offers honors work in the different departmental programs to majors who have completed 60 semester hours with a cumulative 3.5 GPA. Students interested in the program should see departmental honors advisers. Requirements for honors for the Industrial Technology Honors program are available in the Departmental Office (210 Turner Hall).

Students who are majoring in Industrial Technology or Safety may enroll in sections of courses labeled *Majors Only*. General students and all other majors should select sections of courses that are not designated for *Majors Only*. Non-business majors who desire to elect more than 25 percent (30 credits) of their course work in business must meet all College of Business requirements for graduation. These students should register for additional courses only in person and with the written permission of the College of Business advisor.

Technology Programs

Degree Offered: B.S.

Note: Only core courses (IT 100, 190, 191, 192, 194, 210.01, 271; ACS 155, 164, or 168; CHE 110/112; PHY 105; PSY 111, 220; and MAT 107 and 108 or 109 if applicable for the Major) may be used to meet the requirements for a double major or minor in Industrial Technology.

INDUSTRIAL TECHNOLOGY MAJOR

General Technology Sequence

The General Technology Sequence is a technically-oriented curriculum related to the processes, products, and problems of industry with respect to the technologies of construction, energy, graphic communication, or manufacturing with the opportunity to specialize in a technical concentration. Students are required to complete a second major or a minor in order to increase their breadth and employability. The technical concentration and second major or minor selected depends on the goals of the student.

- 55 hours required, of which 12 satisfy University studies requirements.
- Students must complete a minor or another major.
- Required courses: IT 100, 210.01, 271, 311; MAT 109 (or 107 and 108, or 110, or 120, or 145); PSY 220.
- 21 hours of additional courses (students should select a technical concentration and related courses with the help of an adviser): IT 190, 191, 192, 194, 211, 212, 213, 216, 221, 222, 224, 225, 233, 240, 241, 242, 244, 250, 251, 253, 261, 262, 263, 266, 284, 285, 292, 322, 323, 324, 325, 331, 352, 365, 367, 384, and 385.
- University Studies courses required: ACS 155 or 164 or 168; CHE 110 and 112 (or 140 and 141); PHY 105 (or 108 and 109); PSY 111.

Construction Technology Sequence

Construction Technology is a study of the conversion of raw and standard manufactured materials into shelters, enclosures, containments, surfaces, and structural apparatus to minimize energy consumption; special consideration is given to the utilization of renewable energy sources. The construction process utilizes effective design and fabrication techniques through the application of planned management systems. A knowledge of labor, materials, site development, construction procedures, construction contracts, and capital is required. The goal of this sequence is to prepare construction management professionals capable of managing construction projects to completion from plans prepared by architects and engineers.

- 73 hours required, of which 12 satisfy University Studies requirements.
- Required courses: IT 100, 190 or 191 or 192, 194, 210.01, 271, 311, 394 or 398.02 (4 hrs) or 398.52 (4 hrs); MAT 109 (or 107 and 108, or 110, or 120, or 145); PSY 220.

- 25 hours of additional courses: IT 211, 221, 222 or 322, 292, 323, 324, 365, and 367.
- 3 hours of IT electives.
- University Studies courses required: ACS 155 or 164 or 168; CHE 110 and 112 (or 140 and 141); PHY 105 (or 108 and 109); PSY 111.

Energy and Power Technology Sequence

Energy and Power Technology is a study of the creative, systematic application of knowledge using human and material resources involving tools, equipment, techniques, processes, scientific principles and management skills to perform work related to the production, transportation, distribution, and utilization of economic goods and services through the conversion, transmission, storage utilization, and control of energy. In-depth knowledge in one of the following areas is required: automotive, electronics, energy systems, or industrial process control. The goal of this sequence is to prepare professionals who can analyze a system that utilizes energy and then recommend and/or take corrective action to cause the system to operate with less energy.

- 71 hours required, of which 12 satisfy University Studies requirements.
- Required courses: IT 100, 190 or 192 or 194, 191, 210.01, 271, 311, 391 or 398.02 (4 hrs) or 398.52 (4 hrs); MAT 109 (or 107 and 108, or 110, or 120, or 145); PSY 220.
- 23 hours of additional courses (students should select a technical concentration and related courses with the help of an adviser): IT 211, 216, 233, 240, 241, 242, 244, 261, 262, 263, 264, 265, 266, 267, 268, 284, 285, 330, 342, 344, 345, 361, 365, 367, 368, and 383.
- 3 hours of IT electives.
- University Studies courses required: ACS 155 or 164 or 168; CHE 110 and 112 (or 140 and 141); PHY 105 (or 108 and 109); PSY 111.

Graphic Communication Technology Sequence

Graphic Communication Technology is the creative, systematic application of knowledge, utilizing human resources, natural resources and manufactured material involving industrial tools and equipment, computers, techniques, processes, procedures, scientific principles, and means for organizing work to produce, distribute, store and retrieve information and decorative material to help humans cope with change and/or understand their society. In-depth knowledge of one of the following areas is required: computer systems, drafting, or graphic arts. The goal of this sequence is to prepare persons to enter industry as technicians, mid-managers and/or technical sales personnel.

- 71 hours required, of which 12 satisfy University Studies requirements.
- Required courses: IT 100, 190, 191 or 192 or 194, 210.01, 271, 311, 390 or 398.02 (4 hrs) or 398.52 (4 hrs); MAT 109 (or 107 and 108, or 110, or 120, or 145); PSY 220.
- 23 hours of additional courses. Students interested in Drafting or Graphic Arts should select 23 hours from the following courses: IT 211, 212, 213, 216, 221, 224, 233, 240, 241, 250, 251, 253, 254, 261, 263, 284, 285, 292, 315, 319, 349, 351, 352, 353, 354, 365, 367, and 383. Students interested in Industrial Computer Systems should select 23-25 hours from the following: (216, 315, and 319) or (284, 315, and 383) and (212, 213, 250, and 352) or (211, 221, 322, 323 and 365 or 367) or (233, 285, 292, and 331) or (240, 244, 263, 289.60 (Introduction to Robotics) and 345).
- 3 hours of IT electives.
- University Studies courses required: ACS 155 or 164 or 168; CHE 110 and 112 (or 140 and 141); PHY 105 (or 108 and 109); PSY 111.

Manufacturing Technology Sequence

Manufacturing Technology is a study of the systematic changes in the form and/or utility of matter involving human and natural resources to produce economic goods and the impact of this activity on society and the environment. Changes include separating, forming, and/or combining matter and energy through the use of tools, equipment, microprocessors, scientific principles and management skills to alter their characteristics, properties, uses and values. In-depth knowledge in one of the following technologies is required: plastic, metal, or wood technology. Students have the opportunity to develop competencies in the use of CAD/CAM systems. The goal of this sequence is to prepare supervisory personnel for the manufacturing industry.

- 71 hours required, of which 12 satisfy University Studies requirements.
- Required courses: IT 100, 190 or 191 or 194, 192, 210.01, 271, 311, 392 or 398.02 (4 hrs) or 398.52 (4 hrs); MAT 109 (or 107 and 108, or 110, or 120, or 145); PSY 220.
- 23 hours of additional courses (students are advised to select a technical concentration and related courses with the help of an adviser): IT 216, 224, 225, 233, 235, 240, 263, 284, 285, 292, 315, 319, 325, 326, 330, 331, 332, 383, 384, 385, 387, and 388.
- 3 hours of IT electives.
- University Studies courses required: ACS 155 or 164 or 168; CHE 110 and 112 (or 140 and 141); PHY 105 (or 108 and 109); PSY 111.

Industrial Education Sequence

Industrial Education is the development of cognitive, psychomotor and affective skills related to: (1) the use of tools, materials, processes, resources, techniques, scientific principles, work (skill and organization) products, and their impact on society. These elements are studied in the context of the technologies of energy utilization, production, communication and transportation; (2) the professional competencies of planning, executing and evaluating instruction. Part of entitlement program leading to certification: Secondary 6-12.

- 94 hours required, of which 18 satisfy University Studies requirements and 24 satisfy Professional Education requirements.
- Required courses: IT 101, 190, 191, 192, 194, 210.01; IT 202 and 203 which must be taken concurrently with student teaching; MAT 109 (or 107 and 108, or 110, or 120, or 145).
- 20 hours of additional IT courses; at least 8 hours in two of the following areas: Communication Technology, Energy Utilization Technology, Production Technology or Transportation Technology with a GPA of 2.8 in these courses.
- University Studies courses required: ACS 140 or 155 or 164 or 168; 6 hours in CHE and/or PHY; HIS 135 or 136 or 137; POS 105; PSY 111.
- 24 hours Professional Education courses: PSY 215; C&I 200 (8 hrs) or C&I 200.01 and 200.02 and 200.03 and 200.04 (8 hrs) or 216 and SED 218 (10 hrs); EAF 228 or 231 or 235; STT 399 (8 hrs).

INDUSTRIAL TECHNOLOGY MINOR

- 33 hours required of which 10 satisfy University Studies requirement.
- Required courses: IT 100, IT 171 (US-7), 190 or 191 or 192 or 194, 210.01, 311; MAT 109 (or 107 and 108, or 110, or 120, or 145).
- 7 hours of additional courses from: IT 211, 212, 213, 221, 224, 225, 233, 240, 242, 250, 251, 261, 262, 285, 325, 331, 365, 367, 384, and 385.
- University Studies courses required: ACS 155 or 164 or 168; CHE 110/112 or PHY 105.

Safety Programs

Degree Offered: B.S.

Note: Only core courses (IT 190, 191, 192, 194, 271; CHE 110/112; PHY 105; and MAT 107 and 108 or 109 or 120 if applicable for the major) may be used to meet the requirements for a double major or minor in Industrial Technology.

Safety Program: Safety is a curriculum oriented to the creative and systematic application of organized knowledge, using human resources involving procedures, processes, equipment, scientific principles, techniques and means for organizing activities to cope with change and/or control the environment to improve the quality of life and to make decisions to prevent or reduce human and economic loss due to accidental mishap.

MAJOR IN SAFETY

Occupational Safety Sequence:

- 48 hours required, of which 9 satisfy part of the University Studies requirements.
- Required courses: IT 248, 271, 359, 370, 372, 380, 381, and 382.
- IT 371 or 378; and 7 or 8 hours selected from IT 190, 191, 192, or 194.
- Prerequisite courses: CHE 110 and 112, or 140, or 150; and PHY 105 or 108 or 110; and MAT 120, or 107 and 108, or 109, or 110, or 145.

Certification Program: To comply with Document NO. 1, the student must complete the following to earn certification in Safety and Driver Education:

- a. 3 semester hours in general safety (IT 171).
- b. 5 semester hours in driver education and advanced driver education (IT 172 and either IT 273 or 374).
- c. 8 semester hours chosen from two or more of the following areas: (1) general safety, including traffic and industrial safety, (2) advanced psychology and sociology, (3) first aid and health education, and (4) instructional materials.
- d. Teachers assigned to either simulation or multiple-car programs shall have preparation in the use of these methods which shall consist of a minimum of 1 semester hour or its equivalent in each area.

MINOR IN TRAFFIC AND SAFETY

For Teacher Education

- 23 hours required.
- a valid driver's license required.
- required courses: IT 171, 172, 273, 374, and 379.
- at least 5 semester hours from among IT 163, 176, 275, 371, 375, 377, and 378.

Industrial Technology Courses

100 INTRODUCTION TO

INDUSTRIAL TECHNOLOGY 1 F.S

Study of Industrial Technology, programs in the department, and career opportunities in industrial education, industrial technology and safety.

101 INTRODUCTION TO TEACHING IN INDUSTRIAL EDUCATION 2 F.S

Incl Clin Exp.

The observation, identification and execution of selected tasks typically performed by industrial education teachers.

163 AUTOMOTIVE FUNDAMENTALS 2

Not for credit maj min except in Traffic and Safety sequence. Materials charge optional.

Theory and laboratory experiences in maintenance and repair of automobile components; emphasis on preventative maintenance.

171 PRINCIPLES OF ACCIDENT PREVENTION 3 US-7 F.S

Overview of the broad accident problem and underlying factors and theories of accident causation and prevention.

172 DRIVING TASK ANALYSIS 4 F.S

IT 171 or conc reg req. Laboratory arranged. Materials charge optional. Valid Illinois driver's license required. Incl Clin Exp.

Physical, mental requirements necessary for safe drivers. Laboratory experience devoted to improvement of student's driving ability.

176 INTRODUCTION TO MOTORCYCLE SAFETY 1 F.S

Not for cr maj/min except in Traffic Safety sequence.

Classroom and laboratory experiences provide basic knowledges, skills, and techniques necessary for the safe operation of a motorcycle.

190 GRAPHIC COMMUNICATIONS 4 F.S

Some sections restricted to maj only. Materials charge optional.

Process and technology of transmitting, storing and using ideas or knowledge in visible graphic form.

191 ENERGY AND POWER 4 F.S

Some sections restricted to maj only. Materials charge optional.

Principles of electricity, electronics, heat engines and fluid power devices related to energy source conversion, transmission, control, and utilization.

192 MANUFACTURING, MATERIALS AND PROCESSES 4 F.S

Some sections restricted to maj only. Materials charge optional.

Nature and properties of industrial materials and influence on manufacturing techniques.

194 CONSTRUCTION PROCESSES AND MATERIALS 3 F.S

Common construction practices; selection and utilization of materials.

202 LABORATORY MAINTENANCE 2 S

IT 190, 191, 192 or cons inst req.

Identification of maintenance problems, determinations of procedures to rectify these problems, and understanding of equipment operating principles in industrial education laboratories.

203 COMPETENCIES FOR TEACHING 4 S

IT 101 req. C&I 200 (6 hours) or C&I 200.03 (grade of C or better req) Incl Clin Exp. Conc reg in Student Teaching and full admission to teacher education req.

Curriculum planning, teaching, and evaluation strategies, and professionalism for industrial education teachers.

208 INDUSTRIAL TECHNOLOGY SYSTEMS 3 US-7 F.S

Soph standing req.

Introduction to industrial technology systems, their characteristics and development, how they shape and are shaped by society and culture, and resulting major issues.

210.01 PRINCIPLES OF TECHNICAL DESIGN AND DRAFTING 4 F.S

MAT 107 and 108, or 109. ACS 155, 164, or 168. Maj only. Materials charge optional.

Graphical, computer and other techniques needed to analyze, interpret, and/or solve problems related to development and communication of industrial designs and technical data.

210.02 TECHNICAL DRAFTING 4 F.S

MAT 107 and 108 or 109 or conc req. Non-maj only. Materials charge optional. Formerly IT 210.

Graphic tools, techniques and processes; automated drafting, drafting machines and reprographic equipment used in development and representation of industrial products.

211 ARCHITECTURAL DRAFTING 4 F.S

MAT 107 or 108 or 109 or conc reg. Materials charge optional.

Problem approach to architecture; emphasis on residential planning and construction. Laboratory devoted to development of working drawings.

212 MACHINE DESIGN 3 F

IT 210.01 or demonstrated equivalent competencies req. Materials charge optional.

Theoretical principles and conventional practices used in the design of machines and machine elements.

213 DEVELOPMENTAL DESCRIPTIVE GRAPHICS 4 S

IT 210.01 or demonstrated equivalent competencies req. Materials charge optional.

Specialized drafting methods used in revolutions and developments. Graphical solutions to mathematical and structural problems.

216 COMPUTER-AIDED DESIGN AND DRAFTING 3 F.S

IT 210.01, ACS 155 or 164 or 168 req.

Use, evaluation, and development of computer-aided design and drafting (CAD/D) software, hardware, and systems.

221 CONSTRUCTION TECHNOLOGY 4 F.S

MAT 107 or 108 or 109 or conc reg, IT 194 or HEC major req. Materials charge optional.

Principles and practices of construction. Materials and methods used to build and enclose sub- and super-structures. Utility systems.

222 UTILITIES FOR LIGHT FRAME CONSTRUCTION 2 S

IT 191 and 221.

Introduction to the electrical and plumbing tools, materials, practices, codes and estimating procedures in light frame construction.

224 WOOD PROCESSING TECHNOLOGY 4 F.S

MAT 107 or 108 or 109 or conc reg. IT 192 req. Materials charge optional. Formerly IT 226.

Study and practice of wood processing technology, including seasoning, preservation, cutting, forming, fastening, and finishing of wood.

225 ANATOMY, IDENTIFICATION, AND PHYSICAL PROPERTIES OF WOOD 3

MAT 107 or 108 or 109 or conc reg. IT 192 req. Materials charge optional.

Study of anatomical structure of wood, identification of softwoods and hardwoods and determination of physical and mechanical properties of wood through standard testing procedures.

230 GENERAL METAL WORK 4 F.S

MAT 107 or 108 or 109 or conc reg. IT 192 req. Not for credit if had IT 232 or 330. Materials charge optional.

Basic theory and practice in hot and cold metal-working processes; sheet metal, bench metal, metal casting, oxyacetylene and electric welding.

233 MACHINE TOOL TECHNOLOGY I 4 F.S

MAT 107 or 108 or 109 or conc reg. IT 192 req. Materials charge optional.

Basic machine tool theory and practice; saws, drilling machines, lathes, shapers, milling machines, surface grinders, metrology, heat treatment.

235 MACHINE TOOL TECHNOLOGY II 4 F

IT 233 req. Materials charge optional.

Theory computations, setups for precision machining; turning operations, cylindrical grinding, surface grinding, milling operations, indexing, gear cutting.

240 AC/DC CIRCUIT ANALYSIS 4 F.S

MAT 107 or 108 or MAT 109 or conc reg. IT 191 req. Materials charge optional. Formerly ELECTRICAL TECHNOLOGY.

Analysis of AC/DC electrical and magnetic circuits, emphasizing passive components both resistive and reactive.

241 ELECTRICAL/MECHANICAL DEVICES 3F

IT 240 req. Materials charge optional. Formerly ELECTRICAL MACHINERY.

Operation, characteristics, applications, and control of AC/DC electro-mechanical devices.

242 LINEAR ELECTRONICS 4 F.S

IT 240 or demonstrated equivalent competencies req. Materials charge optional. Formerly ELECTRONICS TECHNOLOGY.

Operation, characteristics and applications of linear solid state devices, discrete and integrated.

244 DIGITAL ELECTRONICS 3 S

IT 240 or demonstrated equiv competencies req. Materials charge optional. Formerly SEMICONDUCTOR ELECTRONICS.

Operation, characteristics and applications of discrete and integrated solid state devices in selected digital circuits.

248 OCCUPATIONAL HEALTH 3 F.S

CHE 110, MAT 120, or 107 and 108, or 109, or 110, or 145 req. Also offered as HSC 248. Formerly HSC 253 and IT 356.

Adverse environmental conditions encountered in the workplace affecting employee efficiency, health, and well-being.

250 THE GRAPHIC ARTS PROCESSES 4 F.S

MAT 107 or 108 or 109 or conc reg, IT 190 req, Art major, or demonstrated equiv competencies. Materials charge optional.

Theory and practice in basic relief, lithography, screen process, intaglio, photography and many support technologies.

251 GRAPHICS ARTS TECHNOLOGY 4 F.S

IT 250 req or demonstrated equivalent competencies. Materials charge optional.

Idea visualization, copy preparation, continuous tone copy, process photography, negative assembly, image carriers, ink transfer and finishing operations.

253 PHOTOMECHANICAL PROCESSES 3 F or S

IT 250 req or demonstrated equivalent competencies. Materials charge optional.

Design, layout, camera ready copy preparation and process photography for a graphic reproduction.

254 CONTINUOUS TONE COPY PREPARATION 3 F or S

MAT 107 or 108 or 109 or conc reg, IT 190 req. Materials charge optional.

Preparation of continuous tone copy for graphic reproduction.

261 AUTOMOTIVE POWER PLANTS 4 F.S

MAT 107 or 108 or 109 or conc reg, IT 191 req. Materials charge optional.

Theory and laboratory experiences in function, rebuild maintenance and adjustment of automotive type engines.

262 AUTOMOTIVE ELECTRICAL SYSTEMS 4 F.S

MAT 107 or 108 or 109 or conc reg, IT 191 req. Materials charge optional.

Operating principles, applications, diagnosis and repair of automotive electrical systems and components.

263 FLUID POWER MECHANICS 3 F.S

MAT 107 or 108 or 109 or conc reg, IT 191 req. Materials charge optional.

Operating principles and applications of hydraulic, pneumatic and fluidic components and systems.

264 AUTOMOTIVE CHASSIS SYSTEMS 3 F

MAT 107 or 108 or 109 or conc reg, IT 191 req. Materials charge optional.

Theory, repair, alignment or adjustment of front and rear suspensions, manual transmissions, rear axles, steering mechanisms, and brakes.

265 AUTOMOTIVE DRIVE TRAINS 4

MAT 107 or 108 or 109 or conc reg, IT 191 req. Materials charge optional.

Operating principles, adjustment and diagnosis of clutches, manual and automatic transmissions, and drive axles.

266 PHOTOVOLTAIC TECHNOLOGY 2 F

IT 240 or conc reg req.

Theory, applications, system designs, system components, and laboratory practices of photovoltaic systems.

267 AUTOMOTIVE AIR CONDITIONING AND ACCESSORIES 4 Summer

IT 191, and MAT 109 or 107 and 108, or conc reg req. Materials charge optional.

Design, application, operating principles, testing, diagnosis, and adjustment of automotive air conditioning and accessories.

268 MECHANICAL TECHNOLOGY 3 F

IT 191 and MAT. 107 and 108, or MAT 109. Materials charge optional.

Introduction to the operation of mechanisms, linkages, and transmission and control of mechanical energy with an emphasis on industrial systems.

271 SAFETY TECHNOLOGY 3 F.S

CHE 110 and 112 or PHY 105; MAT 120, or 107 and 108, or 109, or 110, or 145 req.

Controlling production costs due to accidents; legislation, construction, worker's compensation, and hazard recognition.

- 273 MULTIPLE CAR AND ON-STREET INSTRUCTION 4 F**
IT 172 req. Admission to Teacher Education req. Incl Clin Exp. Content in IT 172 is used to teach beginning drivers on the driving range and on-street. Materials charge optional. Valid driver's license required.

Instruction, administration, organization and evaluation of multiple-car and on-street programs.

- 275 TRAFFIC LAW AND ENFORCEMENT 3**
IT 172 req.

Philosophy, methods of detecting, apprehending violators. Fundamentals of traffic law applicable to laymen, technicians, and teachers.

- 284 TECHNICAL COMPUTER APPLICATIONS 3 F.S**
IT 210.01, ACS 155, 164, or 168 or cons inst. Formerly IT 386.

Principles and applications of digital computers in the solution of industrial production and control problems.

- 285 INDUSTRIAL PLASTICS 4 F.S**
MAT 107 or 108 or 109 or conc reg, IT 192 req. Materials charge optional.

Resins, processing, fabrication; injection molding, extrusion, rotational molding, foaming, thermoforming, identification and testing.

- 292 MATERIALS TECHNOLOGY 4 F.S**
IT 192.

Destructive and nondestructive testing procedures for determining mechanical, physical, and other properties of ceramics, metals, and polymers.

- 304 JOB ANALYSIS 3**
 Techniques and procedures for analyzing jobs for efficiency of human talent and enhancement of certain human values.

- 305 ORGANIZATION AND ADMINISTRATION OF VOCATIONAL COOPERATIVE EDUCATION PROGRAMS 3 F.S**
Also offered as AGR 380, BEA 380, and HEC 380. Incl Clin Exp.

Planning and organizing a cooperative program; emphasis on recruitment, selection of training stations, student placement, and operation of cooperative plan.

- 306 COORDINATION TECHNIQUES OF COOPERATIVE VOCATIONAL EDUCATION PROGRAMS 3 S**
Also offered as AGR 382, BEA 382, and HEC 382. Incl Clin Exp.

Coordination techniques needed for high school and post-secondary teacher coordinators in integrating classroom activities with daily employment.

- 307 EMPLOYMENT ANALYSIS FOR THE EXCEPTIONAL 3 F.S**
Also offered as SED 380. Materials charge optional.

Diagnosis and instruction of exceptional children who are placed in occupational education. Synthesizing employment and education for exceptional children.

- 308 TECHNOLOGY AND CULTURE 3**
IT 208, honor student status, or demonstrated excellence in a related field req.

A study of the impact of contemporary technology upon individuals, society and culture.

- 311 INDUSTRIAL OPERATIONS 3 F.S**
Completion of 75 hrs req.

A study of industrial principles, practices and methods used to establish a sequence of operations to produce a product.

- 315 COMPUTER-AIDED DESIGN AND MANUFACTURING 3 S**
IT 216 or 284 or 331.

Principles, practices, and systems used in computer-aided design and manufacturing. Experience with interactive graphics and automated manufacturing equipment.

- 319 COMPUTER GRAPHICS 3 F.S**
IT 210.01, 216, or demonstrated equiv competencies and completion of 75 hrs req. Materials charge optional.

Combination of graphic techniques and computer programming as means of industrial communication applied to solution and interpretation of technological problems.

- 322 BUILDING CODES AND INSPECTION 2 S**
IT 211 or 221.

Model construction codes and the application and administration of minimum standards for public safety.

- 323 CONSTRUCTION COST ANALYSIS 2 S**
IT 211 or 221.

Estimating costs in the light-frame construction industry.

- 324 MASONRY MATERIALS AND CONSTRUCTION 2 F.S**
IT 194 and 221 req.

Principles, practices, and materials with emphasis on strength, mixtures, techniques, and handling procedures.

- 325 COMPOSITE WOOD PROCESSING TECHNOLOGY 3**
IT 224 req. Materials charge optional.

Study and practice of manufacturing methods, physical and mechanical properties tests, and industrial applications of solid modified woods, plywood, sandwich composites, particleboard, fiberboard, and flakeboard.

- 326 PRODUCTION WOODWORKING 4 S**
IT 224 req. Materials charge optional. Formerly IT 223.

A study of the development of industrial wood production systems, and lab experiences in product engineering, manufacturing engineering, and plant engineering.

- 330 WELDING TECHNOLOGY 4**
IT 192 req, IT 230 rec. Materials charge optional. Not for credit if had former IT 232.

Advanced theory and practice in modern welding processes; (GTAW) gas tungsten arc welding, (GMAW) gas metal arc welding, and other electric welding processes.

- 331 MACHINE TOOL TECHNOLOGY III 4 F.S**
IT 233 req. Materials charge optional.

Theory and practice of production machine set ups; numerical control programming and operation; and electrical discharge machining (EDM) technology.

- 332 APPLIED PHYSICAL METALLURGY 3**
IT 192 req. Materials charge optional.

Physical and mechanical properties of metals, testing properties, crystalline structure, metallurgical examination, constitution of alloys, heat treatment, industrial applications:

- 342 COMMUNICATIONS ELECTRONICS 4 S**
IT 242 req. Materials charge optional.

Operation and characteristics of electronic circuits and devices employed in communication systems.

344 INSTRUMENTATION ELECTRONICS 4 F*IT 242 req. Materials charge optional.*

Operation, characteristics, calibration, and maintenance of electronic circuits and devices employed in selected electronic instruments.

345 INDUSTRIAL PROCESS CONTROL 3*IT 244 and 284. Materials charge optional.*

Study of reprogrammable, automated control systems for industrial production processes.

349 TECHNICAL WRITING II 3 F.S*ENG 249 or graduate standing req. Also offered as ENG 349. Formerly TECHNICAL WRITING.*

Instruction and practice in editing, proposals, and analytical writing; attention given to style manuals, research-writing, and (as needed) publication.

351 IMAGE CARRIERS AND IMAGE TRANSFER 3 S*IT 250 or demonstrated equivalent competencies and completion of 75 hrs req. Materials charge optional.*

Theory and laboratory practice in negative assembly, and plate making, proofing and press systems.

352 CHARACTER GENERATION 3 F or S*IT 250 or demonstrated equivalent competencies and completion of 75 hrs req. Materials charge optional.*

Theory, laboratory practice on photographic, strike-on and hot metal composition equipment. Magnetic disc input and VDT editing concepts are included.

353 COLOR SEPARATION 3 S*IT 253 or demonstrated equivalent competencies and completion of 75 hrs req. Materials charge optional.*

Theory of color, modern color separation methods, fake color, transmission and reflection copy, color correction, additive and subtractive color.

354 THE GRAPHIC ARTS INDUSTRY 3 F*IT 250 or demonstrated equivalent competencies and completion of 75 hrs req. Field trips.*

Graphic arts industrial organization of human resources, physical assets, and money; efficient production of graphic communications products.

359 QUANTITATIVE OCCUPATIONAL HEALTH 3 F.S*IT 248 or cons inst. Also offered as HSC 359.*

Application of techniques for measurement, evaluation, and control of chemical and physical stresses in occupational environments.

361 MOTOR VEHICLE DIAGNOSIS 3 S*IT 262 req. Materials charge optional.*

Motor vehicle systems diagnosis; emphasis on electrical and fuel and emission systems.

365 SOLAR HEATING AND COOLING TECHNOLOGY 3 F*IT 191 or 211 or 221 or cons inst req. Materials charge optional.*

Principles, theory and laboratory practice in active solar systems for residential space and water conditioning.

367 PASSIVE SOLAR TECHNOLOGY 4 S*IT 191 or 211 or 221 or cons inst req. Materials charge optional.*

Principles, theory and laboratory practice in passive solar applications.

368 ENERGY MANAGEMENT 3 S*IT 240 req. IT 241, 263, 311, 365, 367 rec.*

Principles, techniques, equipment efficiency analysis, optimization, demand, usage, waste, and loss in energy control.

370 INDUSTRIAL ACCIDENT PREVENTION 3 F.S*PHY 105; MAT 120, or 107 and 108, or 109, or 110, or 145; and IT 171 or 271 req.*

Principles, responsibilities and techniques for developing, organizing, implementing and administering an industrial safety program.

371 ALCOHOL AND ACCIDENT PHENOMENON 3 F.S*IT 171 rec.*

Effects of alcohol on accident causation. Psychological, physiological, pharmacological actions of alcohol in view of medical, sociological, religious and economic aspects.

372 ACCIDENT INVESTIGATION, RECORDS, AND EVALUATION 3 F.S*MAT 120 or 107 and 108, or 109, or 110, or 145, and IT 171 or 271 req.*

Theory and function of accident investigation, reporting, and analysis systems. Form design and utilization and cost evaluation procedures.

373 AGRICULTURAL ACCIDENT PREVENTION 3 F.S*Also offered as AGR 345. Materials charge optional.*

Major problems of accident causation and prevention applicable to agriculture and the need for farm safety education.

374 METHODS AND MATERIALS OF TEACHING DRIVER EDUCATION 4 S*IT 172 req. IT 273 rec. Content of IT 172 is used to teach beginning drivers in the driving simulator and on street. Materials charge optional. Valid driver's license required. Incl Clin Exp.*

Laboratory experience in teaching beginning drivers using driving simulation and dual-control on the street, organization and administration of Traffic Safety programs.

375 THE HANDICAPPED STUDENT IN DRIVER EDUCATION 3*IT 374 req.*

Identification of problems of handicapped students in driver education courses. Emphasis on adapting and developing teaching methods for handicapped students.

376 MOTORCYCLE EDUCATION 3 S, Summer*IT 176, 374 or cons inst; demonstrated competency as a motorcycle operator; valid drivers license with motorcycle endorsement. Lab arranged.*

Administration, organization, evaluation and instruction of Motorcycle Safety programs, including experience in teaching beginning motorcycle operators utilizing classroom and on-cycle instruction.

377 TRAFFIC ENGINEERING 2 F.S*IT 171 and 172 req.*

Investigation of vehicle and environmental components of HTS; vehicle inspection, equipment, design; traffic studies performed; traffic planning to reduce collisions and congestion.

378 DISASTER PREPAREDNESS 3 F*Materials charge optional.*

Organizing, directing, coordinating disaster services in schools, industry and local government. Includes T.B.A. 48 hr. disaster exercise.

379 CURRICULUM DEVELOPMENT IN DRIVER EDUCATION 3

IT 172 req. Content of IT 172 is used as students teach beginning drivers in the classroom. IT 273 or 374 rec. Materials charge optional. Incl Clin Exp.

Behavioral-oriented curriculum applicable to driver education. Behavioral objectives, learning activities, measurement of student performance peculiar to driver education.

380 FIRE PROTECTION AND PREVENTION 4 F, Summer

MAT 120, or 107 and 108, or 109, or 110, or 145; IT 171 or 271, and CHE 110 and 112 req. Materials charge optional.

Measures related to safeguarding human life and preservation of property in prevention, detection, and extinguishing fires.

381 OCCUPATIONAL SAFETY AND HEALTH ACT (OSHA) 3 F, S

MAT 120, or 107 and 108, or 109, or 110, or 145, and IT 171 or 271 req. Materials charge optional.

Interpretation of the provisions of the Occupational Safety and Health Act. The regulations, standards, and reporting requirements issued pursuant to it.

382 SAFETY PERFORMANCE CONTROL 3 S

IT 370 req.

Development of specialized knowledge and skills in problem-solving; evaluation and implementation of occupational safety programs.

383 INDUSTRIAL COMPUTER INTERFACING 3 F, S

IT 284 or ACS 255 or cons inst.

Standardized communications hardware and protocols. Identification of existing standards and hardware and evaluation of specific interfacing needs.

384 PLASTICS MOLDING PROCESSES 4 S

IT 285. Materials charge optional.

Advanced theory and practice related to plastics molding, process control, molds and dies, and auxiliary equipment.

385 REINFORCED PLASTICS 4 F, S

IT 285 req. Materials charge optional.

Advanced theory, practical application of fiberglass, plastic resins, other materials in hand layup, spray up, filament winding and other common industrial techniques.

387 FORMING, EXPANDING AND FABRICATING PLASTICS 4 F

IT 224, 285, and 233. Materials charge optional.

Advanced study of solid and cellular plastics used for product development involving thermoforming, foam molding, assembling, machining, and decorating.

388 PLASTICS PRODUCT DESIGN 4 S

8 hours from IT 285, 384, 385, or 387. Materials charge optional.

Designing plastic tooling, fixtures, and industrial consumer products.

390 GRAPHIC COMMUNICATIONS SYSTEMS DEVELOPMENT 4 F, S

IT 311 and 9 sem hrs of advanced technical courses in one of the following specialties: Industrial Computer Systems, Design/Drafting, or Graphic Arts, or cons inst req.

Development of graphic communications systems using advanced principles and techniques in the generation, storage, transmission, and reproduction of graphic images.

391 ENERGY AND POWER SYSTEMS DEVELOPMENT 4 F, S

IT 311, and 9 sem hrs of advanced technical courses in one of the following specialties: Automotive Tech, Energy Systems Tech, Electronics Tech, or Process Control Tech, or cons inst req.

Team approach to designing and integrating new energy and power systems.

392 INDUSTRIAL PRODUCTION 4 F, S

IT 311 and 4 sem hrs of advanced technical courses in Wood, Metal or Plastics Technology and senior standing or cons inst req. Materials charge optional.

Industrial Production systems including product, manufacturing, and plant engineering.

394 CARPENTRY CONSTRUCTION 4 F, S

Students are personally responsible for transportation to construction site. Formerly IT 321.

Theory, materials and practices of the building construction industry. Practical experience through on-site activities including carpentry and related trades.

398 PROFESSIONAL PRACTICE: INDUSTRIAL TECHNOLOGY OR SAFETY 1-8 F, S

[jr-sr standing. Prior dept approval required. No more than 4 semester hours may apply toward the comprehensive major. May be repeated. Materials charge optional. Max 16 hrs applicable toward graduation. 40 hours practice per credit hr of internship; 120 hours coop per credit hr.

Planned and supervised work/study experiences in local and state businesses, industries, and governmental agencies.

398.01 PROFESSIONAL PRACTICE: INTERNSHIP IN SAFETY**398.02 PROFESSIONAL PRACTICE: INTERNSHIP IN TECHNOLOGY OF INDUSTRY****398.51 PROFESSIONAL PRACTICE: COOP IN SAFETY****398.52 PROFESSIONAL PRACTICE: COOP IN TECHNOLOGY OF INDUSTRY****MILITARY SCIENCE DEPARTMENT (MSC)**

ROTC Building, 205 North University, (309) 438-5575

Chairperson: LTC James R. McCormack

Military Science (Army ROTC) is a course of instruction that provides college-trained officers for the US Army, the Army National Guard and the US Army Reserve. Military Science courses enhance student education by providing unique leadership and management experience which helps develop self-discipline, physical stamina and poise. This educational enhancement is further continued through the Professional Military Education program. This program requires the advanced student to take one course in each of the following areas: military history, written communication skills, and human behavior. Participation in field trips may be required during each semester.

The four-year Military Science program is divided into two parts: The Basic Course and the Advanced Course. The Basic Course is usually taken in the freshman and sophomore years with no military commitment incurred during this time. Subjects cover areas of national defense;

military history; land navigation; leadership development; and military courtesy, discipline and customs. Uniforms, necessary textbooks and materials are furnished without cost to the student.

After completing the Basic Course, students who have demonstrated officer potential, meet Army physical standards, and have a cumulative minimum GPA of 2.0 are eligible to enroll in the Advanced Course.

The Advanced Course is normally taken in the final two years of college. Instruction includes further leadership development, organization and management, tactics, and administration, and is directed toward preparing the student to be commissioned as an Army officer upon completion of the course.

A paid Advanced Camp is held during the summer between the junior and senior years. This camp permits students to put into practice the principles and theories they have acquired in the classroom. It also exposes them to the stresses of Army life in a field environment.

All cadets in the Advanced Course receive uniforms, necessary military science textbooks, pay for Advanced Camp, and a living allowance of up to \$1,000 each school year.

Military Science Courses

101 INTRODUCTION TO MILITARY SCIENCE 1 F.S

Introduction to organization, mission, functions, and customs of the Army; includes military life and customs and an introduction to United States defense establishment.

102 INTRODUCTION TO TACTICS 1 S

Fundamentals of tactics and their application to employment of squad and platoon sized units in offensive and defensive military operations.

111 LAND NAVIGATION 2 S

MSC 112 req

Map reading fundamentals; application of land navigation principles as applied to military maps using the lensatic compass and terrain association.

112 FUNDAMENTALS OF LEARNING AND MILITARY INSTRUCTION 1 F

MSC 102 req

Principles of military instruction, evaluation, training techniques, briefings, facilities and resources. Introduction to fundamentals of learning theory and processes.

200 LEADERSHIP LABORATORY 0 F.S

Reg in AROTC Advanced Course req.

Provides development by practical application of the student's leadership characteristics through progressive training in leadership, drill and command.

203 ROTC BASIC CAMP 5 Summer

Cons inst req. Cr/No Cr only. Not open to students who have had MSC 101, 102, 111, and 112.

Provides instruction and practical application on basic military concepts of map reading, tactics, principles of instruction and drill and ceremony. Training is presented off campus.

220 PRINCIPLES OF MILITARY LEADERSHIP 2 F

Reg in AROTC Advanced Course or cons inst req.

Introduction to principles, responsibilities, techniques of military leadership and problems of leadership in the military environment.

221 MILITARY OPERATIONS 3 S

Reg in AROTC Advanced Course or cons inst req.

Application of principles of offensive and defensive combat; analysis of divisional unit and mission accomplishment methods.

240 MILITARY LAW AND ADMINISTRATIVE MANAGEMENT 3 F

Reg in AROTC Advanced Course or cons inst req.

Fundamental concepts of military justice; principles of courts-martial and non-judicial punishment; staff principles and procedures in the Army organizational structure.

241 MILITARY PROFESSIONALISM AND RESPONSIBILITY 1 S

Reg in AROTC Advanced Course or cons inst req.

Introduction to professionalism and military professional responsibility.

242 ROTC ADVANCED CAMP 6 Summer

Reg in AROTC Advance Course req. Cr/No Cr only.

Instruction and practical application in field training, demonstration of leadership capabilities, and leadership opportunities of problem analysis, decision making, and troop-leading. Training is presented off campus.

COLLEGE OF ARTS AND SCIENCES

Dean: Virginia L. Owen, 141 Stevenson Hall.

The College of Arts and Sciences provides the opportunity for a liberal education in addition to the attainment of career-oriented skills. The College includes the Departments of Biological Sciences, Chemistry, Communication, Economics, English, Foreign Languages, Geography-Geology, History, Mathematics, Philosophy, Physics, Political Science, Psychology, Sociology, Anthropology and Social Work and Speech Pathology-Audiology. The College offers the core of the University Studies program required of all undergraduates, a wide range of academic major and minor programs for meeting baccalaureate degree requirements, master's programs in most disciplines and doctoral programs in Biological Sciences, Economics, English, History and Mathematics. Course offerings span the humanities, social and behavioral sciences, natural sciences, and mathematics.

ARTS AND SCIENCES PROGRAMS

General Studies Major: Arts and Sciences Sequence

This program is one of the sequences included in the General Studies Major. See the General Studies Major for admission procedures. For further information, contact the Academic Advisement Center, Julian 210.

The Arts and Sciences Sequence is designed for students wishing to pursue a baccalaureate degree with broad specialization in the liberal arts and sciences. The student chooses the focus of the major by determining the two or more departments around which to build the program. Students who complete the Arts and Sciences sequence will earn a Bachelor of Arts or Bachelor of Sciences Degree and have their transcripts noted: "General Studies Major: Arts and Sciences Sequence."

General Studies Major: Arts and Sciences Sequence Requirements:

- 120 hour graduation requirement, including University Studies requirements, and 42 senior college (200-300 level) hours.
- An approved plan of study with a minimum of 36 hours from two specified Arts and Sciences departments, including 12 senior college hours (200 or 300 level) from each of the two departments, a maximum of 25 hours from any one of the departments, and a total of 96 hours from Arts and Sciences departments.

Latin American Studies Program

No major offered. Further Information: Dean of the College of Arts and Sciences.

MINOR IN LATIN AMERICAN STUDIES

- 24 hours in Latin American Studies courses required.
- Required courses: Two semesters of college Spanish or Portuguese, or the equivalent. Student completes, with the approval of an adviser designated by the Dean of Arts and Sciences, a planned program of study in which courses are elected in at least three fields other than Spanish and Portuguese. Work in the fields may include appropriate courses in AGR, ART, BSC, ECO, FOR, GEO, HIS, POS, and SAS.

This program must be planned in consultation with an academic adviser. With the approval of the adviser, courses in fields other than those listed above may be counted toward the minor, providing those courses are considered relevant to the course of study. No more than two courses in the student's major field of study, however, will be applicable toward the minor in Latin American Studies. Students interested in this program should consult the Dean of the College of Arts and Sciences.

Social Sciences Programs

Degrees Offered: B.A., B.S. Further Information: Department of History.

The Social Sciences Programs are housed in the Department of History in cooperation with the departments of Economics; Sociology, Anthropology, and Social Work; and Political Science.

SOCIAL SCIENCES MAJOR

- 60 hours in social sciences (ECO, HIS, POS, and SAS courses).
- Required courses: at least 8 hours in economics, including ECO 100 and 101; at least 8 hours in United States history and 8 hours in World history (which must include one non-Western history course); at least 8 hours in political science, including POS 105; at least 8 hours in sociology, including SAS 106.

SOCIAL SCIENCES MAJOR

Teacher Certification Requirements

- Required courses: HIS 290, 390 in addition to the requirements for the Comprehensive Social Sciences Major. Part of entitlement program leading to certification: secondary 6-12.
- 24 hours in Professional Education (including student teaching) required.
- University Studies courses selections must meet state certification requirements.
- Special requirements for admission to the Teacher Education program must be met prior to student teaching.

Students who wish to pursue these majors consult the advisor to Social Sciences students in the Department of History.

BIOLOGICAL SCIENCES (BSC)

206 Felmley Hall, (309) 438-3669

Chairperson: George W. Kidder III.

Faculty: Professors: Anderson, Birkenholz, Brockman, Brown, Cain, Chuang, Frehn, Hetzel, Huizinga, Jensen, Katz, Kidder, Liberta, Mockford, Nadakavukaren, Tone, Weber, Wilkinson. Associate Professors: Armstrong, Borst, Cheung, Collier, Cralley, Fitch, McCracken, Preston, Riddle, Thompson. Assistant Professors: Barnett, Brunner, Lucher. Adjunct Faculty: R.Briggs, M. Miller, R. Miller. Joint Appointments with Chemistry: Gates, Richardson, Tsang.

Biological Sciences Programs

Degrees Offered: B.A., B.S.

MAJOR IN BIOLOGICAL SCIENCES

B.A. Requirements

- 37 hours in Biological Sciences required.
- Required courses: BSC 191 and 304. At least two courses must be chosen from BSC 192, 194, and 260 and two courses from BSC 201, 216, and 219, with a minimum of 8 additional hours of laboratory courses. BSC courses below 191, and 202, 204, and 307 **may not** be used in the major. A laboratory course in organic chemistry (220 or 230, 231) is also required. Students electing this program should also consult University requirements for the B.A. degree. Majors planning to attend professional or graduate school may also need to take a full year of both organic chemistry and physics.

B.S. Requirements

- 37 hours in Biological Sciences required.
- Required courses: BSC 191 and 304. At least two courses must be chosen from BSC 192, 194, and 260 and two courses from BSC 201, 216, and 219, with a minimum of 8 additional hours of laboratory courses. BSC courses below 191, and 202, 204, and 307 **may not** be used in the major. Laboratory courses in organic chemistry (220 or 230, 231) and general physics (105, 108, or 110) are also required. Majors planning to attend professional or graduate school may need to take a full year of both organic chemistry and physics.

Advisement Option: Community and Public Health. Students majoring in Biology may elect a Community and Public Health concentration. No specific courses are required in addition to those required for all Biology majors. For students interested in this concentration, the following courses are recommended:

1. BSC 283, 361, 383, and 398 (internship). These courses can be used to satisfy the 16 hours of BSC electives needed for the major.
2. HSC 292, 297, 350.

MAJOR IN BIOLOGICAL SCIENCES

Teacher Certification Requirements:

Students pursuing a Biological Sciences major may be certified to teach in the biological sciences (See A below), or the biological and physical sciences (See B below). Before being admitted to the University Teacher Education Program (see University-wide Teacher Education Program Requirements in Catalog), the biological sciences major must meet departmental requirements for admission. These

include a positive recommendation from the Teacher Education Committee. The recommendation is based in part on successful completion of a personal interview and a written essay. Students should see the Departmental Teacher Education Adviser for information. Part of entitlement program leading to certification: secondary 6-12.

— **A. Biological Sciences Certification:** A student completing these requirements can meet the minimum qualifications to teach the following subjects as defined by the State Board of Education, Document 1, 7-3.18, 7-3.19, and 7-3.20: Biology, Zoology, Botany and General Science. 37 hours in Biological Sciences required. Required courses: BSC 192, 194, 201, 216, 219, 260, 304 and 307. At least 8 semester hours of botany with lab, and 8 semester hours of zoology with lab, must be included. A laboratory course in organic chemistry also is required. BSC courses below 191, and 202, and 204 **may not** be used as electives in major.

— **B. Biological and Physical Sciences Certification:** A student completing these requirements can meet the minimum qualifications to teach the following subjects as defined by the State Board of Education, Document 1, 7-3.18, 7-3.19, and 7-3.20: Biology, Botany, Zoology, Chemistry, Physics, Physical Science, and General Science. 37 hours in Biological Sciences, 14 hours in chemistry including a laboratory course in organic chemistry, and 10 hours of general physics required. Required courses: BSC 192, 194, 201, 216, 219, 260, 304 and 307. BSC courses below 191, and 202, and 204 **may not** be used as electives in major. At least 8 semester hours of botany with lab, and 8 semester hours of zoology with lab must be included.

MINOR IN BIOLOGICAL SCIENCES

Biological Sciences Sequence

24 hours in Biological Sciences required. Required courses: BSC 191 and either 192 or 194. At least 12 of the elective hours must be of 200 or 300 level courses. BSC 100, 110, and 307 may not be used as electives in minor.

Human Biology Sequence: 24 hrs in Biological Sciences required. Required courses: BSC 181, 182, 183. 16 hrs of electives selected from among BSC 111, 145, 160, 170, 185, 199, 202, 216, 260, 283, 361, 380, 381, 382, 383, 386, and 387, 392, or other courses approved by the Biology Dept., at least 8 hrs of 200 level courses or above.

MINOR IN BIOLOGICAL SCIENCES

For Teacher Education:

- 24 hours in Biological Sciences required including at least 8 semester hours of botany with lab and 8 semester hours of zoology with lab.
- Required courses: BSC 192, 194, 307 (2 or 3 hrs, depending on major). BSC 100, and 110 **may not** be used as electives in minor. At least 8 of the elective hours must be of 200 or 300 level courses.

Honors in Biological Sciences: Students majoring in Biological Sciences may be admitted to the departmental honors program if they have: 1) completed at least 30 semester hours of college level courses, including at least two in biological sciences, 2) a minimum of three semesters remaining before graduation, 3) a cumulative grade point average of 3.3, 4) submitted to the departmental chairperson two letters of recommendation from faculty members, and 5) received admission approval from the departmental honors committee.

In order to graduate with Honors in Biological Sciences a student must complete: 1) all regular requirements for the Biological Sciences major; 2) 1 year of a foreign language; 3) mathematics through one semester of calculus; 4) 12

hours of Biological Sciences on a tutorial (i.e., In- course Honors) with a grade of A or B in each; 5) 3 hrs. of BSC 299; and 6) have at the time of graduation a cumulative G.P.A. of at least 3.3 and at least 3.5 in courses in Biological Sciences.

Biological Sciences Courses

100 INTRODUCTION TO BIOLOGICAL SCIENCES 3 US-3 F.S

Not for credit maj min. Lecture and laboratory.
Biological principles in relationship to man.

110 GREEN THUMB BOTANY 3 F.S

Not for credit maj min or if had BSC 121 or AGR 150.
Lecture and laboratory. Materials charge optional.
Introduction to the basic principles of plant structure, function, growth, propagation, and disease with emphasis on applications to the growth of house plants.

111 PLANTS AND CIVILIZATION 3 US-7F.S

Not for credit BSC maj.
Study of plants useful and important to society; concentrating on the diversity of plant uses, their origins, and influences on civilization.

145 HUMAN BIOLOGY 2 US-7 F.S

Not for credit maj. Formerly HYGIENE AND BIOLOGY OF MAN.
Practical human physiology and the nature of disease; emphasis on health problems related to nutrition, cardiovascular and respiratory diseases, drug use, sex and reproduction.

160 INTRODUCTORY MICROBIOLOGY 4 US-3 F.S

Not for credit maj or if had BSC 260. Lecture and laboratory.
Introduction to microorganisms, their application and relationship to the human environment.

170 GENETICS AND SOCIETY 3 US-3 F.S

Not for credit maj.
Introduction to genetics and human heredity with an emphasis on the impact of recent advances in genetics upon society.

181 HUMAN PHYSIOLOGY AND ANATOMY I 4 US-3 F.S

Not for credit maj. Lecture and laboratory.
Fundamentals of anatomy and physiology for students in special education, health education, nursing, and psychology.

182 HUMAN PHYSIOLOGY AND ANATOMY II 3 US-3 F.S

BSC 181. Lecture only.

183 HUMAN PHYSIOLOGY AND ANATOMY II LABORATORY 1 F.S

BSC 181. No credit granted in BSC 183 until credit earned in BSC 182.

Laboratory exercises in anatomy and physiology to accompany topics in BSC 182 lecture.

185 INTRODUCTION TO EVOLUTION 3 US-3 F.S

Not for credit maj. Lecture.
Comprehensive survey of the processes of biological evolution, major trends in the plant and animal kingdoms, and the historical development of evolutionary theory and its impact on human society.

191 PRINCIPLES OF BIOLOGY 4 US-3 F.S

A survey of the basic principles of Biology. Lecture only.

192 GENERAL BOTANY 4 US-3 F.S

Lecture and laboratory. Formerly BSC 121.
Introduction to the principles of structure, function, growth, reproduction, and classification of plants.

194 GENERAL ZOOLOGY 4 US-3 F.S

Lecture and laboratory. Formerly BSC 190.
Classification, morphology, physiology, genetics, evolution, and ecology of representative animal phyla.

195 INTRODUCTION TO OCEANOGRAPHY 3 US-3 S

Also offered as GEO 195.
General principles of biology, chemistry, geology, and physics as applied to a study of the world's oceans.

199 ANIMAL BEHAVIOR 3 US-3 F

An introduction to ethology — the biology of behavior. Behavior studies as performed in the natural habitat. Invertebrates and vertebrates, including man, will be considered.

201 GENERAL ECOLOGY 4 F.S

BSC 191 or 192 and 194. Lecture, laboratory, and field trips.
Relationships among living organisms and their environment at ecosystem, community, population, and individual levels.

202 HUMAN ECOLOGY 3 US-7 F.S

Not for credit maj.
A study of the general principles and applications of ecology with emphasis on man's place in the ecosystem and how environmental problems are related to fundamental ecological principles.

204 INTRODUCTION TO NATURAL HISTORY 4 US-3 S

Not for credit maj. Lecture, laboratory, and fieldwork.
The natural history and ecology of selected plant and animal groups.

216 GENERAL PHYSIOLOGY 4 F.S

Org chem and BSC 191 or 192 or 194. Lecture and laboratory req.

Chemical and physical aspects of life processes.

219 GENETICS 4 F.S

BSC 191 or 192 and 194 req. Lecture and laboratory.

Data, concepts and logic of genetics from Mendel to the present.

222 COMPARATIVE PLANT MORPHOLOGY 4 S

BSC 192 req. Lecture and laboratory.
Morphology, phylogeny, and taxonomy of non-vascular and vascular plants.

223 ECOLOGY AND IDENTIFICATION OF PLANTS 4 F

BSC 192 req. Lecture and laboratory.
Ecology, phylogeny, and taxonomy of vascular plants.

258 EPIDEMIOLOGY 3 F

BSC 160 or 260, SAS 240 req. Also offered as HSC 258.

Principles and methods governing the surveillance and investigation of disease and injury in human populations.

260 MICROBIOLOGY 4 F.S

Org chem and BSC 191 or 192 or 194 req. Not for credit if had BSC 160. Lecture and laboratory.

Uniqueness, diversity, ecology, molecular biology and practical applications of microorganisms.

- 283 ANIMAL PHYSIOLOGY 4 F.S**
BSC 216 req. Lecture and laboratory.
 The physical and chemical basis of system physiology with reference to invertebrates and vertebrates.
- 292 INVERTEBRATE ZOOLOGY 4 F**
BSC 194 req. Lecture and laboratory.
 Phylogeny, comparative functional anatomy, embryology, ecology, and natural history of the invertebrates.
- 294 ENTOMOLOGY 4 F**
BSC 194 req. Lecture and laboratory.
 Taxonomy and life histories of insects.
- 295 COMPARATIVE VERTEBRATE ANATOMY 4 F.S**
BSC 194 req. Lecture and laboratory.
 Evolution and comparative anatomy of vertebrates.
- 300 READINGS IN BIOLOGICAL SCIENCES 1 F.S**
 Reading and discussion of classical and modern biological literature.
- 302 HISTORY OF BIOLOGY 3**
 A study of great biologists emphasizing their contributions to the development of the biological sciences.
- 304 SEMINAR IN BIOLOGY 1 F.S**
 Oral and written reports on current topics in biology.
- 305 SPECIAL PROBLEMS IN BIOLOGY 1-3 F.S**
Independent research in biology. Projects must be approved by the supervising faculty member and dept chair prior to reg. May be repeated. Maximum of 3 hrs from BSC 299, 305 or 398 may be counted toward major requirements.
- 306 REGIONAL AND AREA STUDIES 1-9**
Cons inst.
 Field studies of organisms and their environments.
- 307 METHODS IN THE TEACHING OF BIOLOGY 2-3 F**
C&I 200.03 or equiv or conc reg. Incl Clin Exp. BSC education major must register for 3 hrs. BSC Education minor, 2 or 3 hrs, depending upon major. Adm. to Teacher Ed. req.
 Strategies, curricula, and materials applicable to teaching secondary school science. 35 hrs clinical experiences included.
- 318 HISTOLOGICAL TECHNIQUES FOR ZOOLOGISTS AND BOTANISTS 2 F.S**
Lecture and laboratory.
 Preparation of microscope slides, special techniques for whole mounts, plastic embedding, plastic injections, and nerve preparations.
- 320 PLANT PATHOLOGY 4 F**
BSC 192 req. Lecture and laboratory.
 Morphology, life histories, host-parasite relationships and control measures for fungal, bacterial and viral pathogens.
- 321 MOLECULAR AND DEVELOPMENTAL GENETICS 4**
BSC 219 and 260 or cons inst req. Lecture and laboratory.
 Organization of the genome; structure of chromatin and chromosomes; genetic regulation of development; molecular bases of DNA functions.
- 326 PLANT PHYSIOLOGY 4 S**
BSC 216 req. Lecture and laboratory.
 Plant structure and function: photosynthesis, translocation, growth and development. Laboratory emphasis on independent experimentation.
- 329 HUMAN GENETICS 3 S**
BSC 219. Lecture.
 Detection, expression, transmission, and molecular manipulation of human traits; emphasis on medical genetics.
- 334 INTRODUCTORY MYCOLOGY 4 S**
BSC 192 req. Lecture and laboratory.
 Morphology, taxonomy and evolution of the fungi.
- 361 MICROBIAL PATHOGENS 4 F.S**
BSC 260 req. Lecture and laboratory.
 Pathogenesis, identification, cultivation and classification of bacteria, viruses, fungi and animal parasites associated with diseases of man.
- 365 PHYCOLOGY 4 F**
BSC 192 req. Lecture and laboratory.
 Morphology, taxonomy, physiology and ecology of the algae.
- 366 INDUSTRIAL MICROBIOLOGY 3**
BSC 160 or 260.
 Application of microorganisms as biological machines for industrial processes. Emphasis on biotechnological transformations resulting from genetic engineering.
- 367 IMMUNOLOGY 4**
BSC 192 and 260, or cons inst req. Offered every third semester. Lecture and laboratory.
 Molecular, cellular, transplantation and tumor immunology; antimicrobial immunity; immunochemistry.
- 368 VIROLOGY 4**
BSC 219 and 260 req. Lecture and laboratory.
 Bacterial, avian, insect, plant and mammalian viruses and their involvement in disease and cancer. Viral diagnostics.
- 380 HISTOLOGY 4**
BSC 194 req. Lecture and laboratory.
 Microscopic anatomy of cells, tissues and organs of vertebrates.
- 381 ANATOMY OF PHYSICAL DISABILITIES 4 F.S**
BSC 182 or 194 or HPR 182 req. Not for credit if had BSC 386 or 387. Lecture and laboratory.
 Musculo-skeletal and nervous systems emphasized.
- 382 THE EYE: A LABORATORY AND CLINICAL STUDY 3 F**
 Anatomy and physiology of the eye. Lecture and laboratory. Clinical demonstrations on the detection and care of eye disorders.
- 383 PARASITOLOGY 4 F**
BSC 194 req. Lecture and laboratory.
 Host-parasite relationships, life histories, and morphology of arthropod, helminth and protozoan parasites of animals.
- 386 GROSS ANATOMY 4 F**
BSC 182 or 194 or HPR 182 req. Not for credit if had BSC 381.
 Human body exclusive of head and neck.
- 387 GROSS ANATOMY 4 S**
BSC 182 or 194 or HPR 182 req. Not for credit if had BSC 381.
 Human head, neck and neuroanatomy.

390 EVOLUTION 3 S*BSC 219 req. Lecture only.*

Origin of life, genetic code, mutation, selection, genetic drift, and speciation.

391 INSECT MORPHOLOGY 4 S*BSC 194 req. Lecture and laboratory.*

Structure and evolution of insect organ systems.

392 EMBRYOLOGY 4 F.S*Lecture and laboratory.*

Comparative embryology of the vertebrates with emphasis on avian and mammalian embryos.

394 PROTOZOOLOGY 4 S*BSC 194 req. Lecture and laboratory.*

Morphology, physiology, reproduction, taxonomy, and ecology of free-living and parasitic protozoa.

395 BIOLOGY OF THE LOWER VERTEBRATES 4 S*BSC 194 req. Lecture and laboratory.*

Fish, amphibians, and reptiles: behavior, ecology, evolution, systematics, zoogeography, reproduction, and adaptive significance of morphology.

396 BIOLOGY OF THE HIGHER VERTEBRATES 4 S*BSC 194 req. Lecture, laboratory and field trips.*

Birds and mammals: behavior, ecology, evolution, systematics, and adaptive significance of morphology.

398 PROFESSIONAL PRACTICE BIOLOGY 2-6 F.S, Summer

Jr standing in Biological Sciences with 2.5 GPA in all natural sciences req. May be repeated. Max 16 hrs professional practice, but no more than 3 hrs from BSC 299, 305 or 398 may be counted toward major requirements. Approval of departmental professional practice advisor req. Cr/no cr only.

Practical experience through employment in agencies such as biological research facilities, zoological or botanical gardens, game reserves or environmental service. One credit per 50-60 hours work experience.

CHEMISTRY (CHE)

305 Felmley Hall. (309) 438-7661**Chairperson:** Douglas X. West.

Faculty: Professors: Bunting, Duty, House, Ichniowski, Kurz, Reiter, Richardson, Shulman, Stevenson, Tsang, West. Associate Professors: Clark, Gates, Hansen, Hunt, Rothenberger, Webb. Assistant Professors: Fonong, Jones, Lash.

Chemistry Programs

Degrees Offered: B.A., B.S. The Department of Chemistry is on the approved list of the American Chemical Society.

B.S. CHEMISTRY MAJOR

- 37 hours required in Chemistry, including at least 27 hours in courses numbered 200 or higher.
- Required courses: CHE 140 and 141 (or 150), 230, 231, 232, 233, 315, 350, 360, 361, 362, 363.
- One year of physics, preferably PHY 110 and 111, and one year of calculus (through MAT 146) must be completed prior to enrolling for CHE 360; approved elective courses selected from CHE courses numbered 200 or higher.

— The following are highly recommended: one year of a foreign language, a course in computer programming, a course in technical writing and courses in biological sciences.

B.A. CHEMISTRY MAJOR

- 37 hours required in Chemistry, including at least 27 hours in courses numbered 200 or higher.
 - Required courses: CHE 140 and 141 (or 150), 230, 231, 232, 360, 362; approved elective courses selected from CHE courses numbered 200 or higher.
- Approved advanced elective courses from other natural sciences departments may replace a maximum of 6 of the required 27 hours. Students electing this program should also consult University requirements for the B.A. degree.

MAJOR IN CHEMISTRY

Teacher Certification Requirements

- 37 hours required in Chemistry, including at least 27 hrs in courses numbered 200 or higher. CHE 301 required in addition to the required courses for either the B.S. or B.A. Chemistry Major. A Teacher education student may elect either option as part of the entitlement program leading to certification: secondary 6-12.

MINOR IN CHEMISTRY

- 23 hours required in Chemistry, including at least 13 hours in courses numbered 200 or higher.
- Required courses: CHE 140 and 141 (or 150).

MINOR IN CHEMISTRY

For Teacher Education

- 23 hours required in Chemistry, including at least 13 hours in courses numbered 200 or higher. CHE 301 (2 credit hours) required in addition to the required courses for the Minor in Chemistry.

Basic Chemistry Courses for Majors: Chemistry majors normally are expected to take CHE 140 and 141. A student who demonstrates high achievement in chemistry at the pre-college level may take CHE 150 in place of 140 and 141. CHE 110 and 114 may be taken in place of 140. This 6-hour sequence is designed for students who are not sufficiently prepared for CHE 140 and for students who elect to become Chemistry majors or minors after having completed CHE 110. Credit toward graduation is not given for both CHE 110 and 140, or both CHE 114 and 140.

Chemistry Courses

102 SCIENCE AND MODERN MAN 3 US-3 F.S

Open only to students with no college credit in CHE. Selected topics from chemistry and science in general, and illustration of relevance of chemistry and other sciences to today's world.

104 CHEMISTRY OF LIFE 3 US-3 F.S
CHE 102 or 1 year of H.S. CHE.

Application of chemical principles to the understanding of life processes. A second course designed for non-science majors.

106 CHEMISTRY OF PHOTOGRAPHY 2
Lecture and demonstrations. Not for credit CHE maj min.

An introduction to photographic chemistry in black and white and selected color processes. Designed primarily for students with some experience in photographic processing.

110 FUNDAMENTALS OF CHEMISTRY 4 US-3 F.S
Not for credit if had CHE 140, 141, or 150.

One-semester introductory survey of fundamental concepts, laws and theories of chemical science and their application to common chemical systems.

112 FUNDAMENTAL CHEMISTRY LABORATORY 1 US-3 F.S
CHE 110 or conc reg. Materials charge optional.

Experience in manipulation of fundamental laboratory apparatus and means of carrying out chemical synthesis and measurements on chemical systems.

114 FUNDAMENTALS OF CHEMISTRY (SUPPLEMENTARY) 2 F.S
CHE 110. Not for credit if had CHE 140.

Designed to bring the background of the student up through the level of CHE 140.

140 GENERAL CHEMISTRY I 5 US-3 F.S
First half of a two-semester sequence. Designed primarily for students with HS credit in CHE. Algebra is required. Not for credit if had CHE 110 or 114.

Fundamental principles of stoichiometry, periodicity, atomic structure, and thermochemistry with applications to gases, liquids, solids and solutions.

141 GENERAL CHEMISTRY II 5 US-3 F.S
CHE 114 or 140. Lecture and laboratory. Materials charge optional.

Continuation of CHE 140. Introduction to equilibrium, electrochemistry, acid-base theory, coordination compounds, inorganic and organic chemistry.

150 GENERAL CHEMISTRY 6 F
Lecture and laboratory. Satisfactory completion of 150 replaces the 140-141 requirement. Admission is by invitation based on the results of placement tests and other evaluation techniques. Materials charge optional.

Accelerated study of the fundamentals of chemistry, designed for the student who demonstrates exceptional ability at the pre-college level.

198 PROFESSIONAL PRACTICE: CHEMISTRY 2-8 F.S,Su
CHE 141 or equiv. Fresh or soph stand in CHE. 3.0 GPA. No credit maj/min. May be repeated, max 8 hrs, no more than 4 hrs/semester counted toward graduation reqs. Credit/no credit. May be one or two periods of one term each.

Practical experience by employment in an industrial or governmental laboratory.

215 FUNDAMENTALS OF ANALYTICAL CHEMISTRY 3 F.S
CHE 141 or 150. Lecture and laboratory. Materials charge optional.

Theory and practice of selected modern analytical methods.

220 ELEMENTARY ORGANIC CHEMISTRY 5 F.S
CHE 112 or 141. Not for credit if had CHE 230. Lecture and laboratory. Materials charge optional.

One-semester survey of organic chemistry. For non-majors and rec for AGR, HEC, Med Tech, and Nursing majors. Fundamental principles of structure and mechanisms of organic reactions.

230 ORGANIC CHEMISTRY I 3 F.S
First half of a two-semester sequence. CHE 141 or 150 and corequisite of CHE 231. No credit will be granted in CHE 230 until credit is earned in CHE 231. Not for credit if had CHE 220.

Introduction to chemistry of aliphatic and aromatic organic compounds.

231 ORGANIC CHEMISTRY LABORATORY I 2 F.S
First half of a two-semester sequence. CHE 141 or 150 and corequisite of CHE 230. No credit will be granted in CHE 231 until credit is earned in CHE 230. Materials charge optional.

Laboratory practice illustrating preparations and reactions typical of functional groups.

232 ORGANIC CHEMISTRY II 3 F.S
CHE 230.

Continuation of CHE 230, including synthetic and mechanistic features of organic reactions.

233 ORGANIC CHEMISTRY LABORATORY II 2 F.S
CHE 231; conc reg in CHE 232. Materials charge optional.

Laboratory practice in newer techniques and methods of organic chemistry.

242 BASIC BIOCHEMISTRY 3 F.S
One sem of organic chemistry. Not for credit if had CHE 342.

Introduction to the chemistry of carbohydrates, lipids, proteins, nucleic acids and enzymes. Brief treatment on vitamins and intermediary metabolism.

280 ENVIRONMENTAL CHEMISTRY 3 F
CHE 141 or 150 and any 200 level chemistry course.
 Aquatic, soil, and atmospheric chemistry and the attendant problems of water, soil, and air pollution. Causes of pollutants and methods of analyzing for them.

290 RESEARCH IN CHEMISTRY 1-4 F.S
19 hours of CHE: Only three hrs are applicable towards the maj. Department form must be completed prior to registration. Cr/no cr only. May be repeated. Max 6 hrs.

301 TEACHING OF CHEMISTRY 2-3 F
20 hrs of CHE. For teaching maj min only. CHE education min should register for 2 hrs. C&I 200 (6 hours) or 200.03 (grade of C or better) or conc reg. Incl Clin Exp. Adm. to Teacher Ed. req.

Modern methods and curricula of high school chemistry.

302 INDUSTRIAL CHEMISTRY 3 S
CHE 360.

Scientific and applied aspects of community and industrial problems.

315 ANALYTICAL CHEMISTRY 3 F.S
CHE 362 or conc reg. Lecture and laboratory. Materials charge optional.

Emphasis on modern instrumental methods of chemical analysis including electroanalytical, optical and chromatographic methods.

323 QUALITATIVE ORGANIC ANALYSIS 3 F
CHE 233. Lecture and laboratory. Materials charge optional.

Identification of organic compounds using both chemical and spectrometric methods of analysis.

342 GENERAL BIOCHEMISTRY I 3 F.S

CHE 232 or one year of organic chemistry. Not for credit if had CHE 242.

Survey of the chemical and physical properties of amino acids, carbohydrates, lipids and nucleic acids, and structure and function of proteins, including enzyme kinetics.

343 BIOCHEMISTRY LABORATORY 3

CHE 342 or conc reg or CHE 242. Lecture and laboratory. Materials charge optional.

Application of biochemical principles and methods discussed in companion course, CHE 342.

344 GENERAL BIOCHEMISTRY II 3 F.S

CHE 342.

A survey of important aspects of intermediary metabolism, metabolic regulation, membrane transport and bioenergetics. Topics will include hormonal controls and immunochemical response.

350 INORGANIC CHEMISTRY 3 F.S

CHE 362.

Survey of modern inorganic chemistry including structure of inorganic compounds, coordination chemistry, non-aqueous solvents and selected inorganic reactions.

360 PHYSICAL CHEMISTRY I 3 F.S

CHE 141 or 150; PHY 109 or 111; 8 hrs of CHE or PHY courses numbered 200 or higher; MAT 146.

First of a series in theoretical chemistry dealing with descriptions of gases, liquids, solutions, thermochemistry, thermodynamics, chemical and phase equilibrium, kinetic theory, and chemical kinetics.

361 PHYSICAL CHEMISTRY LABORATORY I I F.S

CHE 360 or conc reg. Materials charge optional.

Laboratory applications of principles treated in physical chemistry.

362 PHYSICAL CHEMISTRY II 3 F.S

CHE 360.

Continuation of CHE 360, including ionic equilibrium, conductance, electromotive force, spectroscopy, molecular theory and miscellaneous applications of quantum theory.

363 PHYSICAL CHEMISTRY LABORATORY II I F.S

CHE 362 or conc reg. One three-hour laboratory period per week. Materials charge optional.

Laboratory studies of the derivations and applications of principles treated in physical chemistry.

380 TOPICS IN CONTEMPORARY CHEMISTRY 1-3 F.S

May be repeated.

New concepts and recent developments in the fields of organic, inorganic, analytical, physical and biochemistry.

398 PROFESSIONAL PRACTICE: CHEMISTRY 2-16 F.S Summer

CHE 232 and 233 or equiv. Jr or Sr standing in chemistry. 2.5 GPA. No credit maj/min. May be repeated. Max 16 hrs, but no more than 4 hrs per semester may be used to meet graduation reqs. Course offered as credit/ no credit. May be two to five periods of one term each.

Practical experience by employment in an industrial or governmental laboratory.

398.01 PROFESSIONAL PRACTICE: INTERNSHIP IN CHEMISTRY**398.50 PROFESSIONAL PRACTICE: COOP IN CHEMISTRY****COMMUNICATION (COM)**

116 Stevenson Hall, (309) 438-3671

Chairperson: George Tuttle.

Faculty: Professors: Cragan, Streeter, Watkins, White, Wright. Associate Professors: Boaz, Jackson, Hazelton, Kinsky, Semlak, Tchong, Tuttle. Assistant Professors: Botan, Comadena, Cupach, Cutbirth, Driscoll, Haefner, Kapoor, Metts, Padgett, M. Shelly, Siegel, Wilford, Wisely. Instructors: Ballinger, Brooks, Jennings, Lovell, Madsen, Wilson. Lecturers: Comstock, Fisk, Garee, Groves, Hawkinson, Holloway, Kleine, Klinck, Link, Madsen, K. Shelly, Short, Witosky.

Library Science-Instructional Media Programs**MINOR IN LIBRARY SCIENCE**

— 19 hours in Library Science required.

— Required courses: COM 101, 115, 305, 306 or 307 or 308, 310, 312. COM 120 and 391 are recommended for students preparing for graduate work in Library Science.

MINOR IN LIBRARY SCIENCE**For Teacher Education**

— 19 hours in Library Science required.

— Required courses: COM 115, 240, 305, 306 or 307, 310, 312.

— Clinical experiences for Library Science are included in COM 101, 115, 240, 301, 305, 306, 307, 310, 312, 365 and 391. Additional opportunities are available through departmental programs.

MINOR IN INSTRUCTIONAL MEDIA

— 24 hours required.

— Required courses: COM 240, 241, 365, 366; 12 hours selected from ART 101, 103, 104, 109, 226; COM 160, 162, 163, 310, 337, 362; IT 190, 210, 250, 251, 253.

COM 240, 241, 365, and 366 cannot be used to satisfy the requirements for both a major in Library Science and a minor in Instructional Media.

Mass Communication Programs

Degrees Offered: B.A., B.S.

MAJOR IN MASS COMMUNICATION

— 36 hours required. *Note: Transfer into the Mass Communication Major requires a 2.5 GPA.*

— Required courses (21 hrs. in Broadcasting; 27 hrs. in Journalism): COM 160, 260, 360, 361. Either COM 162, 163, and 264 in Broadcasting or COM 165, 166, 265, 269, and 385 in Journalism.

— Electives (15 hours) for emphasis in Broadcasting or (9 hours) for emphasis on Journalism selected from COM 110, 198.01, 162, 163, 165, 166, 167, 263, 264, 265, 266, 267, 268, 269, 270, 287, 289 (Applied Communication Delivering Systems), 296, 297, 362, 363, 364, 368, 369, 385, 398.

Admission Requirements: To gain final admission to the Mass Communication major program, students must have completed at least 45 semester hours, 15 of which have

been earned at Illinois State. In addition, students will normally be expected to have completed COM 160 (or its equivalent at another institution) with a grade of C or better, and to have a grade point average at Illinois State of 2.5 or better. (Exemptions from the COM 160 and GPA requirements may be made for students from academically disadvantaged backgrounds who demonstrate a potential for academic success. Exceptions are granted on the recommendation of the Mass Communication adviser and the department chairperson.) Students must complete a formal application with the Department of Communication. Further information on admission procedures is available in the department.

MINOR IN MASS COMMUNICATION

- 18 hours required.
- Required Course: COM 160.
- 15 hours of electives selected in consultation with an academic adviser from COM 110, 198.01, 162, 163, 165, 166, 167, 260, 263, 264, 265, 266, 267, 268, 269, 270, 287, 289 (Applied Communication Delivery Systems), 296, 297, 360, 361, 362, 363, 364, 368, 369, 385, 398.

MINOR IN JOURNALISM

For Teacher Education

- 24 hours required. Typing ability is a prerequisite to this minor.
- Required courses: COM 160, 165, 166, 265, 266, 269, 385.
- Electives: COM 268 or IT 250.

Honors in Mass Communication: The Department of Communication offers students an opportunity to demonstrate outstanding achievement in the study of Mass Communication by means of participation in the Departmental Honors Program. The department also offers in-course honors work in all its courses at the discretion of the instructor for students enrolled in the Honors program. Qualified students are encouraged to inquire about admission by contacting the chairperson of the department.

Speech Communication Programs

Degrees Offered: B.A., B.S.

MAJOR IN SPEECH COMMUNICATION

- 30 hours required.
- Required courses: COM 110, 297.
- A minimum of 6 hours must be at the 300 level (excluding 398).
- 24 hours of electives selected from the following groups of courses: minimum of 3 hours selected from Interpersonal and Group Variables courses (COM 123, 175, 210, 223, 225, 227, 228, 323, 325, 329, 370); minimum of three hours from Rhetorical Variables courses (COM 125, 201, 202, 203, 226, 302, 303, 304, 321, 324, 371); minimum concentration of six additional hours from one of the above groupings of courses. Other electives available from Communication Methods and Research courses include COM 296, 380, 398. Electives available from Educational Variables courses include COM 198.02, 280, 281, 330, 381.

MAJOR IN SPEECH COMMUNICATION

Teacher Certification Requirements

- 40 hours required. Part of entitlement program leading to certification: secondary 6-12.

- Required courses (28 hours): COM 110, 123, 125, 198.02, 202, 223, 281, 297, 324, 381.
- Elective courses (12 hours) chosen from two of the following groups:
 - Group A (Small Group/Interpersonal), 6 hours from COM 225, 323, 329, 370.
 - Group B (Social Communication), 6 hours from COM 175, 201, 303, 304, 371.
 - Group C (Rhetorical Criticism), 6 hours from COM 226, 302, 321.
 - Group D (Education), 6 hours from COM 242, 280, 296, 330, 398.
 - Group E, 6 hours from COM 160, 360; THE 101, 341 (not for credit THE maj, min); PAS 211.
- Clinical experiences are included in COM 198.02, 202, 223, 281, 380, 398. Additional opportunities are available through other departmental programs.

Students enrolled in this program are advised that if they have a minor other than English, they must have 6 semester hours in rhetoric and composition to meet state teaching standards.

MINOR IN SPEECH COMMUNICATION

- 18 hours required.
- Required course: COM 110.
- A minimum of 3 hours must be at the 300 level (excluding 398).
- 15 hours of electives selected from COM 123, 125, 175, 198.02, 201, 202, 203, 210, 223, 225, 226, 227, 228, 297, 302, 303, 304, 321, 323, 324, 325, 329, 330, 370, 371.

MINOR IN SPEECH COMMUNICATION

For Teacher Education

- 25 hours required.
- Required courses (22 hours): COM 110, 123, 125, 198.02, 223, 281, 297, 324.
- Electives (3 hours) selected from COM 160, 201, 202, 210, 225, 226, 296, 302, 303, 304, 321, 323, 325, 329, 330, 360, 370; THE 101, 341; PAS 211.

Students minoring in Speech Communication or Journalism for Teacher Education are advised that if they have a major other than English, they must have 6 semester hours in rhetoric and composition to meet state teaching standards.

Honors in Speech Communication: The Department of Communication offers honors work in Speech Communication to highly qualified students who wish to pursue individualized programs of study. The department also offers in-course honors work in all its courses at the discretion of the instructor for students enrolled in the University Honors program. Students interested in participating in the department's Honors program may secure further information by contacting the chairperson of the department.

Public Relations Program

Degrees Offered: B.A., B.S.

MAJOR IN PUBLIC RELATIONS

- 36 hours in Communication required.
- Required courses: COM 110, 165 (COM 160 prerequisite waived for Public Relations majors), 178, 240, 268, 297, 321, 329, 378.
- 9 hours of electives in Communication selected from COM 160, 202, 223, 228, 241, 265, 269, 303, 324, 360, 365, 371, 385, 398.01, 398.02.

- A maximum of 6 hours of COM 398 may be counted toward the major.
- A maximum of 9 hours can be counted concurrently toward the Public Relations major and other majors or minors within the Communication Department.
- Public Relations majors must complete a minor or a second major in a department other than Communication.

MINOR IN PUBLIC RELATIONS

- 24 hours required.
- Required courses: COM 165, 178, 268, 297, 378. Note: Students seeking a minor in Public Relations who are not majoring in Mass Communication are permitted to waive the COM 160 prerequisite for COM 165.
- A maximum of nine (9) hours counted toward the Public Relations minor may be applied toward a major or minor within the department.
- Nine (9) hours of COM electives selected from the following areas (*means highly recommended):
Graphics and Photography: 240*, 241*, 266, 365, and 366.
Organizational and Professional Communication: 202*, 227 (not recommended for declared Speech Communication majors), 228, 321*, 324*, 325, and 329*.
Mass Communication and Production: 163*, 166*, 269, 362, 364*, 367, 368, and 385*.

Communication Courses

101 THE LIBRARY IN SOCIETY 3 F

Incl Clin Exp.

Survey of librarianship and areas of service. Significance and responsibilities of contemporary libraries. Professional organizations, standards, library legislation.

102 LIBRARY AND INFORMATION RESOURCES 3 F.S

Not for credit if had COM 115.

Study of the role of information in society and development of competencies for retrieving information from libraries and other sources.

110 FUNDAMENTALS OF SPEECH COMMUNICATION 3 US-1 F.S

Theory and practice in developing skills in interpersonal, small group, and public communication. Preparation and presentation of speeches and participation in various communication activities.

115 BASIC REFERENCE SOURCES 3 F

Incl Clin Exp.

Basic reference sources for libraries with collection of printed and non-printed material. Criteria for evaluating reference books and practical experience in using them.

120 HUMAN RECORDS AND LIBRARIES 3 S

Human communication from earliest records to invention of printing and advent of mass media: libraries and their growth in relation to these developments and to society.

123 INTERPERSONAL COMMUNICATION 3 US-1 F.S

An introduction to two-person interaction in a variety of contexts.

125 ARGUMENTATION 3 US-1 F.S

Theory and practice of advocacy.

140 INTRODUCTION TO THE COMPUTER WORLD 3 US-7 F.S

Also offered as ACS 140.

A nontechnical course designed to develop effective computer users and to acquaint the students with the impact of computers on the person and society. No previous computer experience or mathematics requirements necessary.

160 INTRODUCTION TO MASS COMMUNICATION 3 F.S

Mass Media development and function in modern society: technological basis, economic and political foundations, social implications.

162 RADIO PRODUCTION 3 F.S

COM 160 req. 2 hrs. lecture, 2 hrs. laboratory. Materials charge optional.

Skills in utilizing equipment and procedures necessary to produce programs for radio. Script writing and directing included.

163 TELEVISION PRODUCTION 3 F.S

COM 160 req. 2 hrs lecture, 2 hrs laboratory. Materials charge optional.

Development of skills necessary in producing a television program. Function of television equipment and facilities. Evaluation of current production techniques. Producing and directing included.

165 REPORTING I 3 F.S

COM 160 and typing ability req.

Intensive training in the fundamentals of newsgathering and newswriting.

166 COPY EDITING 3 F.S

COM 160, 165 req.

Advanced training in rewriting and editing stories, headlines, writing, page layouts, and work on a campus publication.

167 BROADCAST NEWS I 3 F.S

COM 160, 165 req.

Provide an understanding of the role of the broadcast journalist and develop some of the basic skills of the profession.

170 LITERATURE FOR THE ELEMENTARY SCHOOL 3 F.S

Also offered as ENG 170.

Prose and poetry for kindergarten through eighth grade; emphasis on classics, best of twentieth-century works, folklore heritage, and mythology.

178 INTRODUCTION TO PUBLIC RELATIONS 3 F.S

COM 110 and ENG 101 rec.

Examines functions of public relations in society and surveys concepts, theories, and principles of effective public relations.

198.01 PROFESSIONAL PRACTICE: ANNOUNCING INTERNSHIP 1 F.S

May be repeated. Max 4 hrs. Formerly COM 161.

Supervised experience in an announcing assignment at local or off-campus stations. The student must obtain the assignment and arrange with the instructor for weekly critique sessions.

198.02 PROFESSIONAL PRACTICE: FORENSICS 1 F.S

May be repeated. Max 4 hrs. Incl Clin Exp. Formerly COM 199.

Training and participation in speech activities.

201 COMMUNICATION AND SOCIAL ISSUES I 3 F.S
COM 110 rec.

Criticism of communicative discourse concerning reform movements, religious controversy, socialism, and other topics.

202 PERSUASIVE PUBLIC SPEAKING 3 F.S
COM 110 rec. Incl Clin Exp.

Provides the student an opportunity to develop skills in persuasive speaking in a variety of situations. Focuses on message content and organization appropriate for different situations.

210 PRINCIPLES OF PARLIAMENTARY PROCEDURE 3 F

Formal instruction in main, subsidiary, privileged, and incidental motions. Basic tenets of parliamentary law including relationship of principles of parliamentary procedure to bylaws and governance documents are covered. Actual practice provided in the conduct of business meetings. Functions of major officers of the assembly are discussed and demonstrated.

223 SMALL GROUP PROCESSES 3 US-1 F.S
Incl Clin Exp.

Theory and practice in reflective group discussion methods.

225 NONVERBAL COMMUNICATION 3 F.S
COM 110 rec.

Consideration of gesture, space, time, touch, objects, environment, voice, and eye behavior, and their relationship to communication and culture.

226 CLASSICAL RHETORIC 3 F
 Analysis of classical rhetoricians and rhetorics, from the early Greek sophists to Saint Augustine, with special attention to impact on modern theory construction.

227 ORGANIZATIONAL AND PROFESSIONAL SPEAKING 3 F.S

Learning experiences in critical analysis of communication events, group problem solving, interviewing, technical speaking, and persuasive speaking.

228 INTRODUCTION TO INTERVIEW 3 F.S

Learning experiences in the selection, organization, oral presentation of ideas through the interview situation. The course stresses the informational context of communication when interviewing.

240 UTILIZATION OF AUDIOVISUAL MATERIALS 3 F.S

Lecture and laboratory. Incl Clin Exp. Materials charge optional.

Surveys the theory, materials, and methodology of instructional technology. Laboratory experiences include equipment operation, evaluation of materials, and basic graphic production techniques.

241 BASIC PHOTOGRAPHY 3 F.S

Materials charge optional. Student must provide own 35 mm adjustable camera, meter, and flash. Lecture and laboratory. Not for credit if had COM 266.

Camera manipulation, lighting, composition, and darkroom procedures.

252 ELECTRONIC EDITING 3
COM 165.

Training in principles and practice of editing on computer terminals for use in print journalism.

260 MASS COMMUNICATION: CULTURAL CRITICISM AND PROBLEMS 3 F.S
COM 160 req.

The mass media as a social system. Its impact on the cultural and economic life of the nation. The need for continuing decisions regarding public policy.

263 ADVANCED TELEVISION PRODUCTION 3 F.S
COM 160, 163 req. 2 hrs lecture, 4 hrs laboratory.

Creating visual appeal through the television medium. Aesthetics in preparing television programs. Advanced producing/directing techniques in commercial broadcasting and television as an art form.

264 BROADCAST PROGRAMMING 3 F.S
COM 160 req.

The format and scheduling of programs as practiced by station and network management and viewed from the perspective of the advertiser, the manager, the consumer, and the government.

265 REPORTING II 3 F.S
COM 160, 165 req.

Advanced training in newsgathering and newswriting with practical application.

266 PHOTO JOURNALISM 3 F.S
COM 160, 165 rec. Not for credit if had COM 241.

Materials charge optional.

Development of skills and techniques in the production of still photographs for printed publication and television.

267 BROADCAST NEWS II 3 F.S
COM 160, 165, 167 req.

Refinement of skills in broadcast news through laboratory work on daily television newscasts.

268 COMMUNITY RELATIONS 3 F.S
COM 165 req.

Introduction to public relations functions and training in production of news releases, news letters and other publications for employees and communities.

269 SPECIALIZED PUBLICATIONS 3 F.S
COM 165 req.

Training in editing, management, production and finance of magazine, small newspapers, and annual reports. Instruction applicable to advisement of school publications.

270 DOCUMENTARY IN FILM AND BROADCASTING 3 S
Also offered as THE 270.

Historical, philosophical, and theoretical consideration of documentary approach in films, television, and radio.

272 LITERATURE FOR UPPER GRADES 3 F.S

Also offered as ENG 272. Does not repeat material of COM 170.

Wide reading in variety of books available for grades four through eight, criteria for book selection, development of literature programs.

281 PRINCIPLES OF SPEECH EDUCATION 3 F

C&I 200 (6 hours) or 200.03 (grade of C or better) req. Incl Clin Exp. Adm. to Teacher Ed. req.

Methods and materials for teaching secondary speech communication. Planning and applying strategies, methods of measurement, classroom criticism of performance, selection and compilation of materials.

296 INDEPENDENT RESEARCH IN COMMUNICATION 3 F.S

Project approval by dept chair and inst prior to reg.

**297 COMMUNICATION RESEARCH
METHODS 3****F.S**

Methods of scholarly research and critical evaluation of research.

**301 ADVANCED REFERENCE
SOURCES 3****S**

Incl Clin Exp.

The selection, use, and evaluation of print and non-print reference materials in selected subject fields.

302 COMMUNICATION CRITICISM 3**S**

The course develops critical skills for describing, interpreting and evaluating communication from different theoretical perspectives.

**303 CONTROVERSY AND CONTEMPORARY
SOCIETY 3****S**

Contemporary communication on current significant, controversial issues.

**304 FREEDOM OF SPEECH AND
PRESS 3****S**

A study of First Amendment rights. Emphasis on Supreme Court decisions relating to political dissent, obscenity, provocation and demonstration, and press freedom.

**305 BUILDING AND MAINTAINING
LIBRARY COLLECTIONS 3****F**

Incl Clin Exp.

A survey of general selection aids, principles of selection, criteria for evaluation. Development of a materials selection policy, intellectual freedom and censorship.

**306 LIBRARY MATERIALS
FOR CHILDREN 3****S**

COM 305 rec. Incl Clin Exp.

Selection, evaluation and use of media in various subject areas. Use of materials in meeting individual interests, needs, and abilities of children.

307 MEDIA FOR YOUNG ADULTS 3**F**

COM 305 rec. Incl Clin Exp.

Selection, evaluation, and use of media for young adults in public and secondary school libraries. Materials are related to development of young people and to the school curriculum.

**308 LIBRARY MATERIALS
FOR ADULTS 3****S**

COM 305 rec.

Evaluation, selection, and use of materials/media for adults. A study and analysis of interests and information needs.

**310 ORGANIZATION OF
LIBRARY MATERIALS 4****F.S**

Supervised laboratory work. Incl Clin Exp.

Principles of cataloging and classification and their application in organizing media collections; Dewey Decimal Classification System and the Anglo-American cataloging code.

312 ADMINISTERING LIBRARIES 3**F**

Incl Clin Exp.

Principles and procedures in planning, directing, and evaluating library organizations.

319 COMPUTER GRAPHICS 3**F.S**

Also offered as IT 319.

Combination of graphic techniques and computer programming as means of industrial communication applied to solution and interpretation of technological problems.

321 MESSAGE COMPOSITION 3**F**

COM 110 rec.

The application of communication theory and research to the composition of informative and persuasive messages. Emphasis: organizational and language factors affecting mediated and non-mediated communication.

**323 THEORY AND RESEARCH IN SMALL
GROUP COMMUNICATION 3****F.S**

COM 110, 297 rec.

Theoretical and experimental literature dealing with small group communication processes.

**324 THEORY AND RESEARCH IN
PERSUASION 3****F.S**

COM 110, 297 rec.

A survey of contemporary theoretical and empirical literature dealing with the question of how an individual's attitudes, beliefs, and social behaviors are affected by communication.

**325 THEORY AND RESEARCH IN
INTERPERSONAL COMMUNICATION 3****S**

COM 110 and 297 rec.

Analysis of interpersonal communication and research and its implications for developing, maintaining, and terminating relationships. Focus on developing communicative competence.

**329 ORGANIZATIONAL
COMMUNICATION 3****F.S**

COM 110 rec.

An examination of theoretical and experimental literature dealing with communication in an organizational setting.

**330 DIRECTING THE
FORENSIC PROGRAM 3**

COM 110 rec.

Theoretical and procedural aspects of organizing and maintaining a debate and individual speaking events program.

337 PROGRAMMED LEARNING 3**F**

Incl Clin Exp.

Construction and evaluation of programmed sequences for various media; analysis and application of theories as they relate to instruction.

**340 COMPUTER APPLICATIONS
IN EDUCATION 3****S**

Examination and discussion of the ways computers may be used in education. Emphasis on selection, production, and evaluation of computer instructional programs.

**345 INTRODUCTION TO LIBRARY
TECHNOLOGY 3****F**

Application of mechanized, automated and computerized equipment to achieve economy, efficiency and speed in library operations. Analysis and design of library systems.

**346 AUTOMATED
BIBLIOGRAPHIC CONTROL 3****S**

COM 310 or cons inst.

Operation, characteristics, and applications of automated bibliographic networks, emphasizing OCLC subsystems with introduction to such subsystems as BALLOTS and RLIN.

**360 MASS COMMUNICATION:
THEORY AND EFFECTS 3****F.S**

COM 160 req.

A critical examination of channel and receiver variables and their effects on the act of moving information through a given medium. Students participate in at least one research project of their design.

361 REGULATION OF THE COMMUNICATION INDUSTRY 3 F.S

COM 160 req.

The legal background of mass media, specific laws affecting media operations, and industry efforts at self regulation.

362 INSTRUCTIONAL TELEVISION 3 F.S

Lecture and laboratory.

Television as a means of instruction in terms of research, technique, utilization and evaluation.

363 PRIVACY AND INFORMATION PROCESSING 3 F

Economics Programs

Degrees Offered: B.A., B.S.

MAJOR IN ECONOMICS

— 30 hours in Economics required.

— Required courses: ECO 100, 101, 130, 131, 240, 241 and at least 3 hours of 300-level ECO courses. MAT 121 or 145 may be substituted for ECO 130. MQM 100 may be substituted for ECO 131. FAL 217 may be substituted for ECO 239 as an elective in the major; however, a minimum of 24 hours of coursework from the Department of Economics must be included in the major.

Admission Requirements: to be admitted to the Economics Major, students must have a cumulative GPA of 2.1.

Concentrations: Students majoring in Economics may elect (but are not required to elect) a Business and Government, Graduate School, or Social Sciences concentration. Although no specific courses are required for these concentrations, recommended courses for each are listed below:

1. *Business and Government:* Required courses above plus FAL 208 and 211, ACC 131 and 132, and ACC 160 or ACS 168.
2. *Graduate School:* Required courses above plus ACS 168; MAT 146, 147, 175, 350, 351; ECO 330, 331, and 333.
3. *Social Sciences:* Required courses above plus 12 hours in the Social Sciences (POS, PSY, SAS) with at least one course from each of these three departments.

MAJOR IN SOCIAL SCIENCES

The major in Social Science is administered in the Department of History in cooperation with the departments of Economics; Sociology, Anthropology, and Social Work; and Political Science. For further information see Social Science Programs.

MINOR IN ECONOMICS

— 18 hours in Economics required.

— Required courses: ECO 100, 101.

— MAT 121 or 145 may be substituted for ECO 130. MQM 100 may be substituted for ECO 131. A minimum of 15 hours of coursework from the Department of Economics must be included in the minor.

MINOR IN ECONOMICS**For Teacher Education**

Courses in this program should include ECO 100, 101, 131, 240, 241, 330, 331, and 333; MAT 145, 146, 147, 175, 350, 351. Interested students may contact the department chairperson in either Economics or Mathematics.

Honors in Economics: Candidates for honors must be ECO majors with a GPA of 3.30 overall and 3.75 or higher in economics courses. Students will be expected to complete 6 hours of course work designated as honors course work within the Department of Economics. These could be 100 and 101 honors, or two in-course honors at the 200 or 300 level. The in-course honors requires individual negotiation with a faculty member teaching the course. In addition, the achievement of honors requires the writing of a substantial original paper. The student will enroll in Independent Honors Study and will receive help from the faculty member to whom he or she is assigned. At the end of the semester the student will make an oral presentation of the paper to a meeting of Omicron Delta Epsilon, the Econom-

ics Honor Society. One copy of the original paper will be kept in the department office and be available for inspection. Honors credit will show on the official transcript and will be stated on the diploma.

Honors in Foreign Languages: The Department invites highly qualified majors (or double majors) to distinguish themselves by earning Honors in French, German or Spanish. To be admitted to the program a student must: 1. have completed 60 hours of university level work; 2. be a declared major or double major in Foreign Languages; and 3. have a minimum overall GPA of 3.3 with a GPA of 3.6 in the chosen language. In order to graduate with Depart-

mental Honors a student must: 1. complete the general requirements for the major; 2. maintain an overall GPA of 3.3 and a GPA of 3.6 in the major language; 3. complete 9 hours of in-course honors work at the 300 level in the major; 4. complete 3 hours of Independent Honors Study (FOR 299) in addition to the regular major requirements; and 5. write an honors thesis during the Senior year while enrolled in FOR 299. Students interested in participating may obtain additional information from the Director of the Honors Program in Foreign Languages. The department also offers in-course honors work for students enrolled in the University Honors program at the discretion of the instructor.

Foreign Language Courses

Students who have had no previous instruction in a foreign language, or one year of instruction, should enroll in the 111 course for the appropriate language. Students who have had two, three or four years may enroll in 112, 115 or 116 respectively. If prior language study took place more than one year earlier, a student may choose to enroll at a lower level. Transfer students and native speakers should consult with the chairperson of the Department of Foreign Languages to determine proper placement.

Advanced Placement: If the first foreign language course in which a student enrolls is above 111 in the regular sequence (112, 115, 116 or above), he or she may be eligible for advanced placement credit. Application for advanced placement credit must occur during the first semester a student is enrolled in a language course.

Credit toward graduation for previously acquired language proficiency will be granted upon completion at Illinois State University of 8 hours of course work (excluding Independent Study) with the grade of C or better in each class. None of the required hours may be taken under the credit/no credit option. Transfer students who took language courses at another college are not eligible for this advanced placement credit. Unless advance approval for exceptions is given by the chair, the courses should be taken consecutively or concurrently.

Students beginning at the 112 level and fulfilling the above requirements will be granted 4 hours. Students beginning at the 115 level or above and fulfilling the above requirements will be granted 8 hours of credit.

300 Level Foreign Language Courses: Instruction in courses in literature and culture of the major fields of specialization (French, German, Spanish) will be given in the language of specialization whenever possible.

An overview of German culture from the beginning to World War I, as derived from selected readings and class discussions.

218 GERMANY TODAY 3

GER 116 or cons dept chair.

A study of the German scene since World War I, as reflected in essays and articles of representative authors. Strongly recommended for teaching majors.

221 SURVEY OF GERMAN LITERATURE I 3

GER 116 or cons dept chair.

Reading and discussion of representative works of the most important authors from the 8th century to circa 1770.

222 SURVEY OF GERMAN LITERATURE II 3

GER 116 or cons dept chair.

Reading and discussion of representative works of the most important authors from the early 19th century to the present.

302 GOETHE 3

Two crses beyond GER 116.

Reading and discussion of a number of major works, with emphasis on the drama.

303 SCHILLER 3

Two crses beyond GER 116.

Reading and discussion of a number of major works, with emphasis on the drama.

309 GERMAN PHONETICS 2

Two crses in GER lit.

Scientific approach to German pronunciation; correct formation of German sounds, practical application of theory of phonetics to teaching.

313 ADVANCED GERMAN COMPOSITION AND CONVERSATION 2

GER 213 or cons dept chair.

Free discussion of topics of contemporary interest; oral and written themes based on class discussions.

318 GOETHE'S FAUST 3

Two crses beyond GER 116.

Critical study of Parts I and II of *Faust* as an expression of Goethe's philosophy. Lectures, readings, and reports.

332 GERMAN LYRIC POETRY 2

GER 116 or cons dept chair.

Reading and interpretation of German lyric poetry from 800 A.D. to the present.

385 SELECTED TOPICS IN GERMAN LITERATURE 3

Two crses in GER lit. May be repeated if content different.

Intensive study of a genre, group of authors, or a single major writer in German literature.

Italian Courses**111 FIRST-YEAR ITALIAN (PART I) 4 US-1**

Pronunciation; essentials of grammar; exercises in comprehending, speaking, and reading material of graded difficulty.

112 FIRST-YEAR ITALIAN (PART II) 4 US-1

Continuation of Part I.

Russian Courses**111 FIRST-YEAR RUSSIAN (PART I) 4 US-1**

Fundamentals of Russian grammar. Emphasis placed on speaking and comprehension, with essentials of reading and writing.

112 FIRST-YEAR RUSSIAN (PART II) 4 US-1

Continuation of Part I.

115 SECOND-YEAR RUSSIAN (PART I) 4 US-1

RUS 112 or equivalent HS RUS.

Review of basic grammar and development of intermediate speaking and comprehension skills; emphasis on reading and discussion of original Russian texts.

116 SECOND-YEAR RUSSIAN (PART II) 4 US-1

Continuation of Part I.

217 RUSSIAN CIVILIZATION 3

RUS 116.

Broad survey of historical and cultural developments of the Soviet Union from the time of Old Rus' to contemporary Moscow.

221 READINGS IN RUSSIAN LITERATURE 3

RUS 116.

Selected short fiction of representative 19th and 20th Century Russian authors. Broad exposure to the literature and fundamentals of critical analysis and techniques of reading Russian prose.

222 READINGS IN RUSSIAN LITERATURE 3

RUS 116.

A major Russian novel by a 19th or 20th Century author.

231 RUSSIAN CONVERSATION AND COMPOSITION 2

RUS 116.

Written and oral composition; conversation designed to build vocabulary and improve pronunciation.

285 SELECTED TOPICS IN RUSSIAN LITERATURE 3

May be repeated if content different.

Intensive study of a genre, group of authors or a single major writer in Russian literature. The field of study will vary each semester.

290 ADVANCED RUSSIAN SYNTAX 3

One 200 level RUS crse, Jr or Sr standing, cons inst.

Application of syntactic theories of Russian towards developing advanced skills in reading, directed composition, and translation.

Spanish Courses**111 FIRST-YEAR SPANISH (PART I) 4 US-1**

F.S

Not rec if student had three yrs HS SPA. Not for credit if had SPA 115 or 116.

Fundamentals of grammar. Practice in speaking, understanding, reading and writing Spanish.

112 FIRST-YEAR SPANISH (PART II) 4 US-1

F.S

Not rec if student had three years HS SPA. Not for credit if had SPA 115 or 116.

Continuation of Part I.

115 SECOND-YEAR SPANISH (PART I) 4 US-1

F.S

SPA 111 and 112 or equiv. Formerly SPA 116.

Review of Spanish grammar, vocabulary building, oral and written practice.

116 SECOND-YEAR SPANISH (PART II) 4 US-1

F.S

SPA 115 or equiv. Formerly SPA 115.

Continuation of Part I. Emphasis on reading and discussion of Spanish short stories with continuing review of grammar.

211 MODERN SPANISH NOVEL 3

SPA 116.

Reading and discussion of representative Spanish and Spanish American novels.

216 MODERN SPANISH DRAMA 3

SPA 116.

Reading and class discussion of representative Hispanic dramatists of the 18th through the 20 centuries.

217 CIVILIZACION ESPANOLA 3

SPA 116.

Spanish customs and institutions in their historical perspective.

218 CIVILIZACION HISPANOAMERICANA 3

SPA 116.

Cultural life and customs of Spanish-speaking countries in the Americas.

221 SURVEY OF SPANISH LITERATURE I 3 US-2

SPA 116 or equiv.

Reading and discussion of representative writers of Medieval and Renaissance Spain.

222 SURVEY OF SPANISH LITERATURE II 3 US-2

SPA 116 or equiv.

Reading and discussion of representative Spanish writers of the 18th through the 20th centuries.

231 ADVANCED SPANISH COMPOSITION AND CONVERSATION 3

SPA 116.

Composition and conversation based on modern Spanish prose with special attention to idioms and the finer points of grammar.

242 SURVEY OF SPANISH-AMERICAN LITERATURE 3 US-2

SPA 116 or equiv.

Introduction to the works of Spanish-American authors with emphasis on the 19th and 20th centuries.

305 CURRENT TOPICS IN HISPANIC CIVILIZATION AND CULTURE 3

May be repeated if content different. Formerly FOR 304.

Study of recent trends, issues and changes in Spanish-speaking world. Varying topics and pedagogical strategies for teaching culture.

309 SPANISH PHONETICS 3

Learning, using and teaching correct Spanish pronunciation, stress and intonation.

310 SPANISH SYNTAX 3

A systematic and thorough study of the fundamental points of Spanish grammar and composition.

331 SPANISH-AMERICAN LITERATURE I 3

From the colonial period through realism.

335 MEXICAN LITERATURE 2

A survey of Mexican literature and its literary background from its beginnings to the present.

336 SELECTED TOPICS IN SPANISH AMERICAN LITERATURE 3

May be repeated if content different.

Variable topics providing in-depth study of major authors, works, genres, themes or movements.

337 SELECTED TOPICS IN MODERN PENINSULAR SPANISH LITERATURE 3

May be repeated if content different.

Major authors, genres or movements from Spanish literature of the 18th, 19th and 20th centuries.

338 SELECTED TOPICS IN MEDIEVAL SPANISH LITERATURE AND CULTURE 3

May be repeated if content different.

Major authors, genres, or periods from Spanish literature of the Middle Ages in their cultural context.

339 SELECTED TOPICS IN SPANISH GOLDEN AGE LITERATURE AND CULTURE 3

May be repeated if content different.

Major authors, works, genres, or movements from the Spanish Golden Age (1469-1700) in their historical cultural context.

372 SPANISH DRAMA OF THE GOLDEN AGE 3

Reading and discussion of selected plays from the great dramatists of Spain's Golden Age.

385 SELECTED TOPICS IN SPANISH LITERATURE 3

May be repeated if content different.

Intensive study of a genre, movement, author or work. This study varies each semester.

GEOGRAPHY-GEOLOGY (GEO)

206 Schroeder Hall. (309) 438-7649

Chairperson: Michael D. Sublett.

Faculty: Professors: Kirchner, Mattingly, Miller, Patterson, Schmidt, Searight, Shuman, Walters. Associate Professors: Anderson, Aspbury, Hart, Nelson, Sublett. Assistant Profes-

sors: Hyers, Foster, Johnson, Zintambila. Lecturers: Ferrara, Thomas. Adjunct Faculty: Bettis.

Geography Programs

Degree Offered: B.A., B.S.

MAJOR IN GEOGRAPHY

— 37 hours required. Programs must be planned in consultation with an adviser. Due to the variety of concentrations within the three Geography sequences, students are urged to consult with designated departmental faculty members. Names of designated faculty are available in SH 206. The areas of concentration include: *Applied:* cartography, planning, remote sensing; *Human:* cultural, historical, political, regional, urban economic; *Physical:* climatology, environmental, geomorphology. MAT 110 and MAT 145 are strongly recommended for students planning to be cartographers.

— Required core courses: GEO 100, 135, 150, 300, 315, and one course from GEO 215, 220, 225, 230, 240, 245, 250, 255, or 260.

— One of the following sequences must be selected:

Applied Geography Sequence: Required courses: GEO 305, 308, 310, and 370. Electives must be selected from the following courses to complete the 37 hour requirement of the major: GEO 201, 205, 302, 330, 336, 338, 350, 355, 398.01, 398.51 (4 hours max Professional Practice may be counted toward the major), MAT 110, 145, and designated Selected Studies, Independent Studies, and Regional and Area Studies courses.

Human Geography Sequence: Required courses: GEO 205, 208, 336, and 338. Additional electives must be selected from the following courses to complete the 37 hour requirement of the major: GEO 210, 308, 310, 320, 345, 398.01, 398.51 (4 hours max Professional Practice may be counted toward the major), and designated Selected Studies, Independent Studies, and Regional and Area Studies courses.

Physical Geography Sequence: Required courses: GEO 110, 200, 201, 205. Electives must be selected from the following courses to complete the 37 hour requirement of the major: GEO 305, 308, 310, 345, 380, 398.01, 398.51 (4 hours max Professional Practice may be counted toward the major), AGR 234; BSC 201, 204; CHE 280; ECO 355; HPR 371; and designated Selected Studies, Independent Studies, and Regional and Area Studies courses. A minor in Agriculture, Biology, Chemistry, Environmental Health, or Recreation and Park Administration is strongly recommended.

MINOR IN GEOGRAPHY

— 24 hours in Geography required.

— Required courses: GEO 100, 135, 150, 300, 315, and one course selected from GEO 215, 220, 225, 230, 240, 245, 250, 255, or 260. Additional electives must be selected from the required courses in one of the sequences in the major to complete the minimum requirements of 24 hours.

— Note on Geography Minor: Students wishing to minor in Geography are requested to inform the department of their intention and are invited to discuss their program with an adviser.

MAJOR IN GEOGRAPHY**Teacher Certification Requirements**

— 37 hours required. Part of entitlement program leading to certification: secondary 6-12. Student's program must be planned in consultation with an adviser.

- Required courses: GEO 100, 110, 135, 145, 150, 200, 201, 205, 275; one course selected from GEO 215, 220, 225, 230, 240, 245, 250, 255, or 260; GEO 307, or HIS 290 and 390.
- Additional electives in Geography must be selected to complete the minimum requirements (37 hours) of the major.

To qualify for certification, students must complete an education minor, the professional education requirements, and the general education requirements as described in the **Teacher Education Requirements-High School** section of this catalog.

If a student chooses to focus on Physical Geography, it is strongly recommended that a minor be selected from biological sciences, chemistry, geology, mathematics, or physics. If a student chooses to focus on Human/Regional Geography, it is strongly recommended that a minor be selected from anthropology, economics, history, political science, or sociology.

MINOR IN GEOGRAPHY For Teacher Education

- 24 hours required.
- Required courses: GEO 100, 110, 135, 145, 150, 200; GEO 307 or HIS 290.

Geology Programs

Degrees Offered: B.A., B.S.

MAJOR IN GEOLOGY

- 37 hours in Geology required.
- Required courses: GEO 105, 107, 109, 280, 285, 290, 295, 395 or an equivalent accredited summer field course; MAT 110 or competence; PHY 108 and 109 (or 110 and 111); CHE 140 or equivalent, 141.
- Strongly recommended: BSC 194; MAT 145, 146 (needed to enter graduate programs in geology); GEO 385.

MINOR IN GEOLOGY

- 22 hours in Geology required.
- Required courses: GEO 105, 107, 109.
- Note on Geology Minor: Students wishing to minor in Geology are requested to inform the department of their intention and to discuss their program with a geology adviser.

Honors in Geography/Geology: The Department of Geography/Geology offers honors work to highly qualified students. Students interested in pursuing honors work may obtain further information by contacting the department chairperson.

Geography Courses

100 EARTH SCIENCE 3 US-3 F.S., Summer
A geographical perspective on the natural environment. Landforms, weather, climate, soils, vegetation.

110 WEATHER 3 US-3 F.S., Summer
An introduction to atmospheric science, leading to a better understanding of day-to-day weather and climate.

135 WORLD GEOGRAPHY 3 US-5 F.S., Summer
Regional studies of the peoples, languages, religions, economic activities and settlement patterns of the world.

145 MAPS AND MAP READING 3 F
Fundamental map concepts: scale, coordinates, symbolization, relief, directions. Major map and graph types for visual-spatial analysis and interpretation. Map history.

150 ECONOMIC GEOGRAPHY 3 US-5 F.S
Spatial distribution of a variety of activities related to production, exchange, and consumption of goods and services.

200 CLIMATE 2 S
GEO 110 rec.

Climatic classification, sources of climatic data, world climatic patterns, and climatic effects on natural vegetation and human activities.

201 PHYSICAL GEOGRAPHY 3
GEO 100 or 105 req. Field trips req.

Spatial analysis of selected topics involving the natural environment. Topographic maps and aerial photography used extensively.

205 CONSERVATION OF NATURAL RESOURCES 3 US-5 F.S

An examination of the human impact on the natural environment. Emphasizes soil, wildlife, forest, mineral and fuel, water and air conservation.

208 POLITICAL GEOGRAPHY 3 F
Introduction to the field of political geography. Emphasis on spatial patterns of political activity.

210 HISTORICAL GEOGRAPHY 2 S
Introduction to the field of historical geography with emphasis on analysis and reconstruction of past geographies.

215 UNITED STATES 3
Major regions of the United States in terms of contemporary physical, cultural, and natural resource patterns.

220 ILLINOIS 2
Field trips may be included.
Physical environment and patterns of human occupation.

225 CANADA 3
Natural regions, resources, economic activities, settlement patterns, interregional and international relations.

230 LATIN AMERICA 3 US-8
Regional analysis of the major political units; emphasis on physical, cultural, and economic characteristics.

240 EUROPE 3
Europe based upon regions. Present importance and possible future of each in the light of geographic conditions.

245 SOVIET UNION 3
Physical resource patterns and their significance to industrial, agricultural land use, general economic, and political development.

250 AFRICA 3 US-8
Regional study of Africa. Patterns of society as related to the natural environment.

255 ASIA 3 US-8
Countries, regions, and peoples of Asia. Selected regions, specific localities, and special problems.

260 AUSTRALIA AND THE PACIFIC 3
Patterns of the natural environment and man's historical, economic, and political development in Australia, New Zealand, Micronesia, Melanesia, and Polynesia.

265 OUR NATIONAL PARKS 3
Field trips may be included.
National Parks of the United States in terms of physiography, geology, climate, flora, fauna, and scenic qualities.

300 CARTOGRAPHY 3 F

Field trip and drafting supplies req. GEO 145 rec.
Theory and techniques regarding representation of statistical data, including compilation and preparation of various types of thematic maps.

302 COMPUTER CARTOGRAPHY 3 S
GEO 300 rec.

Application of the computer to contemporary cartography. Packaged software and student-generated programs are used to investigate various spatial problems.

**305 REMOTE SENSING
I: PHOTOGRAMMETRY 3**

Field trip req.
Basic principles of photogrammetry. Techniques and measurements in remote sensing.

**306 REGIONAL AND AREA
STUDIES 1-9**

Field work req.
Intensive on-site study of particular lands, environments, cultures, and peoples.

**307 METHODS OF TEACHING PHYSICAL
GEOGRAPHY 3 F**

Teaching maj only. Admission to Teacher Ed req. Undergraduate credit only. C&I 200 (6 hours) or 200.03 (grade of C or better) req or conc reg. 8 hours of physical geography or geology req. Inc Clin Exp.
Approaches to the teaching of physical geography and earth science in grades 6-12.

**308 QUANTITATIVE METHODS IN
GEOGRAPHY 3 F**

Use and interpretation of basic statistical techniques in geographical problems.

310 FIELD GEOGRAPHY 3 F

Field work req.
Techniques for the systematic acquisition and interpretation of geographic field data. Includes introduction to Orienteering.

**315 METHODS AND CONCEPTS IN
GEOGRAPHY 2 S**

Selected professional publications. Designed to acquaint the student with the development of basic concepts and methods in geography.

**320 RURAL LAND USE AND
AGRICULTURAL GEOGRAPHY 3**

GEO 150 rec.
Spatial aspects of agriculture: regionalization, distribution, and theories of location relating to crop and livestock production and other rural land uses.

**330 TRANSPORTATION
AND COMMUNICATION 3**

Geographic analysis of systems of spatial interaction including influence of transportation on industrial location and regional development.

336 URBAN GEOGRAPHY 3 F.S

Internal morphology, external relationships, and other spatial aspects of cities.

338 LIFE AND LANDSCAPE 3

GEO 135 rec. Field work required.
Cultural landscapes and folklife in North America and Western Europe.

340 PROBLEMS IN CLIMATOLOGY 3

GEO 200 req.
Investigation of specific problems in climatology.

**345 PROBLEMS IN CONSERVATION AND
OUTDOOR RECREATION 3**

GEO 205 req.
Investigation of specific problems in conservation and resource use including outdoor recreational resources.

350 URBAN PHYSICAL ENVIRONMENTS 3

GEO 201 req.; GEO 370 rec. Field trips req.
Examination of urbanization-caused changes in various physical systems.

**355 REMOTE SENSING II:
IMAGE INTERPRETATION
AND ANALYSIS 3**

GEO 305 req. Field trip req.
Investigation of major spectral bands employed in remote sensing technology. Applications to subfields are studied through manual and digital image analysis.

**370 URBAN AND REGIONAL
PLANNING 3 S**

Formerly GEO 270.
Introduction to the planning process and the major elements used in plan implementation such as zoning regulations, subdivision regulations, and the official map. Field research may be required.

**398.01 PROFESSIONAL PRACTICE:
INTERNSHIP IN
GEOGRAPHY 1-16 F.S.Summer**

75 hrs, 2.2 GPA and cons dept chair. Max 4 hrs credit toward Geography maj. 40 hrs of practice per credit hr. Advance arrangements req.

Planned, supervised professional experience in a public or private organization. The experience provides an introduction to a career in geography.

**398.51 PROFESSIONAL PRACTICE:
COOP IN GEOGRAPHY 1-16F.S.Summer**

45 hrs, 2.2 GPA and cons dept chair. Max 4 hrs credit toward Geography maj. 120 hrs of coop per credit hr. Advance arrangements req.

Planned, supervised, paid professional experience in a public or private organization. The experience provides an introduction to a career in geography.

Geology Courses

**105 INTRODUCTION TO
GEOLOGY I 3 US-3 F.S**

Formerly GEO 175.
Origin and types of earth materials; internal and external earth processes and development of landscapes. Equivalent to physical geology.

**107 INTRODUCTION TO
GEOLOGY II 3 US-3 F.S**

GEO 105 or cons inst req. Formerly GEO 180. Field trip req.

Origin and evolution of the earth as interpreted from rock sequences, fossils, and geologic maps; emphasis on geologic principles.

**109 INTRODUCTORY GEOLOGY
LABORATORY 2 F.S**

GEO 105 req. GEO 107 or conc reg.
Mineral and rock identification, topographic maps and surface features, geologic maps, fossils, geologic interpretations, geologic provinces of North America.

195 INTRODUCTION TO OCEANOGRAPHY 3 US-3 S

Also offered as BSC 195.

General principles of biology, chemistry, geology, and physics as applied to a study of the world's oceans.

275 LIFE OF THE GEOLOGIC PAST 3 US-3 F.S

Not for credit maj.

Origin, classification and evolution of life from early forms to modern types as revealed by the fossil record.

276 ENVIRONMENTAL GEOLOGY 3 S

Recognition of geologic hazards such as earthquakes and floods. Evaluation of geologic resources and the legal and geologic limitation of resource utilization.

278 GEOLOGIC TECHNIQUES 3 F.S

GEO 105, 107 req.

Methods, materials, and equipment used in analysis, interpretation, and mapping of earth materials, physical environments, and geologic structures.

280 MINERALOGY 4 F

GEO 105 and CHE 140 req. Lecture and laboratory.

Crystallography, internal structure, chemistry, recognition and occurrence of minerals.

285 IGNEOUS AND METAMORPHIC PETROLOGY 4 S

GEO 280 req. Lecture and laboratory. Field trip req.

Description, classification and origin of igneous, sedimentary, and metamorphic rocks.

290 STRUCTURAL GEOLOGY 4 F

GEO 107 req. MAT 110 rec. Lecture and laboratory. Field trip req.

Mechanics and processes of deformation of the earth's crust and the resulting structures.

295 SEDIMENTOLOGY 3 F

GEO 107 req. Lecture and laboratory. Field trip req.

Origin, transportation, deposition, and diagenesis of sedimentary materials with emphasis on classification of sedimentary rocks.

296 STRATIGRAPHY 3 S

GEO 107 req. GEO 295 rec. Lecture and laboratory. Field trip req.

Distribution, correlation and analysis of stratified rocks.

360 GROUNDWATER GEOLOGY 3

GEO 105 req. Field trips req.

Groundwater occurrence and movement, aquifer evaluation, field and lab measurements, contamination and other applications.

362 ENGINEERING GEOLOGY 3

GEO 105 req. Field trips req. PHY 108, 109 rec.

Engineering applications of geology, construction problems of geologic origin and their engineering solutions.

364 GEOPHYSICS 3 S

GEO 105, MAT 110, PHY 108 and 109 req. GEO 285, 290 rec.

Principles of geophysics and systems of measurement which are tools of exploration for geologic resources. Gravity, magnetics, seismic, electrical, well logging and geothermics.

375 ECONOMIC GEOLOGY OF FOSSIL FUELS 3 F

GEO 107 req.

Methods of exploration; origin, composition, accumulation, and production of petroleum; composition, classification, and production of coal; world fuel resources.

377 GEOLOGY OF ORE DEPOSITS 3 S

GEO 280 req.; GEO 290 rec.

Theory of processes of ore formation, controlling factors of ore localization, with case studies.

380 GEOMORPHOLOGY 3 S

GEO 100 or 105 req. Field trips req.

Origin, classification, description and interpretation of landforms.

382 GLACIAL AND QUATERNARY GEOLOGY 3 F

GEO 100 or 105 req. Field trips req.

Development of glaciers, glacial movements, deposits, and land forms as background for discussion of present landscapes.

384 REGIONAL GEOLOGY OF THE UNITED STATES 3 F

GEO 107 req.

A systematic study of the stratigraphy, structural geology, and geomorphology of the United States based on natural geologic regions.

385 INVERTEBRATE PALEONTOLOGY 4 S

GEO 107 req. BSC 194 rec. Lecture and laboratory. Field trip req.

Examination and analysis of major fossil invertebrate phyla; emphasis on groups with paleoecologic and stratigraphic significance.

386 MICROPALAEONTOLOGY 4 F

GEO 385 rec.

Study of calcareous, siliceous and phosphatic micro-fossil groups with emphasis on their structure, classification, ecologic/paleoecologic and time-stratigraphic utility.

390 OPTICAL MINERALOGY 4 F

GEO 280 req. Lecture and laboratory.

Optical theory and techniques in the use of the petrographic microscope, optical identification of minerals using oil immersion and thin-section methods.

392 GENERAL PETROGRAPHY 4 S

GEO 285, 390 req. Lecture and laboratory.

Petrographic study of mineralogy, textures, mineral paragenesis and classification of igneous, sedimentary, and metamorphic rocks in thin-section.

395 FIELD GEOLOGY 6 Summer Only

GEO 280, 285, 290, 295 req.

Application of geologic principles to field mapping and interpretation in the Black Hills and Central Rocky Mountains.

HISTORY (HIS)

334 Schroeder Hall. (309) 438-5641

Chairperson: William W. Haddad.

Faculty: Professors: Austensen, Champagne, Ekberg, Freed, Grabill, Gray, Haddad, Holsinger, Homan, D.MacDonald, Plummer, Rayfield, Reitan, Schapsmeier, Simms, Walker. Associate Professors: Cohen, Davis, Holt, Sessions, Wray, Wyman. Assistant Professors: Drompp, Malone, Risso, Shaw, Westbury. Instructors: Harmon, S. MacDonald.

History Programs

Degrees Offered: B.A., B.S.

MAJOR IN HISTORY

- 33 hours in History required.
- Required courses: a minimum of 21 hours at the upper division level, including 2 courses at the 300-level; 3 hours each in United States, European, and non-Western History. Non-Western courses include HIS 125, 126, 127, 254, 261, 263, 271, 272, 275, 276, 351, 373, 375, 377, 378.

MAJOR IN HISTORY**Teacher Certification Requirements**

- 33 hours in History required. Part of entitlement program leading to certification: secondary 6-12.
- Required courses: A minimum of 21 hours at the upper-division level, including two courses at the 300-level. Distribution requirements are 9 hours of United States History, 9 hours of World History (3 of which must be non-Western; see listing under Major in History), and History 290 and 390.
- 8 additional hours must be taken from one of the following areas: ECO, GEO, POS, SAS.

MAJOR IN SOCIAL SCIENCES

The Department of History administers the Social Sciences majors by providing advisement, teacher education specialists for those interested in that option, and club activities. For specific information about the programs see Social Sciences Programs.

MINOR IN HISTORY

- 21 hours in History required.
- Required courses: 12 hours at the upper-division level; 3 hours each in United States, European, and non-Western History (see listing under Major in History for non-Western courses).

MINOR IN HISTORY**For Teacher Education**

- Requirements are the same as for History minor: HIS 290 recommended.
- Requirements for teacher certification in another major field must be met.

Honors in History: The department offers honors work in History to highly qualified juniors and seniors who will pursue an individualized program of study. The honors program enables the superior student to reinforce guided private study on historical topics of the student's own choosing with seminar-style research. Students interested in participating in the department's honors program may secure further information by contacting the chairperson of the Department of History. The department also offers in-course honors work in all its courses for students enrolled in the University Honors program or in any departmental honors program. In-course honors work is offered at the discretion of the instructor.

History Courses**121 HISTORY OF WESTERN CIVILIZATION TO 1300 3 US-2 F.S**

Primitive man; the ancient cultures; the civilizations of Greece and Rome; the Middle Ages.

123 EARLY MODERN EUROPE 3 US-2 F.S

Survey of the development of modern European civilization, from the period of its formation through the French Revolution and Napoleonic Era.

124 MODERN EUROPE 3 US-2 F.S

Formerly MODERN EUROPE SINCE 1789.

A survey of modern European developments from the Congress of Vienna to the present.

125 HISTORY OF ASIAN CIVILIZATIONS 3 US-8 F.S

An introduction to the major traditions of India, Southeast Asia, China and Japan; emphasis on continuity and change in modern Asia.

126 HISTORY OF THE MIDDLE EAST AND AFRICA 3 US-8 F.S

A political, cultural, social, and economic study, with an emphasis on ancient cultures and the emergence of nation-states.

127 HISTORY OF LATIN AMERICA 3 US-8 F.S

Formerly HIS 261 and 262.

Cultural, economic, political and social survey of Latin America from pre-Columbian to present times.

135 HISTORY OF THE UNITED STATES TO 1865 3 US-2 F.S

Not for credit if had HIS 137.

Political, economic, social, and cultural developments from the colonial period to the Civil War.

136 HISTORY OF THE UNITED STATES SINCE 1865 3 US-2 F.S

Not for credit if had HIS 137.

Agrarian and industrial revolutions, development of American institutions, and America as a world power.

137 THE AMERICAN EXPERIENCE 3 US-2 F.S

Not for credit if had HIS 135 or 136. Not rec maj/min.

A one-semester course in American History emphasizing a theme of special interest. The theme may vary with each semester or instructor.

220 ANCIENT HISTORY: GREECE 3 US-2 F

Political and cultural evolution of the Greek World from preclassical times to the Hellenistic Age.

221 ANCIENT HISTORY: ROME 3 US-2 S

The Roman republic and empire with emphasis on the constitutional evolution of Rome.

222 THE MIDDLE AGES I: 395-1100 3 F

Study of the disintegration of ancient civilization and the gradual emergence of three successor civilizations: Byzantium, the Muslim World, and Western Europe.

223 THE MIDDLE AGES II: 1100-1500 3 S

An examination of the climax and decline of medieval civilization.

224 THE RENAISSANCE: EUROPE: 1300-1500 3 F

Political, economic, social, intellectual, cultural transition to early modern Europe; spread of Renaissance from origins in Italy; exploration and discovery.

225 THE REFORMATION: EUROPE: 1500-1600 3 S

Protestant and Catholic reformations in the setting of 16th century politics, economics, society; intellectual and cultural currents; European expansion.

228 EUROPE IN THE NINETEENTH CENTURY: 1815-1914 3 US-2 F

Liberalism, nationalism, democracy, militarism, imperialism, and the forces that led to World War I.

229 EUROPE IN THE TWENTIETH CENTURY 3**F.S**

The origins of the World Wars, Marxism-Leninism, Nazi and Soviet totalitarianism, and the role of Europe in the Cold War.

230 THE CONTEMPORARY WORLD 3**F**

The major economic, social, political, and cultural changes since 1945. The Cold War, the revolution in expectations and the emerging concern over depletion of resources and environmental imbalances.

231 CONSTITUTIONAL AND LEGAL HISTORY OF ENGLAND TO 1688 3**F**

Essential English background to American government and law; the constitutional and legal development of England is placed in its political, social, religious, and intellectual context.

232 ENGLISH HISTORY SINCE 1688 3**S**

English history from the Glorious Revolution of 1688-89 to the present; political, social, and cultural history are emphasized.

233 HISTORY OF RUSSIA I: TO 1725 3**F**

Russian history from earliest times to the 18th century, including political, social, economic, and intellectual developments.

234 HISTORY OF RUSSIA II: SINCE 1725 3**S**

Russian political, social, economic, and intellectual developments; the Russian Revolution; Russia in the 20th century.

235 FRENCH HISTORY TO THE REVOLUTION 3 US-2**F**

French history from the Middle Ages to the French Revolution with emphasis upon French culture, including social, intellectual and artistic movements.

236 MODERN FRANCE 3**S**

Survey of the major political, economic, and cultural developments in France from the Napoleonic era to the present.

237 MODERN GERMANY: 1848-PRESENT 3**F**

A survey of German social, political, diplomatic, and intellectual history in the 19th and 20th centuries.

239 EUROPEAN ECONOMIC HISTORY 3**S**

Emphasis on institutions and economic activity over time, from land tenure to trade, in changing political and technological environments.

241 COLONIAL LIFE AND INSTITUTIONS 3**F**

Transfer of European ideas, institutions, and customs to America, and their subsequent development on American soil.

243 THE EARLY NATIONAL PERIOD: 1787-1815 3**F.S**

Emphasis upon the establishment of a national government; the principles and influence of early federalism and of Jeffersonian democracy.

244 THE AGE OF JACKSON: 1815-1848 3**S**

The awakening of American nationalism as typified by the economic, political, social and cultural changes of the Jacksonian period.

246 CIVIL WAR AND RECONSTRUCTION: 1848-1877 3**F**

Causes and process of secession; problems of the Lincoln and Davis administrations, conduct of the war, and the problems of reconstruction.

247 THE GILDED AGE IN AMERICA: 1877-1900 3**F**

Industrialization and responses to industrialism in America; special attention given to business and political leaders, farmers, Afro-Americans, and writers.

248 UNITED STATES IN THE TWENTIETH CENTURY I 3**F.S**

An examination of significant aspects of American history from the Populist era to the Great Depression of 1932.

249 UNITED STATES IN THE TWENTIETH CENTURY II 3**F.S**

An examination of significant aspects of American history from the 1930's to contemporary times.

250 HISTORY OF WOMEN IN AMERICA 3 US-2**F.S**

The role of women in the economic, social, political, and cultural history of America from the colonial period to the present.

251 HISTORY OF AMERICAN DIPLOMACY I: TO 1898 3**F**

The history of the foreign relations of the United States from the revolution to 1898.

252 HISTORY OF AMERICAN DIPLOMACY II: SINCE 1898 3**S**

The history of the foreign relations of the United States since 1898.

253 AMERICAN CONSTITUTIONAL HISTORY 3**F**

The history of American constitutional and legal developments from the colonial period to the present.

254 CHICANO HISTORY 3**S**

Survey of the Mexican-American role in and contribution to the development of the United States since 1848.

255 HISTORY OF THE AMERICAN FRONTIER 3**F.S**

Westward movement and the influence of the frontier on American life and institutions.

256 AMERICAN BUSINESS HISTORY 3**F**

Industrialization of America; the problems of agriculture, monopoly, and labor; the role of government in regulating and guiding economic activity.

257 AFRO-AMERICAN HISTORY I 3**F**

The history of Black Americans from Colonial times to the Civil War.

258 AFRO-AMERICAN HISTORY II 3**S**

The history of Black Americans from the Reconstruction period to the present.

259 HISTORY OF ILLINOIS 3**S**

A survey of the history of Illinois from the time of the French explorers to the present.

260 HISTORY OF CANADA 3**S**

Formerly HISTORY OF CANADA SINCE 1763.

A survey of the history of Canada from the settlement of the French colonists in the 17th century to the present.

263 MODERN MEXICO 3 US-8 F

Survey of Mexican history from the mid-eighteenth century.

271 ISLAMIC CIVILIZATION 3 US-8 F

Formerly *HISTORY OF THE MIDDLE EAST I: TO 1800*.

Political, social, economic survey of the Middle East from the 19th century to the present, emphasizing origins and achievements of the Islamic age.

272 MODERN MIDDLE EAST 3 S

Formerly *HISTORY OF THE MIDDLE EAST II: SINCE 1800*.

Political, social, and economic survey of the Middle East from the 19th century to the present, emphasizing the rise of the modern nation-states.

273 THE IMMIGRANT IN AMERICAN HISTORY 3

Examination of the changing role of immigration in American social, economic, and political history.

274 HISTORY OF MODERN MEDICINE 3 F

A survey of the rise of modern medicine from 1500 to the present.

275 HISTORY OF JAPANESE CIVILIZATION 3 US-8 F

Topical and chronological examination of Japanese religions, philosophies, art, music, literature, societal values and behavior.

276 HISTORY OF CHINESE CIVILIZATION 3 S

Topical and chronological examination of Chinese religions, art, music, literature, societal values and behavior.

278 UNITED STATES MILITARY HISTORY 3 F

U.S. military history in a global context from the colonial period to the present.

279 WORLD WAR II 3 S

A general survey of World War II including military, diplomatic, and cultural concerns, with the United States receiving primary attention.

290 SOCIAL STUDIES TEACHING METHODOLOGY I 3

C&I 200 (4 hrs.) or 200.01 & 200.02 (4 hrs. grade of C or better req.) or 216 (4 hrs.) or conc reg. Exceptions may be made by cons inst. Required for HIS/SOC SCI maj in teacher education programs. Incl Clin Exp.

Special methods and pre-student teaching clinical experiences for History-Social Science teacher education students. Includes observation and participation in classroom settings. Must be completed prior to student teaching.

292 CAREERS FOR HISTORY AND SOCIAL SCIENCES MAJORS 1

Acquaints students with career opportunities and relates History and Social Sciences skills learned to those needed in various career situations. Includes instruction in job placement skills.

294 HONORS THESIS 3 F.S

Honors students or cons inst. Formerly HIS 298.

Directed by a faculty member competent in the thesis field. The History Department shall approve the topic before registration.

296 HISTORIOGRAPHY AND HISTORICAL METHOD 3 F

Explores the character and discipline of history through the study of representative historians.

306 REGIONAL AND AREA STUDIES 1-9

Cons inst. Usually given cooperatively with other depts.

Intensive study of particular lands, environments, cultures, and peoples.

311 AGE OF THE AMERICAN REVOLUTION 3

The emergence of the United States as an independent nation from 1763 to the Constitutional Convention in 1787.

315 SLAVERY AND THE OLD SOUTH 3 S

Historiography of slavery and the pre-Civil War South.

320 LINCOLN: THE MAN AND HIS TIMES 3

Attention directed especially toward the work of Lincoln in Illinois, his leadership during the Civil War, and his relationships with people and events of his time.

321 GREAT FIGURES OF AMERICAN HISTORY 3

Personalities selected from American history with emphasis on the contributions and lasting influence of significant individuals.

322 AMERICAN URBAN HISTORY 3

Survey of the history of the American city from 1820 to the present.

323 AMERICAN CULTURAL AND INTELLECTUAL HISTORY I 3

American progress in the fine arts, philosophy, literature and science from Puritan times to 1860.

324 AMERICAN CULTURAL AND INTELLECTUAL HISTORY II 3

The impact of naturalism, industrialization, secularization, and urbanization upon American culture since 1860.

325 PROBLEMS IN TWENTIETH CENTURY UNITED STATES CONSTITUTIONAL HISTORY 3

An examination of major problems in American constitutional history since the Progressive Era; civil rights, freedom of speech and religion, federal-state relations.

327 AMERICAN LABOR HISTORY 3

The Industrial Revolution's impact upon workers, with emphasis on the responses through unions and politics, and on the role of government.

330 THE FAMILY IN HISTORY 3 F

History of the family in Europe and America, viewing the changes from idealist, economic determinist, family systems, and psychoanalytic perspectives.

341 EUROPEAN INTELLECTUAL HISTORY TO 1600 3

The study of the ideas of the ancient world, Middle Ages, Renaissance, Reformation, examined in a social, political and economic context.

342 EUROPEAN INTELLECTUAL HISTORY SINCE 1600 3

A study of the ideas of the scientific revolution, enlightenment, 19th century and 20th century, examined in a social, political and economic context.

343 MODERN EUROPEAN DIPLOMATIC HISTORY I: 1789-1890 3

The diplomatic history of Europe from the French Revolution to the fall of Bismarck.

**344 MODERN EUROPEAN
DIPLOMATIC HISTORY II:
1890 TO PRESENT 3**

The diplomatic history of Europe from the fall of Bismarck in 1890 to the present.

**345 FRENCH REVOLUTION
AND NAPOLEON:
1789-1815 3**

Society, culture and government under the monarchy; destruction of the old order; rise and fall of Napoleonic France.

351 ANCIENT NEAR EAST 3

Study of the civilizations of Mesopotamia and Egypt from the neolithic period to 500 B.C.

356 THE ENLIGHTENMENT 3 F,S

Intellectual and social history of the western world during the eighteenth century.

361 EIGHTEENTH-CENTURY BRITAIN:

1689-1815 3

Britain from the Revolution of 1688-89 through the early Industrial Revolution and Napoleonic wars.

**362 MODERN BRITAIN: 1815
TO THE PRESENT 3**

A general survey of British history in the 19th and 20th centuries.

365 NAZI GERMANY: 1933-45 3

Reading, discussion and research in the major books and articles in the field.

**366 SOVIET RUSSIA: 1917 TO
THE PRESENT 3**

An evaluation of the origins and rise of Bolshevik power, concentrating on economic, cultural and social developments.

**373 HISTORY OF
MODERN CHINA 3**

Concentrates on the Western and Chinese collision since the 1800's and the responses of traditional, national and contemporary China to modernization.

**375 HISTORY OF
MODERN JAPAN 3**

Concentrates on Japan's modernization, goals of Meiji leaders, contradictory tendencies of pre-war Japan, and contemporary Japan.

**377 HISTORY OF THE
ARAB-ISRAELI CONFLICT 3 F,S**

Historical analysis of the conflict between Arabs and Israelis emphasizing the roles of religion, nationalism, superpowers, and war in the conflict.

378 ISLAM 3 F

In-depth study of Islam, focusing on ideas rather than events. Topics include law, mysticism, art, and resurgent Islam.

**390 SOCIAL STUDIES TEACHING
METHODOLOGY II 3**

HIS 290 and C&I 200 (6 hrs.) or 200.03 (2 hrs. Grade of C or better req.) or conc reg. Incl Clin Exp. Adm. to Teacher Ed. req.

Examination of social studies project materials, use of instructional models, and clinical experiences. Must be completed prior to student teaching.

395 ARCHIVES AND MANUSCRIPTS 3 F

Nature, acquisition, processing and use of archives and manuscripts. Emphasis on theory and principles with practical exercises.

**398 PROFESSIONAL PRACTICE:
INTERNSHIP IN HISTORY 1-16 F,S**
75 hrs; 2.6 GPA in HIS courses; completion of all application procedures; cons HIS prof prac coord. Max 6 hrs toward HIS major.

Planned, supervised experience in a professional capacity in archives, business, government, historical archaeology, historical preservation, historical editing and publishing, historical societies, museums, or other application of history.

MATHEMATICS (MAT)

313 Stevenson Hall, (309) 438-8781

Acting Chairperson: John Dossey.

Faculty: Professors: Berk, Dossey, Friedberg, O'Daffer, Otto, Retzer, Ritt, Thornton, C. Vanden Eynden. Associate Professors: L. Brown, Charles, Edge, Ha, Hathway, Insel, Morris, Sennott, Shilgalis, Spence, A. Thompson, P. Thompson, Tucker. Assistant Professors: Banks, Gilmore, Hershberger, Jacobs, Parr, Plantholt, Tipnis, Wilmot. Lecturers: Barnes, Baumgardner, Bennett, Benson, Bye, Carr, Copley, Dudley, Duvvuri, Georg, Hayden, Hill, Hirschel, Munds, Parsons, Pidzarko, Price, Rich, J. Vanden Eynden, Wells, Young.

Mathematics Programs

Degrees Offered: B.A., B.S.

Career Information: Career needs in a wide variety of vocations are met by the diverse course offerings in the Mathematics Department. These include vocations in secondary teaching, business management, and actuarial science; vocations that involve research or applications of mathematics in business, government, and industry; and vocations involving research or applications of mathematics in the physical and social sciences. The needs of those preparing for continued study and research in mathematics are met also by the departmental offerings. The undergraduate degree programs are designed to be sufficiently flexible to meet career aspirations, to allow for individual exploration in various areas of interest, and also to permit suitable breadth for a liberal education.

Students are urged to consult with the mathematics undergraduate director or mathematics faculty in planning their programs. Information on careers in mathematics can be secured from the mathematics undergraduate director in Stevenson 303A and from the Mathematics Career Center in Stevenson 330.

Students interested in meeting the requirements for certification to teach secondary school mathematics must consult with a mathematics education adviser to design a special program of studies.

Students preparing for a specific career are advised to include courses from one of the following lists. The courses with an **asterisk** should be among those selected. Those wishing a major or minor in Mathematics should select additional courses from the list as well. (Note that some courses in the following lists may not count toward major or minor requirements.):

Actuarial Science: 164, 340, 345, 350*, 351*, 352*, 356*, 362*, 368, 370*, 378, 385*, 386*.

Business Management: 164, 260, 317, 340, 350*, 351*, 352, 356, 360, 361, 362*, 363, 368*, 370, 378.

Secondary Teaching: 210, 211*, 216*, 260, 310, 314, 316, 320, 321, 323*, 324*, 326, 347, 350, 361, 362, 378.

Business, Government, and Industry: 164*, 260, 317, 340*, 341, 345, 349, 350*, 351*, 352, 356*, 360, 361, 362, 363, 368, 370, 378.

Applications or Research in Physical Sciences: 164, 216, 314.03, 316, 317, 340*, 341*, 345*, 349*, 350, 370, 378.

Applications or Research in Social Sciences: 164, 260, 317, 340, 350*, 351*, 356*, 360, 361, 362, 363, 368, 378.

Graduate Study and Research in Mathematics: 164, 210, 216*, 310, 314, 316*, 317*, 319, 340, 341, 345, 347*, 349*, 350, 351, 360, 368, 370, 378.

Notes on Mathematics Programs: The following courses may not be used to satisfy requirements for a major, comprehensive major, or minor: MAT 103, 105, 106, 107, 108, 109, 120, 121, 151, 152, 201, 202, 203, 204, 205, 298, 298.50, 301, 302, 303, 304, 305, 306, 307, 308, 309, 385.

Students who have taken calculus in high school may request to take a Calculus Proficiency Test. If proficiency credit is granted, students may begin their mathematics courses with MAT 146 or a higher level course. To ensure proper placement, transfer students should consult with an adviser prior to registration for classes. A maximum of four semester hours will be given toward a major or minor for acceptable precalculus courses based upon advanced placement or transfer.

COMPREHENSIVE MATHEMATICS MAJOR

- 52 hours in Mathematics required.
- Required courses: MAT 145, 146, 147, 175, 317.
- One computer programming course from MAT 164, ACS 164, 166 or 168. Note: Hours taken in ACS do not count toward the required 36 hours in MAT.
- At least 18 semester hours chosen from MAT 210, 211, 216, 260, 310, 314, 316, 319, 340, 341, 345, 347, 349, 350, 351, 360, 361, 362, 363, 366, 368, 370, 378.
- As many as 10 hours chosen from courses outside of MAT that require calculus as a prerequisite may be substituted for elective hours in MAT.

COMPREHENSIVE MATHEMATICS MAJOR

Teacher Certification Requirements

- MAT 211, 216, and 323 are required. The requirements for the Comprehensive Mathematics Major must be met. This major is part of the entitlement program leading to certification for secondary grades 6-12. (Note: MAT 211, 216, and C&I 200.03 or the equivalent are prerequisites for MAT 323. MAT 323 must be completed before the student teaching experience.)
- Students are encouraged to take electives from the list of Secondary Teaching courses above.
- Interested students should consult their adviser about opportunities for tutoring secondary school students, serving as a teaching assistant, or other relevant voluntary clinical experiences.

MAJOR IN MATHEMATICS

- 36 hours in Mathematics required.
- Required courses: MAT 145, 146, 147, 175.
- One computer programming course from MAT 164, ACS 164, 166, or 168. Note: Hours taken in ACS do not count toward the required 36 hours in MAT.
- At least 12 semester hours must be chosen from MAT 210, 211, 216, 260, 310, 314, 316, 317, 319, 340, 341, 345, 347, 349, 350, 351, 360, 361, 362, 363, 366, 368, 370, 378.
- At least 18 of the 36 hours must be at the 200 level or above.

MAJOR IN MATHEMATICS

Teacher Certification Requirements

- MAT 211, 216, and 323 are required. The requirements for the major in Mathematics must be met. This major is part of the entitlement program leading to certification for secondary grades 6-12. (Note: MAT 211, 216, and C&I 200.03 or the equivalent are prerequisites for MAT 323. MAT 323 must be completed before the student teaching experience.)
- Students are encouraged to take electives from the list of Secondary Teaching courses above.
- Interested students should consult their adviser about opportunities for tutoring secondary school students, serving as a teaching assistant, or other relevant voluntary clinical experiences.

MINOR IN MATHEMATICS

- 24 hours in Mathematics required.
- Required courses: MAT 145, 146, 147, 175.
- At least 8 semester hours chosen from MAT 216, 260, 310, 314, 316, 317, 319, 340, 341, 345, 347, 349, 350, 351, 360, 361, 362, 363, 366, 368, 370, 378.

MINOR IN MATHEMATICS

For Teacher Education

- 24 hours in Mathematics required.
- Required courses: MAT 145, 146, 147, 175, 211, 216, and 323. (Note: MAT 211, 216 and C&I 200.03 or the equivalent are prerequisites for MAT 323.)
- Students are encouraged to take electives from the list of Secondary Teaching courses above.

Honors in Mathematics: The department offers an honors program for majors emphasizing a broad liberal arts program with requirements in mathematics and University Studies. Students interested in participating in the departmental honors program may secure further information by contacting the director of Mathematics Honors Program. The department also offers in-course honors for students enrolled in the University Honors Program.

COOP/Internship in Mathematics: The department offers a cooperative education/internship program for undergraduate mathematics majors which provides for practical work experience in business, government, or industry. Students interested in participating in the program may secure further information by contacting the Mathematics Cooperative Education/Internship Coordinator.

Concentration in Quantitative Economics: This program is available to students under the General Studies Program. Courses in this program should include ECO 100, 101, 131, 330, 331, 333, 340, and 341; MAT 145, 146, 147, 175, 350, and 351. Interested students may contact the department chairperson in either Mathematics or Economics.

Mathematics Courses

- The minimum prerequisite for all mathematics courses is successful completion of first year high school algebra through quadratic equations.
- A year of high school geometry and a second year of high school algebra are highly recommended for anyone who wants to take mathematics courses.
- A grade of C or better is highly recommended in any course listed as a prerequisite to a course that a student intends to take. Students who fail to get at least a C in a prerequisite course are strongly encouraged to repeat the course prior to enrolling in the subsequent course.

— Students may not enroll in a course which is prerequisite to a course that has been completed with a grade of C or better.

- 105 ELEMENTARY APPLICATIONS OF MATHEMATICS 3 US-4 F.S**
 1 yr. HS Algebra req. 1 yr HS Geometry rec. Not for cr maj/min or if had MAT 120. Not intended as preparation for any other math course. Hand calculator req. Formerly APPLICATIONS OF ELEMENTARY MATHEMATICS.

Problems in physical, biological and social sciences, business, politics, games and other fields solved by algebra, geometry, linear programming, probability, etc.

- 106 WORLD OF MATHEMATICS 3 US-4F.S**
 1 yr HS Algebra req. 1 yr HS Geometry rec. Not for cr maj/min. Not intended as preparation for any other math course.

Survey of topics from contemporary mathematics such as: sets, games, number theory, geometry, logic, puzzles, infinity, networks, codes, computers, and their applications to other disciplines.

- 107 INTERMEDIATE ALGEBRA 3 F.S**
 1 yr HS algebra req. 1 yr HS Geometry rec. Not for cr maj/min or if had MAT 109. 3 hr lecture and testing-tutorial sections required.

Intermediate course between one year of high school algebra and college algebra.

- 108 TRIGONOMETRY 2 F.S**
 Competency test (MAT 107 content), 1 yr HS Geometry req. Not for cr maj/min or if had MAT 109. Hand calculator required.

- 109 MATHEMATICS FOR TECHNOLOGISTS 5 F.S**
 Competency test (HS Algebra I content), 1 yr. HS Geometry req. Not for cr maj/min or if had MAT 107 or 108. Hand calculator req.

Intermediate algebra and basic trigonometry with application in the technology fields.

- 110 COLLEGE ALGEBRA WITH TRIGONOMETRY 4 F.S**
 Competency test (MAT 107 and 108, or 109 content) req. Designed especially to prepare for MAT 145. Hand calculator req.

Factorization theory; polynomial, radical, trig, exponential, and log equations; linear, polynomial and rational inequalities; graphing polynomial, rational, trig, exponential, and log functions; properties of trig and inverse trig functions.

- 120 FINITE MATHEMATICS FOR BUSINESS AND SOCIAL SCIENCES 4 US-4 F.S**
 Competency test (MAT 107 content) req. Not for cr maj/min. Hand calculator required.

Linear functions, matrices, systems of linear equations, linear programming, probability, statistics, and difference equations with applications.

- 121 INTRODUCTION TO CALCULUS FOR BUSINESS AND SOCIAL SCIENCES 4 US-4 F.S**
 MAT 120 and Competency test (MAT 107 content) req. Not for cr maj/min. Hand calculator required.

Non-linear functions, intuitive differential and integral calculus, applications.

- 145 CALCULUS I 4 US-4 F.S**
 Competency test (MAT 110 content) req. Formerly MAT 115.

Differentiation with associated applications. Curve sketching. Introduction to integration with applications.

- 146 CALCULUS II 4 US-4 F.S**
 MAT 145 req with grade of C or better rec. Formerly MAT 116.

Calculus of the transcendental functions. Conic sections. Techniques of integration, polar coordinates, L'Hospital's rule, improper integrals, applications.

- 147 CALCULUS III 4 F.S**
 MAT 146 req with grade of C or better rec. Formerly MAT 117.

Parametric equations in the plane with applications. Vector curves and surfaces in space. Partial derivatives, gradients, directional derivatives, and tangent planes. Multiple integration and line integrals. Infinite series and Taylor's Theorem.

- 151 STRUCTURE OF NUMBER SYSTEMS I 3 US-4 F.S**
 Basic skills competency req. 1 yr HS Geometry rec. Not for cr maj/min. Materials charge optional.

Properties of whole numbers and rational numbers; algorithms for the four basic operations. Elementary set theory, number theory, problem solving and use of calculators.

- 152 STRUCTURE OF NUMBER SYSTEMS II 3 S**
 MAT 151 or 3 yrs HS MAT including geometry req. Not for cr maj/min.

Continuation of MAT 151. Concepts and structure of real numbers. Number theory, probability, statistics, geometry, measurement, and topology.

- 164 FORTRAN PROGRAMMING 3 US-4F.S**
 Grade of C or better in MAT 107 or HS equiv req. Also offered as ACS 164.

An introduction to programming using the FORTRAN language including built-in functions, subprograms, and sequential and direct access file processing.

- 175 LINEAR ALGEBRA 4 F.S**
 MAT 146 req., MAT 147 and C or better in previous calculus courses rec.

Vector geometry, matrices, systems of linear equations, vector spaces, linear transformations, eigenvalues and eigenvectors, applications to the physical and social sciences.

- 201 MATHEMATICS FOR THE ELEMENTARY SCHOOL CHILD 3 F.S**
 MAT 151 or 152 or 202 req. Not for cr maj/min or if had C&I 252. Incl Clin Exp. Materials charge optional.

Background for meaningful teaching of number, numeration, basic facts, algorithms, and geometric concepts. Special emphasis on planning instruction for children with special learning needs.

- 202 MATHEMATICS FOR THE JUNIOR HIGH SCHOOL 3 S**
 Not for cr maj/min, or if had MAT 151 or 152. Materials charge optional.

Background for teaching of mathematical topics in the junior high school curriculum. Includes analysis of computational techniques for whole and rational numbers, number theory, measurement, geometry, probability, and statistics.

- 203 MATHEMATICS FOR EARLY CHILDHOOD 3 F**
 MAT 151 or 152 or 202 req. Not for cr maj/min or if had C&I 262. Materials charge optional.

Study of appropriate mathematical experiences for young children including prenumber work, number and numeration, measurement, geometry, whole number operations, and problem solving.

204 GEOMETRY FOR ELEMENTARY TEACHERS 3**F,S**

MAT 151 or 152 or 202 or 3 yrs. HS math including geometry req. Not for cr maj/min. Materials charge optional.

Geometry relevant to grades K-8. Logic, incidence, separation, congruence, parallelism, similarity, coordinate systems, measurement, and constructions.

205 MODERN ALGEBRA FOR ELEMENTARY TEACHERS 3**F,S**

MAT 151 or 152 or 202 or 3 yrs. HS math including geometry req. Not for cr maj/min. Materials charge optional.

Algebraic concepts and structures relevant to grades K-8. Structure of familiar number systems compared to and contrasted with other mathematical systems.

210 SYMBOLIC LOGIC I 3 US-4**F,S**

1 yr. HS Algebra, 1 yr HS Geometry req. Also offered as PHI 210.

Introduction to proof theory. Formal deductive systems, especially propositional logic and predicate logic. Properties of deductive systems, such as consistency and completeness.

211 EUCLIDEAN AND NON-EUCLIDEAN GEOMETRY 4**F,S**

MAT 145 or MAT 204 rec.

Inductive and deductive study of Euclidean geometry; includes transformations, tessellations, polyhedra, classical theorems, introduction to non-Euclidean geometry.

212 SYMBOLIC LOGIC II 3**F,S**

MAT/PHI 210 req. Also offered as PHI 212.

Study of axiomatic systems of various kinds; some set theory; proof theory and meta-theory.

216 INTRODUCTION TO ABSTRACT ALGEBRA I 4**F,S**

MAT 175 req.

Introduction to rings, integral domains, and fields including the ring of integers, the fields of real and complex numbers, quotient rings, polynomial rings, homomorphisms, and ideals.

260 INTRODUCTION TO DISCRETE MATHEMATICS 4**F,S**

MAT 146 req.

Counting problems, generating functions, recurrence relations, inclusion-exclusion, graphs, matching and covering, pigeonhole principle, applications.

298 PROFESSIONAL PRACTICE: INTERNSHIP IN MATHEMATICS 2-4**F,S,Summer**

MAT 175 plus two approved courses in math beyond 175 and a GPA of 2.75 overall and 3.0 in math courses. May be repeated. Max 8 hrs. No credit Maj/Min. Admissions approved by Dept. Chair. Credit/no credit only.

Practical experience through professionally oriented work in business, government, or industry. One credit per month of full-time employment.

298.50 PROFESSIONAL PRACTICE: COOPERATIVE EDUCATION IN MATHEMATICS 2-4**F,S,Summer****301 MATHEMATICAL TOPICS FOR ELEMENTARY TEACHERS 3****S**

MAT 151 or 152 or 202 req. Not for cr maj/min. Incl Clin Exp. Materials charge optional.

Significant problems, viewpoints and trends in teaching of arithmetic. Research related to organization, content and techniques in this field.

302 MATHEMATICAL TOPICS FOR JUNIOR HIGH TEACHERS 3**F**

MAT 202 or tchg exp rec. Not for cr maj/min. Materials charge optional.

Problems, viewpoints and trends in teaching junior high school mathematics. Implications of research related to organization, content, and techniques for teaching mathematics in this field.

303 DIAGNOSIS AND REMEDIATION OF ELEMENTARY MATH LEARNING PROBLEMS 3**F,S**

MAT 151 or 152 or 202 or teaching experience req. C&I 252 or MAT 201 rec. Not for cr maj/min. Incl Clin Exp. Materials charge optional.

Analysis of diagnostic and remediation procedures utilizing concrete materials for children experiencing difficulties in elementary school mathematics.

304 ADVANCED TOPICS IN ALGEBRA AND GEOMETRY FOR ELEMENTARY AND JUNIOR HIGH SCHOOL TEACHERS 3**S,Summer**

MAT 152 or 202 or 204 or 205, and high school geometry req. Not for cr maj/min. Materials charge optional.

Topics resulting from merging of algebraic and geometric concepts and techniques, and applications of these concepts to the elementary and junior high school curricula.

305 MEASUREMENT TOPICS FOR ELEMENTARY AND JUNIOR HIGH SCHOOL TEACHERS 1-3**Summer**

MAT 204 or tchg exp req. Not for cr maj/min. Materials charge optional.

Topics related to elementary and junior high school curricula. Metric systems, counting techniques, probability, sampling, statistical inference, simulation, similarity, indirect measurement techniques.

306 TEACHING ELEMENTARY AND JUNIOR HIGH SCHOOL MATH WITH CALCULATORS AND COMPUTERS 3**F,S,Summer**

MAT 151 or 202 or equiv req. Not for cr maj/min. Materials charge optional.

Techniques for using calculators and microcomputers for mathematical concept and skill development and discovery of mathematics generalizations in elementary school.

307 MATHEMATICS FOR THE GIFTED IN THE ELEMENTARY AND JUNIOR HIGH SCHOOL 2-3**2-3**

MAT 152 or 202 or tchg exp req. Not for cr maj/min. Materials charge optional.

Mathematics content, methods, and program design for meeting needs of students with high ability in mathematics.

308 MATHEMATICS FOR THE SLOW LEARNER IN THE ELEMENTARY AND JUNIOR HIGH SCHOOL 2**Summer**

MAT 151 or 202 or tchg exp req. Not for cr maj/min. Materials charge optional.

Characteristics/causes of slow learners/underachievers in mathematics. Mathematics content, methods, materials and program design for meeting needs of slow learners.

309 TEACHING PROBLEM SOLVING IN THE ELEMENTARY AND JUNIOR HIGH SCHOOL 3

MAT 151 or tchg exp req. Not for credit maj/min. Materials charge optional.

Techniques and strategies for improving problem solving abilities. Goals, instructional materials, program development, teaching techniques and evaluation of problem solving in school mathematics.

310 NUMBER THEORY 3 F.S
MAT 175 or 205 req.

Divisibility, primes, unique factorization, numerical functions, congruences, Diophantine equations, other topics.

314 TOPICS IN GEOMETRY 3 S
Cons inst req. May be repeated if content different.

Study of selected areas of geometry. Consult the *Class Registration Directory* for the topics to be offered during any given semester.

316 INTRODUCTION TO ABSTRACT ALGEBRA II 3 S
MAT 175 req. MAT 216 rec.

Introduction to groups, including permutation, symmetry and matrix groups, homomorphisms, normality, quotient groups, applications.

317 LINEAR ALGEBRA 4 F
MAT 175 req.

Vector spaces, linear transformations and matrices, inner product spaces, eigenvalues and eigenvectors, diagonalization. Applications to geometry, the physical and social sciences.

319 COMBINATORIAL TOPOLOGY 3 S
MAT 147 req. MAT 175 rec. Formerly MAT 375.

Introduction to algebraic topology. Topics include compactness and connectedness, continuous vector fields and critical points, plane homology, the Jordan Curve Theorem, and surfaces.

320 HISTORY OF MATHEMATICS TO 1600 2 F
MAT 145 rec.

Emphasis on Greek geometry, and growth of algebra and algebraic notation from early Mesopotamia through Renaissance.

321 HISTORY OF MATHEMATICS 1600 TO PRESENT 2 F
MAT 147 req.

Development of modern mathematics (analysis, algebra, geometry) and the people in the forefront, beginning with Descartes. Emphasis on 19th century.

323 MATHEMATICS FOR THE SECONDARY SCHOOL 3 S
MAT 211 and 216 or conc reg and C&I 200.03 (grade of C or better req.). Incl Clin Exp. Adm. to Teacher Ed req.

Problems in selection, placement and teaching of secondary mathematics topics. Language and symbolism. Analysis of recent trends and practices.

324 SEMINARS FOR STUDENT TEACHERS OF MATHEMATICS 2 S
Conc reg or completion of student teaching in mathematics req. Course offered on Credit/No Credit basis only. Not for graduate credit.

Examination of materials and teaching aids for junior and senior high school mathematics programs. Communication of student teaching practices, and learning theory, and experimental curricular projects.

326 COMPUTER-EXTENDED MATHEMATICS FOR SECONDARY SCHOOLS 3 F
Calculus and BASIC programming req. Formerly MAT 362.

Techniques of illustrating, deriving, and discovering mathematical concepts of the secondary curriculum by digital computer and calculators.

340 DIFFERENTIAL EQUATIONS I 3 F.S
MAT 147 and a programming language req. MAT 175 rec.

First-order differential equations, linear differential equations, systems of linear equations, numerical solutions.

341 DIFFERENTIAL EQUATIONS II 3 S
MAT 175 and 340 req.

Series solutions, Laplace transforms, theory of first order equations, theory of linear differential equations, Sturm theory, Fourier series, boundary-value problems, introduction to partial differential equations (Laplace, heat, and wave equations).

345 ADVANCED CALCULUS 4 F
MAT 175 req. Formerly MAT 335.

Calculus of functions of several variables, Taylor's series of several variables, maxima and minima, Lagrange multipliers, inverse and implicit function theorems, multiple integration, line integrals, Green's and Stokes' theorems.

347 INTRODUCTION TO REAL ANALYSIS I 4 S
MAT 147 req. MAT 175 rec.

The real number system, topology of metric spaces, sequences, continuous functions, uniform convergence, differentiation, Taylor's Theorem, Riemann integration, the fundamental theorem of calculus, infinite series, power series, the implicit function theorem.

349 COMPLEX ANALYSIS I 3 S
MAT 147 req.

Analytic function theory, complex plane, differentiability and analyticity, Cauchy's theorem. Taylor series and Laurent series.

350 MATHEMATICAL STATISTICS I 4 F.S
MAT 147 or conc reg req.

Sample spaces, probability, random variables, probability density functions, moment generating functions, empirical distributions, sampling distribution theory, confidence intervals, maximum likelihood estimation, applications.

351 MATHEMATICAL STATISTICS II 4 F.S
MAT 147 and 350 req.

Chi-square, F, t, and bivariate normal distributions, Central Limit Theorem, goodness-of-fit tests, correlation and regression, analysis of variance, randomized block designs, nonparametric methods.

353 THE ANALYSIS OF TIME SERIES 3 F
ECO 331, MAT 350 or cons inst. Also offered as ECO 353.

Theory and application of time series methods with reference to business and economic time series. Topics include classical decomposition methods, Box-Jenkins methods, spectral analysis, and robust methods. Practical application is obtained through mainframe and microcomputer statistical packages.

356 STATISTICAL COMPUTING 4 S
Two statistics crses; some facility with matrices req.

The application of the SAS, SPSS, and BMDP programs to real data emphasizing regression, analysis of variance, discriminant analysis, and factor analysis.

360 COMBINATORIAL COMPUTING 4 S

MAT 175, MAT 164 or ACS 164 or 168 req.

Listing and ranking algorithms for permutations, recurrence relations, generating functions, graph theory, optimization, Polya's Theorem.

361 TOPICS IN DISCRETE MATHEMATICS 2-4 F.S

MAT 175 req. Each topic may be taken once. Formerly MAT 325.

Study of selected areas of discrete mathematics. Topic 361.02 Game Theory; Topic 361.04 Dynamic Programming. Consult the *Class Registration Directory* for the topics to be offered and the hours of credit to be earned during any given semester.

362 LINEAR PROGRAMMING 2-4

MAT 175 and a programming language req. Formerly MAT 361.01.

Modeling and solution of problems using the simplex method. Duality, sensitivity, integer programming. Transportation problems.

363 GRAPH THEORY 2-4

MAT 175 and a programming language req. Formerly MAT 361.03.

Introduction to graph theory, connectivity, matching, coloring, network flows with applications to communication reliability, scheduling, and traffic flow problems.

366 BOOLEAN ALGEBRA AND LOGICAL DESIGN 3 F

MAT 175 req.

Switching circuits, Boolean algebra as model for propositional calculus, logical design of digital computers, logical programming.

368 NUMERICAL MATRIX METHODS 3 F

MAT 175 and a programming language req. Formerly MAT 308 MATRIX THEORY.

Computational theory of matrices, matrix operations, inversion, solution to linear systems, error analysis, eigenvalues and eigenvectors, orthogonal projection, and least squares.

370 NUMERICAL ANALYSIS 4 S

MAT 175 and a programming language req.

Interpolation and approximation, error analysis, differentiation, integration, techniques for solving differential equations, root finding. Applications and computational techniques.

378 MATHEMATICAL MODELING 4 S

MAT 175 req. MAT 340 or 350 req.

Applications of mathematical modeling to fields including biology, economics, engineering, political science, psychology, and sociology. Project required.

385 ACTUARIAL EXAM PREPARATION 1 F.S

Cons inst req. Each topic may be taken once. Not for credit maj/min. MAT 385.01 not for credit if had MAT 147. MAT 385.02 not for credit if had MAT 350.

Problem solving sessions to aid in preparation for examinations given by the Society of Actuaries. Topic 385.01 Part I Preparation; topic 385.02 Part II Preparation. Consult the *Class Registration Directory* for the topics to be offered during any given semester.

386 TOPICS IN ACTUARIAL SCIENCE 2 S

MAT 175 and 350 req.

Topics in operations research and numerical methods for the Society of Actuaries Part III Examination.

390 INDEPENDENT STUDY 1-3 F.S**PHILOSOPHY (PHI)**

351 Stevenson Hall, (309) 438-7665

Chairperson: Kenton Machina.

Faculty: Professor: Kennard. Associate Professors: Gorr, Gowen, Machina, Rosenbaum. Assistant Professors: Andrade, Deutsch, Plumer, Possin, Scharf, Siderits, Steinman, Stillwell, Timmons.

Philosophy Programs

Degrees Offered: B.A., B.S.

The major in Philosophy is designed to provide a liberal arts core around which a student may build a program of courses to suit a wide variety of purposes. The department encourages its students to work with a departmental adviser in selecting a minor, a second major, or a set of connected courses in various fields which will best combine with philosophical study to produce a program meeting their needs. To aid in this process, the department has designed a number of specific four-year curricula which will prepare students for management positions in business and industry, or policy making positions in government, as well as for entry into law school, medical school, dental school, and seminaries. The major in Philosophy may also be used as part of the preparation for graduate school in various fields, such as business administration, computer science, psychology, and philosophy.

MAJOR IN PHILOSOPHY

— 27 hours in Philosophy.

— Required PHI courses by area: Logic: PHI 110 or 210; History of Philosophy: PHI 254 and 255; Ethics: PHI 232; Epistemology and Metaphysics: PHI 361 and 362; at least two additional courses at the 200 or 300 level with at least one of these elective courses at the 300 level.

Each major works out a coherent program of supporting courses tailored to the student's needs in consultation with a faculty adviser.

MINOR IN PHILOSOPHY

— 18 hours in Philosophy required.

— Required PHI courses by area: Logic: PHI 110 or 210; History of Philosophy: PHI 254 and 255; at least 9 additional hours in PHI.

— Not more than two 100 level courses may count for the minor.

MINOR IN PHILOSOPHY**For Teacher Education**

— 21 hours in Philosophy required.

— Required PHI courses by area: Logic: PHI 110 or 210; History of Philosophy: PHI 254 and 255; Ethics: PHI 232 or 240 or 242; Epistemology or Metaphysics: PHI 361 or 362; at least 6 additional hours in PHI with at least one 200 or 300 level course.

Notes on Philosophy Programs: Students wishing to minor in Philosophy are requested to inform the department of their intention and are invited to discuss their program with an adviser in the Department of Philosophy.

Philosophy Courses

Freshmen wishing to select a Philosophy course normally should enroll in a 100 level course. Other students

may begin with any 100 or 200 level course. Courses at the 300 level presuppose at least the level of sophistication that the successful completion of one or more lower level courses in Philosophy would demonstrate.

101 BASIC ISSUES IN PHILOSOPHY 3 US-2 F.S

An introduction to central philosophical issues, e.g., knowledge, reality, freedom, God, and morality.

110 THINKING LOGICALLY 3 US-4 F.S
Not for credit if had MAT 103.

Principles and techniques of correct reasoning and logical thinking.

120 PHILOSOPHY OF RELIGION 3 US-2 F.S

Evaluation of the evidence for certain basic religious beliefs concerning the existence of God, the occurrence of miracles, evil, religious experience, faith, and other related topics.

138 MORAL AND SOCIAL VALUES 3 US-2 F.S

Examination of current social issues — e.g., abortion, and capital punishment — in light of differing views concerning moral and social principles.

150 PHILOSOPHY AND THE SCIENCES 3

An introduction to the structure and historical development of scientific methodology and comparison of this methodology with pseudo-scientific practice.

203 EXISTENTIALISM 3 S

Examination of existentialist themes — such as absurdity, authenticity, freedom, meaninglessness, alienation, and subjectivity — and their relevance to 20th century society.

207 ORIENTAL PHILOSOPHY 3 US-8 F.S

An examination of the philosophical traditions of the Orient.

210 SYMBOLIC LOGIC I 3 US-4 F.S

Also offered as MAT 210. 1 yr HS algebra; 1 yr HS geometry.

Introduction to proof theory. Formal deductive systems, especially propositional logic and predicate logic. Properties of deductive systems, such as consistency and completeness.

212 SYMBOLIC LOGIC II 3 S

MAT/PHI 210 req. Also offered as MAT 212.

Study of axiomatic systems of various kinds; some set theory; proof theory and meta-theory.

220 RELIGION, REASON AND FAITH 3 S

Examination of the respective roles of reason and faith in religious belief systems. How do we decide which religion — if any — to accept

232 ETHICS 3 US-2 F.S

Examination of major thinkers. Discussion of problems concerning value, obligation, virtue, moral justification and moral standards.

234 BUSINESS ETHICS 3 US-7 F.S

Formerly PHI 139.

A philosophical examination of selected ethical issues in business practice including discussions of case material, such as personnel management, advertising, labor-management relations, and corporate responsibility.

239 PHILOSOPHY AND THE ARTS 3 F

Philosophical analysis of various concepts of interpreting, criticizing, and appreciating art. Consideration of the distinguishing characteristics of art.

240 POLITICAL PHILOSOPHY 3 US-2 F

Discussion of traditional and contemporary issues, e.g., human rights, theories of justice, Marxism, civil disobedience, punishment, and the end and limit of government.

242 PHILOSOPHY OF LAW 3 US-2 S

One PHI course or a law-related course rec.

Evaluation of conflicting views concerning the nature of law, legal obligation, legal rights, and the justification of punishment.

244 LEGAL ETHICS 3

One PHI course or one law-related course rec. Materials charge optional.

Analysis of ethical issues arising in practice of law, maintenance of legal profession, and social decisions concerning provision of legal services.

250 PHILOSOPHY OF SCIENCE 3 S

The nature of scientific theories, methods, reasoning, hypotheses, laws, and explanations.

253 PHILOSOPHY AND THE BEHAVIORAL SCIENCES 3 F

Examination of philosophical issues raised by and relevant to the scientific study of human behavior.

254 ANCIENT AND MEDIEVAL PHILOSOPHY 3 US-2 F

Classic western philosophical ideas from the earliest times to the 15th century. The pre-Socratics, Socrates, Plato, Aristotle, Augustine, Aquinas, and others.

255 MODERN PHILOSOPHY 3 US-2 S

Formerly SEVENTEENTH AND EIGHTEENTH CENTURY PHILOSOPHY.

Classic western philosophical ideas of the 17th and 18th centuries. Hobbes, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

298 PROFESSIONAL PRACTICE: INTERNSHIP IN APPLIED PHILOSOPHY 1-12 F.S

PHI 110, 232, and 2 additional PHI courses at the 200 or 300 level. 3.0 GPA in PHI courses. Complete dept application procedure. Max 3 hrs. toward PHI maj/min. Cons dept chair.

Planned, supervised experience in a governmental or community organization providing experience in applying philosophical theory to current social or scientific problems.

305 TWENTIETH CENTURY PHILOSOPHY 3 F

One PHI course.

Examination of major philosophical movements of the 20th century, focusing on representative figures.

330 MORAL THEORY 3

Two PHI courses rec.

Examination of meaning and justification of value judgments. Problems concerning moral objectivity, the fact-value gap, the possibility of moral knowledge.

339 TOPICS IN AESTHETICS 3 S

Two PHI courses, including at least one 200 level or above, or PHI 239. Grad students may enroll without previous PHI courses. May be repeated.

Philosophical questions about visual, musical, literary and theatre arts. Problems concerning expression, aesthetic experience, representation, the nature of art, and the possibility of objective evaluation of art works.

340 TOPICS IN POLITICAL PHILOSOPHY 3 S

Two PHI courses. Grad students may enroll without previous PHI courses. May be repeated.

Intensive examination of one or two selected topics in political philosophy, such as liberty, justice, equality, rights, community, democracy, and political obligation.

350 TOPICS IN THE HISTORY OF PHILOSOPHY 3

PHI 254 or 255. May be repeated.

Intensive examination of some major figure or movement in the history of philosophy, such as Plato, Kant, or British Empiricism.

361 THEORY OF KNOWLEDGE 3 F

Two PHI courses.

Classic and contemporary theories of knowledge. Problems of meaning, truth, certainty, a priori knowledge, induction, perception, belief, and evidence.

362 METAPHYSICS 3 S

Two PHI courses.

Classic and contemporary metaphysical theories. Problems of substance, change, universals, time, space, mechanism, teleology, and freedom.

390 INDEPENDENT STUDY 1-3

One PHI course, cons inst and dept chair.

PHYSICS (PHY)

311 Moulton Hall, (309) 438-8756

Chairperson: Harold J. Born.

Faculty: Professors: Born, Crew, Jesse, Schroerer, Young. Associate Professor: Luther. Assistant Professors: Berge, Edwards, Ellingson, Greenseth, Hassani, Kinel.

Physics Programs

Degrees Offered: B.S.

The undergraduate program in physics at Illinois State is sufficiently flexible to meet the needs of students with one or more of the following goals: (1) continued education in one of the allied fields such as astronomy, engineering, meteorology or oceanography; (2) teaching of physics or physical science; (3) industrial or governmental employment (research, development, and engineering); (4) liberal arts background for medicine, the allied health professions; patent law, technical sales, or industrial management; (5) continued study in physics at the graduate level; and (6) education for an increasingly technical society. Students are strongly encouraged to select those courses which are consistent with their goals and should consult with their academic advisers in planning an appropriate program.

MAJOR IN PHYSICS

— 37 hours in Physics required.

— Required courses: PHY 110, 111, 220, 225, 230, 240, 252,

270 (3 hours); 9 hours of 300-level PHY courses; CHE 140 and 141 (or 150) also required for the major.

MAJOR IN PHYSICS**Teacher Certification Requirements**

— 36 hours in Physics required. Part of entitlement program leading to certification: secondary 6-12.

— Required courses: PHY 101, 110, 111, 220, 240, 252, 270 (3 hrs), 301 (4 hrs); electives must be chosen from 200 level or above PHY courses; CHE 140 and 141 (or 150) also required for this major.

MINOR IN PHYSICS

— 23 hours in Physics required.

— Required courses: PHY 110, 111, 252.

MINOR IN PHYSICS**For Teacher Education**

— 23 hours in Physics required.

— Required courses: PHY 110, 111, 252, 270 (1 hr).

Physics Courses**100 ENERGY AND ENVIRONMENT 3 US-3 F.S**

No science background required.

Scientific and technological aspects of social problems, emphasizing the energy crisis and related issues.

101 INTRODUCTION TO ASTRONOMY 3 US-3 F.S

No science background required.

Basic astronomy and recent developments in astronomy, including space travel, stellar evolution and cosmology.

102 ASTRONOMY LABORATORY 1

PHY 101 req.

Optional lab to complement and extend concepts developed in PHY 101.

103 PHYSICS OF SOUND SYSTEMS 3 S

No science background req. Not for credit PHY maj min.

Wave motion, sound level, electricity, high fidelity stereo amplifiers, amplifier distortion, microphones, loud speakers, disc and tape recording, and room acoustics.

105 FUNDAMENTALS OF PHYSICS 4 US-3 F.S

HS Algebra or MAT 107 req. Not for credit if had PHY 108, 110 or equiv. For non-science maj. Lecture and laboratory.

Applications of the principles of physics to everyday living.

106 FROM QUARKS TO QUASARS 3 US-3 F.S

No science background req.

Significant discoveries of 20th Century physics including theories of relativity, quantum, big bang, and blackholes, discussed without mathematics.

108 GENERAL PHYSICS I 5 US-3 F.S

2 sem HS Algebra or equiv req. Not for credit if had PHY 110 or equiv. Lecture and laboratory. First sem of a two-sem sequence.

Mechanics, wave motion, sound, heat.

109 GENERAL PHYSICS II 5 US-3 F.S

PHY 108 req. Not for credit if had PHY 111 or equiv. Lecture and laboratory. Continuation of PHY 108.

Magnetism, electricity, optics, and radiation.

110 PHYSICS I 5 US-3 F.S
 MAT 145 req. Not for credit if had PHY 108 or equiv.
 Lecture and laboratory.
 Same as PHY 108 using concepts of calculus.

111 PHYSICS II 5 US-3 F.S
 PHY 110 and MAT 146 or conc reg. req. Not for credit if
 had PHY 109 or equiv. Continuation of PHY 110.

220 INTERMEDIATE MECHANICS 3 F
 PHY 109 or 111 and MAT 147 or conc reg req.
 Particle kinematics and dynamics, oscillations, central force
 motion, rigid body dynamics.

225 THERMAL PHYSICS 3 S
 PHY 109 or 111 and MAT 147 or conc reg req.
 Thermodynamics, kinetic theory and statistical mechanics
 with applications to physics, chemistry, biology and engi-
 neering.

230 OPTICAL PHYSICS 3 S
 PHY 109 or 111 and MAT 147 or conc reg req.
 Optical systems, wave motion, interference and diffraction,
 electromagnetic waves.

**240 INTERMEDIATE ELECTRICITY
 AND MAGNETISM 3 F**
 PHY 109 or 111 and MAT 147 or conc reg req.
 Electrostatics, electric and magnetic fields, AC and DC
 circuits, Maxwell's equations.

252 MODERN PHYSICS 3 F
 PHY 109 or 111 and MAT 147 or conc reg req.
 Atomic and molecular physics; introduction to relativity,
 quantum theory and solid state physics.

**270 EXPERIMENTAL
 PHYSICS 1-2 F.S**
 Six hours of 200-level PHY theory courses req. May be
 repeated. Max 4 hrs.

Use of precision instruments and performance of funda-
 mental experiments.

290 RESEARCH IN PHYSICS 1-3 F.S
 20 hrs PHY req. May be repeated. Max 3 hrs. 3 hrs
 conference, laboratory or library research per week
 for each hr of credit.

Development of better understanding of significance of
 research in physics through study of a research problem.

298 PROFESSIONAL PRACTICE 1-16
 Soph stand, PHY 110, 111, CHE 140, 141, GPA 2.5. No
 credit maj/min. May be repeated, max 16 hrs, but no
 more than 4 hrs/sem counted toward graduation.

On-the-job experience in industry or government with a
 professional physics orientation.

**301 PROBLEMS IN THE TEACHING
 OF HIGH SCHOOL PHYSICS 3-4 F.S**
 16 hrs in PHY and C&I 200 (6 hrs) or 200.03 (grade of C
 or better req.) or conc reg. req. Admission to Teacher
 Education req. For teaching majors only. Includes
 observation and clinical experiences for 4 hours cred-
 it.

Modern methods and problems confronting teachers of
 high school physics.

320 MECHANICS 3 S
 PHY 220 and MAT 340 req.

Transformations of coordinate systems; oscillations; calcu-
 lus of variations; Lagrangian and Hamiltonian dynamics;
 rigid body dynamics.

**340 ELECTRICITY AND
 MAGNETISM 3 S**
 PHY 240 and MAT 340 req.

Boundary value problems in electro and magnetostatics;
 Maxwell's equations; electromagnetic waves and radiation.

**355 MOLECULAR AND
 SOLID STATE PHYSICS 3 S**
 PHY 252, 225 req.

Introduction to the spatial, dynamic and electric properties
 of condensed matter.

360 NUCLEAR PHYSICS 3 S
 PHY 252 req. Graduate credit available only if ap-
 proved by student's maj dept prior to enrollment.

Basic nuclear properties; radioactivity; low energy nuclear
 reactions; interaction of particles and radiation with matter;
 nuclear models.

375 ELECTRONICS FOR SCIENTISTS 3 S
 PHY 109 or equiv.

The operation and design of electronic circuits and elec-
 tronic instruments.

382 RELATIVITY 3 F
 PHY 252 req. Earned grades of A or B in PHY 220 and
 240 req.

Relativistic mechanics, optics and electrodynamics. Tensors
 and introduction to general relativity including the
 Schwarzschild solution and gravitational waves.

384 QUANTUM MECHANICS 3 F
 PHY 240, 252, and MAT 340 req.

Mathematical formulation of quantum theory and applica-
 tions to simple systems.

385 ATOMIC PHYSICS 3 S
 PHY 384 and cons instr req.

Application of quantum theory to atomic systems including
 angular momentum theory, atomic structure and atomic
 transitions.

**387 METHODS OF MATHEMATICAL
 PHYSICS 3 S**
 PHY 240 and MAT 340 or conc reg req.

Vector calculus; partial differential equations of science and
 engineering; Fourier series and integrals; complex varia-
 bles.

388 PHYSICS AND COMPUTERS 3 F
 MAT 146, 164 (FORTRAN) req. Six hours from PHY 220,
 225, 230, 240, or 252.

Solution of physics problems by computer. Problems in-
 clude electric circuits, classical and quantum waves, Monte
 Carlo techniques, data analysis.

398 PROFESSIONAL PRACTICE 1-16
 PHY 298 or jr/sr stand, GPA 2.5, 20 hours PHY courses.
 No credit maj/min. May be repeated, max 16 hrs, but
 no more than 4 hrs/sem counted toward graduation.

On-the-job experience in industry or government with a
 professional physics orientation.

POLITICAL SCIENCE (POS)

306 Schroeder Hall, (309) 438-8638

Chairperson: Hibbert R. Roberts.

Faculty: Professors: Gueguen, Hunt, Monroe, H. Roberts,
 Zeidenstein. Associate Professors: Eimmermann, Elder, Gor-
 don, Kiser, Mead, Nassar, Payne, Pope, Wilson. Assistant
 Professors: Bradley, Gerber, Klass, Lind, Margolis, F. Rob-
 erts. Lecturers: Borlas, Jacobs.

Political Science Programs

Degrees Offered: B.A., B.S.

The Political Science program provides students with a broad liberal education and at the same time offers opportunities to begin a specialized concentration in one area of the discipline such as public service or global studies. The study of political science leads into a number of careers in areas such as law and paralegal services; local, state, and federal government; international public and private organizations; teaching and research; business; and various public services. Career information, including information about career-related courses offered by other departments, is available from the department's undergraduate and pre-law advisers. Teacher education students majoring in Political Science fulfill professional education requirements through the social science program.

MAJOR IN POLITICAL SCIENCE

- 33 hours in Political Science.
- Required courses: POS 105, 209, at least two 300-level POS courses, and at least 3 hours in 5 of the 6 areas of (1) Political Philosophy, Theory, and Methodology, (2) American Politics, (3) Comparative Politics, (4) International Relations, (5) Public Law, and (6) Public Administration. POS 105 and 209 are required, but do not fulfill area requirements.

MAJOR IN SOCIAL SCIENCES

The Major in Social Sciences is administered in the Department of History in cooperation with the departments of Political Science; Economics; and Sociology, Anthropology, and Social Work. For further information see Social Sciences Programs.

MINOR IN POLITICAL SCIENCE

- 18 hours in Political Science required.
- Required courses: POS 105 and 209. The POS 209 requirement may be waived for minors who have completed an equivalent research methods course in another department. Students should consult the department adviser to determine what courses satisfy this waiver.

MINOR IN POLITICAL SCIENCE For Teacher Education

- Program requirements are the same as those listed for the Minor in Political Science.

Honors in Political Science: Students majoring or minoring in Political Science may be admitted to the departmental honors program if they have: 1. completed at least 30 semester hours of college or university level courses, including at least two political science courses; 2. a minimum of three semesters remaining before graduation; 3. a cumulative grade point average of 3.3; 4. two letters of recommendation submitted from faculty members to the department chairperson and 5. admission approval from the departmental honors committee.

Speech Pathology and Audiology Programs

Degrees Offered: B.A., B.S. Programs are accredited by the American Speech-Language-Hearing Association.

SPEECH PATHOLOGY AND AUDIOLOGY MAJOR

Teacher Certification Requirements

- 40 hours in Speech Pathology-Audiology required.
- Required courses: PAS 112, 211, 272, 301, 315, 316, 318, 319, 320, 321, 330, 337 (1 hour), 350, 351.
- Professional Education requirements: SED 145, 220; C&I 210; EAF 228 or 231 or 235; PSY 232, 334, 346; PAS 399 (8 hours).

This is a preprofessional program designed to prepare students for graduate work in communicative disorders. Students must have a master's degree in this field to obtain both the Illinois Certificate in Speech and Language Impaired and the American Speech-Language-Hearing Association's clinical certificate. Copies of requirements for both of these are available in the departmental office.

The Illinois Certificate in Speech and Language Impaired requires 300 hours of supervised clinical experience. To accrue these hours, undergraduate majors in this program take one semester hour of PAS 337 and 8 hours of Student Teaching 399. Additional hours of supervised clinical experience are obtained in graduate school. A cumulative grade point average of 2.6 is required on all work completed at Illinois State University before admission to PAS 337, 358, and 359; a grade point average of 2.6 in all work taken at Illinois State University and all work at Illinois State University taken in the major field is required for admission to Student Teaching 399.

AUDIOLOGY SEQUENCE

- 43 hours required. *Note: Because of prerequisites or lack of prior skill, this major may require more hours than indicated.*
- Required courses: PAS 211, 272, 301, 315, 320, 321, 330, 337 (1 hour), 350, 351, 358 (1 hour), 359 (1 hour); SED 330, 353; PSY 333, 334, 346.

— The audiology program is designed to prepare the student for graduate work in audiology. This is a non-teaching program and does not qualify the student for a teaching certificate. Upon completion of the master's degree, the student will have completed the academic and clinical requirements for the American Speech-Language-Hearing Association's Certificate of Clinical Competence in Audiology.

MINOR IN SPEECH PATHOLOGY AND AUDIOLOGY

— 21 hours required.

— Required courses: PAS 211, 315, 320, 350. Electives cannot include practicum courses.

Students taking this minor will not qualify in this area for Illinois or American Speech-Language-Hearing Association certification.

Honors in Speech Pathology and Audiology: Honors work in communicative disorders and speech and hearing science is available to qualified students. For additional information, contact the department chairperson.

COLLEGE OF BUSINESS

Dean: Andrew T. Nappi, 316 Williams Hall.

Objectives: The primary objective of the College of Business is to prepare students for professional or managerial careers in business, education, government, industry or nonprofit organizations. The College firmly supports the principle that education for business requires the assimilation of a basic common-body-of-knowledge as well as opportunities for acquiring depth in appropriate fields. The College offers programs leading to the Bachelor's degree with majors in Accounting; Management; Marketing; Finance; Business Administration; Office Administration; International Business; and Business Education. Minor programs are also available.

The College also offers graduate programs leading to the Master of Science in Accounting, Master of Business Administration, and the Master of Science or Master of Arts in Business Education. Detailed information concerning these programs may be found in the Graduate Catalog.

With careful planning and coordination between colleges and departments, qualified students may complete an undergraduate nonbusiness major and a Masters of Business Administration in five years.

The College of Business is involved in research, public service and faculty professional development and maintains a relationship with business, industrial and service organizations in the surrounding area.

Departments in the College of Business are: Accounting; Business Education and Administrative Services; Finance and Law; Management and Quantitative Methods; and Marketing.

Internship Program in Business: Business majors are encouraged to participate in the internship program in business available in each department. The program provides students an opportunity to work under a carefully organized and approved internship experience during the academic year with a participating firm or organization. Business majors interested in this program are urged to arrange an interview with department advisors at their earliest convenience so that their total program includes provision for participation in the internship program. Students are advised to check on the specific requirements for the internship program offered by their major department.

Small Business Institute: Business majors, under the supervision of a professor, work in teams with small businesses to study and consult on management problems. The student team submits a written report of its findings to the business owner-manager, as well as giving an oral presentation, stating problems, alternative solutions and recommended solutions. The Small Business Institute provides a unique learning experience for students and free counseling services to participating firms to help solve problems concerning marketing, management, financial analysis, accounting, data processing, business operations and related disciplines. The program is sponsored by the College of Business in cooperation with the U.S. Government Small Business Administration.

Academic Standards: The academic standards of the University apply to all of the programs housed in the College of Business. The following additional academic

standards apply to all departments in the College of Business: (1) At least 42 hours of the total 120 hours required for graduation shall be coursework devoted to studies other than business, economics, and administration; (2) The senior year's work, with minor exceptions, must be taken in residence at Illinois State University; (3) Course prerequisites must be taken in required sequence; (4) Students who go on probation a second or subsequent time will be dropped from the College of Business; and (5) Students transferring into any of the programs housed in the College of Business from other programs in the university or from other academic institutions or between programs within the College of Business must meet the admission standards for the College and the major within the College.

No student (major or nonmajor) may enroll in a 200 level course in the College of Business without having at least 45 credit hours earned toward a baccalaureate degree at the time of such enrollment; 60 semester hours must have been completed by the first day of classes to remain in a 200-level course. Business majors must also have completed all specified prerequisites prior to enrollment in a 200 or 300 level course in the College of Business.

Repetition of courses: A student may register officially for a given course in the College of Business only twice. That is, if a student completes a course, or drops a course after the tenth-day enrollment report, he or she may enroll officially in that course one additional time.

ADMISSION POLICY:

Students will be admitted into majors in the College of Business from the pool of qualified applicants for that major on the basis of individual qualifications. The number of students admitted into specific programs and the grade point average required for admission may vary depending on program capacity and qualifications of students in the pool. The College of Business reserves the right to maintain a balanced enrollment.

A. To be admitted to one of the majors in the College of Business, a student must:

- Complete 60 semester hours.
- Complete all of the following tool courses, which are prerequisites for all 200-300 level business courses, with a grade of C or above: ENG 101; ECO 100, 101; MQM 100 or ECO 131; ACC 131, 132.

— Achieve a **minimum** of a 2.2 GPA on a 4.0 scale.
Individual majors within the College of Business may require a GPA above this minimum for admission.

B. Pre-business students will have their records reviewed for admission to the College of Business during the term in which they will complete 60 hours and the tool courses listed above. Final admission to the major is contingent upon successful completion of the criteria in section A above.

C. Students not classified as pre-business majors may request a change of major to a College of Business major during the term in which they meet the criteria in section A above. Final admission is contingent upon the successful completion of these three criteria.

ADMISSION TO PRE-BUSINESS CLASSIFICATION:

- A. New freshman and transfers with fewer than 30 hours will be classified as pre-business majors at their request.
- B. ISU or transfer students with 30 hours or more will be classified as pre-business majors at their request if they have a cumulative grade point average of at least 2.2.

PRE-BUSINESS RETENTION STANDARDS:

Students in the pre-business classification with 30 or more hours attempted will be reclassified to general student status if their cumulative GPA falls below 2.2. **Students should note that a 2.2 GPA is the minimum required for admission to any College of Business major; individual majors often require a GPA above this minimum.**

Academic Policies: The academic policies of the University apply to all of the programs in the College of Business. In addition, the following special academic requirements apply to all students in the College of Business:

1. Students must complete at least 42 hours of the total 120 hours required for graduation in studies other than business, economics, and administration.
2. Students majoring in business must complete their senior year (30 credits) in residence at Illinois State University. Under unusual circumstances, the Dean of the College of Business may grant a modification of this requirement.
3. Students must take courses and their prerequisites in required sequence.
4. Students may, during the preregistration period only, enroll in a 200 level course in the College of Business with a minimum of 45 semester hours and in a 300 level course with a minimum of 60 semester hours earned toward the baccalaureate degree at the time of such pre-enrollment. To receive credit for an upper division course a student must have earned at the time the course begins a minimum of 60 semester hours of credit for a 200 level course and a minimum of 75 semester hours of credit for a 300 level course.
5. Students who go on probation a second or subsequent time will be dropped from the College of Business.
6. Students-at-large must apply for permission from the College of Business to register for business courses. Such students may be required to furnish official transcripts which show the degree earned and the prerequisites for the courses in which the student is asking for permission to enroll. Some courses in the College have restricted and/or limited enrollments and thus may not be open to students-at-large.
7. A student may register officially for a given course in the College of Business only twice. That is, if a student completes a course or drops a course after the tenth day enrollment report, he or she may enroll officially in that course one additional time.

Transfer Policies: In addition to the general requirements of the University and the College, the following requirements apply to transfer students from other academic institutions seeking a business degree:

1. Credit for business and related courses from two-year institutions may be transferred and applied to the business core and to the major program but shall be limited to such courses that the College of Business offers at the lower division level (freshman and sophomore).
2. Credit for business and related courses from baccalaureate

degree granting institutions may be transferred and applied to the business core and to the major if the course for which the credit is being transferred is at the equivalent level of the comparable course at Illinois State.

3. In cases where equivalency of courses is not clear, departments in the College of Business may require proficiency examinations before transfer credit is accepted.

Non-Business Majors: Non-business majors who desire to elect more than 25% (30 credits) of their course work in business must meet all College of Business requirements for graduation. These students should register for additional courses in person only and with the written permission of the College of Business adviser.

Course Requirements for Business Programs: The courses listed below (33 hours total) are a required part of the business core and must be completed by all students majoring in business programs.

Program Coordinator: Roger Potter, Assistant Dean of the College of Business, 316A Williams Hall

Degrees Offered: B.A., B.S.

The baccalaureate program in International Business is designed to provide a specialized curriculum for students interested in business who wish to prepare themselves for employment in the international sphere and for students interested in international studies who wish to develop a specialty in business that will open international employment opportunities. This interdisciplinary program, administered by the College of Business, combines coursework in business, foreign language, and area studies to assure that graduates will have broad exposure to international studies and business, and will develop skills in both a business specialty and in a foreign language.

The International Business program is divided into a common business core applicable to all students, and area studies sequences that are country and/or language specific. Students will take business core courses and courses in English, economics, mathematics, and foreign language. Students will then choose an area studies sequence depending on the part of the world they wish to emphasize.

MAJOR IN INTERNATIONAL BUSINESS

Accounting Programs

Degree Offered: B.S.

The Department of Accounting offers three sequences under the Accounting Major: 1) Financial Accounting, 2) Industrial Accounting, and 3) Business Information Systems. These programs emphasize the development of students' analytical capabilities and students' knowledge of the usefulness and limitations of accounting information.

After graduation, students who complete the Financial Accounting sequence may sit for examinations leading to professional certification as a Certified Public Accountant (CPA) or Certified Management Accountant (CMA). Students who complete the Business Information Systems sequence may sit for the Certified Data Processor (CDP) examination.

All majors in the Department of Accounting must meet the

academic, admission, and transfer policies of the College of Business.

All accounting majors must complete at least 42 hours outside the College of Business and in subject areas other than business, economics, and administration as part of the 120 hours required for graduation.

ACCOUNTING MAJOR

Financial Accounting Sequence: Students selecting the Financial Accounting sequence must complete ACC 131, 132, 166, 230, 231, 232, 233, 235, 263; BEA 240; FAL 208, 209, 211, 240; MKT 230; MQM 100, 220, 227, 385; COM 110, 227; ECO 100, 101; MAT 121 or 145 (Note: MAT 120 is a prerequisite for MAT 121).

Also required are 6 hours of upper division (200-300 level) Accounting electives.

Industrial Accounting Sequence: Students selecting the Industrial Accounting sequence must complete ACC 131, 132, 166, 230, 231, 232, 332; BEA 240; FAL 208, 240, 341; IT 192, 233, and 292 or 331; MKT 230; MQM 100, 220, 227 (or IT 311), 327, 385; COM 110, 123; ECO 100, 101; MAT 121 or 145 (Note: MAT 120 is a prerequisite for MAT 121). In addition, with the assistance of the adviser, students should complete courses in the natural and social sciences and in industrial technology that enable them to be conversant with the industrial materials or processing areas.

Note: This sequence will not prepare a student for the examination to become a certified public accountant. A student who wishes to take the CPA examination should take the following additional courses: ACC 233, 235, 337 and 375, FAL 209, 211.

Business Information Systems Sequence: Students selecting the Business Information Systems (BIS) sequence must complete ACC 131, 132, 166, 230, 231, 232, 233, 235, 261, 263, 266, 362, 366; BEA 240; FAL 208, 240; MKT 230; MQM 100, 220, 227, 385; COM 110, 227; ECO 100, 101; MAT 121 or 145 (Note: MAT 120 is a prerequisite for MAT 121).

Note: This sequence will not prepare a student to become a certified public accountant. A student who wishes to take the CPA examination should take the following additional courses: ACC 337, 375; FAL 209, 211.

MINOR IN ACCOUNTING

- 21 hours in Accounting required.
- Required courses: ACC 131, 132, 231, 232.
- 9 elective hours in ACC courses.

Repetition of Courses in Accounting: A student can register officially for an Accounting course only twice. That is, if a student completes a course, or drops a course after the official tenth day enrollment report, he or she may enroll officially in the same ACC course only one additional time.

Admission Standards: The admission standards for the Department of Accounting are the same as the College of Business; however, it should be noted that special prerequisites may exist for many advanced courses in Accounting. Majors should examine prerequisites carefully in the beginning of their academic careers since many of the advanced courses require a GPA of 2.5 or a grade of A or B. Since a 2.5 GPA (2.0 equals C) is above average performance level, the Department of Accounting faculty recommends that Accounting majors have an ACT composite score greater than 23 and rank in the upper one-third of their high school class. Many firms require a 3.0 to interview, thus, the Department of Accounting requires a 3.0 or departmental consent before a student may transfer from another College of Business major at Illinois State into the Department of Accounting. All other students are governed by the College of Business admissions policy.

Certain courses may be restricted to Accounting majors only.

The Department of Accounting reserves the right to maintain a balanced student enrollment.

Business Education and Administrative Services Programs

Degrees Offered: B.A., B.S., B.S. in Ed.

The Department of Business Education and Administrative Services offers major degree programs in Business Education and Office Administration.

The business teacher education program is developed to comply with teacher certification requirements for the State of Illinois. This program prepares graduates for secondary teaching positions as well as for positions in education and training for business and industry.

The Office Administration program provides graduates with career opportunities in various office administrative positions which include (1) office supervisor, (2) administrative analyst, (3) administrative assistant, (4) information processing supervisor, (5) executive secretary, or (6) records manager in business, government, and educational institutions.

Students should note that:

1. Majors within this department must meet the aca-

demic, admission, and transfer policies of the College of Business.

2. At least 42 semester hours of credit toward the bachelor's degree must be taken outside the College of Business and in subject areas other than business, economics, and administration.

3. While an overall grade point average of 2.0 is required for graduation, majors in the BEA teacher education program must have earned a 2.5 grade point average for admission to the University's teacher education program (see University-wide Teacher Education Program Requirements in the College of Education section of the Catalog for further information.)

4. For the BEA teacher education program, minimum clinical experiences totaling 35 clock hours shall be completed in the department prior to student teaching. Several courses in the department include clinical experiences; however, it is not necessary to complete all of these courses to satisfy this requirement.

5. Students shall plan programs in consultation with an adviser.

6. Students desiring vocational education certification are required to complete BEA 380 and 382.

Business Education Programs

BUSINESS EDUCATION MAJOR

— 89 hours required, of which 15 meet University Studies requirements and 22 meet Professional Education requirements. Part of the entitlement program leading to certification by the State of Illinois for teaching business courses in the secondary schools, grades 6-12. Also, see University-Wide Teacher Education Program Requirements and Teacher Education Admission Program sections of the catalog for further requirements.

Required courses:

- Core courses required of all Business Education Majors: ACC 131, 132, 166; BEA 100; FAL 208, 240; MKT 230; MQM 100 (or ECO 131), 220, 385; ECO 100, 101; MAT 107 or proficiency, 110 or 120; ENG 101. FINANCE AND LAW (FAL)

328 Williams Hall, (309) 438-5675

Chairperson: William L. Scott.

Faculty: Professors: Crepas, Ficek, Naidu, Potter, Varner. Associate Professors: Gardner, Hagias, Kruse, Loy, Masin, McGuire, Mills, Reichert. Assistant Professors: Byler, Howe, Lockett, Massa, Kang, Pope. Instructors: Butler, Carlson, Edwards, Havens, Hite, Houska, Morgan, Spalding.

The department offers a Business Administration major, providing a broad background for a managerial or administrative career. Students with an interest in Business Information Systems may elect this sequence to gain a foundation in the interrelationships between administration and information systems.

The Finance major provides a knowledge base and skills appropriate for a wide variety of functional and managerial activities that require financial expertise. The financial

world touches most organizations, profit or nonprofit, which have activities involving banking, insurance, real estate, investments, managerial finance, budgeting, and international finance. Students with an interest in insurance may elect the insurance sequence.

COLLEGE OF EDUCATION

Dean: William S. Dunifon, 533 DeGarmo Hall.

The College of Education includes the Departments of Curriculum and Instruction, Specialized Educational Development, Educational Administration and Foundations, the Office of Clinical Experiences and Certification Processes, the Office of Research, and the Laboratory Schools. The College of Education has three broad missions: (1) Vigorous preparation of quality instructional, supervisory, and administrative personnel to serve in all sectors of the economy in various capacities and at all levels of teaching and learning; (2) Systematic study, research and evaluation of societal concerns within diverse cultural contexts and with the concomitant utilization of that research for society's benefit; and (3) Active involvement in service activities designed to improve the quality of life through education and to ensure the necessity of existing programs and to identify new directions for the College. The College administers clinical experiences in education and an admission-retention program in undergraduate teacher education in addition to offering a wide range of graduate programs, including masters and doctoral programs in Curriculum and Instruction, Educational Administration, and Special Education as well as an advanced certificate in Educational Administration.

CURRICULUM AND INSTRUCTION (C&I)

232 DeGarmo Hall, (309) 438-5425

Chairperson: Dorothy K. Franks.

Faculty: Professors: Baer, Bettis, Brown, Crotts, Edwards, Fisher, Fitch, Franks, Galler, Godbold, Goeldi, Goodall, Irving, Kachur, Kennedy, Lazerson, Lewis, Lorber, Madore, Morris, Mungo, Pierce, Piland, Rhodes, Taylor, Waimon, Youngs, Zeller. Associate Professors: Brodeur, Graef, Venerable. Assistant Professors: Azbell, Burcalow, Franks, Hager, Moore-Bond, Natale, Rozum, Shaw-Baker, Short, Troy.

Early Childhood Education Programs

Degrees Offered: B.A., B.S., B.S. in Ed.

Students are admitted to Early Childhood Education on a selective basis. Most professional coursework, taken through Core units, is ordinarily started during the second semester of the sophomore year or the first semester of the junior year. Each Core unit is for an entire semester and is a unified program of classroom experiences taught by a team of instructors from C&I and other departments. Each Core covers a common content: knowledge about physical, cognitive, social, and creative development of children; knowledge about school curriculum and organization; and

direct teaching experience with young children. The final semester is spent off campus in a Clinical Center which provides a wide variety of direct experiences with children. Concurrently with each Core, students will take some of the additional required courses. Specific information on admission policies and practices for Early Childhood Education is available from the Department of Curriculum and Instruction. For program revisions for new certification requirements contact the Department of Curriculum and Instruction.

EARLY CHILDHOOD EDUCATION MAJOR

— Required courses (53 hours): C&I 260, 261, 262, 263, 300, 301, EAF 331; HEC 231; PSY 347; SED 145, 374. (Note: Students enrolled in C&I 261 (Core I) take C&I 301 and SED 145 concurrently. Students enrolled in C&I 262 (Core II) take PSY 347 and HEC 231 concurrently. Students enrolled in C&I 260 (Core III) take C&I 300 and SED 374 concurrently. Students enrolled in C&I 263 take EAF 331 concurrently.)

— In addition to the major requirements listed above, students should include the following courses in 48 hours of University Studies for compliance with state certification requirements: ENG 101, COM 110, HEC 106, PSY 111, PAS 115. Each student should consult the

Teacher Education Requirements section of this catalog for further understanding of state general education standards for certification in Early Childhood Education.

Electives in Early Childhood Education: In addition to courses required for the major and the coursework required for University Studies, the student will take general elective courses. A student, in consultation with a departmental adviser, should select a sufficient number of electives so that the total amount of credit equals the 120 hours required for graduation. Electives may be selected from the total catalog of courses, provided the student meets the prerequisite for the course and has the approval of an adviser. From these courses, a student might concentrate in a specific field of study, or might elect additional specialized professional courses in Elementary Education, Home Economics, Psychology, and Special Education. If a student elects to concentrate in a specific field of study, the student may take a minor or second major by following the appropriate program requirements as stated in this catalog.

MINOR IN EARLY CHILDHOOD EDUCATION

This minor is restricted to students who are Elementary Education or Home Economics Education majors.

— Required courses (number of hours, not to exceed 28, will depend on the student's major field and electives) selected from each of the following seven areas as part of the entitlement program leading to certification: early childhood (below 6 yrs).

1. 3 hours in Child Growth and Development selected from C&I 210; HEC 114 and 250, or 307 (Note: Both HEC 114 and 250 must be taken to fulfill the requirement). Elementary Education majors who have had C&I 250, and 251 are excused from this requirement.
2. 3 hours in History and Philosophy of Early Childhood Education, EAF 331.
3. 6 hours in Types of Instructional Methods and Management selected from C & I 300, 301; HEC 308.

Elementary Education Program

Degrees Offered: B.A., B.S., B.S. in Ed.

ACADEMIC POLICIES: Usually, more students desire to enroll in the beginning C&I courses in the Elementary Education CORE-Program than can be accommodated during any given semester. Therefore, students are enrolled on a selective basis. Specific information on enrollment policies is available from the Elementary Education CORE-Program Coordinator in the Department of Curriculum and Instruction.

A minimum cumulative GPA of 2.5; a minimum of 45 semester hours credit completed; and a minimum of C in ENG 101 and in COM 110 are required of all students before enrolling in the beginning C&I courses in the Program (C&I 103, Introduction To Elementary Education, and C&I 250, CORE I - THE ARTS). Prospective transfer students are urged to file an Application for Admission to ISU early. (See Admission Section of this catalog.) All students with 45 hours or more (transfers, re-admits, or change-of-majors) must contact the Program Coordinator prior to any registration period to determine their eligibility for enrolling in courses in the Program. Advanced registration is encouraged.

ELEMENTARY EDUCATION MAJOR The CORE Program:

- 52 hours required. Part of entitlement program leading to certification: elementary K-9.
- Required courses: C&I 103, 250, 251, 252, 253; EAF 228 or 231 or 235.

Competency in Basic Skills: All students are required to pass Basic Skills Competency Examinations. (See coordinator of Elementary Education for specific details.)

The student must take C&I 103, the purpose of which is to acquaint the student with the personal qualifications and academic requirements necessary for teaching. It will acquaint students with the academic policies and procedures of the University and assist them in making basic course selections to satisfy University Studies requirements, general education certification requirements, and major

requirements in professional education. The Basic Skills Competency Examinations also will be administered in this course.

The formal coursework is taken through the on-campus CORE units. This work is ordinarily started during the second semester of the sophomore year or the first semester of the junior year. Each on-campus CORE unit is 12-14 hours of course work, and lasts for a semester. A CORE is a unified program of course work and classroom experiences taught by a team of Elementary Education teachers and instructors from other departments and represents three major curriculum areas: CORE I — the Arts, CORE II — Communication Skills, and CORE III — the Natural and Social Sciences. The student enrolls for these in sequence. Each CORE covers: (1) a common content, such as the arts; (2) knowledge about the physical, cognitive, social and creative development of children; (3) knowledge about the school curriculum and organization; and (4) pre-student teaching clinical experiences. The final semester is spent off campus in a Clinical Center. This provides a wide variety of direct experience with children in various socioeconomic and ethnic groupings. With one exception all major work is contained within the CORE units, but the students will be assisted in planning other coursework to fulfill the various degree requirements. The course requirement not contained in the CORE is EAF 228 or 231 or 235.

Electives in Elementary Education: In addition to the courses required for the major in the CORE Program and the course work required in University Studies, the student will have general elective courses from which to choose. A student, in consultation with a departmental adviser, should select a sufficient number of electives so that the total amount of credit equals the requirements for graduation. Electives may be selected from the total catalog of courses provided the student meets the prerequisites for the course and has the approval of an adviser. From these courses, a student might concentrate in a specific field of study or take a minor or second major by following the appropriate program requirements as stated in this catalog.

Junior High/Middle School Education Program

Degrees Offered: B.A., B.S., B.S. in Ed.

JUNIOR HIGH/MIDDLE SCHOOL EDUCATION MAJOR Professional Requirements:

- 30 hours in Professional Education required. Part of entitlement program leading to certification: Elementary K-9.
- Required courses: C&I 130, 131, 132, 210, 233, 333, 390, 395, 399 (8 hours of Student Teaching); EAF 228 or 231 or 235; SED 306.

Program Requirements: These requirements may, in very large part, be met by course work taken for University Studies and to meet certification requirements falling under General Education.

Within the general education requirements as stated in the catalog section Approved Teacher Education Programs--Junior High/Middle School, the following courses should be taken:

- Completion of ENG 101, 145, and COM 110 in the 9 hours of Language Arts requirements.
- Completion of BSC 145 or HSC 196, and HPR 180 in the Health and Physical Education requirements.

Specialization Requirements:

— Appropriate preparation in one or more areas of teaching specialization listed below is required.

The major in Junior High/Middle School Education, a program of professional development for those who wish to teach at the junior high/middle school level of education, consists of three broad areas of preparation. These are: General Education, requirements for certification which are listed in the section on Teacher Education; Professional Education, requirements which are listed above; and Teaching Specialization requirements, the character of which are described below. Upon satisfactorily completing this program, the student will meet the State of Illinois requirements for Elementary certification (K-9). In addition, graduates may, by completing (a) sufficient hours in a specialization, and (b) teaching experience, qualify by transcript evaluation for an Illinois State High School Certificate (6-12).

An adviser in the Department of Curriculum and Instruction will assist the major in planning coursework in behalf of one or more areas of teaching specialization. The individual may prepare for teaching in any of the typical subject areas of the junior high/middle school. Designed consistent with the instructional needs of junior high/middle school teachers, the areas of teaching specialization from which the major may choose include: language arts, reading, social studies, science, mathematics, physical education, health, home economics, industrial arts, art, and music. Preparation will consist of 24 to 32 semester hours' work, depending on whether the given field is the student's first or second area of specialization.

Unlike preparation for senior high school teaching, the junior high/middle school demands broad preparation across the several disciplines that constitute a subject area at this level. To meet these broad field demands in their selected teaching areas, pre-service teachers in the Illinois State program are guided through coursework that is specifically attuned to the curriculum requirements of the junior high/middle school.

A primary feature of the Junior High/Middle School Program is the experience that the pre-service teacher gains in working with early adolescent youth in the school environment. Simultaneously with the coursework in the categories described above, the student in the program engages in a variety of clinical experiences working with pupils in area junior high/middle schools. In fulfilling its strong commitment to early adolescent education, Illinois State University—one of only two universities in the State with programs for the special preparation of teachers for the junior high/middle school—works closely with these schools to provide maximal opportunities for majors in the development of teacher-pupil interaction skills. The prescribed and voluntary internship activity aids the student in making the transition from pre-service to in-service teaching much more effectively and expeditiously. This activity and the other features of this specialized program combine to provide a comprehensive and thorough undergraduate program for teachers as specialists at a school level where few exist.

Certification standards and standards for school recognition by the Illinois State Board of Education relating to the qualifications of teachers as well as those for member schools of the North Central Association are met and considerably exceeded by graduates of the Junior High/Middle School Teacher Education Program at ISU.

Urban Education Study: Students wishing preparation for working with urban populations may elect to complete Urban Education. Urban Education is not a certified area but is an elective option available to students in elementary

education, junior high school, special K-12, high school, early childhood, and special education programs. Course content and clinical experiences are individually designed in keeping with the specific teacher education program of the student.

The following includes both on and off campus coursework experiences in both school and non-school educational settings, and in agency activities: C&I 110 - Introduction to Multicultural Education (3 hrs.), C&I 232 - Education in the Inner City: An Introduction (3 hrs.), C&I 312 - Urban Field Experiences (6 hrs. off-campus), and C&I 398 - Professional Practice: School/Community Involvement (3 hrs.). The following substitutions can be made: Secondary Education students receive credit for 200.03 in the professional sequence, and Special Education majors receive credit for C&I 295 - Senior Seminar. Secondary Education students must complete the program prior to student teaching in order to receive credit for 200.03. Students in all other programs may complete the program before or after student teaching.

Special Education Programs

Degrees Offered: B.A., B.S., B.S. in Ed.

Admission to Special Education Programs: Since more students desire admission to Special Education programs than can be accommodated, students are admitted on a selective basis. Specific information on admissions policies and practices is available from the Department of Specialized Educational Development. While students may be admitted as Special Education majors, they must also be admitted to one of the sequences specified below.

Professional Requirements Applicable to All Special Education Programs: All students in Special Education complete 22 to 40 hours in Professional Requirements, that are specified for each sequence below, in addition to the requirements for their specific sequence. Students in STT 399 (Student Teaching) receive 8-16 hours of credit dependent upon the Special Education Sequence in which they are enrolled. Undergraduates in Special Education must be admitted to Teacher Education prior to enrolling in the following courses: SED 224, 245.04, 245.06, 245.07, 321, 322, 345, 346, 349, 350, 351, 354, 355, 356, 357, 358, 359, 372, and 385.

SPECIAL EDUCATION MAJOR

Learning and Behaviorally Disordered Sequence:

Sequence Requirements: 46 hours required in addition to Professional Requirements. Part of entitlement program leading to certification: special K-12. Required courses: ART 101, 207; ENG 170 or COM 306 or 307; at least 3 hours of GEO electives; HPR 222; at least 5 hours of MAT electives; MUS 371; PSY 247; SAS 323; PAS 115; SED 301, 321, 322, 380. UNIVERSITY-WIDE TEACHER EDUCATION PROGRAM REQUIREMENTS

This section of the catalog provides information needed by students in teacher education programs. Students seeking further information or clarification on information presented here should contact the Office of Clinical Experiences and Certification Processes (CECP) or the Assistant Dean in the College of Education, both located in DeGarmo Hall. A copy of ISU's Teacher Education Handbook is provided to each teacher education major by the CECP office.

Each student who completes a bachelor's degree program in an approved teacher education program, and who is recommended for certification by the Dean of the College of Education as having completed all requirements (general education, professional education, and field of study or area of specialization) is eligible to apply for a teaching

certificate in the State of Illinois. When a student has completed all of the requirements for a degree, including a recommendation from the Dean of the College of Education, the Evaluation Office at Illinois State University will send to the student the documentation necessary to apply for the appropriate Illinois Teaching Certificate. Beginning July 1, 1988, all certificates issued will require the candidate to pass a test of basic skills (reading, writing, grammar, and mathematics) and subject matter knowledge.

Students who have already completed one or more non-teaching degrees and now seek admission to teacher education are advised to seek admission to the University as a candidate for a second bachelor's degree. Subsequent transcript analysis may determine that a second degree is not required. In this instance, the student who received a degree from a state teacher education approved institution will be allowed to complete the requirements for certification without completing the requirements of the second bachelor's degree. Students are advised that the teacher education certification requirements provided here are for Illinois and that they should check certification requirements for other states if they desire to be certified for teaching elsewhere.

Students who complete a bachelor's degree program in teacher education at Illinois State University also have their transcripts stamped, *Student has completed a state and NCATE approved program in teacher education.* (NCATE is the National Council for Accreditation of Teacher Education). This statement indicates that the program has received state approval and national accreditation. This status usually makes it easier to obtain a teaching certificate in another state. NOTE: Experienced teachers may be eligible for certificates from the Illinois State Board of Education by transcript evaluation. This certificate is not associated with an NCATE program, does not have the endorsement of the institution granting the course credit, and is not as readily recognized by other states.

Students interested in completing a teacher education program at Illinois State must (1) be admitted to teacher education, (2) complete general education, professional education including a minimum of 100 clock hours of approved pre-student teaching clinical experiences, field of study or area of specialization coursework appropriate to the early childhood education, elementary, junior high school, high school, special K-12, or special education curriculum, (3) successfully complete student teaching or practicum, (4) have a 2.50 GPA in all work taken at Illinois State to be recommended for certification by the Dean of the College of Education, and (5) be recommended for certification by the Dean of the College of Education.

To receive an Illinois teachers certificate, an individual must be a U.S. Citizen or have a Declaration of Intent for citizenship.

Council for Teacher Education

Five colleges of Illinois State University offer bachelor degree programs that lead to teacher certification in the State of Illinois. These five colleges include the College of Applied Science and Technology, the College of Arts and Sciences, the College of Business, the College of Education, and the College of Fine Arts. The Council for Teacher Education is responsible for developing policies for teacher education and for providing avenues of communication among all of the areas of the university concerned with teacher education. The Dean of the College of Education serves as the University's certification officer and is responsible for maintaining the relationship between campus programs and state certification officials.

Admission-Retention Program

The following policies concerning admission-retention in teacher education apply to all students pursuing teacher education programs in any department of any college of the University.

The Office of Clinical Experiences and Certification Processes administers the procedures for admission to teacher education based upon eligibility requirements established by the Council for Teacher Education. Additional departmental and academic major requirements for admission to teacher education may be established by departments with approval of the Council for Teacher Education. A student should obtain information about departmental and academic major requirements from the department of the student's major field.

Maintaining the qualification requirements for admission to teacher education are required for enrollment in the selected major courses and for enrollment in student teaching.

A student will not be assigned to student teaching unless formally admitted to teacher education and all stipulated prerequisites for student teaching are satisfied.

Admission Program

Eligibility for Admission to Teacher Education:

- a. Students, including those who transfer to Illinois State, must be registered in an education major or sequence as identified in this catalog.
- b. Application for admission to teacher education should be made after the completion of 45 hours, at least 12 of which must be graded hours and must be earned at Illinois State University.
- c. Students must meet the grade point average requirements for admission to teacher education described below at the time of admission and must maintain the average for the remainder of the program. A student must have an Illinois State University cumulative grade point average of 2.50 or higher for all undergraduate credit. A student also must have a 2.20 or higher grade point average in courses taken at ISU which fulfill the requirements of the major including all professional education courses when professional education courses are listed separately in the catalog. Students enrolled in the Music, and Speech Pathology and Audiology programs should confer with their departments regarding specific grade point average requirements for admission to teacher education.
- d. A student must demonstrate written communication skills in one of the following ways:
 - (1) The student must have earned a C or higher in English 101 at Illinois State.
 - (2) The student must have earned a C or higher in an equivalent English course taken at another university as approved by Illinois State.
 - (3) The student passes the English proficiency exam given by the Department of English at Illinois State.
- e. A student must demonstrate oral communication skills in one of the following ways:
 - (1) The student must have earned a C or higher in COM 110 at Illinois State.
 - (2) The student must have earned a grade of C or higher in an equivalent Speech course taken at another university as approved by Illinois State.
 - (3) The student passes the speech proficiency exam given by the Department of Communication at Illinois State.
- f. A student must satisfactorily pass a speech check conducted by the Department of Speech Pathology and Audiology.

g. A student must satisfy criteria for departmental approval for admission to teacher education.

Procedures for Admission: Meetings are held during the Fall and Spring Semesters for teacher education majors with 45 or more semester hours for the purpose of completing the application form for admission to teacher education. Students who do not attend these meetings must contact the Office of Clinical Experiences and Certification Processes as soon as they have completed 45 hours. Students should check with the major department regarding specific departmental procedures and requirements for admission to teacher education. Additionally, students may be requested to complete the following:

a. Interviews: All students should be available for interviews upon request.

b. Entrance, Psychological, or Aptitude Exams: Students may be requested to take certain examinations for the purpose of assessing potentiality for teacher preparation and educational careers.

Admission to Teacher Education is a prerequisite for enrollment in certain courses of the program. The prerequisite is listed in this catalog for each of the specified courses, and a complete listing of the courses is available from the Office of Clinical Experiences and Certification Processes. After application forms have been checked, students will receive formal written notification as to their admission or non-acceptance into the program. Students who are denied admission to teacher education or student teaching may file a petition for a hearing. Specific information regarding procedures for a hearing in accordance with the University's *Student Rights and Responsibilities* and with the policies of the Council for Teacher Education may be obtained in the Office of Clinical Experiences and Certification Processes.

Retention Program

In recognition of its responsibility to the schools in which its graduates teach, the University maintains a program of selective retention of candidates for the teaching profession. Thus, the University seeks to avoid recommending a candidate for a student teaching assignment or for certification unless the candidate has good character, sound mental and physical health, academic competence in his or her overall studies, teaching field(s), and professional studies (see the requirements for student teaching).

Approved Teacher Education Programs

The list below includes all undergraduate teacher education programs approved by the State of Illinois and the National Council for Accreditation of Teacher Education (NCATE).

Early Childhood Education (After July 1, 1988, this certificate will extend through Grade 3).

Students who complete one of the programs above and earn a K-12 certificate may teach only in that area. Students

may complete any minor listed for the 6-12 certificate but may not teach in that area until a 6-12 certificate is granted through entitlement or transcript evaluation. Students should confer with their academic advisers when selecting courses in the *minor* area so that such courses may enable them to meet requirements of the Illinois State Board of Education *Document Number 1*. *Document Number 1* minimum requirements need to be satisfied in order to teach in high schools in Illinois.

Special Education (K-12)

Students in Special Education may complete a sequence in any of the following areas: Learning and Behaviorally Disordered, Deaf and Hard of Hearing, Mentally Handicapped-Educable, Mentally Handicapped-Trainable, Physically Handicapped, and Visually Handicapped. To ensure full certification the pattern of preparation should include:

General Education Requirements: The 42 hours of general education requirements include:

- 8 hours of language arts.
- 6 hours of science and/or mathematics.
- 6 hours of social science including a course in American history and/or government.
- 6 hours of humanities.
- 3 hours of health and physical education.
- Additional hours in any of the above fields to total 42 hours.

Specific information regarding the fulfillment of University Studies and State of Illinois General Education requirements should be obtained from the Office of Academic Advisement.

Professional Education and Area of Specialization Requirements: These requirements are described in the Specialized Educational Development section of this Catalog.

All students will complete a minimum of 100 clock hours of approved pre-student teaching clinical experiences in K-12 sites. Students enrolled in the approved Special Education sequences will be assigned to do student teaching in K-12 sites.

Clinical Experiences in Teacher Education

Observation, participation, studies of individual pupils and research, simulated teaching, individual field work, student teaching and practicum are included in the program of clinical experiences. The experiences offered prior to student teaching are usually integral parts of specific college courses. Clinical experiences are provided in off-campus clinical teaching centers, in local schools and in campus laboratory schools, in agencies and other approved non-school settings. The Office of Clinical Experiences and Certification Processes coordinates all placements for clinical experiences. All students will have a minimum of 100 clock hours of approved pre-student teaching experiences prior to assignment of student teaching; students must provide their own transportation to clinical experience sites. Clinical experiences following student teaching include activities in which the student does additional study or has additional experiences as recommended by the instructor, supervising teacher, or college supervisor.

Requirements for Student Teaching

The following requirements for student teaching apply to all students:

The minimum requirement in student teaching is 36 clock hours for each semester hour of credit (5 semester hours — 180 clock hours). More clock hours of clinical work are required in Speech Pathology.

The number of semester hours of student teaching or practicum required varies with the student's curriculum. A student enrolled in an elementary, junior high school, high school, visually handicapped, or speech pathology curriculum is required to earn a minimum of 8 hours of credit in student teaching. Other special education majors complete 16 hours of credit in student teaching. A student enrolled in the Early Childhood Education major is required to take 8 hours of credit in the practicum; a student enrolled in the Early Childhood Education minor may take 5-8 hours of credit in the practicum. A student does student teaching in his or her field of study. A student must meet all eligibility requirements for student teaching in that major field(s). If a student does student teaching in his or her minor field, the student must meet certification requirements for teaching in that field. If a student does all student teaching in the major field or in both the major and minor fields, the total number of semester hours required in student teaching remains the same.

The following requirements must be met prior to participation in student teaching. Students will be removed from the student teaching assignment if at any time these requirements are not met.

1. Approval for student teaching by the Director of Clinical Experiences and Certification Processes (CECP). This approval will include verification of all of the following:
 - a. formal admission to Teacher Education at least one semester prior to the beginning of the student teaching semester;
 - b. successful completion at ISU of at least four semester hours of professional education approved by the appropriate education department and the Director of CECP;
 - c. a minimum of 85 semester hours of college credit earned;
 - d. a minimum cumulative 2.5 GPA for all coursework completed at ISU and a minimum major GPA for all coursework fulfilling major requirements for student teaching. The major GPA will include professional education courses which may be listed separately in the catalog. Required major GPA's vary according to departmental criteria;
 - e. documentation of completion of at least 100 clock hours of approved pre-student teaching clinical experiences;
 - f. have on file in the Office of CECP a negative tuberculosis test statement from the University Student Health Service or other medical agency;
 - g. if requested, a statement from a physician indicating the student is emotionally capable of completing the duties of a certified teacher;
 - h. a written application for student teaching filed in the Office of CECP at least six months prior to the planned student teaching semester;
 - i. satisfactory completion of prerequisite courses to STT 399 (listed under University-Wide Courses) or C&I 253 or 263.
2. Approval for student teaching by the student's major department chairperson or designee. This approval will be based on all of the following:
 - a. content knowledge in the student's major area of study (and minor if a minor is required);
 - b. professional knowledge necessary for performing teaching responsibilities;
 - c. performance during the pre-student teaching clinical experiences;

d. evidence of personality characteristics and interpersonal skills necessary for working with children and youth;

e. completion of all other departmental requirements (see major department for a written statement of any additional requirements.)

Assignment to Student Teaching

The University will assign student teachers to selected schools or clinical centers in Illinois during regular semesters. Student teachers are assigned only to classrooms that have regularly employed full-time and fully qualified teachers. Assignments are not made to a school in which the student teacher is concurrently employed as a teacher. A student teacher may not earn academic credit and receive a salary or an income for the same teaching experience.

Student teaching in special education is for one full semester; all other areas are typically for a half-semester. During this period in the school, the student teacher works with one or more supervising teachers who are responsible for teaching a specific group or groups of pupils. These supervising teachers along with the college supervisors have responsibility for guiding and evaluating the work of the student teacher. During this experience, the student becomes a member of the school staff and of the community in which he or she is working (co-curricular activities and community affairs are a part of the student teaching experience).

The Director of Clinical Experiences, in cooperation with the head of the student's major department, makes the student teaching assignments. The Director of Clinical Experiences is responsible for making the arrangements and establishing the procedures involved in student teaching. Students are not assigned to schools that are in their home communities or in communities in which they are currently residing. Any student who has a prolonged illness or temporary disability and who is unable to continue in his/her student teaching assignment should consult with the Director of the Office of Clinical Experiences. A clearance from a physician will be required stating that the student is again able to continue in his/her student teaching assignment without any contingencies.

The Director of Clinical Experiences, upon the recommendation of the college supervisor or chairperson of the student's major department, may remove a student from the assignment or require a student to do additional work and continue student teaching until the student is sufficiently competent to be recommended for certification. Certification is not an automatic procedure.

Student teaching assignments begin and end on the dates indicated in the student's official notice of assignment. Ordinarily, the student is expected to follow the school calendar of the school in which student teaching is done insofar as vacations and school holidays are concerned. Changes in dates involved in an assignment must receive the prior permission of the Director of Clinical Experiences. Information above may be applied to the Early Childhood Education Practicum. The University will assign Early Childhood Education Practicum students to selected Early Childhood Education sites with qualified personnel. Students enrolled in the major program will enroll in C&I 263 for 8 hours; students enrolled in the minor program will enroll in Student Teaching 399 for 5-8 semester hours of credit. Refer questions about the Practicum to the Office of Clinical Experiences and Certification Processes.

General Information Concerning Music Programs and Courses

Admission Auditions: Students who intend to major in Music at Illinois State University are expected to have previous music experiences. Prior to acceptance as a Music major, all students must pass a performance audition on their major instrument or voice. Information concerning admission auditions is available from the Department of Music.

Senior College Examination: All music majors must pass the senior college examination which evaluates the

student's mastery of musicianship and performance skills, and assesses the probability that the student will successfully complete the degree program within a reasonable period of time. The examination is administered every spring semester and is to be taken by all sophomores. Students who transfer from community colleges must take the examination in their second semester of residence at ISU.

Performing Organization Requirement: All students pursuing a Music major degree program are required to participate and earn a passing grade in a major music-performing organization each semester they are enrolled in the University (B.M.E. majors are exempt from this requirement during the semester of Student Teaching). Specific performing organization participation requirements are indicated below for each of the Music major degree programs. A maximum of 12 hours in music performing organization credit is applicable to any degree.

Enrollment Limitations: Enrollment in some Music Courses is limited to those students who have had auditions or who have secured the permission of the appropriate coordinator. Information concerning these course enrollment limitations is available from the Department of Music.

Musical Instrument Storage: In the event that students choose to store musical instruments on campus in any building operated by the University, they hereby waive any and all liability of the University and its employees for the loss of or damage to such musical instruments by any cause whatsoever, including, but not limited to, fire, water, windstorm, or any other casualty, theft, or dampness or dryness of the air.
